PRESS RELEASE

TPSODL Energises Siriguda Power Infrastructure in Rayagada

- Thousands of Consumers to benefit

Berhampur, April 2026: TP Southern Odisha Distribution Limited (TPSODL) has successfully commissioned 33 KV Siriguda line and Primary Substation (PSS) in Rayagada district, marking a significant step towards strengthening rural power infrastructure. The project, which had faced multiple challenges over the years, has now been operationalised through sustained efforts and strong administrative coordination. This development is set to improve power reliability for thousands of consumers in the Gudari region.

The project, designed to strengthen electricity infrastructure in the Gudari region, will directly benefit residents of Siriguda, Bhurukudu, Gumi, Asada, Bijapur, Garadama, Saramuli, and Hanumantpur Gram Panchayats, along with consumers in Gudari NAC. In total, over 3,500 rural households and 3,000 urban consumers stand to gain from improved power quality and reliability.

Despite being ready earlier, the project faced prolonged delays due to right-of-way (ROW) challenges, infrastructure constraints, and local-level issues. TPSODL, however, remained steadfast in its efforts—engaging continuously with local communities, district administration, and law enforcement agencies to find a sustainable resolution.

The breakthrough came in March 2026, when coordinated administrative action enabled the removal of key obstructions. With swift execution on the ground, the line was successfully charged and the Siriguda PSS made operational, ending years of uncertainty.

This commissioning is expected to transform power supply across more than 120 villages, significantly reducing dependence on a long 120-km feeder line that was earlier prone to frequent outages and voltage fluctuations. Consumers will now experience more stable voltage, fewer disruptions, and faster restoration of supply.

Speaking on the achievement, Mr. Amit Kumar Garg, the CEO of TPSODL said: “This success reflects our unwavering commitment to ensuring reliable power for every consumer, no matter how remote the location. It also highlights the importance of collaboration between communities, administration, and our teams on the ground. At TPSODL, we believe that every challenge can be overcome when the goal is public welfare.”

The project stands as a strong example of how persistence, teamwork, and community engagement can overcome even the most complex challenges. TPSODL continues to work towards building a robust and future-ready power distribution network, ensuring that development reaches every corner of Southern Odisha.

रायगड़ा में बिजली ढांचे को मजबूती, सबस्टेशन शुरू

जागरण संवाददाता, भुवनेश्वर : टीपी साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने रायगड़ा जिले के शिरिगुड़ा में नई 33 केवी लाइन और प्राथमिक सबस्टेशन स्थापित कर ग्रामीण बिजली ढांचे को सुदृढ़ करने की दिशा में महत्वपूर्ण कदम उठाया है। इस पहल से क्षेत्र में बिजली संबंधी समस्याओं का समाधान हुआ है और गुडारी क्षेत्र के हजारों उपभोक्ताओं को सीधा लाभ मिलेगा। गुडारी क्षेत्र में बिजली आपूर्ति को बेहतर बनाने के उद्देश्य से तैयार इस परियोजना से शिरिगुड़ा, भुरुकुडु, गुमी, आसाडा, बिजापुर, गरदामा, सारमुली और हनुमंतपुर ग्राम पंचायतों के साथ-साथ गुडारी एनएसी के उपभोक्ताओं को लाभ मिलेगा। कुल मिलाकर 3,500 से अधिक ग्रामीण परिवार और लगभग

3,000 शहरी उपभोक्ता अब बेहतर और विश्वसनीय बिजली सेवा का लाभ उठा सकेंगे। हालांकि परियोजना पहले से तैयार थी, लेकिन राइट ऑफ वे, आधारभूत ढांचे की बाधाओं और स्थानीय समस्याओं के कारण इसमें देरी हुई। इन चुनौतियों को दूर करने के लिए टीपीएसओडीएल ने स्थानीय समुदाय, जिला प्रशासन और कानून प्रवर्तन एजेंसियों के साथ लगातार समन्वय बनाए रखा। इसके परिणामस्वरूप मार्च 2026 में परियोजना को सफलतापूर्वक पूरा किया गया। नई व्यवस्था के शुरू होने से 120 से अधिक गांवों को गुणवत्तापूर्ण बिजली आपूर्ति मिल सकेगी। इससे बिजली कटौती और लो-वोल्टेज की समस्या में कमी आएगी तथा लंबी फीडर लाइनों पर निर्भरता घटेगी।

रायगड़ा में टीपीएसओडीएल की पहल शिरिगुड़ा पावर प्रोजेक्ट से हजारों को राहत

33 केवी लाइन और सबस्टेशन चालू, 6,500 से अधिक उपभोक्ताओं को स्थिर सप्लाई और कम कटौती का लाभ

भुवनेश्वर। टीपी सदरन ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने रायगड़ा जिले में 33 केवी शिरिगुड़ा लाइन और प्राथमिक सबस्टेशन को सफलतापूर्वक चालू कर ग्रामीण बिजली व्यवस्था को मजबूत करने की दिशा में बड़ा कदम उठाया है। इस परियोजना के शुरू होने से गुडारी क्षेत्र के हजारों उपभोक्ताओं को अब अधिक भरोसेमंद और बेहतर बिजली आपूर्ति मिलेगी। यह परियोजना शिरिगुड़ा, भुरुकुडु, गुमी, असदा, बीजापुर, गरदामा, सरामुली और हनुमंतपुर ग्राम पंचायतों के साथ-साथ गुडारी एनएसी के उपभोक्ताओं को लाभ पहुंचाएगी। कुल मिलाकर, बिजली की गुणवत्ता और विश्वसनीयता में सुधार

से 3,500 से अधिक ग्रामीण परिवारों और 3,000 शहरी उपभोक्ताओं को लाभ होगा। टीपीएसओडीएल ने स्थानीय समुदाय, प्रशासन और पुलिस के साथ समन्वय बनाकर इन समस्याओं का समाधान निकाला और परियोजना को सफल बनाया।

इस प्रोजेक्ट से 120 से अधिक गांवों में बिजली आपूर्ति में सुधार होगा। पहले लोग 120 किलोमीटर लंबी फीडर लाइन पर निर्भर थे, जिससे बार-बार बिजली कटौती और वोल्टेज की समस्या होती थी। अब उन्हें मिलेगा स्थिर वोल्टेज, कम कटौती और तेज बिजली

बहाली। यह परियोजना दिखाती है कि लगातार प्रयास और बेहतर समन्वय से बड़ी चुनौतियों को पार किया जा सकता है। टीपीएसओडीएल का यह कदम दक्षिण ओडिशा में मजबूत और भविष्य के लिए तैयार बिजली नेटवर्क बनाने की दिशा में अहम साबित होगा। टीपीएसओडीएल के सीईओ अमित कुमार गर्ग ने कहा हम हर उपभोक्ता तक विश्वसनीय बिजली पहुंचाने के लिए प्रतिबद्ध हैं, चाहे वह कितना भी दूर क्यों न हो। यह सफलता टीमवर्क, प्रशासनिक सहयोग और जनभागीदारी का परिणाम है।

TPSODL Energises Siriguda Power Infrastructure in Rayagada

April 02 23:03 2025

by Indubrata | Print This Article | Share it With Friends

By Prakash Panigrahi

Berhampur, April 2 : TP Southern Odisha Distribution Limited (TPSODL) has successfully commissioned 33 KV Siriguda line and Primary Substation (PSS) in Rayagada district, marking a significant step towards strengthening rural power infrastructure. The project, which had faced multiple challenges over the years, has now been operationalised through sustained efforts and strong administrative coordination. This development is set to improve power reliability for thousands of consumers in the Gudari region.

The project, designed to strengthen electricity infrastructure in the Gudari region, will directly benefit residents of Siriguda, Bhurukudu, Gumi, Asada, Bijapur, Garadama, Saramuli and Hanumanpur Gram Panchayats, along with consumers in Gudari NAC. In total, over 3,500 rural households and 3,000 urban consumers stand to gain from improved power quality and reliability.

Despite being ready earlier, the project faced prolonged delays due to right-of-way (ROW) challenges, infrastructure constraints, and local-level issues. TPSODL, however, remained steadfast in its efforts—engaging continuously with local communities, district administration, and law enforcement agencies to find a sustainable resolution.

The breakthrough came in March 2026, when coordinated administrative action enabled the removal of key obstructions. With swift execution on the ground, the line was successfully charged and the Siriguda PSS made operational, ending years of uncertainty.

This commissioning is expected to transform power supply across more than 120 villages, significantly reducing dependence on a long 120-km feeder line that was earlier prone to frequent outages and voltage fluctuations. Consumers will now experience more stable voltage, fewer disruptions, and faster restoration of supply.

Speaking on the achievement, Mr. Anil Kumar Garg, the CEO of TPSODL said: "This success reflects our unwavering commitment to ensuring reliable power for every consumer, no matter how remote the location. It also highlights the importance of collaboration between communities, administration, and our teams on the ground. At TPSODL, we believe that every challenge can be overcome when the goal is public welfare."

The project stands as a strong example of how persistence, teamwork, and community engagement can overcome even the most complex challenges. TPSODL continues to work towards building a robust and future-ready power distribution network, ensuring that development reaches every corner of Southern Odisha.

Paperman Media (Berhampur)- TP Southern Odisha Distribution Limited (TPSODL) has successfully commissioned 33 KV Siriguda line and Primary Substation (PSS) in Rayagada district, marking a significant step towards strengthening rural power infrastructure. The project, which had faced multiple challenges over the years, has now been operationalised through sustained efforts and strong administrative coordination. This development is set to improve power reliability for thousands of consumers in the Gudari region.

The project, designed to strengthen electricity infrastructure in the Gudari region, will directly benefit residents of Siriguda, Bhurukudu, Gumi, Asada, Bijapur, Garadama, Saramuli, and Hanumantpur Gram Panchayats, along with consumers in Gudari NAC. In total, over 3,500 rural households and 3,000 urban consumers stand to gain from improved power quality and reliability.

