TPSODL launches Hands-On Technical Training Centre in Phulbani

PBD BUREAU

BERHAMPUR, AUG 2

TP Southern Odisha Distribution Limited (TPSODL) inaugurated a state-of-the-art Hands-On Technical Training Centre (HoTT) in Phulbani, Kandhamal district, to strengthen safety and skill development.

The centre was unveiled by TPSODL CEO Amit Kumar Garg and Tata Power’s Chief Safety Officer Suresh Kumar Khetwani in the presence of senior officials.

Part of the TPSODL Safety and Skill Development Institute, the HoTT Centre offers immersive, practical training in simulated Low

Tension (LT) and High Tension (HT) networks. It serves employees from Phulbani, Bhanjanagar, and Boudh, focusing on

hands-on learning in RMU operations, sectionalizer handling, earthing, and insulation testing.

CEO Garg emphasized, “Safety is a culture at TPSODL. This centre equips our workforce with the skills and confidence to work safely and efficiently, supporting our mission of zero harm.”

The facility also promotes safety awareness through visual aids and wall paintings, reinforcing best practices across the campus.

Synopsis: Reinforcing its commitment to safety and skill enhancement, TPSODL inaugurated a cutting-edge Hands-On Technical Training Centre (HoTT) in Phulbani in Kandhamal district. The facility was officially unveiled by Mr. Amit Kumar Garg, CEO, TPSODL and Mr. Suresh Kumar Khetwani, Chief Safety, T&D, Tata Power, in the presence of senior officials and employees. The HoTT Centre, an initiative under the TPSODL Safety and Skill Development Institute (TSSDI), is a significant step toward achieving the company’s “Mission Zero Harm” while nurturing technical excellence among its workforce. Designed to train employees across Phulbani, Bhanjanagar, and Boudh, the centre offers an immersive learning experience that blends theory with hands-on practice in a simulated work environment. Speaking on the occasion, TPSODL CEO Mr. Amit Kumar Garg said, "Safety is not just a protocol, it is a culture we are embedding across every level of TPSODL. The HoTT Centre is a transformative step in empowering our employees with the knowledge, practical experience, and confidence to operate safely and efficiently. Our vision is to create a future-ready workforce that not only excels technically but upholds the highest safety standards in the power distribution sector."

Synopsis: Reinforcing its commitment to safety and skill enhancement, TPSODL inaugurated a cutting-edge Hands-On Technical Training Centre (HoTT) in Phulbani in Kandhamal district. The facility was officially unveiled by Mr. Amit Kumar Garg, CEO, TPSODL and Mr. Suresh Kumar Khetwani, Chief Safety, T&D, Tata Power, in the presence of senior officials and employees. The HoTT Centre, an initiative under the TPSODL Safety and Skill Development Institute (TSSDI), is a significant step toward achieving the company’s “Mission Zero Harm” while nurturing technical excellence among its workforce. Designed to train employees across Phulbani, Bhanjanagar, and Boudh, the centre offers an immersive learning experience that blends theory with hands-on practice in a simulated work environment.

Speaking on the occasion, TPSODL CEO Mr. Amit Kumar Garg said, "Safety is not just a protocol, it is a culture we are embedding across every level of TPSODL. The HoTT Centre is a transformative step in empowering our employees with the knowledge, practical experience, and confidence to operate safely and efficiently. Our vision is to create a future-ready workforce that not only excels technically but upholds the highest safety standards in the power distribution sector."

Drones monitor fault detection under TPSODL

PHOTO COURTESY OF TPSODL

Berhampur, August 5: TP Southern Odisha Distribution Limited (TPSODL) has expanded its drone-based survey and inspection services to Rayagada and Jeypore circles, in a move aimed at enhancing power distribution reliability and customer service, an official said.

The total area of Jeypore and Rayagada circles is 31,195 sq km, covering the districts of Koraput, Malkangiri, Nabarangpur, Rayagada, and Gajapati.

"The move is a broader strategy to integrate smart technologies into operations, particularly in geographically challenging and remote areas of southern Odisha. The drone operations, managed under the supervision of the trained employees, are being conducted

at flight heights ranging from 30 to 80 metres, with an operational range extending up to 2km depending on elevation," the official said. The advanced drones used in the power distribution operation are equipped with high-resolution cameras and GPS systems, enabling real-time aerial surveillance of the electrical network.

"The objective of drone deployment is to capture detailed

imagery of critical installations and map the distribution network from the bird's eye view, thereby aiding precise documentation and efficient planning," he said.

Through this initiative, TPSODL aims to continuously monitor its infrastructure, including 33 kV and 11 kV feeders, transformers, and poles, across challenging hill terrains where conventional inspection

methods are often time-consuming and difficult.

The GPS-enabled drones also facilitate faster detection of faults and damages, which will prompt proactive steps, allowing the central command centre to coordinate timely responses during major breakdowns. This not only minimises downtime but also significantly improves the reliability of supply and overall customer satisfaction, he said.

"The expansion of drone surveillance to Rayagada and Jeypore reflects our commitment to innovation and service reliability. In areas where physical access is limited, drones offer a smart, safe, and time-efficient solution. This is another step towards building a smarter, more responsive distribution network in southern Odisha," TPSODL CEO Amit Kumar Garg said.

Flying Towards Smart Distribution: TPSODL's Drone Initiative in Remote Odisha

Behampur/Correspondent: In a significant technological leap aimed at enhancing power distribution reliability and customer service, TP Southern Odisha Distribution Limited (TPSODL) has expanded its drone-based survey and inspection services to the Rayagada and Jeypore circles. The total area combining Jeypore and Rayagada circles is 31,195 square kilometers, covering the districts of Koraput, Malkangiri, Nabarangpur, Rayagada, and Gajapati. This move is part of TPSODL's

broader strategy to integrate smart technologies into its operations, particularly in geographically challenging and remote areas of Southern Odisha. The drone

operations, managed under the supervision of the Trained employees, are being conducted at flight heights ranging from 30 to 80 meters above ground, with an operational range

extending up to 2 kilometers depending on elevation. These advanced drones are equipped with high-resolution cameras and GPS systems, enabling real-time aerial surveillance of the electrical network. The primary goal of the drone deployment is to capture detailed imagery of critical installations and map the distribution network from a bird's eye view, thereby aiding precise documentation and efficient planning. Through this initiative, TPSODL aims to continuously monitor its infrastructure,

including 33 kV and 11 kV feeders, transformers, and poles, across challenging hill terrains where conventional inspection methods are often time-consuming and difficult. The GPS-enabled drones also facilitate faster detection of faults and damages which will pre-empt proactive steps, allowing the central command center to coordinate timely responses during major breakdowns. This not only minimizes downtime but also significantly improves the reliability of supply and overall customer satisfaction.

दक्षिण ओडिशा में बिजली निरीक्षण के लिए टीपीएस ओडीएल ने ड्रोन सेवा का विस्तार किया

भुवनेश्वर। दक्षिण ओडिशा में बिजली वितरण व्यवस्था को अधिक विश्वसनीय और ग्राहकों को बेहतर सेवा प्रदान करने के उद्देश्य से टीपी साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने अपने ड्रोन-आधारित सर्वेक्षण और निरीक्षण सेवाओं का विस्तार रायगड़ा और जयपुर सर्कल तक कर दिया है। इन दोनों सर्किलों का कुल क्षेत्रफल 31,195 वर्ग किलोमीटर है, जिसमें कोरापुट, मलकानगिरी, नबरंपुर, रायगड़ा और गजपति जिले शामिल हैं। कठिन भौगोलिक क्षेत्रों में बिजली नेटवर्क की निगरानी के लिए ये ड्रोन 30 से 80 मीटर ऊंचाई और 2 किलोमीटर तक की रेंज में उड़ान भरते हैं। उच्च-रिजॉल्यूशन कैमरे और जीपीएस सिस्टम से लैस ये ड्रोन रीयल-टाइम एरियल सविलांस करते हैं, जिससे 33 केवी और 11 केवी फीडर,

