TPSODL commissions new 33KV line

STATESMAN NEWS SERVICE
BERHAMPUR, 3 APRIL:

TP Southern Odisha Distribution Limited (TPSODL) has commissioned a new 33KV link line between Hatiota Primary Substation (PSS) and Belagaon PSS in Polasara Block, Ganjam district. It will enhance power stability for over 34,000 consumers of the region, said a release issued by the discom.

Prior to this initiative, the region faced recurrent power disruptions and lacked alternative supply source. The execution of this project posed several challenges, including pole shifting and conductor stringing through agricultural and forested areas in Hatiota and Belagaon. Despite these hurdles, TPSODL remained steadfast in its commitment to ensure seamless execution with minimal disruption to the local community.

In the event of an outage at any Primary Substation (PSS) in the vicinity, this link line will facilitate uninterrupted electricity supply, thereby significantly improving service reliability and reducing downtime. The absence of a connection between Hatiota PSS and Belagaon PSS had previously led to frequent power disruptions, impacting not only these substations but also surrounding areas.

Mr. Amit Kumar Garg, CEO of TPSODL, stated, "Ensuring a reliable power supply is our top priority, especially with the rising demand during summer. The commissioning of the new 33KV line will significantly enhance electricity stability in Ganjam district. We remain committed to strengthening the infrastructure and delivering high-quality services to the people of Southern Odisha."

TPSODL commissions new 33 kV line benefiting 34000 Consumers

Berhampur, (correspondent): TP Southern Odisha Distribution Limited (TPSODL) has successfully commissioned a new 33KV link line between Hatia Primary Substation (PSS) and Balagan PSS in Polasara Block, Ganjam district. Spanning 7.5km, this strategic development marks a significant step

in enhancing power stability and reliability for over 34,000 consumers in the region. Prior to this initiative, the region faced recurrent power disruptions and lacked alternative supply sources. The execution of this project posed several challenges, including pole stringing and conductor stringing through agricultural and forested areas in Hatia

and Balagan. Despite these hurdles, TPSODL remained steadfast in its

commitment to ensure seamless execution with minimal disruption to the

local community. With the new 33KV link line now operational, the region benefits from enhanced power connectivity among villages. In the event of an outage at any Primary Substation (PSS) in the vicinity, this link line will facilitate uninterrupted electricity supply, thereby significantly improving service reliability and reducing downtime. The absence of a

connection between Hatia PSS and Balagan PSS had previously led to frequent power disruptions, impacting not only these villages but also surrounding areas. This newly established link has effectively addressed these issues, ensuring a more stable and dependable power supply. Mr. Anil Kumar Garg, CEO of TPSODL,

stated, "Ensuring a reliable power supply is our top priority, especially with the rising demand during summer. The commissioning of the new 33KV line will significantly enhance electricity stability in Ganjam district. We are committed to strengthening the infrastructure and delivering high-quality services to the people of Southern Odisha."

TPSODL commissions new 33 kV line benefiting 34000 Consumers

Berhampur, (TNB):TP Southern Odisha Distribution Limited (TPSODL) has successfully commissioned a new 33KV link line between Hatiota Primary Substation (PSS) and Belagaon PSS in Polasara Block, Ganjam district. Spanning 7.565 km, this strategic development marks a significant step in enhancing power stability and reliability for over 34,000 consumers in the region. Prior to this initiative, the region faced recurrent power disruptions and lacked alternative supply source. The execution of this project posed several challenges, including pole shifting and conductor stringing through agricultural and forested areas in Hatiota and Belagaon. Despite these hurdles, TPSODL remained steadfast in its

commitment to ensure seamless execution with minimal disruption to the local community. With the new 33KV link line now operational, the region benefits from enhanced power connectivity among substations. In the event of an outage at any Primary Substation (PSS) in the vicinity, this link line will facilitate uninterrupted electricity supply, thereby significantly improving service reliability and reducing downtime. The absence of a connection between Hatiota PSS and Belagaon PSS had previously led to frequent power disruptions, impacting not only these substations but also surrounding areas. This newly established link has effectively addressed these issues, ensuring a more stable and

dependable power supply. Mr. Amit Kumar Garg, CEO of TPSODL, stated, "Ensuring a reliable power supply is our top priority, especially with the rising demand during summer. The commissioning of the new 33KV line will significantly enhance electricity stability in Ganjam district. We remain committed for strengthening the infrastructure and delivering high-quality services to the people of Southern Odisha." TPSODL continues to make significant investments in bolstering the power network across Southern Odisha. The company remains dedicated to adopting innovative solutions and developing a robust infrastructure to meet the growing electricity demands of its consumers.

टीपीएसओडीएल ने गंजाम जिले में नई 33 केवी लिंक लाइन का सफलतापूर्वक उद्घाटन किया

भुवनेश्वर। टीपी एसओडीएल लिमिटेड (टीपीएसओडीएल) ने गंजाम जिले के चेलसरा ब्लॉक में स्थित जॉइंटपोस्ट और बेलगांव ग्रामसी सबस्टेशन (पीएसएस) के बीच 7.565 किलोमीटर लंबी नई 33 केवी लिंक लाइन को सफलतापूर्वक चालू कर दिया है। इस परियोजना से क्षेत्र के 34,000 से अधिक उपभोक्ताओं को बिजली की स्थिरता और विश्वसनीयता में महत्वपूर्ण सुधार मिलेगा। इस लिंक लाइन के चालू होने से पहले, क्षेत्र में बार-बार बिजली की आपूर्ति में व्यवधान उत्पन्न होता था, और वैकल्पिक आपूर्ति स्रोतों की कमी के कारण उपभोक्ताओं को परेशानी थी।

इस परियोजना का उद्देश्य इन समस्याओं को हल करना और बिजली आपूर्ति को अधिक स्थिर और भरोसेमंद बनाना था। टीपीएसओडीएल के अधिकारियों ने बताया कि इस परियोजना को न्यूनतम व्यवधान के साथ पूरा किया।

