TPSODL inaugurates Customer Relation Centre in Malkangiri

PBD BUREAU

BERHAMPUR, JUL 4

TP Southern Odisha Distribution Limited (TPSODL) has inaugurated a new Customer

Relation Centre (CRC) in Malkangiri, reinforcing its commitment to accessible and consumer-friendly electricity services across Southern Odisha.

The CRC was inaugurated by TPSODL CEO Amit Kumar Garg, along with senior company officials. Strategically located at the district headquarters, the centre is equipped with billing and grievance redressal counters, offering essential services in a respectful and efficient manner.

Malkangiri, known for its tribal heritage and remote terrain, presents unique

service delivery challenges. Addressing this, Garg said, "Malkangiri is rich in identity and culture. This CRC brings services closer to people while respecting their

way of life. It ensures every consumer feels heard, supported, and empowered."

The new centre will benefit over 1.16 lakh consumers across approximately 5,700 sq. km, including Balimela, Kalimela, Mathili, and Motu near the inter-state borders.

This is TPSODL's seventh CRC, following successful launches in Berhampur (all-women), Rayagada, Paralakhemundi, Jeypore, Aska, and Hinjilicut. Each CRC strengthens TPSODL's mission to deliver inclusive, community-centric power services in the region.

TPSODL Inaugurates New Customer Relation Centre in Malkangiri

- *New CRC to serve over 1.16 lakh consumers in Malkangiri district*
- *Equipped with billing, grievance redressal, and digital support services*
- *Strengthens TPSODL's presence in tribal-dominated Southern Odisha*
- *Seventh CRC under TPSODL's consumer-first service model*

Berhampur, July(B.News): As part of its continued efforts to make electricity services more accessible and consumer-friendly, TP Southern Odisha Distribution Limited (TPSODL) has inaugurated a new Customer Relation Centre (CRC) in Malkangiri — a district known for its rich tribal heritage, scenic landscape, and unique geographic character. The CRC was formally inaugurated by Mr. Amit Kumar Garg, CEO, TPSODL, in the presence of senior officials of the com-

pany. The new centre is envisioned as a vital bridge between consumers and services, aimed at strengthening outreach in one of the state's most distinct and culturally vibrant regions. Malkangiri district, predominantly inhabited by tribal communities, has its own set of challenges due to its hilly terrain and distant locations. Understanding these realities, TPSODL has set up a centrally located CRC in Malkangiri district headquarter, equipped with billing counters, grievance

redressal counters, and all basic amenities to ensure a smooth, and respectful service experience for the people. Mr. Amit Kumar Garg, CEO of TPSODL, shared during the inauguration: "Malkangiri is a district rich in identity and culture. Our objective is to bring services closer to people in a manner that respects their way of life. This CRC is our way of reaching out meaningfully — ensuring that every consumer, no matter how far, feels heard, supported, and empowered." The new

CRC will benefit over 1.16 lakh consumers spread across approximately 5,700 sq. km, including key locations such as Balimela, Kalimela, Mathili, and Motu near the inter-state borders. This is the seventh CRC launched by TPSODL, following others in Berhampur (all women), Rayagada, Paralakhemundi, Jeypore, Aska, and Hinjilicut. Each centre plays a vital role in TPSODL's mission to offer inclusive, community-focused power services across Southern Odisha.

टीपीएसओडीएल ने मलकानगिरी में खोला ग्राहक सेवा केंद्र

असम संघराज्य, मुहनेर : बिजली सेवाओं को उपभोक्ता-केंद्रित बनाने के उद्देश्य से, टीपीएसओडीएल (टीपीएसओडीएल) ने मलकानगिरी में एक नए ग्राहक सेवा केंद्र (सीआरसी) का उद्घाटन किया है, जहाँ आदिवासी सांस्कृतिक और प्रांतीय स्तरों से परंपरागत रूप से उपभोक्ताओं को गुणवत्तापूर्ण सेवाएं मिल सकें।

यह सीआरसी का उद्घाटन टीपीएसओडीएल के मुख्य कार्यकारी अधिकारी अमित कुमार गर्ग ने कंपनी के वरिष्ठ अधिकारियों की उपस्थिति में किया। यह उपभोक्ता और कंपनी की बिजली सेवा को जोड़ेक और मलकानगिरी जिले में उपभोक्ता सेवा को मजबूत करेगा, जिसे क्षेत्रीय और सांस्कृतिक रूप से उचित माना जाता है।