ट्रांसफार्मर और पोल जैसी महत्वपूर्ण संरचनाओं का विस्तृत नक्शा और सटीक दस्तावेज तैयार करना संभव हो पाता है। ड्रोन तकनीक के माध्यम से खराबियों और क्षति का तेजी से पता लगाया जा सकेगा, जिससे समय पर मरम्मत और बिजली आपूर्ति की विश्वसनीयता में सुधार होगा। प्राकृतिक आपदाओं या कलबैसाखी तूफानों के दौरान भी ये ड्रोन तेजी से क्षति

का आकलन कर आपदा प्रबंधन को और प्रभावी बनाएंगे। टीपीएसओडीएल के सीईओ अमित कुमार गर्ग ने कहा, हलरायगड़ा और जयपुर में ड्रोन सविलांस का विस्तार हमारी नवाचार और सेवा विश्वसनीयता के प्रति प्रतिबद्धता को दर्शाता है। दुर्गम इलाकों में ड्रोन निरीक्षण न केवल सुरक्षित है बल्कि समय की भी बचत करता है।

Synopsis: In a significant technological leap aimed at enhancing power distribution reliability and customer service, TPSODL has expanded its drone-based survey and inspection services to the Rayagada and Jeypore circles. The total area combining Jeypore and Rayagada circles is 31,195 square kilometers, covering the districts of Koraput, Malkangiri, Nabarangpur, Rayagada, and Gajapati.

Through this initiative, TPSODL aims to continuously monitor its infrastructure, including 33 kV and 11 kV feeders, transformers, and poles, across challenging hill terrains where conventional inspection methods are often time-consuming and difficult.

Mr. Amit Kumar Garg, CEO of TPSODL, stated, “The expansion of drone surveillance to Rayagada and Jeypore reflects our commitment to innovation and service reliability. In areas where physical access is limited, drones offer a smart, safe, and time-efficient solution. This is another step towards building a smarter, more responsive distribution network in Southern Odisha.”

TPSODL improves power supply in Malkangiri

PBD BUREAU

BERHAMPUR, AUG 10

TP Southern Odisha Distribution Limited (TPSODL) has strengthened power infrastructure in Malkangiri, enhancing reliability in this challenging region.

New distribution transformers (DTRs) have been installed in remote villages, including a 100 kVA DTR at MV-7 village and another along Parjaguda's nursery road. A 63 kVA DTR has also been added at Sadashivpur. These upgrades will benefit hundreds of residents, improving electricity access for households and businesses.

TPSODL CEO Amit Kumar Garg emphasized the company's commitment to resilient, inclusive electrification in Southern Odisha's border and rural areas.

Lighting Lives in the Hills: TPSODL Enhances Power Reliability in Malkangiri

Berhampur, correspondent): In a significant step towards empowering rural and interior regions of Southern Odisha, TP Southern Odisha Distribution Limited (TPSODL) has undertaken infrastructure upgrades in the Malkangiri district, one of the most geographically challenging terrains in the state. As part of its commitment to enhance power reliability and meet growing electricity demands, TPSODL has successfully installed distribution transformers (DTRs) in several remote villages in Malkangiri. A new 100 kVA DTR along with 11 kV and LT lines has been commissioned

at MV-7 village. Similarly, another 100 kVA distribution transformer is now operational along the nursery road in Parjaguda. Additionally, an extra 63 kVA DTR has been installed at Sadashivpur to further strengthen the local power distribution. Malkangiri, known for its rich tribal heritage, dense forests, and hilly terrain, poses logistical

and infrastructural challenges. Despite these hurdles, TPSODL continues efforts with a proactive and resilient approach to electrification, ensuring that even the most remote regions receive reliable electricity. These new installations are expected to benefit over hundreds of residents in these localities, improving

their quality of life through enhanced power supply for households and small businesses.

Commenting on this development, TPSODL CEO Mr. Amit Kumar Garg said, "We are undertaking focused and sustained efforts to enhance the resilience of the power infrastructure, particularly in the border and remote districts of Southern Odisha. These infrastructure upgrades are not only aimed at meeting the current load demands but are also laying the foundation for improved quality of life and inclusive development in the area."

मालकानगिरी के दूरदराज गांवों में टीपीएस ओडीएल ने बढ़ाई बिजली आपूर्ति की विश्वसनीयता

भुवनेश्वर। दक्षिण ओडिशा के दूरस्थ और दुर्गम क्षेत्रों में बिजली आपूर्ति को मजबूत बनाने के लिए टीपी सदरन ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने मलकानगिरी जिले में बड़े पैमाने पर बुनियादी ढांचे का उन्नयन किया है। इस पहल के तहत, एमवी-7 गांव में 100 केवीए का नया डिस्ट्रीब्यूशन ट्रांसफॉर्मर (डीटीआर) 11 केवी और एलटी लाइनों के साथ लगाया गया है। इसी तरह, परजागुड़ा के नर्सरी रोड पर 100 केवीए का एक और डीटीआर चालू किया गया है। इसके अलावा, सदाशिवपुर में 63 केवीए का अतिरिक्त डीटीआर लगाया गया है ताकि स्थानीय बिजली वितरण को और मजबूती मिल सके। घने जंगलों और पहाड़ी इलाकों के कारण मलकानगिरी में बिजली पहुंचाना एक चुनौतीपूर्ण कार्य रहा है, लेकिन टीपीएसओडीएल लगातार प्रयासरत है कि सबसे दूरदराज बस्तियों तक भी भरोसेमंद बिजली पहुंचे। इन नए इंस्टॉलेशन से

सैकड़ों ग्रामीणों को लाभ होगा, जिससे घरों और छोटे व्यवसायों में बिजली आपूर्ति की गुणवत्ता में सुधार होगा। टीपीएसओडीएल के सीईओ अमित कुमार गर्ग ने कहा, हम सीमावर्ती और दूरस्थ जिलों में बिजली ढांचे की मजबूती पर विशेष ध्यान दे रहे हैं। यह सुधार वर्तमान मांग को पूरा करने के साथ-साथ भविष्य में बेहतर जीवन गुणवत्ता और समावेशी विकास की नींव रखेगा। टीपीएसओडीएल ने दक्षिण ओडिशा के हर कोने में मजबूत बिजली नेटवर्क बनाने के अपने संकल्प को दोहराया है, ताकि प्रगति की रोशनी हर घर तक पहुंच सके।

Synopsis: In a significant step towards empowering rural and interior regions of Southern Odisha, TP Southern Odisha Distribution Limited (TPSODL) has undertaken infrastructure upgrades in the Malkangiri district, one of the most geographically challenging terrains in the state. As part of its commitment to enhance power reliability and meet growing electricity demands, TPSODL has successfully installed distribution transformers (DTRs) in several remote villages in Malkangiri. A new 100 kVA DTR along with 11 kV and LT lines has been commissioned at MV-7 village. Similarly, another 100 kVA distribution transformer is now operational along the nursery road in Parjaguda. Additionally, an extra 63 kVA DTR has been installed at Sadashivpur to further strengthen the local power distribution. Malkangiri, known for its rich tribal heritage, dense forests, and hilly terrain, poses logistical and infrastructural challenges. Despite these hurdles, TPSODL continues efforts with a proactive and resilient approach to electrification, ensuring that even the most remote regions receive reliable electricity. These new installations are expected to benefit over hundreds of residents in these localities, improving their quality of life through enhanced power supply for households and small businesses.

TPSODL ensures uninterrupted power to key strategic installations

PBD BUREAU

BERHAMPUR, AUG 13

TP Southern Odisha Distribution Limited (TPSODL), a joint venture between Tata Power and the Government of Odisha, is ensuring uninterrupted power supply to two of India's strategic installations – Hindustan Aeronautics Limited (HAL), Sunabeda, and Indian Rare Earths Limited (IREL), Chhatrapur.

HAL Sunabeda, which manufactures engines for Sukhoi fighter jets, receives electricity via a dedicated 132 kV metered line from TPSODL's Sunabeda Grid Substation. Similarly, IREL Chhatrapur, vital for pro-

cessing rare-earth elements used in nuclear energy and defence technologies, is powered through a 132 kV line from the Chhatrapur Grid Substation.