टीपीएसओडीएल के सीओओ अमित कुमार शर्मा ने इस अवसर पर कहा, "हमें यह सुनिश्चित करना है कि हमारी सेवा स्थिर और विश्वसनीय हो, विशेष रूप से गर्मियों के दौरान जब बिजली की मांग बढ़ती है। नई 33 केवी लिंक लाइन से गंजाम जिले में बिजली की आपूर्ति में महत्वपूर्ण सुधार होगा और क्षेत्र के उपभोक्ताओं को निरंतर सेवा मिलेगी। हम अपने उपभोक्ताओं के बढ़ते बिजली मांग को पूरा करने के लिए निरंतर सुविधाओं को सुधार कर रहे हैं। टीपीएसओडीएल द्वारा इस परियोजना को सफलतापूर्वक कार्यान्वित करने से क्षेत्र में बिजली आपूर्ति की गुणवत्ता और स्थिरता में महत्वपूर्ण सुधार होगा, जिससे उपभोक्ताओं को अधिक संतुष्ट मिलेगी और गर्मियों में बिजली की बढ़ती मांग को भी पूरा किया जा सकेगा।"

परियोजना में जमीन और तार क्षेत्रों में भोल शिफ्टिंग और कंडक्टर ट्रिपिंग जैसी चुनौतियाँ आईं, लेकिन कंपनी ने स्थानीय समुदाय के सहयोग से इन बाधाओं का समाधान किया और

Synopsis: TP Southern Odisha Distribution Limited (TPSODL) has successfully commissioned a new 33KV link line between Hatiota Primary Substation (PSS) and Belagaon PSS in Polasara Block, Ganjam district. Spanning 7.565 km, this strategic development marks a significant step in enhancing power stability and reliability for over 34,000 consumers in the region.

Prior to this initiative, the region faced recurrent power disruptions and lacked alternative supply source. The execution of this project posed several challenges, including pole shifting and conductor stringing through agricultural and forested areas in Hatiota and Belagaon. Despite these hurdles, TPSODL remained steadfast in its commitment to ensure seamless execution with minimal disruption to the local community.

With the new 33KV link line now operational, the region benefits from enhanced power connectivity among substations. In the event of an outage at any Primary Substation (PSS) in the vicinity, this link line will facilitate uninterrupted electricity supply, thereby significantly improving service reliability and reducing downtime. The absence of a connection between Hatiota PSS and Belagaon PSS had previously led to frequent power disruptions, impacting not only these substations but also surrounding areas. This newly established link has effectively addressed these issues, ensuring a more stable and dependable power supply.

TPSODL’s mobile clinics drive covers 1,018 villages

EXPRESS NEWS SERVICE
@Bhubaneswar

MOBILE Clinics Drive, an initiative by TP Southern Odisha Distribution Limited (TPSODL) to transform access to medical care for the local communities, has reached over 2 lakh people in 1,018 remote villages across two districts of the state in a year.

The initiative involving mobile health dispensaries has been launched in Koraput and Malkangiri districts. TPSODL officials said around 510 remote villages in Koraput and 508 in Malkangiri have already been covered by the mobile teams with residents living miles away from the nearest health centres availing benefit of these dispensaries.

The mobile clinics are treating a variety of common health issues such as cold, fever, respiratory infections and skin diseases. In areas where specialised services are almost non-existent, the TPSODL has also introduced eye check-ups and dental screenings, ensur-

Our mobile health dispensaries are a step towards making healthcare accessible to every individual, no matter how remote the village is.

Amit Kumar Garg, TPSODL CEO

ing more holistic healthcare support, said the officials of the power distribution company.

A resident of Koraput’s Boipariguda village Budra Gouda said, “The team visits us regularly, checks our health and gives us medicines. It’s like having a doctor at our doorstep.”

TPSODL CEO Amit Kumar Garg said their health dispensaries are a step towards making healthcare accessible to every individual, no matter how remote the village is.

“Seeing the positive change in people’s attitude towards health gives us hope and encouragement to continue and expand this mission. On this World Health Day, we reaffirm our commitment to serve and uplift the communities of southern Odisha,” Garg added.

Synopsis: TP Southern Odisha Distribution Limited (TPSODL) has successfully commissioned a new 33KV link line between Hatiota Primary Substation (PSS) and Belagaon PSS in Polasara Block, Ganjam district. Spanning 7.565 km, this strategic development marks a significant step in enhancing power stability and reliability for over 34,000 consumers in the region.

Prior to this initiative, the region faced recurrent power disruptions and lacked alternative supply source. The execution of this project posed several challenges, including pole shifting and conductor stringing through agricultural and forested areas in Hatiota and Belagaon. Despite these hurdles, TPSODL remained steadfast in its commitment to ensure seamless execution with minimal disruption to the local community.

With the new 33KV link line now operational, the region benefits from enhanced power connectivity among substations. In the event of an outage at any Primary Substation (PSS) in the vicinity, this link line will facilitate uninterrupted electricity supply, thereby significantly improving service reliability and reducing downtime. The absence of a connection between Hatiota PSS and Belagaon PSS had previously led to frequent power disruptions, impacting not only these substations but also surrounding areas. This newly established link has effectively addressed these issues, ensuring a more stable and dependable power supply.

TPSODL enhances power supply in Nabarangpur with transformer upgrade

PBD BUREAU

BERHAMPUR, APR 16

IN a significant move to bolster power reliability ahead of the peak summer season, TP Southern Odisha Distribution Limited (TPSODL) has upgraded a 5 MVA transformer to a 10 MVA unit at the Nabarangpur Primary Sub-Station (PSS). With the addition of the new transformer, the substation now operates with a combined

capacity of 18 MVA – comprising an existing 8 MVA transformer and the newly installed 10 MVA unit – up from its previous 13 MVA. This infrastructure enhancement is expected to ensure stable and high-quality electricity supply to over 14,000 consumers in Nabarangpur city and surrounding areas. Anticipating the surge in power demand during the summer months, TPSODL has taken proac-

tive steps to reinforce its network, aiming to provide uninterrupted service to both residential and industrial consumers. Nabarangpur is home to several rice mills, cashew processing units, and small-scale industries, all of which rely heavily on consistent power for smooth operations. “Ensuring reliable power supply, especially during summer, remains our top priority,” said Amit Kumar Garg, CEO of TPSODL. “This upgrade is part of our ongoing efforts to enhance infrastructure and meet the growing demand. We are continuously working to overcome challenges and deliver quality electricity to all our consumers,” he added.