मलकानगिरी जिला, जो मुख्य रूप से आदिवासी रहता है,

नए ग्राहक सेवा केंद्र के उद्घाटन के अवसर पर टीपीएसओडीएल के पदाधिकारी।

जंगली-पहाड़ी इलाके के कारण कई चुनौतियों का सामना करता है। इन सभी बातों को ध्यान में रखते हुए, टीपीएसओडीएल ने मलकानगिरी जिला मुख्यालय में एक ग्राहक सेवा केंद्र स्थापित किया है। इसमें बिलिंग, शिकायत निवारण केंद्र और उपभोक्ताओं के लिए सभी सुविधाएँ सुविधाएँ हैं। इस अवसर कार्यक्रम को संबोधित करते हुए अमित कुमार गर्ग, मुख्य कार्यकारी अधिकारी, टीपीएसओडीएल ने कहा कि मलकानगिरी सांस्कृतिक

रूप से समृद्ध जिला है। हमारा उद्देश्य निवासियों को उनके जीवन स्तर में सुधार के लिए ग्राहक सेवा प्रदान करना है। हमारे ग्राहक सेवा केंद्र के माध्यम से अच्छी गुणवत्ता वाली सेवा हर व्यक्ति तक पहुंचेगी और इससे उन्हें सशक्त बनाने में मदद मिलेगी।

यह सीआरसी लगभग 5,700 वर्ग मीटर के क्षेत्र में 1,16,000 से अधिक उपभोक्ताओं को पूरा करेगा। कालीमेला, कालीमेला, बीथली और बीथली क्षेत्रों में गुणवत्तापूर्ण

- जिले में 1.16 लाख से अधिक उपभोक्ताओं को सेवा प्रदान करेगा नया सीआरसी
- बिलिंग, शिकायत निवारण और डिजिटल सहायता सेवाओं की उपलब्धता
- आदिवासी बहुल दक्षिणी ओडिशा में टीपीएसओडीएल की मजबूत बिजली उपस्थिति

ग्राहक सेवा उपलब्ध होगी। यह टीपीएसओडीएल का सहायक ग्राहक सेवा केंद्र है।

बराहमुड़ा (पूर्वतन मंडल) क्षेत्रों में (पूर्वतन मंडल) द्वारा (पूर्वतन मंडल), रायपड़ा, पारलाखेमुंडी, जगपुर, आदिवासी और हिमालय में ग्राहक सेवा केंद्र खोलने से ही कार्य कर रहे हैं। यह दक्षिणी ओडिशा में रायपड़ा और समुद्र-केंद्रित बिजली सेवाएं प्रदान करने के अपने मिशन में टीपीएसओडीएल को मदद कर रहा है।

टीपीएस ओडीएल ने मलकानगिरी में कस्टमर रिलेशन सेंटर का किया उद्घाटन

1.16 लाख से अधिक उपभोक्ताओं को मिलेगा लाभ, उपभोक्ता सेवा में नया कदम

नवभारत ब्यूरो। भुवनेश्वर। टीपीएस ओडीएल लिमिटेड (टीपीएस ओडीएल) ने मलकानगिरी जिले में नया कस्टमर रिलेशन सेंटर (सीआरसी) का उद्घाटन किया है। यह नया केंद्र मलकानगिरी जिले के 1.16 लाख से अधिक उपभोक्ताओं को बिजली संबंधी सेवाएं, बिलिंग, शिकायत निवारण और डिजिटल सहायता प्रदान करेगा।

इस सीआरसी का उद्घाटन टीपीएसओडीएल के मुख्य कार्यकारी अधिकारी अनिल कुमार गर्ग ने वरिष्ठ अधिकारियों की उपस्थिति में किया। उन्होंने कहा, मलकानगिरी एक सांस्कृतिक रूप से

समृद्ध और भौगोलिक दृष्टि से चुनौतीपूर्ण जिला है। इस क्षेत्र में उपभोक्ताओं तक सम्मानपूर्वक और सुगम सेवा पहुंचाना हमारा लक्ष्य है। नया सीआरसी जिले के मुख्यालय में स्थित है और यह बर्लिनमैला, कागोमैला, मथिली और मोटू जैसे सीमावर्ती क्षेत्रों को भी सेवा प्रदान करेगा। मलकानगिरी का यह केंद्र टीपीएसओडीएल के उपभोक्ता-प्रथम

मॉडल के अंतर्गत स्थापित सार्वजनिक सीआरसी है। इससे पहले ऐसे केंद्र ब्रह्मपुर (अलि-बुमन), एपमड़ा, घातलाखेमुंडी, तपपुर, वास्का और डिजिलोकाटू में शुरू किए गए हैं। टीपीएसओडीएल को यह पहल दक्षिणी ओडिशा के जनशक्तिगत बहुत क्षेत्रों में सम्मवेष्टी और समुदाय-केंद्रित बिजली सेवाओं को दिशा में एक महत्वपूर्ण कदम माने जा रही है।

Synopsis - As part of its continued efforts to make electricity services more accessible and consumer-friendly, TP Southern Odisha Distribution Limited (TPSODL) has inaugurated a new Customer Relation Centre (CRC) in Malkangiri — a district known for its rich tribal heritage, scenic landscape, and unique geographic character.