From April to June 2025, IREL recorded zero power interruptions, highlighting TPSODL's robust infrastructure and advanced systems like drone-based surveillance, automated fault detection, and rapid-response teams.

By powering these critical facilities, TPSODL plays a vital role in supporting India's defence production and technological self-reliance.

Tata Power led Southern Odisha DISCOM Proud to power India's Strategic Defence and Critical Rare Earth Mining Centres

B e r h a m p u r (Correspondent): Tata Power Led Southern Odisha DISCOM, TP Southern Odisha Distribution Limited (TPSODL), a joint venture between Tata Power and the Government of Odisha, is proud to ensure uninterrupted electricity supply to two of the nation's s t r a t e g i c installations. These include Hindustan Aeronautics Limited (HAL) Sunabeda under the Ministry of Defence, and Indian Rare Earths Limited (IREL) Chhatrapur under the Department of Atomic Energy. From April to

June 2025, IREL recorded zero power interruptions, a feat made possible by TPSODL's high-reliability infrastructure and precision grid management. HAL Sunabeda, the country's premier facility for manufacturing engines powering the Sukhoi fighter aircraft, receives supply

through a dedicated 132 kV metered line from the Sunabeda Grid Substation set up by TPSODL. Similarly, IREL Chhatrapur—India's strategic mineral processing plant producing rare-earth elements vital for nuclear energy, defence technologies, and advanced manufacturing—is powered through a 132 kV

metered line from the Chhatrapur Grid Substation installed and maintained by TPSODL. The role of the grid extends far beyond routine supply—it becomes pivotal during operational transitions, planned maintenance cycles, and auxiliary requirements, including township utilities and future expansion projects. TPSODL's deployment of advanced systems—automated fault detection, drone-based surveillance, real-time load monitoring, and rapid-response maintenance squads—ensures stability even under peak demands.

टीपीएसओडीएल : राष्ट्रीय सुरक्षा मजबूत करने में निर्बाध आपूर्ति का योगदान

जैसे, भूनेश्वर : टाटा पावर द्वारा संचालित दक्षिणी ओडिशा डिस्कम्प, टीपीएसओडीएल लिमिटेड (टीपीएसओडीएल), भारत के दो महत्वपूर्ण रणनीतिक संस्थानों को निर्बाध बिजली आपूर्ति करके राष्ट्रीय सुरक्षा और तकनीकी आत्मनिर्भरता में महत्वपूर्ण भूमिका निभा रहा है। यह कंपनी रक्षा मंत्रालय के अर्चीन इंद्रप्रस्थ एयरोनॉटिक्स लिमिटेड सुनाबेड़ा और परमाणु ऊर्जा विभाग के अंतर्गत इंडियन रीफर अर्चीन लिमिटेड उदुपूर को उच्च गुणवत्ता वाली सस्ता बिजली प्रदान कर रही है। एचएल सुनाबेड़ा, जहां सुखोई लड़ाकू विमानों के लिए इंजन तैयार होते हैं, को टीपीएसओडीएल द्वारा स्थापित सुनाबेड़ा थ्रिड सबस्टेशन से 132 केवी मोटरघुक्त समर्पित लाइन से बिजली मिलती है। वहीं आइआरएल उदुपूर, जो

देश का प्रमुख रासायनिक खनिज प्रसंस्करण संयंत्र है, को भी इसी प्रकार की बिजली सप्लाई की जा रही है। अप्रैल से जून 2025 के बीच आइआरएल ने राज्य बिजली खातखान का अनुभव किया, जो टीपीएसओडीएल के उच्चतम बुनियादी ढांचे और तकनीकी महारतों का परिणाम है। कंपनी ने स्वचालित टोक फ्लोअन प्रणाली, ऑन आधरित नियंत्रण और रीपल-टाइम लोड मॉनिटरिंग जैसी सुविधाएं लागू की हैं। भारत की रक्षा और प्रौद्योगिकियों में आत्मनिर्भरता को दिश में टीपीएसओडीएल का यह योगदान न केवल ऊर्जा आपूर्ति का उदाहरण है, बल्कि राष्ट्रीय सेवा का प्रतीक भी बन गया है।

Synopsis: Tata Power Led Southern Odisha DISCOM, TP Southern Odisha Distribution Limited (TPSODL), a joint venture between Tata Power and the Government of Odisha, is proud to ensure uninterrupted electricity supply to two of the nation's strategic installations. These include Hindustan Aeronautics Limited (HAL) Sunabeda under the Ministry of Defence, and Indian Rare Earths Limited (IREL) Chhatrapur under the Department of Atomic Energy. From April to June 2025, IREL recorded zero power interruptions, a feat made possible by TPSODL's high-reliability infrastructure and precision grid management. HAL Sunabeda, the country's premier facility for manufacturing engines powering the Sukhoi fighter aircraft, receives supply through a dedicated 132 kV metered line from the Sunabeda Grid Substation set up by TPSODL. Similarly, IREL Chhatrapur—India's strategic mineral processing plant producing rare-earth elements vital for nuclear energy, defence technologies, and advanced manufacturing—is powered through a 132 kV metered line from the Chhatrapur Grid Substation installed and maintained by TPSODL. As India advances towards greater self-reliance in defence and critical technologies, TPSODL's commitment to powering strategic installations stands as a benchmark in national service—ensuring that the lights seldom flicker at the country's most important frontiers of innovation and security.

Synopsis: Tata Power Led Southern Odisha DISCOM, TP Southern Odisha Distribution Limited (TPSODL), a joint venture between Tata Power and the Government of Odisha, is proud to ensure uninterrupted electricity supply to two of the nation’s strategic installations. These include Hindustan Aeronautics Limited (HAL) Sunabeda under the Ministry of Defence, and Indian Rare Earths Limited (IREL) Chhatrapur under the Department of Atomic Energy. From April to June 2025, IREL recorded zero power interruptions, a feat made possible by TPSODL’s high-reliability infrastructure and precision grid management. HAL Sunabeda, the country’s premier facility for manufacturing engines powering the Sukhoi fighter aircraft, receives supply through a dedicated 132 kV metered line from the Sunabeda Grid Substation set up by TPSODL. Similarly, IREL Chhatrapur—India’s strategic mineral processing plant producing rare-earth elements vital for nuclear energy, defence technologies, and advanced manufacturing—is powered through a 132 kV metered line from the Chhatrapur Grid Substation installed and maintained by TPSODL. As India advances towards greater self-reliance in defence and critical technologies, TPSODL’s commitment to powering strategic installations stands as a benchmark in national service—ensuring that the lights seldom flicker at the country’s most important frontiers of innovation and security.

TPSODL opens new offices & Vocational Training Centre in Ganjam

STATESMAN NEWS SERVICE
BERHAMPUR, 25 AUGUST:

TP Southern Odisha Distribution Limited (TPSODL), a joint venture between Tata Power and the Government of Odisha, inaugurated three new facilities. These include the newly constructed Aska Electrical Division-1 (AED-1) Office Building at Taluka Road, Aska; the Vocational Training Centre (VTC) for Welding at Samarjholi, Ganjam; and the Nuagam Electrical Section-1 Office at Aska.

The Aska AED-1 Division Office will act as a central hub for power services in Aska and nearby areas. The office has modern amenities, a consumer cash counter, and seating facilities for visitors. It will ensure faster service delivery, better grievance redressal, and improved operational efficiency in the region.

The Vocational Training

Centre at Samarjholi is another step in TPSODL's community development efforts. The centre will provide practical, industry-focused welding training to local youth. It aims to make them job-ready and skilled. TPSODL will also offer jobs to trained and certified candidates, ensuring that skill building leads to sustainable income, said a release issued by the discom.

The new Nuagam Electrical Section-1 Office will further strengthen TPSODL's operational presence. Speaking on the occasion, Mr. Amit Kumar Garg, CEO, TPSODL, said: "These inaugurations highlight our commitment to improve consumer services while empowering local communities. The new offices at Aska and Nuagam will strengthen service delivery, and the VTC at Samarjholi will equip youth with employable skills, ensuring both progress and inclusivity in Southern Odisha."