TPSODL Boosts Power Supply in Nabarangpur with Transformer Upgrade

Berhampur, (ENS): In a major step towards enhancing power reliability during the peak summer season, TP Southern Odisha Distribution Limited (TPSODL) has upgraded a 5 MVA transformer to a 10 MVA transformer at the Nabarangpur Primary Sub-Station (PSS). With this upgrade, the substation is now equipped with an 8 MVA transformer and the newly installed 10 MVA transformer, increasing its total capacity from 13 MVA to 18 MVA. This enhancement will ensure a stable and quality power supply to over 14,000 consumers in Nabarangpur city and surrounding areas.

Recognizing the increasing demand for electricity during summer, TPSODL has proactively strengthened its infrastructure to provide uninterrupted and reliable power to both residential and industrial consumers,

Nabarangpur houses several rice mills, cashew processing units, and small-scale industries that depend on a stable power supply. With this upgrade, businesses in the region can operate more efficiently without disruptions.

Shudhanshu Sekhar Parida, a resident of Nabarangpur, expressed his appreciation for the initiative, saying, "Electricity services in Nabarangpur are already good, and this upgrade will further enhance power

reliability. It's great to see TPSODL taking steps to improve supply during summer."

Mr. Amit Kumar Garg, CEO of TPSODL, stated, "Ensuring reliable power supply, especially during summer, remains our top priority. This upgrade is part of our ongoing efforts to enhance infrastructure and meet the growing demand. गर्मियों से पहले टीपीएसओडीएल ने नबरंगपुर में बिजली आपूर्ति को किया मजबूत

ट्रांसफॉर्मर की क्षमता में हुआ बड़ा इजाफा

नवभारत रिपोर्टर । भुवनेश्वर।

गर्मियों के मौसम में बिजली की बढ़ती मांग को देखते हुए, टीपीएसओडीएल डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने नबरंगपुर में बिजली आपूर्ति को अधिक विश्वसनीय और स्थिर बनाने की दिशा में एक महत्वपूर्ण कदम उठाया है। कंपनी ने नबरंगपुर प्रमुख सब-स्टेशन (पीएसएस) में 5 एमवीए ट्रांसफॉर्मर को 10 एमवीए ट्रांसफॉर्मर में अपग्रेड किया है।

इस उन्नयन के बाद अब सबस्टेशन में एक 8 एमवीए और एक नया 10 एमवीए ट्रांसफॉर्मर मौजूद है, जिससे कुल ट्रांसफॉर्मेशन क्षमता 13 एमवीए से बढ़कर 18 एमवीए हो गई है। इस विकास से नबरंगपुर शहर एवं आसपास के क्षेत्रों के 14,000 से अधिक उपभोक्ताओं को लाभ होगा, जिन्हें अब अधिक स्थिर और गुणवत्तापूर्ण बिजली आपूर्ति मिल सकेगी।

टीपीएसओडीएल ने गर्मियों में आवासीय और औद्योगिक उपभोक्ताओं की आवश्यकताओं को ध्यान में रखते हुए अपने बुनियादी ढांचे को सक्रिय रूप से मजबूत किया है। नबरंगपुर में स्थित कई चालत मिलें, कानू प्रसंस्करण

इकाइयों और अन्य लघु उद्योग लगातार बिजली आपूर्ति पर निर्भर हैं। इस अपग्रेड के साथ, अब इन व्यवसायों को बिना किसी रुकावट के अधिक कुशलता से कार्य करने में मदद मिलेगी।

स्थानीय निवासी शुभांशु शेखर परिज्ञा ने इस पहल को सराहना करते हुए कहा, नबरंगपुर में बिजली सेवाएं पहले से ही अच्छी हैं, और इस अपग्रेड से बिजली की विश्वसनीयता और भी बढ़ेगी। यह देखकर अच्छा लगता है कि टीपीएसओडीएल गर्मियों के दौरान आपूर्ति को बेहतर बनाने के लिए प्रयासरत है। टीपीएसओडीएल के मुख्य कार्यकारी

अधिकारी अमित कुमार गर्ग ने कहा, "गर्मियों के दौरान निरंतर और विश्वसनीय बिजली आपूर्ति सुनिश्चित करना हमारी सर्वोच्च प्राथमिकता है। यह अपग्रेड हमारे बुनियादी ढांचे को सुदृढ़ करने और बढ़ती मांग को पूरा करने के लिए किए जा रहे निरंतर प्रयासों का हिस्सा है। हम अपने सभी उपभोक्ताओं को गुणवत्तापूर्ण सेवा प्रदान करने के लिए निरंतर काम कर रहे हैं। यह पहल न केवल नबरंगपुर के लोगों के लिए राहत लेकर आएगी, बल्कि क्षेत्र की आर्थिक गतिविधियों को भी मजबूत करेगी।

Synopsis: In a major step towards enhancing power reliability during the peak summer season, TP Southern Odisha Distribution Limited (TPSODL) has upgraded a 5 MVA transformer to a 10 MVA transformer at the Nabarangpur Primary Sub-Station (PSS). With this upgrade, the substation is now equipped with an 8 MVA transformer and the newly installed 10 MVA transformer, increasing its total capacity from 13 MVA to 18 MVA. This enhancement will ensure a stable and quality power supply to over 14,000 consumers in Nabarangpur city and surrounding areas. Recognizing the increasing demand for electricity during summer, TPSODL has proactively strengthened its infrastructure to provide uninterrupted and reliable power to both residential and industrial consumers. Nabarangpur houses several rice mills, cashew processing units, and small-scale industries that depend on a stable power supply. With this upgrade, businesses in the region can operate more efficiently without disruptions. Shudhanshu Sekhar Parida, a resident of Nabarangpur, expressed his appreciation for the initiative, saying, "Electricity services in Nabarangpur are already good, and this upgrade will further enhance power reliability. It's great to see TPSODL taking steps to improve supply during summer."