Despite being ready earlier, the project faced prolonged delays due to right-of-way (ROW) challenges, infrastructure constraints, and local-level issues. TPSODL, however, remained steadfast in its efforts—engaging continuously with local communities, district administration, and law enforcement agencies to find a sustainable resolution.

The breakthrough came in March 2026, when coordinated administrative action enabled the removal of key obstructions. With swift execution on the ground, the line was successfully charged and the Siriguda PSS made operational, ending years of uncertainty.

This commissioning is expected to transform power supply across more than 120 villages, significantly reducing dependence on a long 120-km feeder line that was earlier prone to frequent outages and voltage fluctuations. Consumers will now experience more stable voltage, fewer disruptions, and faster restoration of supply.

Speaking on the achievement, Mr. Amit Kumar Garg, the CEO of TPSODL said: "This success reflects our unwavering commitment to ensuring reliable power for every consumer, no matter how remote the location. It also highlights the importance of collaboration between communities, administration, and our teams on the ground. At TPSODL, we believe that every challenge can be overcome when the goal is public welfare."

The project stands as a strong example of how persistence, teamwork, and community engagement can overcome even the most complex challenges. TPSODL continues to work towards building a robust and future-ready power distribution network, ensuring that development reaches every corner of Southern Odisha.

April 3, 2026

Berhampur, April 2026: TP Southern Odisha Distribution Limited (TPSODL) has successfully commissioned 33 KV Siriguda line and Primary Substation (PSS) in Rayagada district, marking a significant step towards strengthening rural power infrastructure. The project, which had faced multiple challenges over the years, has now been operationalised through sustained efforts and strong administrative coordination. This development is set to improve power reliability for thousands of consumers in the Gudari region.

The project, designed to strengthen electricity infrastructure in the Gudari region, will directly benefit residents of Siriguda, Bhurukudu, Gumi, Asada, Bijapur, Garadama, Saramuli, and Hanumantpur Gram Panchayats, along with consumers in Gudari NAC. In total, over 3,500 rural households and 3,000 urban consumers stand to gain from improved power quality and reliability.

Despite being ready earlier, the project faced prolonged delays due to right-of-way (ROW) challenges, infrastructure constraints, and local-level issues. TPSODL, however, remained steadfast in its efforts—engaging continuously with local communities, district administration, and law enforcement agencies to find a sustainable resolution.

The breakthrough came in March 2026, when coordinated administrative action enabled the removal of key obstructions. With swift execution on the ground, the line was successfully charged and the Siriguda PSS made operational, ending years of uncertainty.

This commissioning is expected to transform power supply across more than 120 villages, significantly reducing dependence on a long 120-km feeder line that was earlier prone to frequent outages and voltage fluctuations. Consumers will now experience more stable voltage, fewer disruptions, and faster restoration of supply.

Speaking on the achievement, Mr. Amit Kumar Garg, the CEO of TPSODL said: "This success reflects our unwavering commitment to ensuring reliable power for every consumer, no matter how remote the location. It also highlights the importance of collaboration between communities, administration, and our teams on the ground. At TPSODL, we believe that every challenge can be overcome when the goal is public welfare."

The project stands as a strong example of how persistence, teamwork, and community engagement can overcome even the most complex challenges. TPSODL continues to work towards building a robust and future-ready power distribution network, ensuring that development reaches every corner of Southern Odisha.

PRESS RELEASE

TPSODL Felicitates Students and Empowers Women Through Scholarships and Skill Development Initiatives

Berhampur, April 2026: Reinforcing its commitment to community development and youth empowerment, TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has felicitated 30 meritorious students from across Southern Odisha by awarding scholarships to support their academic journey. The initiative reflects the company's continued focus on nurturing future-ready talent, particularly among economically weaker and underprivileged sections of society.

The selected students are currently pursuing Diploma and ITI courses in different Govt. Polytechnic & ITI Colleges. Under this scholarship initiative TPSODL receives 80 applications across southern odisha. Among them 30 students were chosen through a structured selection process based on defined eligibility criteria and thorough scrutiny. The scholarship aims to ease financial constraints and encourage students to pursue technical education with confidence.

TPSODL also recognized 33 women from Self-Help Groups (SHGs) who successfully completed a tailoring training program at the company's Anokha Dhaga Centre. The participants were awarded certificates, marking their readiness to pursue livelihood opportunities independently and contribute to their families' economic well-being.

Speaking on the occasion, Mr. Amit Kumar Garg, CEO, TPSODL, said; "We are undertaking multiple initiatives through our CSR programs. Under this scholarship initiative, we feel proud that students are benefitting meaningfully. The selected students represent the future of India, and I congratulate each one of them. We remain committed to serving our communities, especially at the last mile. Through initiatives like tailoring training, we are also creating employment opportunities and aiming to empower women."

Mr. Sunil Singh, Director, TPSODL, said; "I congratulate all the students. You are at a young and important stage of life. In today's digital era, there are many distractions, but your

dedication has brought you here. Your first priority should be your health, followed by your education. We are proud to serve the community and support your aspirations.”

Among the beneficiaries, Debanshu Panda (20), a second-year ITI student in the electrician trade at Berhampur Government ITI, shared his experience; “I lost my parents during COVID. I am currently pursuing ITI, and this scholarship will support my education. Thank you, TPSODL.”

Through such initiatives, TPSODL continues to demonstrate its dedication to inclusive growth by investing in education, skill development, and women empowerment. The company’s CSR efforts aim to create sustainable impact by enabling individuals to become self-reliant and contribute positively to society.

TPSODL provides scholarship to students, skill training to women

STATESMAN NEWS SERVICE
Berhampur, 8 April:
 TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has felicitated 30 meritorious students from across southern Odisha by awarding scholarships to support their academic journey.

The selected students are currently pursuing Diploma

and ITI courses in different Govt. Polytechnic & ITI Colleges. Under this scholarship initiative, TPSODL receives 80 applications. Among them 30 students were chosen through a structured selection process.

TPSODL also recognized 33 women from Self-Help Groups (SHGs) who successfully completed a tailoring training program at the company's

Anokha Dhaga Centre. Mr. Amit Kumar Garg, CEO, TPSODL, said, "under this scholarship initiative, we feel proud that students are benefitting meaningfully. Through initiatives like tailoring training, we are also creating employment opportunities and aiming to empower women." Mr. Sunil Singh, Director, TPSODL, congratulated the students.

TPSODL steps up for scholarship and skill development

Berhampur (correspondent): TP Southern Odisha Distribution Limited (TPSODL), a joint venture between Tata Power and the Government of Odisha, has reiterated its commitment towards the welfare of the community and empowering the youth. In this regard, 30 meritorious students of South Odisha have been awarded scholarships, which will be of great help to them in their educational journey. This step taken by the company shows its commitment towards developing a future-ready talent and

empowering the economically and marginalized sections. All the students selected for the scholarship are studying in various disciplines of Diploma and ITI courses in various Government polytechnics and industrial training institutes (ITIs). Out of the 80 applications received under this scholarship initiative, 30 students were selected by TPSODL through various processes. The main objective of providing this scholarship is to financially empower and encourage students studying technology.

TPSODL has awarded certificates to 33 women from Self Help Groups (SHGs) who have completed sewing training at TPSODL's Anokha Dhaga Centre. This training will be particularly helpful in making them self-reliant and financially empowered. Speaking on the occasion, Amit Kumar Garg, Chief Executive Officer, TPSODL said, "We are taking many initiatives through our CSR programs,

Through this scholarship initiative, students are benefiting in a meaningful way. The selected students are the future of our country. I congratulate each and every one of them.

Sunil Singh, Director, TPSODL said, "I congratulate each and every student who has been awarded the scholarship. Devanshu Panda (20), a second year student of Electrician Department at Government Industrial Institute, Berhampur, who received the scholarship, said, "Lost my father and mother during the COVID

period. This scholarship will be of great help to me in my current studies. Thank you, TPSODL." Through such initiatives, TPSODL continues to demonstrate its dedication towards inclusive development by investing in education, skill development and women empowerment. The efforts undertaken by the company's CSR department aim to create a lasting impact by empowering everyone to become self-reliant and make a positive contribution to society.

तकनीकी शिक्षा को बढ़ावा, 30 मेधावी छात्रवृत्ति के लिए चयनित

जगरण संवाददाता, भुवनेश्वर : समुदाय विकास और युवा सशक्तिकरण को दिशा में अग्रिम पहल करते हुए टाटा पावर साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने दक्षिण ओडिशा के 30 मेधावी छात्रों को छात्रवृत्ति प्रदान कर सम्मानित किया। यह पहल आर्थिक रूप से कमजोर वर्ग के छात्रों को तकनीकी शिक्षा के लिए प्रोत्साहित करने को दिशा में कंपनी के प्रयासों को दर्शाती है।

जानकारी के अनुसार, चयनित छात्र विभिन्न सरकारी पॉलिटेक्निक और आईटीआई संस्थानों में डिप्लोमा और आईटीआई कार्यक्रम कर रहे हैं। इस योजना के लिए कंपनी को कुल 80 आवेदन प्राप्त हुए थे, जिनमें से निर्धारित मानदंडों

टीपीएसओडीएल ने 30 मेधावी छात्रों को दी छात्रवृत्ति और जॉब प्रक्रिया के बाद 30 छात्रों का चयन किया गया। इस छात्रवृत्ति का उद्देश्य छात्रों की आर्थिक

सहायता समूह (एसएचजी) की 33 महिलाओं को भी सम्मानित किया, जिनमें 'अनोखा धागा' केंद्र में मिलाने प्रशिक्षण सफलतापूर्वक पूरा किया। सभी महिलाओं को प्रमाणपत्र प्रदान किए गए, जिससे वे स्वरोजगार के लिए तैयार हो सकें। कार्यक्रम में कंपनी के सीईओ अमित कुमार गर्ग ने कहा कि चयनित छात्र देश का भविष्य हैं और कंपनी उन्हें आगे बढ़ने में हर संभव सहयोग देगी। वहीं, निदेशक सुनील सिंह ने छात्रों को अनुशासन, स्वास्थ्य और शिक्षा को प्राथमिकता देने की सलाह दी। इस पहल से शिक्षा, कौशल विकास और महिला सशक्तिकरण को बढ़ावा मिल रहा है, जो समाज में सकारात्मक बदलाव की दिशा में एक महत्वपूर्ण कदम है।

TPSODL awards scholarships to 30 students, empowers women through skill training

Published By : Chitraya Debury | April 9, 2024 5:26 PM

Berhampur, April 9: Reinforcing its commitment to community development and youth empowerment, TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has felicitated 30 meritorious students from across Southern Odisha by awarding scholarships to support their academic journey.