TPSODL opens new offices and vocational training centre in Ganjam

BERHAMPUR: TP Southern Odisha Distribution Limited (TPSODL), a joint venture between Tata Power and the Government of Odisha, has inaugurated three new facilities in Ganjam. These include the Aska Electrical Division-I Office, the Vocational Training Centre (VTC) for welding in Samarjhola, and the Nuagam Electrical Section-I Office. The Aska office aims to enhance service delivery, with modern amenities and improved consumer access. The VTC will provide welding training to local youth, equipping them with industry skills for employment. TPSODL will also offer job opportunities to certified candidates.

The Nuagam office further strengthens TPSODL's operational presence, improving services and community engagement.

Speaking on the occasion, Amit Kumar Garg, CEO, TPSODL, said: "These inaugurations highlight our commitment to improve consumer services while empowering local communities. The new offices at Aska and Nuagam will strengthen service delivery, and the VTC at Samarjhola will equip youth with employable skills, ensuring both progress and inclusivity in Southern Odisha." -PBD

TPSODL Opens New Offices and Vocational Training Centre in Ganjam

Berhampur, (ENS):: TP Southern Odisha Distribution Limited (TPSODL), a joint venture between Tata Power and the Government of Odisha, has inaugurated three new facilities. These include the newly constructed Aska Electrical Division-I (AED-I) Office Building at Taluka Road, Aska; the Vocational Training Centre (VTC) for Welding at Samarjhola, Ganjam; and the Nuagam Electrical Section-I Office at Aska.

The Aska AED-I Division Office will act as a central hub for power services in Aska and

nearby areas. The office has modern amenities, a consumer cash counter, and seating facilities for visitors. It will ensure faster service delivery, better grievance redressal, and improved operational efficiency in the region.

The Vocational Training Centre at Samarjhola is another step in TPSODL's community development efforts. The centre will provide practical, industry-focused welding training to local youth. It aims to make them job-ready and skilled. By connecting training with employability, the VTC

will create livelihood opportunities and contribute to socio-economic growth. TPSODL will also offer jobs to trained and certified candidates, ensuring that skill building leads to sustainable income.

The new Nuagam Electrical Section-I Office will further strengthen TPSODL's operational presence. The facility will improve the working environment for employees. It will also enhance consumer access, leading to quicker services and closer community engagement.

गंजाम जिले में टीपीएसओडीएल के नए कार्यालय और ट्रेनिंग सेंटर का उद्घाटन

जासं, भुवनेश्वर : दक्षिण ओडिशा में बिजली सेवाओं को और बेहतर बनाने तथा युवाओं को रोजगार के अवसर उपलब्ध कराने के लिए टीपी साठदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने गंजाम जिले में तीन नई सुविधाओं की शुरुआत की है। इसमें आस्का के तलुका रोड पर आस्का इलेक्ट्रिकल डिवीजन एक कार्यालय भवन, गंजाम के समरझोला में वेल्टिंग के लिए व्यावसायिक प्रशिक्षण केंद्र और आस्का स्थित नुआगाम इलेक्ट्रिकल सेक्शन-1 कार्यालय शामिल हैं।

आस्का डिवीजन कार्यालय को क्षेत्रीय बिजली सेवाओं का केंद्रीय केंद्र बनाया गया है। इस भवन में उपभोक्ताओं के लिए नकद

गंजाम जिले में टीपीएसओडीएलके नए कार्यालय और ट्रेनिंग सेंटर के उद्घाटन के अवसर पर उपस्थित अधिकारी व कर्मचारी • जागरण

काउंटर और बैठने की व्यवस्था की गई है। इससे सेवा की गति और कार्यकुशलता बढ़ेगी। समरझोला में शुरू किए गए व्यावसायिक प्रशिक्षण केंद्र से स्थानीय युवाओं को उद्योग आधारित वेल्टिंग प्रशिक्षण दिया जाएगा। प्रशिक्षण पूरा करने वाले युवाओं को टीपीएसओडीएल में नौकरी के अवसर भी मिलेंगे।

नुआगाम इलेक्ट्रिकल सेक्शन-एक कार्यालय से कंपनी की क्षेत्र में परिचालन क्षमता और मजबूत होगी। टीपीएसओडीएल के सीईओ अमित कुमार गर्ग ने कहा कि ये नए कार्यालय उपभोक्ताओं की सेवा को तेज और आसान बनाएंगे, वहीं समरझोला का ट्रेनिंग सेंटर युवाओं को रोजगार योग्य बनाएगा।

गंजाम में टीपीएसओडीएल ने खोले नए कार्यालय और व्यावसायिक प्रशिक्षण केंद्र

उपभोक्ताओं और युवाओं को मिलेगा बड़ा लाभ

भुवनेश्वर। टटा फास और जेडिडल भास्कर के संयुक्त उपक्रम टीपीएसओडीएल इंडिया लिमिटेड (टीपीएसओडीएल) ने गंजाम जिले में तीन नए सुविधाओं का उद्घाटन किया। इनमें अपना सन्तुष्ट गेट पर आत्मक इंटरिक्टल डिजीजन-क (एईडी-आई) कार्यालय भवन, समग्रतागत में केंद्रित हेतु व्यावसायिक प्रशिक्षण केंद्र (पीटीसी) और नुअग्राम इंटरिक्टल सेक्शन-क कार्यालय शामिल हैं।

नया अपना एईडी-आई डिजीजन कार्यालय उपभोक्ताओं के लिए तेज और फारदर्शी बिकली सेवाओं का केंद्र बनेगा। यहां आधुनिक सुविधाओं में लैस मकद काउंटर, सिखाया निचालन कक्ष और आरामुकों के लिए बैठने की बेहतर व्यवस्था की गई है। इस कार्यालय से न केवल अपना बिक्री असमर्थता के प्राप्ति क्षेत्रों के जगदी उपभोक्ताओं को प्राम्भ लाभ मिलेगा।

समग्रतागत निम्न केंद्रों का व्यावसायिक प्रशिक्षण केंद्र युवाओं को कौशल विकास का नया अवसर प्रदान करेगा। इस केंद्र में उद्योग-उन्मुख प्रशिक्षण दिव्य जाएंगे, जिसमें व्यापारिक युवा सेवाओं के लिए सेवा होगी। टीपीएसओडीएल ने अवसरमन दिया है कि प्रशिक्षण पूरा करने वाले योग्य युवाओं को कंपनी में ही प्रथमिकता के आधार पर रोजगार दिया जाएगा। यह फलर क्षमता युवाओं की बेरोजगारी कम करने और

उनके जीवन स्तर सुधराने में सहायक होगी।

नुअग्राम इंटरिक्टल सेक्शन-क कार्यालय से टीपीएसओडीएल को धीरे-धीरे बर्तव्य क्षमता और उपभोक्ता संपर्क और मजबूत होगा। इससे बिकली संभवे कार्य में तेजी आएगी और उपभोक्ताओं को घर-घर पर सुविधाएं अधिक सरलता से उपलब्ध कराई जा सकेंगी। इस अवसर पर टीपीएसओडीएल के सीईओ अमित कुमार गर्व ने कहा स्वतंत्रता स्वत

केवल बिकली बिकरण तक सीमित नहीं है, बल्कि हम सामुदायिक विकास और युवाओं के सर्वाधिकारण पर भी विशेष ध्यान दे रहे हैं। अपना और नुअग्राम के नए कार्यालय सेवा बिकरण को नई ऊँचाई तक ले जाएंगे, जबकि व्यावसायिक का पीटीसी युवाओं को रोजगार योग्य बनेगा। इसी उद्योग जेडिडल में विकास और समर्थिता का नया आयाम जुड़ेगा।

टीपीएसओडीएल ने हाल के वर्षों में प्राप्ति और बाहरी इलाकों में बिकली क्षेत्रों को सुदूर करने के साथ ही सामुदायिक उत्तरदायिता (सीएसआर) के तहत शिक्षा, स्वस्थ और कौशल विकास जैसे क्षेत्रों में भी महत्वपूर्ण योगदान दिया है। कंपनी का मानना है कि उपभोक्ता संतुष्टि और व्यापारिक समुदायों का विकास एक-दूसरे से जुड़ा हुआ है। इन उद्घाटनों से यह स्पष्ट हो गया है कि टीपीएसओडीएल उद्योग जेडिडल में न केवल मजबूत उपभोक्ता-उन्मुख बिकली नेटवर्क स्थापित कर रहा है, बल्कि स्वतंत्र युवाओं को कौशल और रोजगार के आधार देकर बेरोजगारी अधिका बिकरण में भी अहम भूमिका निभा रहा है।

Synopsis: TP Southern Odisha Distribution Limited (TPSODL), a joint venture between Tata Power and the Government of Odisha, has inaugurated three new facilities. These include the newly constructed Aska Electrical Division-I (AED-I) Office Building at Taluka Road, Aska; the Vocational Training Centre (VTC) for Welding at Samarjhola, Ganjam; and the Nuagam Electrical Section-I Office at Aska.