Synopsis: In a major step towards enhancing power reliability during the peak summer season, TP Southern Odisha Distribution Limited (TPSODL) has upgraded a 5 MVA transformer to a 10 MVA transformer at the Nabarangpur Primary Sub-Station (PSS). With this upgrade, the substation is now equipped with an 8 MVA transformer and the newly installed 10 MVA transformer, increasing its total capacity from 13 MVA to 18 MVA. This enhancement will ensure a stable and quality power supply to over 14,000 consumers in Nabarangpur city and surrounding areas.

Recognizing the increasing demand for electricity during summer, TPSODL has proactively strengthened its infrastructure to provide uninterrupted and reliable power to both residential and industrial consumers. Nabarangpur houses several rice mills, cashew processing units, and small-scale industries that depend on a stable power supply. With this upgrade, businesses in the region can operate more efficiently without disruptions.

Shudhanshu Sekhar Parida, a resident of Nabarangpur, expressed his appreciation for the initiative, saying, "Electricity services in Nabarangpur are already good, and this upgrade will further enhance power reliability. It's great to see TPSODL taking steps to improve supply during summer."

TPSODL issues summer safety advisory

STATESMAN NEWS SERVICE
BERHAMPUR, 24 APRIL:

As temperatures continue to rise across Southern Odisha, TP Southern Odisha Distribution Limited (TPSODL) has issued a comprehensive Summer Safety Advisory to help citizens safeguard themselves from heat-related illnesses and potential electrical hazards.

In anticipation of the summer demand, TPSODL has enhanced its operational readiness such as strengthening of power infrastructure to handle increased load,

deployment of quick response teams for faster resolution of power-related issues, regular inspection and maintenance of transformers and substations.

It has also issued a Do's and Don'ts to ensure personal well-being and electrical safety advising people to drink plenty of water, wear light loose fitting cotton clothes, use fan, AC and coolers efficiently, switch off electrical appliances when not in use, maintain a safe distance from electrical infrastructure etc.

It has appealed to people

to avoid stepping out during peak hours, not to touch electrical equipment with wet hands, not to overload electrical sockets.

Amit Kumar Garg, CEO, TPSODL, said, "Our aim is to ensure public safety through timely information and awareness. With rising temperatures, it becomes essential for every individual to take precautions. Let us stay healthy, alert, and support each other through this extreme weather. TPSODL remains committed to delivering safe and reliable electricity to every household."

TPSODL issues summer safety advisory amid rising heat in southern Odisha

PBD BUREAU

BERHAMPUR, APR 23

WITH soaring temperatures across southern Odisha, TP Southern Odisha Distribution Limited (TPSODL) has issued a Summer Safety Advisory, urging residents to protect themselves from heat-related illnesses and electrical hazards.

To meet rising demand and ensure uninterrupted power supply, TPSODL has strengthened its power infrastructure, deployed quick response teams, and intensified maintenance of transformers and substations. The utility emphasizes the importance of public cooperation in preventing risks during the heatwave.

TPSODL advises people to

stay hydrated, wear light clothing, use appliances efficiently, and avoid stepping out during

peak heat hours. Citizens are also urged to keep a safe distance from electrical installations and to report faults immediately.

“We aim to ensure public safety through timely awareness,” said Amit Kumar Garg, CEO of TPSODL. The company remains on high alert and encourages consumers to stay informed through official channels or contact helplines 1912 and 18002026 for emergencies.

TPSODL Issues Summer Safety Advisory: Urges Public to Stay Safe from Heat and Electrical Risks

Berhampur, (correspondent): As temperatures continue to rise across Southern Odisha, TP Southern Odisha Distribution Limited (TPSODL) has issued a comprehensive Summer Safety Advisory to help citizens safeguard themselves from heat-related illnesses and potential electrical hazards.

The region is currently witnessing intense summer conditions, making it imperative for in-

dividuals and families to remain vigilant, adopt healthy habits, and follow safety protocols. While TPSODL has taken several proactive measures to strengthen its

distribution network and ensure uninterrupted power supply, public awareness and cooperation are crucial in minimizing risks during this high-temperature season.

तेजी से बढ़ती तपिश को देखते हुए टीपीएस ओडीएल ने जारी की समर सेफ्टी एडवाइजरी

भुवनेश्वर: दक्षिण ओडिशा में तापमान में लगातार हो रही वृद्धि के बीच, टीपी साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने नागरिकों की सुरक्षा के लिए एक समर सेफ्टी एडवाइजरी जारी की है। इसका उद्देश्य लोगों को गर्मी से संबंधित बीमारियों और संभावित विद्युत खतरों से बचाव के लिए सावक करना है। टीपीएसओडीएल ने गर्मियों के दौरान बिजली की मांग को

उठाए गए प्रमुख कदमों में शामिल हैं:-

- | | | |
|--|---|--|
| • बिजली आपूर्ति लांचे को सख्त बनाया | • हल्के और सूती कपड़े पहने | बाहर न निकले |
| • त्वरित प्रतिक्रिया दलों की तैनाती | • पखे, एसी और कूलर का संतुलित उपयोग करें | • गीले हाथों या नंगे पांव बिजली के उपकरणों को न छुएं |
| • ट्रांसफॉर्मर और सब स्टेशनों का नियमित निरीक्षण और रखरखाव | • बिजली के उपकरणों को उपयोग न होने पर बंद करें | • अत्यधिक गर्मी में भारी शारीरिक परिश्रम से बचें |
| • जन जागरूकता अभियान के माध्यम से सुरक्षा उपायों की जानकारी देना | • ट्रांसफॉर्मर, बिजली के खंभों और सबस्टेशनों से दूरी बनाकर रखें | • एक ही स्किट में कई उच्च क्षमता वाले उपकरण न जोड़ें |
| • दिनभर पानी पीते रहें और हाइड्रेटेड रहें | • धूप में बाहर जले समय छांटा, टोपी और सनमा लगाएं | • चक्कर आना, उल्टी आना या मिरदर्द जैसे लक्षण दिखें तो तुरंत चिकित्सकीय सहायता लें। |
| | • दोपहर के अत्यधिक गर्म समय में | |