The CRC was formally inaugurated by Mr. Amit Kumar Garg, CEO, TPSODL, in the presence of senior officials of the company. The new centre is envisioned as a vital bridge between consumers and services, aimed at strengthening outreach in one of the state's most distinct and culturally vibrant regions.

Malkangiri district, predominantly inhabited by tribal communities, has its own set of challenges due to its hilly terrain and distant locations. Understanding these realities, TPSODL has set up a centrally located CRC in Malkangiri district headquarter, equipped with billing counters, grievance redressal counters, and all basic amenities to ensure a smooth, and respectful service experience for the people.

Mr. Amit Kumar Garg, CEO of TPSODL, shared during the inauguration: "Malkangiri is a district rich in identity and culture. Our objective is to bring services closer to people in a manner that respects their way of life. This CRC is our way of reaching out meaningfully — ensuring that every consumer, no matter how far, feels heard, supported, and empowered."

Synopsis - As part of its continued efforts to make electricity services more accessible and consumer-friendly, TP Southern Odisha Distribution Limited (TPSODL) has inaugurated a new Customer Relation Centre (CRC) in Malkangiri — a district known for its rich tribal heritage, scenic landscape, and unique geographic character.

The CRC was formally inaugurated by Mr. Amit Kumar Garg, CEO, TPSODL, in the presence of senior officials of the company. The new centre is envisioned as a vital bridge between consumers and services, aimed at strengthening outreach in one of the state’s most distinct and culturally vibrant regions.

Malkangiri district, predominantly inhabited by tribal communities, has its own set of challenges due to its hilly terrain and distant locations. Understanding these realities, TPSODL has set up a centrally located CRC in Malkangiri district headquarter, equipped with billing counters, grievance redressal counters, and all basic amenities to ensure a smooth, and respectful service experience for the people.

Mr. Amit Kumar Garg, CEO of TPSODL, shared during the inauguration: “Malkangiri is a district rich in identity and culture. Our objective is to bring services closer to people in a manner that respects their way of life. This CRC is our way of reaching out meaningfully — ensuring that every consumer, no matter how far, feels heard, supported, and empowered.”

Synopsis - As part of its continued efforts to make electricity services more accessible and consumer-friendly, TP Southern Odisha Distribution Limited (TPSODL) has inaugurated a new Customer Relation Centre (CRC) in Malkangiri — a district known for its rich tribal heritage, scenic landscape, and unique geographic character.

The CRC was formally inaugurated by Mr. Amit Kumar Garg, CEO, TPSODL, in the presence of senior officials of the company. The new centre is envisioned as a vital bridge between consumers and services, aimed at strengthening outreach in one of the state’s most distinct and culturally vibrant regions.

Malkangiri district, predominantly inhabited by tribal communities, has its own set of challenges due to its hilly terrain and distant locations. Understanding these realities, TPSODL has set up a centrally located CRC in Malkangiri district headquarter, equipped with billing counters, grievance redressal counters, and all basic amenities to ensure a smooth, and respectful service experience for the people.

Mr. Amit Kumar Garg, CEO of TPSODL, shared during the inauguration: “Malkangiri is a district rich in identity and culture. Our objective is to bring services closer to people in a manner that respects their way of life. This CRC is our way of reaching out meaningfully — ensuring that every consumer, no matter how far, feels heard, supported, and empowered.”

TPSODL inaugurates new offices to boost service delivery in Southern Odisha

PBD BUREAU

BERHAMPUR, JUL 11

TP Southern Odisha Distribution Limited (TPSODL) has inaugurated several new office buildings across Southern Odisha, reinforcing its commitment to better accessibility and enhanced customer service. The newly commissioned facilities include a Division and Sub-Division office at Nabarangpur, integrated Sub-Division and Section offices at Papadahandi and Balimela, and a new Section office at Kotpad in Koraput district.

Designed with a consumer-first approach, the

offices feature dedicated billing counters, modern amenities, and upgraded service infrastructure to support efficient and accessible electricity services, even in remote areas.

Amit Kumar Garg, CEO of TPSODL, inaugurated the facilities along with senior officials and employees. The events also included sapling plantation drives, highlighting the company's commitment to sustain-

ability.