The Vocational Training Centre at Samarjhola is another step in TPSODL’s community development efforts. The centre will provide practical, industry-focused welding training to local youth. It aims to make them job-ready and skilled. By connecting training with employability, the VTC will create livelihood opportunities and contribute to socio-economic growth. TPSODL will also offer jobs to trained and certified candidates, ensuring that skill building leads to sustainable income.

Speaking on the occasion, Mr. Amit Kumar Garg, CEO, TPSODL, said: “These inaugurations highlight our commitment to improve consumer services while empowering local communities. The new offices at Aska and Nuagam will strengthen service delivery, and the VTC at Samarjhola will equip youth with employable skills, ensuring both progress and inclusivity in Southern Odisha.”

Celebrate Responsibly: TPSODL issues safety advisory

STATESMAN NEWS SERVICE
BERHAMPUR, 28 AUGUST:

With the festive season approaching, TP Southern Odisha Distribution Limited (TPSODL) has appealed to the people of Southern Odisha to celebrate with joy while staying safe and responsible.

To support the festivities, TPSODL is facilitating temporary electricity connections for pandals, community events, and cultural gatherings. Event organizers have been advised to seek only licensed electricians for decorations and wiring, ensuring that

all connections are secure and compliant with safety standards.

The company has appealed to consumers to take simple but vital precautions. Electrical wiring should be checked thoroughly, damaged cables must be replaced promptly, and proper earthing is essential for every installation. TPSODL has also emphasized caution during immersion ceremonies, advising people to maintain safe distance from poles, transformers, and overhead lines, particularly when bursting crackers or handling tall structures.

Citizens have been

requested to immediately report any unsafe condition or emergency to the nearest Fuse Call Centre or by calling the 24x7 Customer Care Toll-Free Numbers 1912 or 18003456797.

Amit Kumar Garg, CEO of TPSODL, said, "Festivals are a time of joy and togetherness. At TPSODL, our priority is to create a safe and reliable environment so that people can celebrate their festivities with joy and peace of mind. We appeal to everyone to observe simple safety measures so that this festive season remains truly bright and safe for all."

Celebrate Responsibly: TPSODL Issues Safety Advisory for the Festive Season

Berhampur, (Correspondent): With the festive season approaching, TP Southern Odisha Distribution Limited (TPSODL) has appealed to the people of Southern Odisha to celebrate with joy while staying safe and responsible. Festivals unite communities, and TPSODL has made arrangements to ensure a reliable power supply so that the celebrations remain bright and hassle-free. At the same time, the company has reminded everyone not to overlook basic electrical safety during the festivities. To support the festivities, TPSODL is facilitating temporary electricity connections for pandals, community events, and cultural gatherings. These services can be easily accessed through TPSODL's Section, Sub-division, and Division offices, or through its convenient self-service numbers. Event organizers have been advised to seek only licensed electricians for decorations and wiring, ensuring that all connections are secure and compliant with safety standards.

The company has appealed to consumers to take simple but vital precautions. Electrical wiring should be checked thoroughly, damaged cables must be replaced promptly, and proper earthing is essential for every installation. Overloading sockets and using substandard equipment could prove hazardous, while decorations must always be kept away from overhead power lines. TPSODL has also emphasized caution during immersion ceremonies, advising people to maintain safe distance from poles, transformers, and overhead lines, particularly when bursting crackers or handling tall structures. Citizens have been requested to immediately report any unsafe condition or emergency to the nearest Fuse Call Centre or by calling the 24x7 Customer Care Toll-Free Numbers 1912 or 18003456797. TPSODL teams remain fully prepared to respond promptly and ensure public safety throughout the celebrations.

TPSODL boosts power reliability in Malkangiri district

PBD BUREAU

BERHAMPUR, AUG 27

TP Southern Odisha Distribution Limited (TPSODL) has strengthened its power distribution network in Malkangiri, one of Odisha’s most remote districts, to ensure reliable electricity supply for rural and tribal communities.

The district’s challenging terrain and scattered population have long hindered stable power delivery. To address this, TPSODL has upgraded key infrastructure across substations, feeders, and distribution lines. Redundancy has been added at the K. Gumma

substation to reduce outage risks, while transformer capacities at Balimela and Maithili have been increased to 5 MVA to meet rising demand.

Feeder enhancements and extended 11 kV lines have improved last-mile connectivity in areas like Chitrakonda, Pandripani, and Bandiguda. Notably, Khairaput school now benefits from a dedicated power line, and the grid around Chitrakonda reservoir has been reinforced to

withstand seasonal disruptions.

These improvements are powering homes, schools, hostels, anganwadis, and health centres without interruption, while supporting agriculture and small businesses. For tribal communities such as the Koya, Bhumia, Paraja, Bonda, and Didayi, access to stable electricity is enabling better education, healthcare, and livelihoods.

“This is about empowering people and enabling progress,” said TPSODL CEO Amit Kumar Garg. The upgrades align with TPSODL’s goal of inclusive, sustainable development across Southern Odisha.

TPSODL Strengthens Last-Mile Power Reliability in Malkangiri’s hills, and tribal heartland

Berhampur, Correspondent): TP Southern Odisha Distribution Limited (TPSODL) has carried out a series of network strengthening initiatives in Malkangiri district aimed at ensuring greater reliability, resilience, and accessibility of power supply in one of Odisha’s most remote service areas. The measures, executed over the last few months, have been directed at overcoming recurring supply disruptions and building a stronger backbone for critical services and rural

households across the district. Malkangiri has historically posed operational challenges due to its geographical location and dispersed population. In order to address these, TPSODL has implemented systematic upgrades across substations,

feeders, and distribution lines. At the K.Gumma substation, redundancy has been created to address the risk associated with single-transformer dependency. This step will significantly reduce the possibility of widespread outages and ensure continuous supply

to dependent areas. In Balimela and Maithili, transformer capacities have been upgraded to 5 MVA, thereby strengthening load management and meeting the increasing demand of consumers. Supply reliability at the 33 kV level has also been improved through feeder strengthening and connectivity enhancements. This includes linking Khairaput school to a dedicated line and reinforcing distribution in areas surrounding the Chitrakonda reservoir, which are particularly vulnerable to seasonal stresses.