देखते हुए अपनी तैयारी को मजबूत किया है। टीपीएसओडीएल के सीईओ अमित कुमार वर्मा ने कहा, हमारा लक्ष्य समय पर सूचना और जागरूकता के माध्यम से जन सुरक्षा सुनिश्चित करना है। इस गर्मी में सभी को सावधानी बरतनी चाहिए और एक-दूसरे का सहयोग करना चाहिए। टीपीएसओडीएल स्थिति पर लगातार नजर बनाए हुए हैं और किसी भी अचानक स्थिति से निपटने के लिए तैयार हैं। नागरिकों से अनुरोध है कि वे आधिकारिक स्रोतों से अपडेट लेते रहें और किसी भी विद्युत समस्या की सूचना तुरंत हेल्पलाइन नंबर 1912 या 18002026 पर दें।

Synopsis: As temperatures continue to rise across Southern Odisha, TP Southern Odisha Distribution Limited (TPSODL) has issued a comprehensive Summer Safety Advisory to help citizens protect themselves from heat-related illnesses and potential electrical hazards. With the region experiencing intense summer conditions, TPSODL emphasizes the importance of staying vigilant, adopting healthy habits, and following essential safety protocols. While the company has proactively strengthened its power distribution network to ensure uninterrupted electricity supply, it also underscores the need for public cooperation to minimize risks during this high-temperature season.

To meet the surge in summer demand, TPSODL has taken several proactive steps, including strengthening its power infrastructure, deploying quick response teams for faster issue resolution, and conducting regular inspections and maintenance of transformers and substations. Additionally, the company has intensified public outreach efforts to spread awareness on summer safety through multiple channels.

As part of its advisory, TPSODL has shared a list of Do's and Don'ts to help residents ensure their well-being and electrical safety. Citizens are urged to stay hydrated, wear light cotton clothes, use cooling appliances efficiently, switch off electrical devices when not in use, and maintain a safe distance from electrical infrastructure. The use of hats, umbrellas, and sunglasses is also recommended to reduce sun exposure. On the other hand, people are advised to avoid going out during peak heat hours, refrain from touching electrical equipment with wet hands or while barefoot, and avoid heavy physical exertion in extreme heat. Overloading electrical sockets should also be avoided, and symptoms of heatstroke like dizziness, nausea, or severe headaches should not be ignored—medical help must be sought immediately.

Commenting on the initiative, Mr. Amit Kumar Garg, CEO of TPSODL, stated, "Our aim is to ensure public safety through timely information and awareness. With rising temperatures, it becomes essential for every individual to take precautions. Let us stay healthy, alert, and support each other through this extreme weather. TPSODL remains committed to delivering safe and reliable electricity to every household."

Synopsis: As temperatures continue to rise across Southern Odisha, TP Southern Odisha Distribution Limited (TPSODL) has issued a comprehensive Summer Safety Advisory to help citizens protect themselves from heat-related illnesses and potential electrical hazards. With the region experiencing intense summer conditions, TPSODL emphasizes the importance of staying vigilant, adopting healthy habits, and following essential safety protocols. While the company has proactively strengthened its power distribution network to ensure uninterrupted electricity supply, it also underscores the need for public cooperation to minimize risks during this high-temperature season.

To meet the surge in summer demand, TPSODL has taken several proactive steps, including strengthening its power infrastructure, deploying quick response teams for faster issue resolution, and conducting regular inspections and maintenance of transformers and substations. Additionally, the company has intensified public outreach efforts to spread awareness on summer safety through multiple channels.

As part of its advisory, TPSODL has shared a list of Do's and Don'ts to help residents ensure their well-being and electrical safety. Citizens are urged to stay hydrated, wear light cotton clothes, use cooling appliances efficiently, switch off electrical devices when not in use, and maintain a safe distance from electrical infrastructure. The use of hats, umbrellas, and sunglasses is also recommended to reduce sun exposure. On the other hand, people are advised to avoid going out during peak heat hours, refrain from touching electrical equipment with wet hands or while barefoot, and avoid heavy physical exertion in extreme heat. Overloading electrical sockets should also be avoided, and symptoms of heatstroke like dizziness, nausea, or severe headaches should not be ignored—medical help must be sought immediately.

Commenting on the initiative, Mr. Amit Kumar Garg, CEO of TPSODL, stated, "Our aim is to ensure public safety through timely information and awareness. With rising temperatures, it becomes essential for every individual to take precautions. Let us stay healthy, alert, and support each other through this extreme weather. TPSODL remains committed to delivering safe and reliable electricity to every household."

Synopsis: Synopsis: As temperatures continue to rise across Southern Odisha, TP Southern Odisha Distribution Limited (TPSODL) has issued a comprehensive Summer Safety Advisory to help citizens protect themselves from heat-related illnesses and potential electrical hazards. With the region experiencing intense summer conditions, TPSODL emphasizes the importance of staying vigilant, adopting healthy habits, and following essential safety protocols. While the company has proactively strengthened its power distribution network to ensure uninterrupted electricity supply, it also underscores the need for public cooperation to minimize risks during this high-temperature season. To meet the surge in summer demand, TPSODL has taken several proactive steps, including strengthening its power infrastructure, deploying quick response teams for faster issue resolution, and conducting regular inspections and maintenance of transformers and substations. Additionally, the company has intensified public outreach efforts to spread awareness on summer safety through multiple channels.

Commenting on the initiative, Mr. Amit Kumar Garg, CEO of TPSODL, stated, "Our aim is to ensure public safety through timely information and awareness. With rising temperatures, it becomes essential for every individual to take precautions. Let us stay healthy, alert, and support each other through this extreme weather. TPSODL remains committed to delivering safe and reliable electricity to every household."

TPSODL celebrates Innovation Day

STATESMAN NEWS SERVICE
BERHAMPUR, 29 APRIL:

TP Southern Odisha Distribution Limited (TPSODL) celebrated Innovation Day 2025 at its corporate office on the occasion of World Creativity and Innovation Day. The event, themed “T&D Innovation Carnival,” was inaugurated by CEO Mr. Amit Kumar Garg along with the senior leadership team.