"These offices reflect our focus on reaching every corner of Southern Odisha with reliable, consumer-centric services. We are building not just infrastructure but trust and accessibility," said Garg.

He also urged employees to uphold the organization's values of dedication, empathy, and service excellence, ensuring a lasting impact on the communities they serve.

The initiative marks another milestone in TPSODL's mission to deliver quality, tech-enabled, and eco-friendly power services across the region.

TPSODL Inaugurates Key Offices for Better Access & Service

Berhampur, (correspondent): TP Southern Odisha Distribution Limited (TPSODL) has taken a significant step toward improving its service network and strengthening consumer engagement by commissioning a series of new office buildings across Southern Odisha. These state-of-the-art facilities are part of the company's ongoing commitment to infrastructure development, aiming to ensure enhanced accessibility and efficient service

delivery, even in remote regions.

The new offices include the Division and Sub-Division office at Nabarangapur housed in a single complex, an integrated Sub-Division and Section office at

Papadalandi in Nabarangapur, a similar integrated setup at Balimela in Malkangiri, and a newly constructed Section office at Kotpad in Koraput district. Each of these buildings has been

designed with a consumer-first approach, featuring dedicated billing counters, modern amenities, and upgraded service infrastructure.

Inaugurating the facilities, Mr. Amit Kumar Garg, CEO of TPSODL, was accompanied by senior officials and frontline employees. The inauguration programs also witnessed active employee participation in sapling plantation drives, reinforcing TPSODL's commitment to environmental sustainability alongside its service initiatives.

"We believe that strengthening our physical infrastructure is key to delivering reliable and consumer-centric services. These new offices reflect our unwavering commitment to reach every corner of Southern Odisha and provide convenient, efficient, and responsive service to our consumers. We are not just building structures; we are building trust and accessibility," said Mr. Amit Kumar Garg, CEO, TPSODL.

Synopsis - TP Southern Odisha Distribution Limited (TPSODL) has taken a significant step toward improving its service network and strengthening consumer engagement by commissioning a series of new office buildings across Southern Odisha. These state-of-the-art facilities are part of the company's ongoing commitment to infrastructure development, aiming to ensure enhanced accessibility and efficient service delivery, even in remote regions.

The new offices include the Division and Sub-Division office at Nabarangapur housed in a single complex, an integrated Sub-Division and Section office at Papadahandi in Nabarangapur, a similar integrated setup at Balimela in Malkangiri, and a newly constructed Section office at Kotpad in Koraput district. Each of these buildings has been designed with a consumer-first approach, featuring dedicated billing counters, modern amenities, and upgraded service infrastructure.

Inaugurating the facilities, Mr. Amit Kumar Garg, CEO of TPSODL, was accompanied by senior officials and frontline employees. The inauguration programs also witnessed active employee participation in sapling plantation drives, reinforcing TPSODL's commitment to environmental sustainability alongside its service initiatives.

"We believe that strengthening our physical infrastructure is key to delivering reliable and consumer-centric services. These new offices reflect our unwavering commitment to reach every corner of Southern Odisha and provide convenient, efficient, and responsive service to our consumers. We are not just building structures; we are building trust and accessibility," said Mr. Amit Kumar Garg, CEO, TPSODL.

Synopsis - TP Southern Odisha Distribution Limited (TPSODL) has taken a significant step toward improving its service network and strengthening consumer engagement by commissioning a series of new office buildings across Southern Odisha. These state-of-the-art facilities are part of the company's ongoing commitment to infrastructure development, aiming to ensure enhanced accessibility and efficient service delivery, even in remote regions.

The new offices include the Division and Sub-Division office at Nabarangapur housed in a single complex, an integrated Sub-Division and Section office at Papadahandi in Nabarangapur, a similar integrated setup at Balimela in Malkangiri, and a newly constructed Section office at Kotpad in Koraput district. Each of these buildings has been designed with a consumer-first approach, featuring dedicated billing counters, modern amenities, and upgraded service infrastructure.

Inaugurating the facilities, Mr. Amit Kumar Garg, CEO of TPSODL, was accompanied by senior officials and frontline employees. The inauguration programs also witnessed active employee participation in sapling plantation drives, reinforcing TPSODL's commitment to environmental sustainability alongside its service initiatives.

"We believe that strengthening our physical infrastructure is key to delivering reliable and consumer-centric services. These new offices reflect our unwavering commitment to reach every corner of Southern Odisha and provide convenient, efficient, and responsive service to our consumers. We are not just building structures; we are building trust and accessibility," said Mr. Amit Kumar Garg, CEO, TPSODL.