मलकानगिरी में बिजली आपूर्ति में सुधार जनजातीय क्षेत्रों को मिला स्थायी समाधान

जागरण संवाददाता, भुवनेश्वर : मलकानगिरी जिले की बिजली व्यवस्था को नई मजबूती मिली है, जो कि वन-पहाड़ों से घिरा और जनजातीय बहुल क्षेत्र है। टीपी सदरन ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने यहां बिजली आधारभूत संरचना को बेहतर बनाने के लिए कई महत्वपूर्ण कदम उठाए हैं। इन प्रयासों के परिणामस्वरूप न केवल बार-बार होने वाली बिजली कटौती पर रोक लगी है, बल्कि गांव-गांव तक अबाधित बिजली पहुंचने लगी है। कंपनी ने के.गुम्मा सब-स्टेशन में अतिरिक्त इंतजाम किए हैं, जिससे एकल ट्रांसफार्मर पर निर्भरता समाप्त हो सके। बालिमेला और मथिली क्षेत्रों में ट्रांसफार्मरों की क्षमता को 5 MVA तक बढ़ाया गया है, जिससे बढ़ती बिजली खपत को पूरा करना संभव हुआ है।

जिले में 33 केवी और 11 केवी लाइनों का सुदृढीकरण किया गया है। खैरपुट स्कूल को अलग लाइन से जोड़ा गया है, जबकि चित्रकोंडा जलाशय और आसपास के क्षेत्रों की बिजली आपूर्ति को भी दुरुस्त किया गया है। पांड्रिपानी, बजरंग कॉलोनी और बंदीगुड़ा जैसे इलाकों में बिजली नेटवर्क को पहले से ज्यादा भरोसेमंद बनाया गया है। निरंतर बिजली आपूर्ति से स्कूल, हॉस्टल, आंगनवाड़ी और स्वास्थ्य केंद्र सुचारु रूप से संचालित हो पा रहे हैं। सिंचाई और पंपिंग कार्य भी सुगमता से

हो रहे हैं, जिससे छोटे कारोबारियों और किसानों को सीधा लाभ मिल रहा है। कोया, भूमिया, परजा, बोंडा और दिदायि जैसी जनजातियों के जीवन में इन सुधारों का बड़ा असर दिख रहा है। बेहतर बिजली सेवा से शिक्षा, स्वास्थ्य और आजीविका में सकारात्मक बदलाव आया है। टीपीएसओडीएल के मुख्य कार्यकारी अधिकारी अमित कुमार गर्ग ने कहा कि मलकानगिरी जिले की भौगोलिक स्थिति चुनौतीपूर्ण है, लेकिन कंपनी के प्रयासों से एक मजबूत आधारभूत संरचना तैयार की गई है। ओडिशा सरकार और टाटा पावर की साझेदारी से दक्षिण ओडिशा में बिजली आपूर्ति को स्थायी और गुणवत्तापूर्ण बनाने की दिशा में काम किया जा रहा है।

मलकानगिरी में बिजली नेटवर्क मजबूत ग्रामीण इलाकों को मिलेगा स्थायी लाभ

टीपीएसओडीएल ने किया बड़ा निवेश, जनजातीय क्षेत्रों तक पहुँची भरोसेमंद बिजली

भुवनेश्वर। टीपी साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने मलकानगिरी जिले में बिजली आपूर्ति की विश्वसनीयता, मजबूती और पहुँच को बढ़ाने के लिए नेटवर्क सुदृढीकरण के कई उपाय पूरे किए हैं। शीते कुछ महानों में किए गए ये कदम बार-बार होने वाले बाधाओं को दूर करने और ग्रामीण घरों व आवश्यक सेवाओं को मजबूत बिजली वॉच उपलब्ध कराने पर केंद्रित हैं। भौगोलिक चुनौतियों और बिखरी हुई आबादी के कारण मलकानगिरी में बिजली वितरण लंबे समय से कठिन रहा है। इसे देखते हुए टीपीएसओडीएल ने सबस्टेशन, फीडर और डिस्ट्रीब्यूशन लाइनों में कई उन्नयन किए हैं। कंगुमा सबस्टेशन में अब अतिरिक्त व्यवस्था (रेडंडेंसी) बनाई गई है, जिससे एक ही ट्रांसफॉर्मर पर निर्भरता कम होगी और बड़े पैमाने पर बाधा आने की संभावना घटेगी।

इस पहल पर खोलते हुए

टीपीएसओडीएल के मुख्य कार्यकारी अधिकारी अमित कुमार गर्ग ने कहा मलकानगिरी की भौगोलिक स्थिति बिजली वितरण के लिए विशिष्ट चुनौतियाँ पैदा करती है। व्यवस्थित उन्नयन के जरिए हम एक मजबूत नेटवर्क बना रहे हैं, जो शिक्षा, स्वास्थ्य, आजीविका और सामुदायिक विकास को सहारा देगा। यहाँ विश्वसनीय बिजली केवल सेवा नहीं, बल्कि लोगों को सशक्त बनाने और प्रगति का साधन है।

लोगों को मिल रहा है सीधा लाभ

तकनीकी सुधार से परे, इसका असर रोजमर्रा की जिंदगी में दिख रहा है। घरों को स्थायी रोशनी मिल रही है, स्कूल और हॉस्पिटल बिना बाधा के चल रहे हैं, आंगनवाड़ी और स्वास्थ्य उपकेन्द्र बेहतर ढंग से कार्य कर पा रहे हैं। किसानों को मिंचाई पंपों के लिए भरोसेमंद बिजली मिल रही है, यहाँ छोटे व्यापारों को स्थिर आपूर्ति से लाभ हो रहा है। कोषा, भूमिषा, परजा, खंडा और डिदाई जैसी जनजातीय समुदायों के लिए यह सुधार अत्यंत महत्वपूर्ण साबित हो रहा है। भरोसेमंद बिजली शिक्षा, स्वास्थ्य, सरकारी कल्याण योजनाओं और रोजगार के अवसरों तक पहुँच आसान बना रही है।

Synopsis: TP Southern Odisha Distribution Limited (TPSODL) has carried out a series of network strengthening initiatives in Malkangiri district aimed at ensuring greater reliability, resilience, and accessibility of power supply in one of Odisha's most remote service areas. The measures, executed over the last few months, have been directed at overcoming recurring supply disruptions and building a stronger backbone for critical services and rural households across the district.

Malkangiri has historically posed operational challenges due to its geographical location and dispersed population. In order to address these, TPSODL has implemented systematic upgrades across substations, feeders, and distribution lines. At the K.Gumma substation, redundancy has been created to address the risk associated with single-transformer dependency. This step will significantly reduce the possibility of widespread outages and ensure continuous supply to dependent areas. In Balimela and Maithili, transformer capacities have been upgraded to 5 MVA, thereby strengthening load management and meeting the increasing demand of consumers.

Speaking on the initiative, Mr. Amit Kumar Garg, Chief Executive Officer of TPSODL, said, "Malkangiri's geography presents unique challenges for power distribution. Through systematic upgrades, we are building a resilient network that supports education, healthcare, livelihoods, and community development. Reliable power supply in such areas is not just about electricity—it is about empowering people and enabling progress."

The upgrades undertaken in Malkangiri are part of TPSODL's broader mandate to provide safe, reliable, and quality power supply across Southern Odisha. As a joint venture between Tata Power and the Government of Odisha, TPSODL continues to invest in network modernization, supply reliability, and customer-centric solutions, even in areas where terrain and remoteness demand extra effort. With each round of improvement, the company is reinforcing its commitment to delivering quality power to all categories of consumers and aligning its operations with the wider goals of inclusive growth and sustainable development.

TPSODL expands power infrastructure in Koraput, lighting up Odisha’s tribal heartland

PBD BUREAU

BERHAMPUA, AUG 29

TP Southern Odisha Distribution Limited (TPSODL) is bolstering the electricity network in Koraput district through large-scale infrastructure development, network augmentation, and modernization of power systems. These initiatives aim to ensure reliable, safe, and future-ready electricity supply for households, institutions, and industries across the district.

Nestled in the Eastern Ghats, Koraput is renowned for its scenic hills, valleys, and rich cultural heritage. The district is home to vibrant tribal communities such as the Paraja, Gadaba, Kondh, Bonda, and other Particularly Vulnerable Tribal Groups (PVTGs), whose

traditions form an integral part of Odisha’s identity. With growing townships, industrial activity around Sunabeda, and flourishing rural settlements, electricity demand has been steadily rising. TPSODL’s projects are ensuring that this demand is met with stable and quality power.

A major thrust has been on upgrading substations and strengthening the distribution network. Substations at Pottangi and Lamtaput have been reinforced with additional capacity, while the Koraput Old Power Substation’s transformer capacity has been enhanced from 3.15 MVA to 8 MVA. These upgrades secure electric-

ity supply for urban clusters as well as industrial establishments. Additionally, new 33 KV lines have been laid to improve connectivity, including the Sunabeda Police Station corridor to Belaigada, along with upgrades to existing lines across Kundra, Kusumi, Nuagaon, Pottangi, Kunduli, Narayanpatra, and Sunabeda.