The celebration showcased a variety of innovative projects developed by different departments, including Network Engineering and Planning (NEP), Plant Engineering, Safety, Operations, Technology, and Commercial. It created a platform for employees to share creative ideas that can bring real change to the power sector.

The carnival included exhibitions, interactive discussions, and panel sessions

that encouraged a culture of innovation, teamwork, and continuous improvement across the organization. Employees presented new concepts and practical solutions that focus on improving the quality of power supply and consumer service.

Some of the key innovation projects showcased in the exhibition include smart automation controllers, improved use of SCADA systems, Low Tension (LT) automation, and new protection mechanisms to avoid power disruptions.

Mr. Amit Kumar Garg, CEO of TPSODL, said, “Innovation is at the heart of everything we do at TPSODL. It helps us grow and deliver better services to our consumers. I am proud of our team for their creativity and dedication in finding new ways to improve the power sector”.

TPSODL celebrates Innovation Day 2025 with focus on smart power solutions

PBD BUREAU

BERHAMPUR, APR 29

TP Southern Odisha Distribution Limited (TPSODL) marked Innovation Day 2025 with energy and enthusiasm at its corporate office, celebrating World Creativity and Innovation Day under the theme "T&D Innovation Carnival."

CEO Amit Kumar Garg, along with senior leadership, inaugurated the event.

The celebration spotlighted innovative projects from departments including Network Engineering, Plant Engineering, Safety,

Operations, and Technology. Employees showcased smart solutions aimed at enhancing power quality, reliability, and customer service.

Highlights included smart automation controllers, advanced SCADA integration, LT automation, and improved protection systems — all designed to reduce outages and improve operational efficiency. The event featured exhibi-

tions, discussions, and panel sessions promoting a culture of creativity and collaboration.

TPSODL stands as Odisha's first utility to implement SCADA-enabled Area Power System Control Centers (APSCCs) across all circles, enabling real-time power monitoring. Integration of GIS, ADMS, and drone technology is further streamlining service delivery.

"Innovation is at the core of our mission," said CEO Amit Kumar Garg. "These efforts reflect our commitment to building a smarter, more reliable energy future for all," he added.

Synopsis: Promoting a culture of creativity, collaboration, and continuous innovation, TP Southern Odisha Distribution Limited (TPSODL) celebrated Innovation Day 2025 with great enthusiasm at its corporate office on the occasion of World Creativity and Innovation Day. The event, themed “T&D Innovation Carnival,” was inaugurated by CEO Mr. Amit Kumar Garg along with the senior leadership team.

The celebration showcased a variety of innovative projects developed by different departments, including Network Engineering and Planning (NEP), Plant Engineering, Safety, Operations, Technology, and Commercial. It created a platform for employees to share creative ideas that can bring real change to the power sector.

The carnival included exhibitions, interactive discussions, and panel sessions that encouraged a culture of innovation, teamwork, and continuous improvement across the organization. Employees presented new concepts and practical solutions that focus on improving the quality of power supply and consumer service.

TPSODL gears up for 'kalabaisakhi' season

STATESMAN NEWS SERVICE
BERHAMPUR, 30 APRIL:

With the Kalabaisakhi season and severe heatwave conditions looming over Southern Odisha, TP Southern Odisha Distribution Limited (TPSODL) has stepped up its preparedness to ensure uninterrupted power supply and minimize storm-related disruptions.

Over the past year, the company has focused on strengthening infrastructure, optimizing resource deployment, and improving coordination with emergency services—all to serve its consumers better during challenging weather conditions, said a release issued by the discom.

During FY 2024, TPSODL reported 996 instances of Kalabaisakhi across its operational area, while the number was 662 in FY 2025. To manage such weather-induced challenges efficiently, TPSODL has mobilized over 5,900 ground staff, armed with

essential tools and safety gear, to carry out restoration activities swiftly. Additionally, 800 personnel are on standby for deployment during exigencies. The company has also established close coordination with the Odisha Disaster Rapid Action Force (ODRAF) and local administrative bodies to ensure timely movement of materials, especially in difficult and hilly terrains.

Mobile sub stations, emergency response teams, stock etc have been kept ready. To fortify the network against high-speed winds, 4,490 interposing poles have been

installed at vulnerable locations, reinforcing line stability.

Mr. Amit Kumar Garg, CEO – TPSODL, said: “Our commitment to the people of Odisha goes beyond just delivering power – it’s about ensuring their safety and peace of mind, especially during adverse weather conditions. With strategic investments in infrastructure, manpower, and technology, we are fully prepared to handle the Kalabaisakhi season. Our teams are on high alert and ready to act at a moment’s notice.”

TPSODL Gears Up for Kalabaisakhi Season

Berhampur, (DMC): With the Kalabaisakhi season and severe heatwave conditions looming over Southern Odisha, TP Southern Odisha Distribution Limited (TPSODL) has stepped up its preparedness to ensure uninterrupted power supply and minimize storm-related disruptions.

Over the past year, the company has focused on strengthening infrastructure, optimizing resource deployment, and improving coordination with emergency services - all to serve its consumers better during challenging weather conditions. During FY 2024, TPSODL reported 996 instances of Kalabaisakhi across its operational area, while the number was 662 in FY 2025. To manage such weather-induced challenges efficiently, TPSODL has mobilized over 5,900 ground staff, armed with essential tools and safety gear, to carry out

restoration activities swiftly. Additionally, 800 personnel are on standby for deployment during exigencies. The company has also established close coordination with the Odisha Disaster Rapid Action Force (ODRAF) and local administrative bodies to ensure timely movement of materials, especially in difficult and hilly terrains.

As part of its robust response strategy, TPSODL has deployed 6 Mobile Sub Stations in each circle. Emergency response teams equipped with 25 ASKA lights and 19 DG sets have been formed to act swiftly during outages. Based on alerts received, emergency control rooms are activated at the division level to ensure seamless coordination and immediate action. Material preparedness has been another key focus. In addition to the five main stores, TPSODL has created 16 transient stores across

strategic locations. Emergency stocks like poles, conductors, transformers, LT AB cables and hardware are maintained at the section level, ensuring quick accessibility.