TPSODL upgrades primary substation in Berhampur

STATESMAN NEWS SERVICE

BERHAMPUR, 15 JULY:

In a major step to strengthen power infrastructure and meet the rising demand, TP Southern Odisha Distribution Limited (TPSODL) has upgraded the Bidyutpuri Primary Substation (PSS) in Berhampur. The move directly benefits around 3,000 consumers across Neelachala Nagar, Khodasingi, and Bidyutpuri areas.

Previously, the substation had two power transformers of 5 MVA each, making a total capacity of 10 MVA. After

upgrading one transformer to 8 MVA, the substation now operates with a total capacity of 13 MVA. As part of the upgrade, an additional source feed has also been connected to the substation. Commenting on the upgrade, Mr. Amit Kumar Garg, CEO of TPSODL, said, "This upgradation reflects our commitment to providing a stable and reliable power supply to our consumers. Our team is continuously working to strengthen the power distribution network in Berhampur to meet the city's growing electricity needs."

TPSODL upgrades Berhampur substation to enhance power supply for 3,000 consumers

PBD BUREAU

BERHAMPUR, JUL 15

IN a significant move to strengthen power infrastructure and meet rising demand, TP Southern Odisha Distribution Limited (TPSODL) has successfully upgraded the Bidyutpuri Primary Substation (PSS) in Berhampur. This upgrade directly benefits approximately 3,000 consumers across Neelachala Nagar, Khodasingi, and Bidyutpuri areas.

The substation previously had two 5 MVA transformers, totalling 10 MVA capacity. After upgrading one transformer to 8 MVA, the substation now operates at a total capacity of 13 MVA, addressing the increasing electricity demand during peak times. An addition-

al source feed has been added to the substation, ensuring reduced power interruptions and boosting reliability for residential areas, educational institutions, commercial establishments, and local markets.

Commenting on the upgrade, TPSODL CEO Amit Kumar Garg said, "This upgradation reflects our commitment to providing a stable and reliable power supply to our consumers. Our team is continuously working to strengthen the power distribution network in Berhampur to meet the city's growing electricity needs."

TPSODL continues to prioritize infrastructure development and aims to ensure safe, uninterrupted electricity distribution across Southern Odisha, supporting community growth and regional progress.

Powering Progress: TPSODL Strengthens Supply for Thousands

Berhampur (correspondent): In a major step to strengthen power infrastructure and meet the rising demand, TP Southern Odisha Distribution Limited (TPSODL) has successfully upgraded the Bidyutpuri Primary Substation (PSS) in Berhampur. This move directly benefits around 3,000 consumers across Neelachala Nagar, Khodasingi, and Bidyutpuri areas. Previously, the substation had two power transformers of 5 MVA each, making a total capacity of 10 MVA. After upgrading one transformer to 8 MVA, the substation now operates with a total capacity of 13

MVA. This enhancement is especially crucial when electricity demand surges. As part of the upgrade, an additional source feed has also been connected to the substation. This ensures minimal power interruptions and improves reliability for residential neighborhoods, educational institutions, commercial establishments, and

local markets. Commenting on the upgrade, Mr. Amit Kumar Garg, CEO of TPSODL, said, "This upgradation reflects our commitment to providing a stable and reliable power supply to our consumers. Our team is continuously working to strengthen the power distribution network in Berhampur to meet the city's growing electricity needs." TPSODL remains focused on building robust infrastructure and delivering safe, uninterrupted electricity across Southern Odisha, thereby supporting community growth and regional development.

टिपीएसओडीएल ने बिजली आपूर्ति की क्षमता बढ़ाई

लगभग 3,000 उपभोक्ताओं को मिलेगा लाभ

भुवनेश्वर। टीपी साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड ने ब्रह्मपुर स्थित विद्युतपुरी प्राइमरी सबस्टेशन की क्षमता को बढ़ाकर 13 एमवीए कर दिया है। इस उन्नयन से नीलाचल नगर, खोड़ासिंगी और विद्युतपुरी क्षेत्रों के करीब 3,000 उपभोक्ताओं को सीधा लाभ मिलेगा। पहले इस सबस्टेशन में दो 5 एमवीए के ट्रांसफॉर्मर लगे थे, जिससे कुल क्षमता 10 एमवीए थी। अब इनमें से एक ट्रांसफॉर्मर को 8 एमवीए में अपग्रेड कर दिया गया है, जिससे कुल क्षमता 13 एमवीए हो गई है। यह वृद्धि विशेष रूप से तब महत्वपूर्ण है जब गर्मी के मौसम में बिजली की मांग तेजी से बढ़ती है। सबस्टेशन को एक अतिरिक्त स्रोत से भी जोड़ा गया है, जिससे आपूर्ति और अधिक विश्वसनीय हो गई है। इससे आवासीय क्षेत्रों, शैक्षणिक संस्थानों, वाणिज्यिक प्रतिष्ठानों और स्थानीय बाजारों में