This initiative reflects the company's continued focus on nurturing future-ready talent, particularly among economically weaker and underprivileged sections of society.

The selected students are currently pursuing Diploma and ITI courses in different Govt. Polytechnic & ITI Colleges. Under this scholarship initiative TPSODL received 80 applications across southern odisha. Among them 30 students were chosen through a structured selection process based on defined eligibility criteria and through scrutiny. The scholarship aims to ease financial constraints and encourage students to pursue technical education with confidence.

TPSODL also recognized 33 women from Self-Help Groups (SHGs) who successfully completed a tailoring training program at the company's Anokha Dhaga Centre. The participants were awarded certificates, marking their readiness to pursue livelihood opportunities independently and contribute to their families' economic well-being.

Speaking on the occasion, Amit Kumar Garg, CEO, TPSODL, said, "We are undertaking multiple initiatives through our CSR programs. Under this scholarship initiative, we feel proud that students are benefiting meaningfully. The selected students represent the future of India, and I congratulate each one of them. We remain committed to serving our communities, especially at the last mile. Through initiatives like tailoring training, we are also creating employment opportunities and aiming to empower women."

Sunil Singh, Director, TPSODL, said, "I congratulate all the students. You are at a young and important stage of life. In today's digital era, there are many distractions, but your dedication has brought you here. Your first priority should be your health, followed by your education. We are proud to serve the community and support your aspirations."

Among the beneficiaries, Debanshu Panda (20), a second-year ITI student in the electrician trade at Berhampur Government ITI, shared his experience, "I lost my parents during COVID. I am currently pursuing ITI, and this scholarship will support my education. Thank you, TPSODL."

Through such initiatives, TPSODL continues to demonstrate its dedication to inclusive growth by investing in education, skill development, and women empowerment. The company's CSR efforts aim to create sustainable impact by enabling individuals to become self-reliant and contribute positively to society.

Reinforcing its commitment to inclusive community development and youth empowerment, TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has felicitated 30 meritorious students from across Southern Odisha with scholarships to support their academic pursuits. The initiative underscores the company's sustained focus on nurturing future-ready talent, particularly among students from economically weaker and underprivileged backgrounds.

The beneficiaries are currently pursuing Diploma and ITI courses at various Government Polytechnic and ITI institutions across the region. TPSODL received around 80 applications under the scholarship programme, out of which 30 students were selected through a structured evaluation process based on defined eligibility criteria and rigorous scrutiny. The financial assistance is aimed at easing economic challenges and enabling students to pursue technical education with confidence and continuity.

In another significant step towards strengthening livelihoods, TPSODL felicitated 33 women from Self-Help Groups (SHGs) who successfully completed a tailoring training programme at the company's Anokha Dhaga Centre. The participants were awarded certificates, equipping them with skills to pursue self-employment opportunities and contribute to their families' economic well-being.

Speaking on the occasion, TPSODL CEO Amit Kumar Garg said that the company continues to undertake multiple initiatives through its CSR programmes to create meaningful impact at the grassroots level. He noted that the scholarship initiative reflects TPSODL's pride in supporting talented students who represent the future of the nation. He further highlighted that skill-based initiatives such as tailoring training are helping generate employment opportunities and empowering women to become financially independent.

TPSODL Director Sunil Singh congratulated the students and encouraged them to remain focused on their goals. He emphasised that while the digital era brings numerous distractions, dedication and discipline are key to success. He advised students to prioritise their health along with education, reaffirming the company's commitment to supporting their aspirations.

Among the beneficiaries, Debanshu Panda, a second-year ITI student in the electrician trade at Berhampur Government ITI, shared that he lost his parents during the COVID pandemic and is currently pursuing his studies with determination. He expressed gratitude to TPSODL for the scholarship support, which will help him pursue his education without financial stress.

Through such initiatives, TPSODL continues to demonstrate its dedication to sustainable and inclusive growth by investing in education, skill development, and women empowerment. The company's CSR efforts aim to create long-term social impact by enabling individuals to become self-reliant and contribute meaningfully to society.

PRESS RELEASE

TPSODL Upgrades Rayagada Power Network, Benefits 8,000 Consumers

Berhampur, April, 2026: TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has further strengthened power infrastructure in Rayagada with the commissioning of a new 33/11kV, 12.5/16 MVA power transformer at the Auto Nagar Power Sub-Station (PSS). This initiative is part of TPSODL's continued efforts to provide reliable, stable, and future-ready electricity to consumers across Southern Odisha.

Rayagada holds strategic importance in the region as a fast-growing district headquarters with a mix of urban settlements, government establishments, and emerging commercial activity. It also serves as a key administrative and connectivity hub for nearby tribal and rural areas. Ensuring a robust and dependable power supply here is critical for governance, public services, local businesses, and overall socio-economic development.

Addressing the increasing power demand in the city, TPSODL has successfully commissioned a 33/11kV, 12.5/16 MVA Power Transformer at the Auto Nagar PSS. The upgrade directly tackles recurring overload issues in the existing system and significantly enhances the capacity and reliability of electricity supply.

The newly installed transformer now supports the 11KV Town-3 feeder, benefiting nearly 8,000 consumers, including households, government offices, and key district administration facilities. With improved load distribution among transformers and the addition of new 33KV and 11KV bays, the pressure on older infrastructure has been reduced, leading to smoother and more efficient operations.

To further ensure uninterrupted power supply, TPSODL has also installed a 33KV Ring Main Unit (RMU) at the substation. This advanced system enables dual-source power supply, ensuring continuity even during feeder faults or emergency situations.

This development marks a significant milestone in modernizing Rayagada's power network. Consumers can now expect fewer outages, improved voltage stability, and better overall service quality, which will support the city's future growth and development.

Speaking on the occasion, the CEO of TPSODL said - "At TPSODL, we are committed to strengthening power infrastructure across Southern Odisha. The commissioning of this new transformer at Auto Nagar PSS is a step towards ensuring reliable and uninterrupted power supply. This will greatly benefit the people of Rayagada and support the district's growing energy needs."

TPSODL remains dedicated to enhancing customer satisfaction through continuous infrastructure upgrades and ensuring quality power supply for all.

TPSODL strengthens power network to meet rising demand in Rayagada

PBD BUREAU

BERHAMPUR, APR 11

TP Southern Odisha Distribution Limited has upgraded power infrastructure in Rayagada to meet rising electricity demand with the commissioning of a new 33/11kV, 12.5/16 MVA transformer at the Auto Nagar Power Sub-Station, a company official said.

Rayagada, a fast-growing district headquarters with urban settlements, government establishments and expanding commercial activity, serves as a key administrative and connectivity hub for nearby tribal and rural areas.

The newly commissioned transformer addresses recurring overload issues in the existing system and enhances capacity and reliability of electricity supply.

The transformer supports the 11kV Town-3 feeder, benefiting nearly 8,000 consumers, including households, government offices and

key district administration facilities.

Improved load distribution and the addition of new 33kV and 11kV bays have reduced pressure on existing infrastructure, enabling smoother operations.

To ensure uninterrupted supply, a 33kV Ring Main Unit (RMU) has also been installed at the substation, enabling dual-source power supply during feeder faults or emergencies.

"This will greatly benefit the people of Rayagada and support the district's growing energy needs," the company's CEO said.

The initiative is part of TPSODL's ongoing efforts to strengthen power infrastructure and improve service quality across southern Odisha.

रायगड़ा में बिजली व्यवस्था मजबूत, आठ हजार उपभोक्ताओं को राहत

जासं, भुवनेश्वर : टाटा पावर सादर ऑडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएस ओडीएल) ने रायगड़ा के ऑटो नगर पावर सब-स्टेशन में नया 33/11 केवी, 12.5/16 एमवीए ट्रांसफॉर्मर चालू कर बिजली नेटवर्क को सुदृढ़ किया है। इस कदम से शहर के करीब 8 हजार उपभोक्ताओं को बेहतर और निर्बाध बिजली आपूर्ति का लाभ मिलेगा।

रायगड़ा जिले में तेजी से बढ़ती बिजली मांग को देखते हुए यह पहल की गई है। नया ट्रांसफॉर्मर लगने से पहले सिस्टम पर ओवरलोड की समस्या बनी रहती थी, जिससे बार-बार बिजली बाधित होती थी। अब इस समस्या से काफी हद तक राहत मिलने की उम्मीद है। टीपीएसओडीएल के अनुसार, नया ट्रांसफॉर्मर 11 केवी टाउन-3 फीडर को सपोर्ट करेगा, जिससे करीब 8 हजार उपभोक्ताओं के साथ-साथ सरकारी कार्यालयों और जिला प्रशासन को सेवाएं

रायगड़ा में बिजली व्यवस्था दुरुस्त करने के बाद खुशी का इजहार करते टाटा पावर के कर्मी।

भी सुचारू रूप से संचालित हो सकेंगी। इसके अलावा, नए 33 केवी और 11 केवी बें जोड़े जाने से पुराने सिस्टम पर दबाव कम हुआ है। बिजली आपूर्ति को और अधिक भरोसेमंद बनाने के लिए सब-स्टेशन में 33 केवी रिंग मेन यूनिट भी स्थापित की गई है।