At the grassroots level, the distribution system is being expanded significantly. New 11

KV lines have been commissioned in Jamiguda, Semilguda, Randapoli, and adjoining areas, while feeders have been upgraded across Almunda, Bandhugaon, Kotpad, Lamtaput, Ranitota, Borigumma, Barniput, and Sunabeda township. These improvements are benefiting schools, healthcare centres, small enterprises, and thousands of households, ensuring reliable power for everyday life and economic activity.

Highlighting the importance of these initiatives, Amit Kumar Garg, CEO, TPSODL, said: “Koraput is a land of cultural richness and natural beauty, and it is our privilege to contribute to its growth by providing modern and reliable electricity. Our infrastructure development and network augmentation projects are not only

meeting the present demand but also preparing the district for the future. By ensuring quality power, we are enabling opportunities in education, healthcare, entrepreneurship, and industry for the people of Koraput.”

The work in Koraput forms part of TPSODL’s larger commitment to southern Odisha. By building robust infrastructure, augmenting networks, and modernising substations, TPSODL is creating a resilient grid that supports inclusive development and strengthens the region’s progress.

With these initiatives, reliable electricity is now illuminating homes, energising industries, and empowering communities across Koraput, reinforcing the district’s role as a vital contributor to Odisha’s development journey.

TPSODL Expands Power Infrastructure in Koraput, Lighting Up Odisha’s Tribal Heartland

Berhampur (Correspondent): TP Power Southern Odisha Distribution Limited (TPSODL) is strengthening the electricity network in Koraput district through extensive infrastructure development, network augmentation and modernisation of power systems. The initiatives are designed to ensure reliable, safe and future-ready electricity supply to households, institutions and industries across the district. Nestled in the Eastern Ghats, Koraput is known for its scenic hills, valleys and rich cultural heritage. The district is home to vibrant tribal communities including the Paraja, Gadaba, Kondh, Bonda and

other Particularly Vulnerable Tribal Groups (PVTGs), whose traditions and lifestyles form an integral part of Odisha’s identity. With expanding townships, industrial activity around Sunabeda and flourishing rural settlements, the demand for electricity has been steadily rising. TPSODL’s ongoing projects are ensuring that this demand is met with stable and quality power. A major focus has been on upgrading

power substations and strengthening the distribution network. Substations at Pottangi and Lamtaput have been reinforced with additional capacity, while the Koraput Old Power Sub-Station has seen its transformer capacity enhanced from 3.15 MVA to 8 MVA. These developments secure electricity supply for urban clusters as well as industrial establishments. New 33 KV lines have been laid to improve connectivity, linking key stretches including the Sunabeda Police Station corridor to Belaiguda, along with upgrades to existing lines across Kundra,

Kusumi, Nuagaon, Pottangi, Kunduli, Narayanpatna and Sunabeda. The distribution system is also witnessing expansion at the grassroots level. New 11 KV lines have been commissioned in Janiguda, Semiliguda, Randapalli and adjoining areas, while feeders have been upgraded across Almunda, Bandhugaon, Kotpad, Lamtaput, Ranitota, Borigumma, Barniput and Sunabeda township. These improvements are benefitting schools, healthcare centres, small enterprises and thousands of households, ensuring reliable power for everyday life and economic activity.

TPSODL Expands Power Infrastructure in Koraput, Lighting Up Odisha’s Tribal Heartland

Berhampur, (ENS):: TP Power Southern Odisha Distribution Limited (TPSODL) is strengthening the electricity network in Koraput district through extensive infrastructure development, network augmentation and modernisation of power systems. The initiatives are designed to ensure reliable, safe and future-ready electricity supply to households, institutions and industries across the district.

Nestled in the Eastern Ghats, Koraput is known for its scenic hills, valleys and rich cultural heritage. The district is home to vibrant tribal communities including the Paraja, Gadaba, Kondh, Bonda and other Particularly Vulnerable Tribal Groups (PVTGs), whose traditions and lifestyles form an integral part of Odisha’s identity. With expanding townships, industrial activity around Sunabeda and flourishing rural settlements, the demand for electricity has been steadily rising. TPSODL’s ongoing projects are ensuring that this demand is met with stable and quality power.

A major focus has been

on upgrading power substations and strengthening the distribution network. Substations at Pottangi and Lamtaput have been reinforced with additional capacity, while the Koraput Old Power Sub-Station has seen its transformer capacity enhanced from 3.15 MVA to 8 MVA. These developments secure electricity supply for urban clusters as well as industrial establishments. New 33 KV lines have been laid to improve connectivity, linking key stretches including the Sunabeda Police Station corridor to Belaiguda, along with upgrades to existing lines across Kundra, Kusumi, Nuagaon, Pottangi, Kunduli, Narayanpatna and Sunabeda.

The distribution system is also witnessing expansion at the grassroots level. New 11 KV lines have been commissioned in Janiguda, Semiliguda, Randapalli and adjoining areas, while feeders have been upgraded across Almunda, Bandhugaon, Kotpad, Lamtaput, Ranitota, Borigumma, Barniput and Sunabeda township. These improvements are

benefitting schools, healthcare centres, small enterprises and thousands of households, ensuring reliable power for everyday life and economic activity.

Highlighting the importance of these initiatives, Mr. Amit Kumar Garg, CEO, TPSODL, said: “Koraput is a land of cultural richness and natural beauty, and it is our privilege to contribute to its growth by providing modern and reliable electricity. Our infrastructure development and network augmentation projects are not only meeting the present demand but also

preparing the district for the future. By ensuring quality power, we are enabling opportunities in education, healthcare, entrepreneurship and industry for the people of Koraput.”

The work in Koraput is part of TPSODL’s wider commitment to southern Odisha. By building robust infrastructure, augmenting networks and modernising substations, TPSODL is creating a resilient grid that supports inclusive development and strengthens the region’s progress.

कोरापुट में टीपीएस ओडीएल ने बिजली ढांचा मजबूत किया, आदिवासी अंचल में जगमगाएंगे घर-गांव

भुवनेश्वर। टाटा पावर सदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने कोरापुट जिले में बिजली व्यवस्था को सुदृढ़ करने के लिए व्यापक ढांचागत विकास, नेटवर्क विस्तार और आधुनिकीकरण की बड़ी पहल शुरू की है। इन प्रयासों का उद्देश्य जिले के घरों, शैक्षणिक संस्थानों, स्वास्थ्य सेवाओं और उद्योगों तक सुरक्षित, भरोसेमंद और भविष्य-तैयार बिजली आपूर्ति सुनिश्चित करना है। पोटांगी और लामटापुट के उप-स्टेशनों को नई क्षमता के साथ मजबूत किया गया है, वहीं कोरापुट ओल्ड पावर सब-स्टेशन में ट्रांसफार्मर क्षमता 3.15 एमवीए से बढ़ाकर 8 एमवीए कर दी गई है। इन सुधारों से शहरी क्षेत्रों और औद्योगिक प्रतिष्ठानों को स्थिर बिजली आपूर्ति सुनिश्चित होगी। सुनाबेड़ा पुलिस स्टेशन से बेलागुड़ा तक नई 33 केवी लाइन बिछाई गई है। इसके साथ ही कुंद्रा, कुसुमी, नुआगांव, पोटांगी, कुंदली, नारायणपटना और सुनाबेड़ा में पुरानी लाइनों का उन्नयन किया गया है। ग्राम स्तर पर भी बड़ा विस्तार किया गया है। जनिगुड़ा, सेमिलिगुड़ा और रांदापल्ली जैसे क्षेत्रों में नई 11 केवी लाइनें चालू की गई हैं, जबकि आलमुंडा, बंधुगांव, कोटपद,

लामटापुट, रानिटोटा, चोरीगुमा, बर्णीपुट और सुनाबेड़ा टाउनशिप में फोडरो को अपग्रेड किया गया है।