बिजली की कटौती की संभावना कम होगी इस अवसर पर टिपीएसओडीएल के सीईओ अमित कुमार गर्ग ने कहा, यह उन्नयन हमारे उपभोक्ताओं को स्थिर और विश्वसनीय बिजली आपूर्ति सुनिश्चित करने की हमारी प्रतिबद्धता को दर्शाता है। हमारी टीम ब्रह्मपुर में बिजली वितरण नेटवर्क को मजबूत करने के लिए लगातार कार्य कर रही है। टिपीएसओडीएल दक्षिण ओडिशा में मजबूत विद्युत अवसंरचना के निर्माण और निर्बाध, सुरक्षित बिजली आपूर्ति के लिए प्रतिबद्ध है, ताकि क्षेत्रीय विकास और सामुदायिक प्रगति को बल मिल सके।

Synopsis - In a major step to strengthen power infrastructure and meet the rising demand, TP Southern Odisha Distribution Limited (TPSODL) has successfully upgraded the Bidyutpuri Primary Substation (PSS) in Berhampur. This move directly benefits around 3,000 consumers across Neelachala Nagar, Khodasingi, and Bidyutpuri areas. Previously, the substation had two power transformers of 5 MVA each, making a total capacity of 10 MVA. After upgrading one transformer to 8 MVA, the substation now operates with a total capacity of 13 MVA. This enhancement is especially crucial when electricity demand surges. As part of the upgrade, an additional source feed has also been connected to the substation. This ensures minimal power interruptions and improves reliability for residential neighbourhoods, educational institutions, commercial establishments, and local markets.

Commenting on the upgrade, Mr. Amit Kumar Garg, CEO of TPSODL, said, "This upgradation reflects our commitment to providing a stable and reliable power supply to our consumers. Our team is continuously working to strengthen the power distribution network in Berhampur to meet the city's growing electricity needs."

Synopsis - In a major step to strengthen power infrastructure and meet the rising demand, TP Southern Odisha Distribution Limited (TPSODL) has successfully upgraded the Bidyutpuri Primary Substation (PSS) in Berhampur. This move directly benefits around 3,000 consumers across Neelachala Nagar, Khodasingi, and Bidyutpuri areas. Previously, the substation had two power transformers of 5 MVA each, making a total capacity of 10 MVA. After upgrading one transformer to 8 MVA, the substation now operates with a total capacity of 13 MVA. This enhancement is especially crucial when electricity demand surges. As part of the upgrade, an additional source feed has also been connected to the substation. This ensures minimal power interruptions and improves reliability for residential neighbourhoods, educational institutions, commercial establishments, and local markets.

Commenting on the upgrade, Mr. Amit Kumar Garg, CEO of TPSODL, said, "This upgradation reflects our commitment to providing a stable and reliable power supply to our consumers. Our team is continuously working to strengthen the power distribution network in Berhampur to meet the city's growing electricity needs."

TPSODL gears up for Monsoon

Berhampur, July 2025: TP Southern Odisha Distribution Limited (TPSODL) stands fully ready to counter the challenges of heavy monsoon.

A dedicated frontline team of 5,925 personnel has been strategically deployed across six operational circles, assisted by emergency vehicles and additional manpower. Six mobile distribution substations and two tower wagons are now stationed for rapid response. Critical emergency materials including poles, conductors, and LT AB cables are kept in store at strategic level to avoid delays, while 25 ASKA lights and 19 DG sets in each division ensure night-time repair works.

TPSODL has already installed 2,529 interposing poles to strengthen network. Drone-based survey to detect the potential weak spots. Power System Control Centre (PSCC) at Berhampur and other areas to monitor substations via SCADA system.

Customer relation has also been upgraded with the IVRS-enabled systems, SMS alerts, and a dedicated missed

call service (9777774699) to keep consumers informed of outages and restorations instantly. Additionally, 24x7 call centre (Toll-free numbers: 1912 / 1800-2026) for emergencies.

TPSODL CEO Amit Kumar Garg said, "During the monsoon, safety remains our top priority — both for our teams on the ground and, most importantly, for our consumers. Our focus is to ensure that every household, business, and essential service across Southern Odisha experiences minimal disruption despite the season's challenges."