इससे किसी फॉल्ट या आपात स्थिति में वैकल्पिक स्रोत से बिजली आपूर्ति जारी रखी जा सकेगी। टाटा पावर के सॉल्यूशंस ने कहा कि दक्षिण

ओडिशा में बिजली व्यवस्था को मजबूत करने के लिए लगातार काम किया जा रहा है। यह नया ट्रांसफॉर्मर रायगड़ा के विकास और बढ़ती जरूरतों को पूरा करने में अहम भूमिका निभाएगा।

इस परियोजना से उपभोक्ताओं को अब कम बिजली कटौती, बेहतर वोल्टेज और उच्च गुणवत्ता की सेवा मिलने की उम्मीद है, जिससे शहर के विकास को भी गति मिलेगी।

टीपीएस ओडीएल ने बढ़ाई क्षमता, रायगड़ा में खत्म होगी ओवरलोड की समस्या

टीपी साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने रायगड़ा में बिजली ढांचे को और मजबूत करते हुए आँटो नगर पावर सब-स्टेशन (पीएसएस) में 33/11 केवी, 12.5/16 एमवीए का नया पावर ट्रांसफॉर्मर सफलतापूर्वक शुरू किया है। यह कदम दक्षिण ओडिशा में उपभोक्ताओं को भरोसेमंद और स्थिर बिजली आपूर्ति देने के प्रयासों का हिस्सा है। रायगड़ा एक तेजी से विकसित हो रहा जिला मुख्यालय है, जहाँ शहरी बस्तियाँ, सरकारी संस्थानों और व्यावसायिक गतिविधियों का विस्तार हो रहा है। ऐसे में यहाँ मजबूत बिजली आपूर्ति व्यवस्था बेहद जरूरी है। बढ़ती बिजली मांग को देखते हुए लगाए गए इस नए ट्रांसफॉर्मर से मौजूदा ओवरलोड की समस्या दूर होगी और सप्लाई की क्षमता व विश्वसनीयता में बड़ा सुधार आएगा। इससे 11 केवी टाउन-3

फीडर से जुड़े करीब 8,000 उपभोक्ताओं—घरों, सरकारी दफ्तरों और प्रशासनिक इकाइयों—को सीधा लाभ मिलेगा। इसके अलावा, टीपीएसओडीएल ने सब-स्टेशन पर 33 केवी रिंग मेन यूनिट (आरएमयू) भी स्थापित की है, जिससे आपात स्थिति या फॉल्ट के दौरान भी निर्बाध बिजली आपूर्ति सुनिश्चित की जा सकेगी। इस पहल से रायगड़ा में बिजली कटौती कम होने, वोल्टेज स्थिर रहने और सेवा की गुणवत्ता बेहतर होने की उम्मीद है, जो जिले के भविष्य के विकास को गति देगी। टीपीएसओडीएल के सीईओ ने कहा, 'हम दक्षिण ओडिशा में बिजली ढांचे को मजबूत करने के लिए प्रतिबद्ध हैं। यह नया ट्रांसफॉर्मर रायगड़ा के लोगों को विश्वसनीय और निर्बाध बिजली आपूर्ति सुनिश्चित करेगा और बढ़ती ऊर्जा जरूरतों को पूरा करने में मदद करेगा।

THEBUSINESSBYTES BUREAU
 Bhubaneswar, April 10, 2024
 TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has further reinforced the power infrastructure in Rayagada with the commissioning of a new 33/11kV, 12.5/16 MVA power transformer at the Auto Nagar Power Sub-Station (PSS). This initiative forms part of TPSODL's sustained efforts to deliver reliable, stable and future-ready electricity services to consumers across Southern Odisha.
 Rayagada holds strategic significance as a rapidly developing district headquarters, characterized by a blend of urban settlements, government institutions and expanding commercial activity. The district also functions as an important administrative and connectivity hub for nearby tribal and rural regions. Ensuring a strong and dependable power network is therefore vital for governance, public services, local enterprises and overall socio-economic progress.

To address the growing power demand in the city, TPSODL has successfully commissioned the 33/11kV, 12.5/16 MVA power transformer at the Auto Nagar PSS. The upgrade effectively resolves recurring overload challenges in the existing system while substantially improving the capacity and reliability of electricity supply.
 The newly installed transformer supports the 11kV Town-3 feeder, benefiting nearly 8,000 consumers, including households, government offices and key district administration facilities. With improved load sharing among transformers and the addition of new 33kV and 11kV bays, the burden on aging infrastructure has been significantly reduced, resulting in smoother and more efficient power distribution.
 To further enhance supply continuity, TPSODL has installed a 33kV Ring Main Unit (RMU) at the substation. This advanced system facilitates dual-source power supply, ensuring uninterrupted electricity even during feeder faults or emergency situations.
 The development marks an important milestone in modernising Rayagada's power network. Consumers are expected to experience fewer outages, improved voltage stability and enhanced service quality, supporting the district's future growth and development.
 Speaking on the occasion, TPSODL CEO Amit Kumar Garg said, "At TPSODL, we are committed to strengthening power infrastructure across Southern Odisha. The commissioning of this new transformer at Auto Nagar PSS is a step towards ensuring reliable and uninterrupted power supply. This will greatly benefit the people of Rayagada and support the district's growing energy needs."

TPSODL upgrades Rayagada power network, benefits 8,000 consumers

Posted by AN News Service | Apr 10, 2024 | Business

Bhubaneswar: TP Southern Odisha Distribution Limited (TPSODL) has further strengthened power infrastructure in Rayagada with the commissioning of a new 33/11kV, 12.5/16 MVA power transformer at the Auto Nagar Power Sub-Station (PSS). This initiative is part of TPSODL's continued efforts to provide reliable, stable, and future-ready electricity to consumers across Southern Odisha.

The upgrade commissioning of a 33/11kV, 12.5/16 MVA Power Transformer at the Auto Nagar PSS will directly tackle recurring overload issues in the existing system and significantly enhance the capacity and reliability of electricity supply. The newly installed transformer now supports the 11kV Town-3 feeder, benefiting nearly 8,000 consumers, including households, government offices, and key district administration facilities. With improved load distribution among transformers and the addition of new 33kV and 11kV bays, the pressure on older infrastructure has been reduced, leading to smoother and more efficient operations.

To further ensure uninterrupted power supply, TPSODL has also installed a 33kV Ring Main Unit (RMU) at the substation. This advanced system enables dual-source power supply, ensuring continuity even during feeder faults or emergency situations. Consumers can now expect fewer outages, improved voltage stability, and better overall service quality, which will support the city's future growth and development.

TPSODL CEO Amit Kumar Garg said, "The commissioning of this new transformer at Auto Nagar PSS is a step towards ensuring reliable and uninterrupted power supply. This will greatly benefit the people of Rayagada and support the district's growing energy needs."

TPSODL upgrades Rayagada power network, benefits 8,000 consumers

Berhampur(10/04/2026): TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has further strengthened power infrastructure in Rayagada with the commissioning of a new 33/11kV, 12.5/16 MVA power transformer at the Auto Nagar Power Sub-Station (PSS).

This initiative is part of TPSODL's continued efforts to provide reliable, stable, and future-ready electricity to consumers across Southern Odisha. Rayagada holds strategic importance in the region as a fast-growing district headquarters with a mix of urban settlements, government establishments, and emerging commercial activity.

It also serves as a key administrative and connectivity

hub for nearby tribal and rural areas. Ensuring a robust and dependable power supply here is critical for governance, public services, local businesses, and overall socio-economic development.

Addressing the increasing power demand in the city, TPSODL has successfully commissioned a 33/11kV, 12.5/16 MVA Power Transformer at the Auto Nagar PSS. The upgrade directly tackles recurring overload issues in the existing system and significantly enhances the capacity and reliability of electricity supply.

The newly installed transformer now supports the 11KV Town-3 feeder, benefiting nearly 8,000 consumers, including households, government offices, and key district administration facilities. With improved load distribution among transformers and the addition of new 33KV and 11KV bays, the pressure on older infrastructure has been reduced, leading to smoother and more efficient operations.

To further ensure uninterrupted power supply, TPSODL has also installed a 33KV Ring Main Unit (RMU) at the substation. This advanced system enables dual-source power supply, ensuring continuity even during feeder faults or emergency situations.

This development marks a significant milestone in modernizing Rayagada's power network. Consumers can now expect fewer outages, improved voltage stability, and better overall service quality, which will support the city's future growth and development.

Speaking on the occasion, the CEO of TPSODL said – "At TPSODL, we are committed to strengthening power infrastructure across Southern Odisha. The commissioning of this new transformer at Auto Nagar PSS is a step towards ensuring reliable and uninterrupted power supply. This will greatly benefit the people of Rayagada and support the district's growing energy needs."

TPSODL remains dedicated to enhancing customer satisfaction through continuous infrastructure upgrades and ensuring quality power supply for all.

This will greatly benefit the people of Rayagada and support the district's growing energy needs. TPSODL remains dedicated to enhancing customer satisfaction through continuous infrastructure upgrades and ensuring quality power supply for all.

Berhampur, April, 2026: TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has further strengthened power infrastructure in Rayagada with the commissioning of a new 33/11kV, 12.5/16 MVA power transformer at the Auto Nagar Power Sub-Station (PSS). This initiative is part of TPSODL's continued efforts to provide reliable, stable, and future-ready electricity to consumers across Southern Odisha.

Rayagada holds strategic importance in the region as a fast-growing district headquarters with a mix of urban settlements, government establishments, and emerging commercial activity. It also serves as a key administrative and connectivity hub for nearby tribal and rural areas. Ensuring a robust and dependable power supply here is critical for governance, public services, local businesses, and overall socio-economic development.