A cable fault locator has also been deployed to detect underground faults in 33kV and 11kV lines. Separate agencies have been assigned to carry out tree trimming and cutting operations to prevent power

supply interruptions caused by falling trees or branches during storms. To fortify the network against high-speed winds, 4,000 interposing poles have been installed at vulnerable locations, reinforcing line stability.

The company's 24x7 Centralized Power System Control Centre in Berhampur further adds to its readiness by enabling round-the-clock monitoring, early fault detection,

and prompt action to maintain supply continuity. Commenting on the preparedness, Mr. Amit Kumar Garg, CEO - TPSODL, said: "Our commitment to the people of Odisha goes beyond just delivering power - it's about ensuring their safety and peace of mind, especially during adverse weather conditions. With strategic investments in infrastructure, manpower, and technology, we are fully prepared to handle the Kalabaisakhi season."

Our teams are on high alert and ready to act at a moment's notice." TPSODL's all-round preparedness reflects its dedication to reliable service delivery and consumer safety. With a strong foundation in place and an alert team on the ground, the company is poised to face the Kalabaisakhi season with confidence, ensuring that Southern Odisha stays connected, safe, and secure.

टीपीएसओडीएल ने काला बैसाखी से निपटने के लिए की व्यापक तैयारी

जागरण संवाददाता, भुवनेश्वर : दक्षिण ओडिशा में भीषण गर्मी की लहर के मद्देनजर, टीपी दक्षिणी ओडिशा वितरण लिमिटेड (टीपीएसओडीएल) विश्वसनीय बिजली आपूर्ति सुनिश्चित करने और तूफान के कारण होने वाले व्यवधान को कम करने के लिए काम कर रहा है। पिछले एक साल में, कंपनी ने बुनियादी ढांचे को मजबूत करने, संसाधन तैनाती को अनुकूलित करने और आपातकालीन सेवाओं में सुधार करने पर ध्यान केंद्रित किया है। ताकि विपरीत मौसम में भी उपभोक्ताओं को बेहतर बिजली सेवा दी जा सके।

एफवाई 24 में, टीपीएसओडीएल के अधिकार क्षेत्र के अंतर्गत आने वाले क्षेत्र में 996 कालाबैसाखी तूफान थे, जबकि एफवाई 25 में, यह संख्या 662 थी। ऐसी मौसम चुनौतियों को कुशलतापूर्वक प्रबंधित करने के लिए, टीपीएसओडीएल ने आवश्यक उपकरणों और सुरक्षा उपकरणों के साथ 5900 से अधिक ग्राउंड स्टाफ तैनात करके बहाली के काम में तेजी लाई है। इसके अलावा आपात स्थिति में तैनाती के लिए 800 कर्मियों को स्टैंडबाय पर रखा गया है। कंपनी ओडिशा डिजास्टर रैपिड एक्शन फोर्स

- राज्य में 5900 से अधिक ग्राउंड स्टाफ और 800 स्टैंडबाय स्टाफ तैनात
- त्वरित कार्रवाई के लिए ओडीआरएफ और स्थानीय प्रशासन के साथ साझेदारी

(ओडीआरएफ) और स्थानीय प्रशासन के साथ समन्वय में काम कर रही है, ताकि विशेष रूप से दूरदराज और पहाड़ी क्षेत्रों में सामानों की समय पर आवाजाही सुनिश्चित की जा सके।

अपनी मजबूत प्रतिक्रिया रणनीति के हिस्से के रूप में, टीपीएसओडीएल ने प्रत्येक सर्कल में छह मोबाइल सबस्टेशन स्थापित किए हैं। बिजली कटौती के दौरान त्वरित कार्रवाई करने के लिए 25

अस्का लाइट और 19 डीजी सेट के साथ आपातकालीन प्रतिक्रिया दल बनाए गए हैं। प्राप्त अलर्ट के आधार पर, डिवीजन स्तर पर आपातकालीन नियंत्रण कक्ष सक्रिय कर दिए गए हैं और तत्काल कार्रवाई की जा रही है। टीपीएसओडीएल के मुख्य कार्यकारी अधिकारी अमित कुमार गर्ग ने कहा कि ओडिशा के लोगों के प्रति हमारी प्रतिबद्धता केवल बिजली आपूर्ति तक ही सीमित नहीं है, बल्कि हम उनकी सुरक्षा और शांति सुनिश्चित करने पर ध्यान केंद्रित करते हैं, खासकर प्रतिकूल मौसम की स्थिति में।

बुनियादी ढांचे, मानव संसाधन और प्रौद्योगिकी में निवेश के साथ, हम कालाबैसाखी से निपटने के लिए पूरी तरह से तैयार हैं। हमारी टीम हाई अलर्ट पर है और तत्काल कार्रवाई करने के लिए तैयार है। टीपीएसओडीएल की यह व्यापक तत्परता विश्वसनीय सेवाएं प्रदान करने और उपभोक्ताओं की सुरक्षा के प्रति इसकी प्रतिबद्धता को दर्शाती है। एक मजबूत बुनियादी ढांचे और जमीनी टीमों की तैनाती के साथ, कंपनी दक्षिण ओडिशा में सुरक्षित बिजली आपूर्ति के लिए कालाबैसाखी से निपटने के लिए आत्मविश्वास से तैयार है।

टीपी साउथर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड ने काल बैसाखी सीजन के लिए तैयारियां तेज की

नवभारत ज्युनो । भुवनेश्वर।

साउथर्न ओडिशा में काल बैसाखी लूटान और भीषण गर्मी के मौसम के मद्देनजर, टीपी साउथर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने निर्यात विद्युत आपूर्ति सुनिश्चित करने और लूटान से संबंधित व्यवधानों को कम करने के लिए अपनी तैयारियों को बढ़ा दिया है। वर्ष 2024 में टीपीएसओडीएल ने 996 काल बैसाखी घटनाओं को सूचना दी थी, जबकि 2025 में यह संख्या घटकर 662 हो गई है। इस मौसम की चुनौतियों से निपटने के लिए कंपनी ने 3,900 से अधिक छांटेंड स्टॉक को तैयार किया है, जो आवश्यक सुआ उपकरणों और ओवरों से लैस हैं। इसके अलावा, 800 कमी अग्राउंडिंग सिम्टर में तैयारी के