समुदाय और उद्योग को लाभ- इन सुधारों से स्कूलों, स्वास्थ्य केंद्रों, छोटे उद्यमों और हजारों परिवारों को नियमित और गुणवत्तापूर्ण बिजली उपलब्ध हो रही है। यह कदम आदिवासी बहुल अंचल को जीवनशैली को आसान बनाने के साथ ही आर्थिक गतिविधियों को भी मजबूती दे रहा है। टीपीएसओडीएल के सौंडओ अमित कुमार गर्ग ने कहा कोरापुट अपनी सांस्कृतिक विविधता और प्राकृतिक सुंदरता के लिए जाना जाता है। आधुनिक और भरोसेमंद बिजली उपलब्ध कराना हमारे लिए गर्व की बात है। हमारे ये प्रयास न केवल वर्तमान मांग को पूरा कर रहे हैं, बल्कि जिले को भविष्य के लिए भी तैयार कर रहे हैं। गुणवत्तापूर्ण बिजली शिक्षा, स्वास्थ्य, उद्यमिता और उद्योग में नई संभावनाओं के द्वार खोल रही है। कोरापुट में यह कार्य टीपीएसओडीएल की दक्षिण ओडिशा के प्रति व्यापक प्रतिबद्धता का हिस्सा है।

ଟିପିଏସଡିଏଲ ପକ୍ଷରୁ କୋରାପୁଟ ଜିଲ୍ଲା ବିଦ୍ୟୁତ ଭିତ୍ତିଭୂମିର ବିକାଶ ପାଇଁ ବିଭିନ୍ନ ପଦକ୍ଷେପ ନିଆଯାଇଛି । ନେତୃତ୍ୱ ଦ୍ୱାରା ବିଦ୍ୟୁତ ଯୋଗାଣ ଆଧୁନିକୀକରଣ କରାଯାଇଛି । ଏହି ପଦକ୍ଷେପ ଯୋଗୁଁ ସମଗ୍ର ଜିଲ୍ଲାରେ ଗୁଣାମୂଳ ବିଦ୍ୟୁତ ଯୋଗାଣ ଲକ୍ଷ୍ୟକୁ ଘର, ଅନୁଷ୍ଠାନ ଓ ଶିଳ୍ପକ୍ଷେତ୍ରରେ ଅଧିକ ସୁବିଧା କରାଯାଇପାରେ । କୋରାପୁଟ ଜିଲ୍ଲା ଏହାର ପ୍ରାକୃତିକ ସୌନ୍ଦର୍ଯ୍ୟ ପାଇଁ ପରିଚିତ । ଉଚ୍ଚ ପର୍ବତ, ଲତାପତଳା ଓ ଜିଲ୍ଲାର ସମ୍ପୂର୍ଣ୍ଣ ଏରିଆ ଏହାର ଅନ୍ୟ ଏକ ପରିଚୟ ଅଟେ । କିନ୍ତୁ ଜନଜାତିଙ୍କ ବାସସ୍ଥଳୀ ଏହି ଜିଲ୍ଲା । ବିଶେଷକରି ପରଜା, ଗଦାବା, କନ୍ଧ, ବଣ୍ଡା ଏବଂ ବିଶେଷ ଭାବରେ ବିଭୂସ୍ତ ପ୍ରାୟ ଜନଜାତି ଗୋଷ୍ଠୀ ଏହି ଅଞ୍ଚଳରେ ବସବାସ କରୁଥାନ୍ତି । ସେହିମାନଙ୍କର ଜୀବନଶୈଳୀ ଏବଂ ପରମ୍ପରା ଓଡ଼ିଶାର ପରିଚୟର ଏକ ଅଭିନ୍ନ ଅଂଶ । ସୁନାବେଡା ଆଖପାଖ ଅଞ୍ଚଳରେ ଶିଳ୍ପକ୍ଷେତ୍ରର ବିକାଶ ଏବଂ ଗ୍ରାମାଞ୍ଚଳରେ ଦିନକୁ ଦିନ ବିଦ୍ୟୁତ ଖଣ୍ଡିତ ବାଟିବା ବଢ଼ିବାରେ ଲାଗିଛି । ଟିପିଏସଡିଏଲ ତରଫରୁ

ନିଆଯାଇଥିବା ପଦକ୍ଷେପ ଯୋଗୁଁ ଏହକୁ ଅଞ୍ଚଳରେ ବିଦ୍ୟୁତ ଆବଶ୍ୟକତାକୁ ପୂରା କରାଯାଇପାରେ । ପାଞ୍ଚାଳ, ସୁନାବେଡା, ଗୋଲିସ ଷ୍ଟେସନ, ବେଲାଇଗୁଡା, କୁନ୍ଦ୍ରା, କୁସୁମି, ନୁଆଗାଁ, ପଟାଙ୍ଗା, କୁନ୍ଦୁଲି ଓ ନାରାୟଣ ପାଟଣାକୁ ଅଧିକ ସୁବିଧା କରୁଛି । ଜାନିଗୁଡା, ସେମିକିଗୁଡା, ରଣାପହା ଓ ସୁନାବେଡା ଆଖପାଖ ଅଞ୍ଚଳରେ ବିଦ୍ୟୁତ ବିତରଣ ବ୍ୟବସ୍ଥାରେ ସୁଧାର ଆଣି ପାରିଛି । ସେହିପରି ଆଲମଣ୍ଡା, ବହୁଗାଁ, କୋଟପାଡ଼, ଲମତାପୁଟ, ରାଣାଚୋଟା, ବୋରିଗୁଣ୍ଡା, ବାଣିପୁଟ ଏବଂ ସୁନାବେଡା ସହରାଞ୍ଚଳରେ ଉନ୍ନତ ବିତରଣ କରାଯାଇଛି । ଟିପିଏସଡିଏଲ ତରଫରୁ ନିଆଯାଇଥିବା ଏହି ପଦକ୍ଷେପ ଯୋଗୁଁ ସୁର, ସ୍ୱାସ୍ଥ୍ୟକେନ୍ଦ୍ର, ଶୁକ୍ର ଲବ୍ୟୋଗ ଓ ହତାଳ ହତାଳ ଘରକୁ ଉତ୍ତମାୟୋଗ୍ୟ ଓ ଗୁଣାମୂଳ ବିଦ୍ୟୁତ ସହିତ ଆର୍ଥିକ ପ୍ରଭରେ ବିକାଶ ହୋଇଛି ବୋଲି ଟିପିଏସଡିଏଲର ମୁଖ୍ୟ କାର୍ଯ୍ୟନିର୍ବାହୀ ଅଧିକାରୀ ଅମିତ କୁମାର ଗର୍ଭ କହିଛନ୍ତି ।

Synopsis: TP Power Southern Odisha Distribution Limited (TPSODL) is strengthening the electricity network in Koraput district through extensive infrastructure development, network augmentation and modernisation of power systems. The initiatives are designed to ensure reliable, safe and future-ready electricity supply to households, institutions and industries across the district.

Nestled in the Eastern Ghats, Koraput is known for its scenic hills, valleys and rich cultural heritage. The district is home to vibrant tribal communities including the Paraja, Gadaba, Kondh, Bonda and other Particularly Vulnerable Tribal Groups (PVTGs), whose traditions and lifestyles form an integral part of Odisha's identity. With expanding townships, industrial activity around Sunabeda and flourishing rural settlements, the demand for electricity has been steadily rising. TPSODL's ongoing projects are ensuring that this demand is met with stable and quality power.

A major focus has been on upgrading power substations and strengthening the distribution network. Substations at Pottangi and Lamtaput have been reinforced with additional capacity, while the Koraput Old Power Sub-Station has seen its transformer capacity enhanced from 3.15 MVA to 8 MVA. These developments secure electricity supply for urban clusters as well as industrial establishments. New 33 KV lines have been laid to improve connectivity, linking key stretches including the Sunabeda Police Station corridor to Belaiguda, along with upgrades to existing lines across Kundra, Kusumi, Nuagaon, Pottangi, Kunduli, Narayanpatna and Sunabeda.