Addressing the increasing power demand in the city, TPSODL has successfully commissioned a 33/11kV, 12.5/16 MVA Power Transformer at the Auto Nagar PSS. The upgrade directly tackles recurring overload issues in the existing system and significantly enhances the capacity and reliability of electricity supply.

The newly installed transformer now supports the 11KV Town-3 feeder, benefiting nearly 8,000 consumers, including households, government offices, and key district administration facilities. With improved load distribution among transformers and the addition of new 33KV and 11KV bays, the pressure on older infrastructure has been reduced, leading to smoother and more efficient operations.

To further ensure uninterrupted power supply, TPSODL has also installed a 33KV Ring Main Unit (RMU) at the substation. This advanced system enables dual-source power supply, ensuring continuity even during feeder faults or emergency situations.

This development marks a significant milestone in modernizing Rayagada's power network. Consumers can now expect fewer outages, improved voltage stability, and better overall service quality, which will support the city's future growth and development.

Speaking on the occasion, the CEO of TPSODL said – "At TPSODL, we are committed to strengthening power infrastructure across Southern Odisha. The commissioning of this new transformer at Auto Nagar PSS is a step towards ensuring reliable and uninterrupted power supply. This will greatly benefit the people of Rayagada and support the district's growing energy needs." TPSODL remains dedicated to enhancing customer satisfaction through continuous infrastructure upgrades and ensuring quality power supply for

PRESS RELEASE

Healthcare at the Doorstep: TPSODL Mobile Health Dispensaries Transform Lives Across Tribal Odisha

- Healthcare reaching remote tribal villages
- Free medicines and doorstep care
- 3.23 lakh beneficiaries served
- Mega camps with diagnostics support

Berhampur, 15th April, 2026: In a significant step towards bridging healthcare gaps in remote regions, Mobile Health Dispensaries (MHDs) of TP Southern Odisha Distribution Limited (TPSODL) are bringing essential medical services closer to communities in the tribal heartlands of Koraput, Malkangiri, Kandhamal, and Rayagada districts of Odisha. Reaching some of the most inaccessible terrains, the initiative is ensuring that quality healthcare is no longer a distant reality for thousands of vulnerable families.

Equipped with a dedicated team comprising an MBBS doctor, nurse, pharmacist, and mobiliser, the MHDs provide free consultations, medicines, and doorstep medical camps. The initiative has already made a substantial impact, covering 3,23,675 beneficiaries across the four districts, reflecting its scale and effectiveness in addressing rural healthcare needs.

The outreach has been particularly significant in deeply tribal pockets, with 1,01,777 beneficiaries in Koraput, 1,06,155 in Malkangiri, 53,157 in Rayagada, and 62,586 in Kandhamal —demonstrating both scale and sustained community trust.

Further strengthening grassroots healthcare delivery, the initiative has conducted 1,213 health check-up camps, 843 awareness sessions, and 67 special health camps, focusing on preventive healthcare, early diagnosis, and behavioural awareness around hygiene, sanitation, and nutrition.

A key highlight has been the organisation of six Mega Health Camps across the four districts, bringing specialised healthcare services to remote villages including Tallu and Chikima (Koraput), Badadural and Mudulipoda in the Bonda Khati region (Malkangiri), Srirampur (Kandhamal), and G. Dephaguda (Rayagada).

These camps collectively benefited 1,437 individuals in Koraput, 1,316 in Malkangiri, 1,750 in Kandhamal, and 694 in Rayagada, taking the total outreach under Mega Health Camps to 5,197 beneficiaries.

The health camps offered a comprehensive range of medical facilities designed to address both immediate and preventive healthcare needs. These included general physician consultations, dental check-ups, eye examinations, maternal and elderly care services, and screening for common illnesses. In addition, beneficiaries received free medicines, while on-the-spot diagnostic services—such as basic blood tests and health screenings—were provided through the Lab-on-Wheels facility, particularly in Koraput. This ensured early detection and timely medical intervention, which is critical in remote areas with limited access to healthcare infrastructure.

Special emphasis was also placed on senior citizen care, along with awareness on nutrition, hygiene practices, communicable diseases, and preventive healthcare, empowering communities with knowledge to improve long-term health outcomes.

Speaking on the initiative, Mr. Amit Garg, CEO TPSODL said, “Through our Mobile Health Dispensaries, we are committed to reaching the unreached and serving communities in the most remote tribal areas. The impact we are witnessing today reflects our continuous effort to build healthier, more resilient communities through accessible and preventive healthcare.”

The Mobile Health Dispensary programme stands as a testament to TPSODL’s commitment to inclusive development, ensuring that even the most remote tribal communities have access to reliable and quality healthcare services. It also highlights the collaborative efforts of healthcare professionals, field teams, and local stakeholders working together to create a lasting impact across Odisha’s tribal belt.

TPSODL's mobile health dispensaries transform healthcare access in Odisha's remote tribal belt

Bhubaneswar, Apr 15 (UNI) In a significant push towards inclusive healthcare, the Mobile Health Dispensaries (MHDs) of the Tata Power Southern Odisha Distribution Limited (TPSODL) are delivering essential medical services to some of the most remote and underserved tribal regions of Odisha.

Operating across the districts of Koraput, Malkangiri, Kandhamal, and Rayagada, the initiative is bridging critical healthcare gaps by bringing medical facilities directly to the doorsteps of rural communities.

Speaking on the initiative, TPSODL CEO Amit Garg said the programme reflects the organisation's commitment to reaching the unreached and ensuring access to quality healthcare in the most remote tribal regions.

दूरदराज इलाकों तक पहुंची इलाज की सुविधा

जगरण संवाददाता, भुवनेश्वर : ओडिशा के दूरस्थ आदिवासी इलाकों में स्वास्थ्य सेवाओं को कमी अब घीरे-घीरे दूर होती नजर आ रही है। टाटा पावर सदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) की मोबाइल हेल्थ डिस्पेंसरी पहल ने कोरापुट, मलकनगिरी, कंधमाल और रायगड़ा जैसे दुर्गम जिलों में घर-घर जाकर इलाज की सुविधा उपलब्ध कराई है। अब तक 3,23,675 लोग इस पहल से लाभान्वित हो चुके हैं।

पहाड़ों और जंगलों से घिरे इन क्षेत्रों में जहां अस्पताल तक पहुंचना मुश्किल था, वहां अब डॉक्टरों की टीम सीधे गांवों तक पहुंच रही है। एमबीबीएस डॉक्टर, नर्स और फार्मासिस्ट लोगों को मुफ्त परामर्श, दवाएं और जांच सुविधा दे रहे हैं। कोरापुट में 1,01,777, मलकनगिरी

टीपीएसओडीएल की तरफ से ग्रामीण क्षेत्र में लोगों का मुफ्त स्वास्थ्य परीक्षण • जगरण

में 1,06,155, रायगड़ा में 53,157 और कंधमाल में 62,586 लोगों को स्वास्थ्य सेवाएं मिली हैं।

ग्रामीण क्षेत्रों में 1,213 स्वास्थ्य शिविर, 843 जागरूकता कार्यक्रम और 67 विशेष शिविर आयोजित

किए गए हैं। टीपीएसओडीएल के सीईओ अमित गर्ग ने कहा कि यह पहल दूरस्थ इलाकों तक स्वास्थ्य सेवाएं पहुंचाने और लोगों के जीवन स्तर में सुधार लाने की दिशा में महत्वपूर्ण कदम है।

DAINIK JAGRAN

टीपीएसओडीएल की मोबाइल हेल्थ डिस्पेंसरी से आदिवासी इलाकों में स्वास्थ्य सेवाओं की पहुंच बढ़ी

NAVBHARAT

भुवनेश्वर। ओडिशा के दूरदराज और आदिवासी कूलु क्षेत्रों में स्वास्थ्य सेवाओं को कमी को दूर करने को दिशा में टीपीएसओडीएल की मोबाइल हेल्थ डिस्पेंसरी एक महत्वपूर्ण भूमिका निभा रही है। कोरापुट, मलकांगीरी, कंधमाल और रायगड़ा जिलों के दुरीत इलाकों तक पहुंचकर यह पहल हजारों जरूरतमंद परिवारों को मुफ्त और सुलभ स्वास्थ्य सेवाएं उपलब्ध कर रही है। इस पहल के तहत अब तक कुल 3,23,675 लाभार्थियों को स्वास्थ्य सेवाएं प्रदान की जा चुकी हैं। इनमें कोरापुट में 1,01,777, मलकांगीरी में 1,06,155, रायगड़ा में 53,157 और कंधमाल में 62,586 लोग शामिल हैं। यह आंकड़े इस योजना के व्यापक प्रभाव और समुदाय में बढ़ते विश्वास को दर्शाते हैं।

टीपीएसओडीएल के सीईओ अमित वर्मा ने कहा कि यह पहल दूरदराज के क्षेत्रों में रहने वाले लोगों तक स्वास्थ्य सेवाएं पहुंचाने की प्रतिबद्धता का हिस्सा है। यह कार्यक्रम न केवल स्वास्थ्य सुविधाओं को पहुंच बढ़ा रहा है, बल्कि मजबूत और स्वस्थ समाज के निर्माण में भी योगदान दे रहा है। यह मोबाइल हेल्थ डिस्पेंसरी पहल ओडिशा के आदिवासी क्षेत्रों में समावेशी विकास और बेहतर स्वास्थ्य सेवाएं सुनिश्चित करने की दिशा में एक महत्वपूर्ण और प्रत्याशक कदम साबित हो रही है।