लिए तैयार हैं। राज्य भर में लचील कार्रवाई कर और स्थायी प्रशासनिक निकायों के साथ पर्याप्त समन्वय भी स्थापित किया गया है ताकि विशेष रूप से गहरी इलाकों में समस्या के त्वरित परिपक्व को सुनिश्चित किया जा सके।

हाई वॉल्टेज हावाओं से सुरक्षा के लिए 4,490 इंटरमीडियट पोल्स को संकेतजाल

स्थानों पर स्थापित किया गया है, जिससे लूटान को नियंत्रित करने में मदद मिलेगी। कंपनी का केंद्रीय पावर सिस्टम कंट्रोल सेंटर बराकानपुर में स्थित है, जो आपूर्ति को निरंतरता बनाए रखने के लिए चौकसी घंटे निगरानी और त्वरित कार्रवाई सुनिश्चित करता है।

टीपी साउथर्न ओडिशा डिस्ट्रीब्यूशन

मुख्य तैयारियों में शामिल हैं

- इलेक्ट्रिक सर्किल में 4 मेगाला पावर-ट्रेसरी को तैयार।
- 25 अग्राउंडिंग और 19 डीसी सिस्टम से लैस अग्राउंडिंग टैपों का पड़ना।
- 16 तकनीकी स्थानों पर अग्राउंडिंग स्टॉक बनाने पर हैं, ताकि मापों को त्वरित उपलब्धता सुनिश्चित हो सके।
- 33केपी और 11केपी लूटान में भूमिगत ट्रेनों का पता लगाने के लिए केमल प्रोटेक्ट लैबोरेटरी को तैयार।
- पेडो और सफाई के लिए से होने वाले विद्युत आपूर्ति में विषय को ठीक करने के लिए अलग-अलग एजेंसियों को पेटु-कारने और खंडों के कार्य सौंपे गए हैं।

लिमिटेड के सीईओ अमित कुमार गार्ग ने कहा, हमारा संकल्प केवल विद्युत आपूर्ति तक सीमित नहीं है, बल्कि यह ओडिशा के लोगों की सुरक्षा और खर्च सुनिश्चित करने के लिए है, विशेष रूप से प्रतिकूल मौसम परिस्थितियों में। हमने सुनिश्चित करने, मानव संसाधन और प्रौद्योगिकी में तकनीक निवेश किया है, ताकि हम काल बैसाखी सीजन का सामना पूरी तरह से तैयार हों। हमारी टीम पूरी तरह से सतर्क है और किसी भी स्थिति में तुरंत कार्रवाई करने के लिए तैयार है। (टीपीएसओडीएल) को इस तैयारी के साथ साउथर्न ओडिशा को सुरक्षित, मुश्किल और जुड़ा हुआ रखने के लिए कंपनी पूरी तरह से अग्रसर है।

Synopsis: TP Southern Odisha Distribution Limited (TPSODL) has stepped up its preparedness to ensure uninterrupted power supply and minimize storm-related disruptions. Over the past year, the company has focused on strengthening infrastructure, optimizing resource deployment, and improving coordination with emergency services — all to serve its consumers better during challenging weather conditions. During FY 2024, TPSODL reported 996 instances of Kalabaisakhi across its operational area, while the number was 662 in FY 2025. To manage such weather-induced challenges efficiently, TPSODL has mobilized over 5,900 ground staff, armed with essential tools and safety gear, to carry out restoration activities swiftly. Additionally, 800 personnel are on standby for deployment during exigencies. The company has also established close coordination with the Odisha Disaster Rapid Action Force (ODRAF) and local administrative bodies to ensure timely movement of materials, especially in difficult and hilly terrains. Commenting on the preparedness, Mr. Amit Kumar Garg, CEO – TPSODL, said: "Our commitment to the people of Odisha goes beyond just delivering power – it's about ensuring their safety and peace of mind, especially during adverse weather conditions. With strategic investments in infrastructure, manpower, and technology, we are fully prepared to handle the Kalabaisakhi season. Our teams are on high alert and ready to act at a moment's notice." TPSODL's all-round preparedness reflects its dedication to reliable service delivery and consumer safety. With a strong foundation in place and an alert team on the ground, the company is poised to face the Kalabaisakhi season with confidence, ensuring that Southern Odisha stays connected, safe, and secure.

Synopsis: TP Southern Odisha Distribution Limited (TPSODL) has stepped up its preparedness to ensure uninterrupted power supply and minimize storm-related disruptions. Over the past year, the company has focused on strengthening infrastructure, optimizing resource deployment, and improving coordination with emergency services — all to serve its consumers better during challenging weather conditions. During FY 2024, TPSODL reported 996 instances of Kalabaisakhi across its operational area, while the number was 662 in FY 2025. To manage such weather-induced challenges efficiently, TPSODL has mobilized over 5,900 ground staff, armed with essential tools and safety gear, to carry out restoration activities swiftly. Additionally, 800 personnel are on standby for deployment during exigencies. The company has also established close coordination with the Odisha Disaster Rapid Action Force (ODRAF) and local administrative bodies to ensure timely movement of materials, especially in difficult and hilly terrains. Commenting on the preparedness, Mr. Amit Kumar Garg, CEO – TPSODL, said: “Our commitment to the people of Odisha goes beyond just delivering power – it’s about ensuring their safety and peace of mind, especially during adverse weather conditions. With strategic investments in infrastructure, manpower, and technology, we are fully prepared to handle the Kalabaisakhi season. Our teams are on high alert and ready to act at a moment’s notice.” TPSODL’s all-round preparedness reflects its dedication to reliable service delivery and consumer safety. With a strong foundation in place and an alert team on the ground, the company is poised to face the Kalabaisakhi season with confidence, ensuring that Southern Odisha stays connected, safe, and secure.