TPSODL rolls out robust preparations for monsoon season

PBD BUREAU

BERHAMPUR, JUL 20

AS monsoon approaches Southern Odisha, TP Southern Odisha Distribution Limited (TPSODL) is fully prepared to ensure reliable power supply. The company has implemented proactive measures to tackle heavy rains, strong winds, and lightning.

TPSODL deployed 5,925 personnel across six operational circles, supported by emergency vehicles, six mobile substations, and two tower wagons for swift outage response. Critical materials like poles and cables are stocked strategically,

while 25 ASKA lights and 19 DG sets per division facilitate night repairs.

A key innovation this year is drone-based surveys of 11kV and 33kV lines to detect weak spots early, especially in forested and hilly areas. The

Power System Control Centre in Berhampur and regional centres monitor 178 substations 24/7 via advanced SCADA technology.

Enhanced customer support includes IVRS, SMS alerts, a missed call service (9777774699), and 24x7 call centres (1912 / 1800-2026).

CEO Amit Kumar Garg emphasizes safety and minimal disruption through technology and resilient teams.

TPSODL Rolls Out Robust Preparations for Monsoon Season

Berhampur (DMC): As dark clouds gather over Southern Odisha during rainy days, bringing monsoon's heavy rains, strong winds, and frequent lightning, TP Southern Odisha Distribution Limited (TPSODL) stands fully ready to counter the challenges of the season. To meet any exigency during this monsoon season, company has introduced several proactive measures to provide reliable power supply across its operational area.

In a region marked by dense forest, remote hilly regions and challenging terrain, TPSODL has completed a robust, proactive preparedness plan to ensure seamless power supply and swift emergency response for its customers. With resilience at its core, the company has strengthened its infrastructure and mobilised dedicated response teams to tackle the challenges of the monsoon season.

A dedicated frontline team of 3,321 personnel has been

strategically deployed across six operational circles, assisted by emergency vehicles and additional manpower. Six mobile distribution substations and two tower wagons are now stationed for rapid response to outages and tree-fall disruptions. Critical emergency materials including poles, conductors, and LT AL cables are kept in stock at strategic

level to avoid delays, while 25 ASKA lights and 10 DG sets in each division ensure night-time repair works.

TPSODL has already installed 2,529 interposing poles to strengthen its network. A major highlight of this year's readiness is the drone-based survey of 11kV and 33kV lines, allowing early detection of potential weak spots,

especially in hilly and forested areas. Power System Control Centre (PSCC) at Berhampur and Area Power System Control Centres (APSCCs) in Rayagada, Bhanjanagar, and Jeypoor are functional round-the-clock, monitoring 178 substations in real time through an advanced SCADA system.

Customer relation has also been upgraded with the IVRS-enabled systems, SMS alerts, and a dedicated inbound call service (0777774100) to keep customers informed of outages and restoration instantly. In addition to this, the 24x7 call centre (Toll-free number: 1012 / 1800-2020) ensures prompt response to consumer calls and swift action during emergencies.

Additionally, TPSODL's online publication of quality metrics like SAIFI and SAIDI further underlines its commitment to delivering quality services. Satellite phones and a dedicated 33kV control desk ensure seamless

coordination across all departments, even in the most remote locations. With preparedness rooted in technology and resilient workforce, TPSODL continues to set a benchmark in efficient power distribution during monsoon season.

Commenting on the measures undertaken, TPSODL CEO Mr. Amit Kumar Gogoi said,

"During the monsoon, safety remains our top priority — both for our teams on the ground and, most importantly, for our customers. Our focus is to ensure that every household, business and essential service across Southern Odisha experiences minimal disruption despite the season's challenges. By strengthening our network, using advanced technologies like drone surveys, and enhancing our customer support systems, we aim to deliver a power supply that is not only reliable but also responsive to our customers' needs and concerns."

टीपीएसओडीएल ने मानसून के दौरान बिजली वितरण चुनौतियों से निपटने की तैयारी की

त्वरित कार्यवाही के लिए छह मोबाइल **सबस्टेशन** और दो टावर वैगन तैनात किए गए

जगरण संवाददाता, भुवनेश्वर : टीपीएसओडीएल लिमिटेड ने मानसून के दौरान बिजली वितरण में चुनौतियों का सामना करने के लिए व्यवस्था की है। कंपनी ने दक्षिण ओडिशा में उपभोक्ताओं को सुगमतापूर्वक बिजली आपूर्ति सुनिश्चित करने के लिए एक व्यवस्थित योजना बनाई है। घने जंगलों, पहाड़ी क्षेत्रों और ग्रामीण इलाकों में आपदा स्थिति के दौरान त्वरित कार्यवाही के लिए बिजली के बुनियादी ढांचे को मजबूत किया गया है।