मोबाइल हेल्थ डिस्पेंसरी में एमबीबीएस डॉक्टर, नर्स, फार्मासिस्ट और मोडिकलाजर की टीम शामिल होती है, जो जांच-जांच मुफ्त जांच, परामर्श और दवाएं उपलब्ध कराती है। इसके तहत अब तक 1,213 हेल्थ चेकअप कैंप, 843 जागरूकता सत्र और 67 विशेष स्वास्थ्य शिविर आयोजित किए जा चुके हैं। इस पहल के तहत 6 मेगा हेल्थ कैंप भी आयोजित किए गए, जिनमें कोरापुट, मलकांगीरी, कंधमाल और रायगड़ा के दूरस्थ गांवों में विशेषज्ञ चिकित्सा सेवाएं पहुंचाई गईं। इन कैंपों से कुल 5,197 लोगों को लाभ मिला, जिसमें कोरापुट में 1,437, मलकांगीरी में 1,316, कंधमाल में 1,750 और रायगड़ा में 694 लाभार्थी शामिल हैं।

आधुनिक जांच और मुफ्त इलाज- इन स्वास्थ्य शिविरों में सामान्य चिकित्सा परामर्श, दंत जांच, आंखों की जांच, मातृ एवं बाल विकास जैसे सुविधाएं दी जा रही हैं। साथ ही मुफ्त दवाएं और एपॉथे-ऑन-वॉल्यूम के माध्यम से ब्लड टेस्ट व अन्य

जांच भी मौके पर की जा रही हैं, जिससे समय रहते बीमारी का पता लगाना संभव हो रहा है। इस पहल में सिर्फ इलाज ही नहीं, बल्कि योग्य, स्वच्छता, संक्रामक रोगों और निवारक स्वास्थ्य देखभाल को लेकर जागरूकता भी बढ़ाई जा रही है। इससे लोगों को स्वस्थ जीवनशैली अपनाने के लिए प्रेरित किया जा रहा है।

Berhampur is a significant step towards bridging healthcare gaps in remote regions. Mobile Health Dispensaries (MHDs) of TP Southern Odisha Distribution Limited (TPSODL) are bringing essential medical services closer to communities in the tribal heartlands of Koraput, Malkangiri, Kandhamal, and Rayagada districts of Odisha. Reaching some of the most inaccessible terrains, the initiative is ensuring that quality healthcare is no longer a distant reality for thousands of vulnerable families.

Equipped with a dedicated team comprising an MBBS doctor, nurse, pharmacist, and midwife, the MHDs provide free consultations, medicines, and doorstep medical camps. The initiative has already made a substantial impact, covering 3,22,676 beneficiaries across the four districts, reflecting its scale and effectiveness in addressing rural healthcare needs.

The outreach has been particularly significant in deeply tribal pockets, with 1,01,777 beneficiaries in Koraput, 1,08,155 in Malkangiri, 50,157 in Rayagada, and 62,586 in Kandhamal – demonstrating both scale and sustained community trust.

Further strengthening grassroots healthcare delivery, the initiative has conducted 1,213 health check-up camps, 643 awareness sessions, and 67 special health camps, focusing on preventive healthcare, early diagnosis, and behavioral awareness around hygiene, sanitation, and nutrition.

A key highlight has been the organization of six Mega Health Camps across the four districts, bringing specialized healthcare services to remote villages including Talu and Chikina (Koraput), Naddimal and Medulpoda in the Bouda Krabi region (Malkangiri), Sripampur (Kandhamal), and G. Dehaguda (Rayagada).

These camps collectively benefited 1,437 individuals in Koraput, 1,318 in Malkangiri, 1,750 in Kandhamal, and 694 in Rayagada, taking the total outreach under Mega Health Camps to 5,197 beneficiaries.

The health camps offered a comprehensive range of medical facilities designed to address both immediate and preventive healthcare needs. These included general physician consultations, dental check-ups, eye examinations, maternal and elderly care services, and screening for common diseases. In addition, beneficiaries received free medicines, while on-the-spot diagnostic services—such as basic blood tests and health screenings—were provided through the Lab-on-Wheels facility, particularly in Koraput. This ensured early detection and timely medical intervention, which is critical in remote areas with limited access to healthcare infrastructure.

Special emphasis was also placed on senior citizen care, along with awareness on nutrition, hygiene practices, communicable diseases, and preventive healthcare, empowering communities with knowledge to improve long-term health outcomes.

Speaking on the initiative, Mr. Amit Garg, CEO TPSODL, said, "Through our Mobile Health Dispensaries, we are committed to reaching the underserved and serving communities in the most remote tribal areas. The impact we are witnessing today reflects our continuous effort to build healthier, more resilient communities through accessible and preventive healthcare."

The Mobile Health Dispensary programme stands as a testament to TPSODL's commitment to inclusive development, ensuring that even the most remote tribal communities have access to reliable and quality healthcare services. It also highlights the collaborative efforts of healthcare professionals, field teams, and local stakeholders working together to create a lasting impact across Odisha's tribal belt.

- Healthcare reaching remote tribal villages
- Free medicines and doorstep care
- 3.23 lakh beneficiaries served
- Mega camps with diagnostic support

Berhampur, 15th April 2026: In a significant step towards bridging healthcare gaps in remote regions, Mobile Health Dispensaries (MHDs) of TP Southern Odisha Distribution Limited (TPSODL) are bringing essential medical services closer to communities in the tribal heartlands of Koraput, Malkangiri, Kandhamal, and Rayagada districts of Odisha. Reaching some of the most inaccessible terrains, the initiative is ensuring that quality healthcare is no longer a distant reality for thousands of vulnerable families.

Equipped with a dedicated team comprising an MBBS doctor, nurse, pharmacist, and mobiliser, the MHDs provide free consultations, medicines, and doorstep medical camps. The initiative has already made a substantial impact, covering 3,23,675 beneficiaries across the four districts, reflecting its scale and effectiveness in addressing rural healthcare needs.

The outreach has been particularly significant in deeply tribal pockets, with 1,01,777 beneficiaries in Koraput, 1,06,155 in Malkangiri, 53,157 in Rayagada, and 62,586 in Kandhamal—demonstrating both scale and sustained community trust.

Further strengthening grassroots healthcare delivery, the initiative has conducted 1,213 health check-up camps, 843 awareness sessions, and 67 special health camps, focusing on preventive healthcare, early diagnosis, and behavioural awareness around hygiene, sanitation, and nutrition.

A key highlight has been the organisation of six Mega Health Camps across the four districts, bringing specialised healthcare services to remote villages including Talu and Chikina (Koraput), Badatal and Mutlipoda in the Honda Khari region (Malkangiri), Srirampur (Kandhamal), and G. Debhaguda (Rayagada).

These camps collectively benefited 1,437 individuals in Koraput, 1,316 in Malkangiri, 1,750 in Kandhamal, and 694 in Rayagada, taking the total outreach under Mega Health Camps to 5,197 beneficiaries.

The health camps offered a comprehensive range of medical facilities designed to address both immediate and preventive healthcare needs. These included general physician consultations, dental check-ups, eye examinations, maternal and elderly care services, and screening for common illnesses. In addition, beneficiaries received free medicines, while on-the-spot diagnostic services—such as basic blood tests and health screenings—were provided through the Lab-on-Wheels facility, particularly in Koraput. This ensured early detection and timely medical intervention, which is critical in remote areas with limited access to healthcare infrastructure.

Special emphasis was also placed on senior citizen care, along with awareness on nutrition, hygiene practices, communicable diseases, and preventive healthcare, empowering communities with knowledge to improve long-term health outcomes.

Speaking on the initiative, Mr. Amit Garg, CEO TPSODL said, "Through our Mobile Health Dispensaries, we are committed to reaching the unreached and serving communities in the most remote tribal areas. The impact we are witnessing today reflects our continuous effort to build healthier, more resilient communities through accessible and preventive healthcare."

The Mobile Health Dispensary programme stands as a testament to TPSODL's commitment to inclusive development, ensuring that even the most remote tribal communities have access to reliable and quality healthcare services. It also highlights the collaborative efforts of healthcare professionals, field teams, and local stakeholders working together to create a lasting impact across Odisha's tribal belt.

BERHAMPUR, APRIL 15, 2025

In a significant push to bridge critical healthcare gaps in remote regions, the Mobile Health Dispensaries (MHDs) of TP Southern Odisha Distribution Limited (TPSODL) are bringing essential medical services to the doorsteps of tribal communities across Koraput, Malkangiri, Kandhamal, and Rayagada districts. By reaching some of the most inaccessible terrains, the initiative is transforming healthcare access for thousands of vulnerable families, making quality medical care a tangible reality.

Staffed by a dedicated team of an MBBS doctor, nurse, pharmacist, and community mobiliser, the MHDs provide free consultations, medicines, and doorstep medical camps. The programme has already made a substantial impact, serving 3,23,675 beneficiaries across the four districts—underscoring both its scale and effectiveness in addressing rural healthcare needs.

The outreach has been particularly strong in deeply tribal pockets, with 1,01,777 beneficiaries in Koraput, 1,06,155 in Malkangiri, 53,157 in Rayagada, and 62,586 in Kandhamal—reflecting sustained community trust and engagement.

Strengthening grassroots healthcare delivery, the initiative has conducted 1,213 health check-up camps, 843 awareness sessions, and 67 special health camps, focusing on preventive care, early diagnosis, and behavioural awareness related to hygiene, sanitation, and nutrition.

A key highlight of the programme has been the organisation of six Mega Health Camps across remote locations, including Talu and Chikina in Koraput, Badatal and Mutlipoda in the Honda Khari region of Malkangiri, Srirampur in Kandhamal, and G. Debhaguda in Rayagada.

These Mega Health Camps have collectively benefited 5,197 individuals, including 1,437 in Koraput, 1,316 in Malkangiri, 1,750 in Kandhamal, and 694 in Rayagada—further expanding the initiative's reach in underserved areas.

The camps offer a comprehensive range of services, including general physician consultations, dental and eye check-ups, maternal and elderly care, and screening for common ailments. Beneficiaries also receive free medicines, while on-the-spot diagnostic services—such as basic blood tests and health screenings—were provided through a Lab-on-Wheels facility, particularly in Koraput, enabling early detection and timely intervention.

Special emphasis is placed on senior citizen care, along with awareness campaigns on nutrition, hygiene, communicable diseases, and preventive healthcare—empowering communities to improve long-term health outcomes.

Speaking on the initiative, Amit Garg, CEO, TPSODL, said, "Through our Mobile Health Dispensaries, we are committed to reaching the unreached and serving communities in the most remote tribal areas. The impact we are witnessing reflects our continuous effort to build healthier, more resilient communities through accessible and preventive healthcare."

The Mobile Health Dispensary programme stands as a testament to TPSODL's commitment to inclusive development, highlighting the collaborative efforts of healthcare professionals, field teams, and local stakeholders in creating a lasting impact across Odisha's tribal belt.

Healthcare reaching remote tribal villages

Free medicines and doorstep care

3.23 lakh beneficiaries served

Mega camps with diagnostics support

Berhampur, 15th April, 2026: In a significant step towards bridging healthcare gaps in remote regions, Mobile Health Dispensaries (MHDs) of TP Southern Odisha Distribution Limited (TPSODL) are bringing essential medical services closer to communities in the tribal heartlands of Koraput, Malkangiri, Kandhamal, and Rayagada districts of Odisha.

Reaching some of the most inaccessible terrains, the initiative is ensuring that quality healthcare is no longer a distant reality for thousands of vulnerable families.

Equipped with a dedicated team comprising an MBBS doctor, nurse, pharmacist, and mobiliser, the MHDs provide free consultations, medicines, and doorstep medical camps. The initiative has already made a substantial impact, covering 3,23,675 beneficiaries across the four districts, reflecting its scale and effectiveness in addressing rural healthcare needs.

The outreach has been particularly significant in deeply tribal pockets, with 1,01,777 beneficiaries in Koraput, 1,06,155 in Malkangiri, 53,157 in Rayagada, and 62,586 in Kandhamal—demonstrating both scale and sustained community trust.

Further strengthening grassroots healthcare delivery, the initiative has conducted 1,213 health check-up camps, 843 awareness sessions, and 67 special health camps, focusing on preventive healthcare, early diagnosis, and behavioural awareness around hygiene, sanitation, and nutrition.

A key highlight has been the organisation of six Mega Health Camps across the four districts, bringing specialised healthcare services to remote villages including Tallu and Chikima (Koraput), Badadural and Mudulipoda in the Bonda Khatli region (Malkangiri), Srirampur (Kandhamal), and G. Dephaguda (Rayagada).

These camps collectively benefited 1,437 individuals in Koraput, 1,316 in Malkangiri, 1,750 in Kandhamal, and 694 in Rayagada, taking the total outreach under Mega Health Camps to 5,197 beneficiaries.

The health camps offered a comprehensive range of medical facilities designed to address both immediate and preventive healthcare needs. These included general physician consultations, dental check-ups, eye examinations, maternal and elderly care services, and screening for common illnesses. In addition, beneficiaries received free medicines, while on-the-spot diagnostic services—such as basic blood tests and health screenings—were provided through the Lab-on-Wheels facility, particularly in Koraput. This ensured early detection and timely medical intervention, which is critical in remote areas with limited access to healthcare infrastructure.

Special emphasis was also placed on senior citizen care, along with awareness on nutrition, hygiene practices, communicable diseases, and preventive healthcare, empowering communities with knowledge to improve long-term health outcomes.

Speaking on the initiative, Mr. Amit Garg, CEO TPSODL said, "Through our Mobile Health Dispensaries, we are committed to reaching the unreached and serving communities in the most remote tribal areas. The impact we are witnessing today reflects our continuous effort to build healthier, more resilient communities through accessible and preventive healthcare."

The Mobile Health Dispensary programme stands as a testament to TPSODL's commitment to inclusive development, ensuring that even the most remote tribal communities have access to reliable and quality healthcare services. It also highlights the collaborative efforts of healthcare professionals, field teams, and local stakeholders working together to create a lasting impact across Odisha's tribal belt.

PRESS RELEASE

TPSODL Strengthens Power Infrastructure in Rayagada with New 33KV Feeder

- Benefit around 8,000 consumers

Berhampur, April: TP Southern Odisha Distribution Limited (TPSODL) has strengthened power infrastructure in Rayagada. This has been achieved with the successful Construction & commissioning of a new 33KV feeder line from Rayagada Railway Gate (near Shiv Mandir) to Raniguda Primary Substation (PSS). The new feeder line is expected to enhance power reliability and support the growing electricity demand in the area.

The newly constructed feeder comprises 6 CKM overhead line along with 110 meters of underground cable. The line originates from Rayagada Railway Gate. It terminates at Raniguda PSS, ensuring a stable and reliable 33KV source supply to the substation.

From Raniguda PSS, power is distributed through two outgoing 11KV feeders—Chekaguda and Raniguda. The Chekaguda feeder supplies electricity to Chekaguda and Vidya Nagar areas while also supporting the Town-3 feeder. Similarly, the Raniguda feeder supplies power to Raniguda Farm, Goutham Nagar, Hathipattar Road and supports the Town-4 feeder. Earlier, Town-3 and Town-4 feeders were primarily catering to most parts of Rayagada Town No-2 section. With the commissioning of the new feeder, power supply stability and reliability across all four feeders are improved significantly.

The project benefits around 8,000 consumers by ensuring improved voltage stability, reducing load stress on existing feeders, and providing more reliable electricity supply to households, commercial establishments, and essential services in the region.

Speaking on the development, TPSODL CEO Mr. Amit Kumar Garg said, "Strengthening power infrastructure is central to our commitment to deliver reliable and quality electricity to our consumers. The commissioning of this new 33KV feeder in Rayagada will enhance supply stability, reduce load on existing networks, and significantly improve service reliability for thousands of consumers in the area."

This initiative marks another important step by TPSODL towards enhancing power distribution reliability and supporting the growing energy needs of Rayagada town and surrounding areas.

TPSODL commissions 33KV feeder in Rayagada to improve power supply

PBD BUREAU

BERHAMPUR, APRIL 23

TP Southern Odisha Distribution Limited (TPSODL) has commissioned a new 33KV feeder line in Rayagada to improve power supply and enhance network reliability.

The feeder line has been constructed from Rayagada Railway Gate near Shiv Mandir to Raniguda Primary Substation (PSS). It comprises around 6 CKM of overhead line along with about 110 metres of underground cable, providing a stable 33KV source to the substation.

Power from Raniguda PSS is distributed through two outgoing 11KV feeders – Chekaguda and Raniguda. The Chekaguda

feeder supplies electricity to Chekaguda and Vidya Nagar areas and also supports the Town-3 feeder. The Raniguda feeder caters to Raniguda Farm, Goutham Nagar and Hathipattar Road, while supporting the Town-4 feeder.

Earlier, the Town-3 and Town-4 feeders were catering to most parts of Rayagada Town No-2 section. With the commissioning of the new feeder, power supply stability

and reliability across all four feeders have improved, the company said.

The project is expected to benefit around 8,000 consumers by improving voltage stability, reducing load on existing feeders and ensuring more reliable electricity supply to households, commercial establishments and essential services.

TPSODL CEO Amit Kumar Garg said strengthening power infrastructure remains central to the company's commitment to delivering reliable and quality electricity, adding that the new feeder will enhance supply stability and significantly improve service reliability for consumers in the area.

POLITICAL AND BUSINESS DAILY

रायगढ़ा में नया 33 केवी फीडर शुरू, आठ हजार से ज्यादा उपभोक्ताओं को मिली राहत

जबरात संजयराज, मुम्बई: टाटा पावर इंडिया लिमिटेड (टीपीएसओडीएल) ने रायगढ़ा जिले की बिजली आपूर्ति सुधारण के अंतर्गत 33 केवी फीडर शुरू करने का काम शुरू किया है। यह नया फीडर रायगढ़ा जिले के (विद्युत क्षेत्र के अंतर्गत) रायगढ़ा उपखंड (पीएसएल) के अंतर्गत शुरू किया जा रहा है, जिससे क्षेत्र में बिजली आपूर्ति अधिक स्थिर और पर्याप्त हो पाएगी।

• टीपीएसओडीएल की इस योजना से बिजली आपूर्ति मजबूत, बेहतर होगी सुनिश्चित

• सततपल रहने में नई रायगढ़ा पीएसएल तक नई लाइन, लोगों को मिलेगी सुविधा

नया 33 केवी फीडर

फीडर रायगढ़ा फार्म, नैलम नगर, हाथीपत्त रौड और टाउन-4 फीडर को बिजली उपलब्ध कराया जायेगा।

यह है, जिससे लोड अधिक कम होगा। नया फीडर के शुरू होने से अब सभी जहाँ फीडर पर लोड संतुलित हो गया है और बिजली आपूर्ति अधिक स्थिर हो गई है। इससे अंततः इलाके में ज्यादा उपभोक्ताओं को सही राय मिलेगी है। कंस्ट्रक्शन के साथ-साथ फीडर पर काम भी चल रहा है, जिससे फील्ड उपभोक्ताओं को अधिक सुविधा मिलेगी और आवश्यकताओं को बिजली आपूर्ति मिलेगी है।

टीपीएसओडीएल के मुख्य कार्यकारी अधिकारी अमित कुमार वर्मा ने कहा कि कंपनी का उद्देश्य बिजली क्षेत्रों को मजबूत बनाना और उपभोक्ताओं को अधिकतम सुविधा उपलब्ध कराना है। उन्होंने कहा कि यह नया फीडर रायगढ़ा क्षेत्र में बिजली आपूर्ति को निरंतरता प्रदान करने के साथ-साथ क्षेत्र में भी नया काम शुरू करने में सक्षम होगा। टीपीएसओडीएल की यह पहल रायगढ़ा और आसपास के क्षेत्रों में बिजली आपूर्ति को सुनिश्चित करने में सक्षम होगा।

रायगढ़ा में बिजली ढांचे को मिलेगी मजबूती

टीपीएस ओडीएल ने शुरू किया नया 33 केवी फीडर करीब 8,000 उपभोक्ताओं को मिलेगा सीधा लाभ

जबरात मुम्बई: जबरात टाटा पावर इंडिया लिमिटेड (टीपीएसओडीएल) ने रायगढ़ा जिले में बिजली आपूर्ति सुधारण को और मजबूत करने के लिए नया 33 केवी फीडर शुरू करने का काम शुरू किया है। यह नया फीडर रायगढ़ा जिले के (विद्युत क्षेत्र के अंतर्गत) रायगढ़ा उपखंड (पीएसएल) के अंतर्गत शुरू किया जा रहा है, जिससे क्षेत्र में बिजली आपूर्ति अधिक स्थिर और पर्याप्त हो पाएगी।

बिजली उपलब्ध कराया है और टाउन-3 फीडर को भी सुधारा दिया है। जहाँ रायगढ़ा फीडर रायगढ़ा फार्म, नैलम नगर और हाथीपत्त रौड जैसे इलाकों को बिजली देता है और टाउन-4 फीडर को भी सुधारा दिया है। पहले टाउन-3 और टाउन-4 फीडर मुख्य रूप से रायगढ़ा टाउन नंबर-2 के अधिकांश हिस्से को बिजली आपूर्ति कर रहे थे, जिससे इन पर अधिक लोड रहता था। नया 33 केवी फीडर के शुरू होने से इन सभी फीडरों पर लोड का वितरण बेहतर हुआ है और बिजली आपूर्ति को

बिजली ढांचे को मजबूत करना हमारी प्राथमिकता - सीईओ टीपीएसओडीएल के सीईओ अमित कुमार वर्मा ने कहा, बिजली क्षेत्रों को मजबूत करना हमारी प्राथमिकता है। रायगढ़ा में नया 33 केवी फीडर की शुरुआत से न केवल आपूर्ति को स्थिरता प्रदान करेगा, बल्कि क्षेत्र में बिजली आपूर्ति को भी सुधारा दिया है। पहले टाउन-3 और टाउन-4 फीडर मुख्य रूप से रायगढ़ा टाउन नंबर-2 के अधिकांश हिस्से को बिजली आपूर्ति कर रहे थे, जिससे इन पर अधिक लोड रहता था। नया 33 केवी फीडर के शुरू होने से इन सभी फीडरों पर लोड का वितरण बेहतर हुआ है और बिजली आपूर्ति को

मिलता व निरंतरता में उत्तरोत्तरी सुधार आया है। इस पहल के साथ 8,000 उपभोक्ताओं को लाभ मिलेगा, जिससे क्षेत्र में बिजली आपूर्ति को सुनिश्चित करने में सक्षम होगा। टीपीएसओडीएल की यह पहल रायगढ़ा और आसपास के क्षेत्रों में बिजली आपूर्ति को सुनिश्चित करने में सक्षम होगा।

THEBUSINESSBYTES BUREAU
BANGALORE, APRIL 23, 2026

TP Southern Grid Distribution Limited (TPSODL) has strengthened power infrastructure in Rayagada with the successful construction and commissioning of a new 33KV feeder line from Rayagada Railway Gate power line to the Rayagada Primary Substation (PS). The new feeder line is expected to enhance power reliability and support the growing electricity demand in the area.

The newly constructed feeder comprises a 6.6KV overhead line along with 130 metres of underground cable. The line originates from Rayagada Railway Gate and terminates at Rayagada PS, ensuring a stable and reliable 33KV source supply to the substation.

From Rayagada PS, power is distributed through two outgoing 11KV feeders – Chikagada and Baidigada. The Chikagada feeder supplies electricity to Chikagada and Vikra Nagar areas while also supporting the Town-3 feeder. Similarly, the Baidigada feeder supplies power to Baidigada, Ghatana Nagar, Mahipadar Road and supports the Town-4 feeder. Earlier, Town-3 and Town-4 feeders were primarily catering to most parts of Rayagada Town No-2 section. With the commissioning of the new feeder, power supply stability and reliability across all four feeders have improved significantly.

The project is expected to benefit around 5,000 consumers by ensuring improved voltage stability, reducing load stress on existing feeders, and providing more reliable electricity supply to households, commercial establishments and essential services in the region.

Speaking on the development, TPSODL CEO Anil Kumar Garg said, "Strengthening power infrastructure is central to our commitment to deliver reliable and quality electricity to our consumers. The commissioning of this new 33KV feeder in Rayagada will enhance supply stability, reduce load on existing networks, and significantly improve service reliability for thousands of consumers in the area."

This initiative marks another important step by TPSODL towards enhancing power distribution reliability and supporting the growing energy needs of Rayagada town and surrounding areas.

Benefit around 8,000 consumers

Berhampur, April: TP Southern Odisha Distribution Limited (TPSODL) has strengthened power infrastructure in Rayagada. This has been achieved with the successful Construction & commissioning of a new 33KV feeder line from Rayagada Railway Gate (near Shiv Mandir) to Raniguda Primary Substation (PSS). The new feeder line is expected to enhance power reliability and support the growing electricity demand in the area.

The newly constructed feeder comprises 6 CKM overhead line along with 110 meters of underground cable. The line originates from Rayagada Railway Gate. It terminates at Raniguda PSS, ensuring a stable and reliable 33KV source supply to the substation.

From Raniguda PSS, power is distributed through two outgoing 11KV feeders—Chekaguda and Raniguda. The Chekaguda feeder supplies electricity to Chekaguda and Vidya Nagar areas while also supporting the Town-3 feeder. Similarly, the Raniguda feeder supplies power to Raniguda Farm, Goutham Nagar, Hathipattar Road and supports the Town-4 feeder. Earlier, Town-3 and Town-4 feeders were primarily catering to most parts of Rayagada Town No-2 section. With the commissioning of the new feeder, power supply stability and reliability across all four feeders are improved significantly.

The project benefits around 8,000 consumers by ensuring improved voltage stability, reducing load stress on existing feeders, and providing more reliable electricity supply to households, commercial establishments, and essential services in the region.

Speaking on the development, TPSODL CEO Mr. Amit Kumar Garg said, "Strengthening power infrastructure is central to our commitment to deliver reliable and quality electricity to our consumers. The commissioning of this new 33KV feeder in Rayagada will enhance supply stability, reduce load on existing networks, and significantly improve service reliability for thousands of consumers in the area." This initiative marks another important step by TPSODL towards enhancing power distribution reliability and supporting the growing energy needs of Rayagada town and surrounding areas.

TPSODL Organises Blood Donation Camp in Berhampur

Berhampur, April 2026: TP Southern Odisha Distribution Limited, a joint venture of Tata Power and the Government of Odisha, reinforced its commitment to social responsibility and community well-being by organising a blood donation camp in Berhampur. The initiative aimed at addressing the critical need for safe blood in healthcare facilities and supporting patients requiring urgent transfusions.

The camp was inaugurated by Educationist and Social Community Leader Ms. Manju Garg, who appreciated the initiative and encouraged voluntary participation in such life-saving efforts.

The camp witnessed enthusiastic participation from TPSODL employees, resulting in the collection of 43 units of blood through voluntary donations. The initiative reflects the organisation's continued focus on contributing meaningfully to public health and community welfare.

This marks the first blood donation camp of the current financial year in the Berhampur Circle. Employees came forward willingly, demonstrating a strong sense of civic responsibility and collective purpose.

Speaking on the occasion, Amit Kumar Garg, CEO, TPSODL, said, "Voluntary blood donation is a powerful way to contribute to society and save lives. It is truly encouraging to see such enthusiastic participation from our employees. At TPSODL, we remain committed to building a culture where community service becomes a shared responsibility."

TPSODL continues to play an active role in fostering a healthier and more resilient community through sustained social initiatives and employee-driven outreach programmes.

TPSODL organises blood donation camp in Berhampur

PBD BUREAU

BERHAMPUR, APRIL 29

IN a step towards supporting public health needs, TP Southern Odisha Distribution Limited (TPSODL), organised a blood donation camp here to address the requirement for safe blood in healthcare facilities and for patients needing urgent transfusions.

The camp was graced by educationist and social community leader Manju Garg, who appreciated the initiative and encouraged voluntary participation in such life-saving efforts.

Employees of TPSODL participated in the camp, resulting in the collection of 43 units of blood through voluntary donations.

The camp marked the first blood donation initiative of the current financial year in the Berhampur circle, with employees coming forward willingly, reflecting a sense of civic responsibility.

Speaking on the occasion, TPSODL CEO Amit Kumar Garg said voluntary blood donation is a meaningful way to contribute to society and save lives, and expressed encouragement over the participation of employees.

TPSODL said it continues to undertake social initiatives and employee-driven outreach programmes aimed at supporting public health and community welfare.

TPSODL organises blood donation camp in Berhampur

Berhampur (TPSODL): TP Southern Odisha Distribution Limited, a joint venture of Tata Power and the Government of Odisha, reinforced its commitment to social responsibility and community well-being by organising a blood donation camp in Berhampur.

The initiative aimed at addressing the critical need for safe blood in healthcare facilities and supporting patients requiring urgent transfusions. The camp was inaugurated by Educationist and Social Community Leader Mr. Manju Garg, who appreciated the initiative and encouraged voluntary participation in such life-saving efforts. The camp witnessed enthusiastic participation from TPSODL employees, resulting in the collection of 43 units of blood through voluntary donations.

The initiative reflects the organisation's continued focus on contributing meaningfully to public health and community welfare. This marks the first blood donation camp of the current financial year in the Berhampur Circle.

Employees came forward willingly, demonstrating a strong sense of civic responsibility and collective purpose. Speaking on the occasion, Amit Kumar Garg, CEO, TPSODL, said, "Voluntary blood donation is a powerful way to contribute to society and save lives. It is truly encouraging to see such enthusiastic participation from our employees. At TPSODL, we remain committed to building a culture where community service becomes a shared responsibility."