टीपीएसओडीएल ने छह सर्विसेजों में 5,925 स्कोपों की एक समर्पित टीम बनाई है, जिसमें आपदास्थलीय खदानों और अनिरीक्षित जनसंघित शामिल हैं। पेड़ों के

मानसून के दौरान विद्युत परिप्रेय सुचारु रखने के लिए तारी की जांच करते कर्मियों।

गिरने से बिजली आपूर्ति बाधित होने की समस्या से निपटने के लिए छह मोबाइल वितरण सबस्टेशन और दो टावर वैगन तैनात किए गए हैं। बिजली के खंभे, कंट्रोलर और अन्य आवश्यक वस्तुओं

का पर्याप्त स्टॉक विभिन्न स्थानों पर उपलब्ध है।

इस वर्ष 11 केवी और 33 केवी बिजली लाइनों का ड्रोन के माध्यम से सर्वेक्षण किया जा रहा है, जिससे संभावित फलट का पहले से पता लगाया जा सकेगा। बरहभुव में पावर सिस्टम कंट्रोल सेंटर और अन्य क्षेत्रों में पावर पावर सिस्टम कंट्रोल सेंटर चौबीसों घंटे कार्यरत हैं। टीपीएसओडीएल ने जलक संकेतों को मजबूत करने के लिए आइसोलाटरएस संचालित प्रणाली, एमएमएस अलर्ट और मिस्ट काल सेवा शुरू की है।

उपभोक्ता शिकायतों को तुरंत संबोधित करने के लिए 24/7 काल सेंटर भी उपलब्ध है। टीपीएसओडीएल के सर्विसेज

अमित कुमार वर्मा ने कहा कि बरसत के मौसम के दौरान हम उपभोक्ताओं और हमारे कर्मचारियों की सुरक्षा को अत्यधिक महत्व देते हैं। मानसून की चुनौतियों के बावजूद, प्रत्येक उपभोक्ता, व्यवसायिक प्रतिष्ठान और आवश्यक सेवाओं को न्यूनतम व्यवधान के साथ बेहतर बिजली सेवाएं सुनिश्चित करने पर ध्यान केंद्रित किया गया है।

साथ ही उन्होंने कहा कि मजबूत नेटवर्क, ड्रोन सर्वेक्षण और जलक संकेतों जैसी बेहतर तकनीकों के माध्यम से हम विद्युतसन्वीय बिजली प्रदान करने और उपभोक्ताओं की भागी और समस्याओं को ध्यान में रखने के लिए काम कर रहे हैं।

मानसून के दौरान भरोसेमंद बिजली आपूर्ति के लिए टीपीएस ओडीएल की पूरी तैयारी

ब्रह्मपुर। मानसून के मौसम में बिजली आपूर्ति को लेकर अपने कर्तव्य चुनौतियों से निपटने के लिए टाटा पावर सेंट्रल ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने दक्षिण ओडिशा में व्यापक तैयारी की है। कंपनी ने पने जंगल, पहाड़ी और ग्रामीण क्षेत्रों में भी सतत और गुणवत्तापूर्ण बिजली सेवा देने हेतु योजनाबद्ध तरीके से कदम उठाए हैं।

टीपीएसओडीएल ने छह सर्कलों में 5,925 सदस्यों की एक विशेष टीम, आपातकालीन वाहन, मोबाइल सबस्टेशन और टावर वैन तैनात किए हैं। पेड़ गिरने या तार टूटने जैसी समस्याओं से निपटने के लिए पर्याप्त मात्रा में पोल, केबल और अन्य सामग्री स्टॉक में रखी गई है। रात के समय मरम्मत कार्यों के लिए अम्का लाइट्स और डीजल जेनरेटर भी उपलब्ध हैं।

डूने तकनीक से 11 कंपो और 33 कंपो लाइनों का निरीक्षण कर संभावित खराबियों को पहले से पहचान को जा रही है। ब्रह्मपुर समेत कई क्षेत्रों में पावर मिस्टम कंट्रोल स्टेर 24 घंटे सक्रिय है और एससीएडवीए तकनीक से 178 सबस्टेशन की निगरानी हो रही है। छावनों को बिजली कटौती या बहावों को सूचना देने

हेतु आईबीआरएम, एसएमएस अलर्ट और मिस्ट कॉल सेवाएं उपलब्ध हैं। साथ ही 24 घंटे टोल फ्री कॉल सेंटर (1912/ 18002002056) से शिकायतों का तुरंत समाधान किया जा रहा है। टीपीएसओडीएल के सीईओ अमित कुमार गर्ग ने कहा, हम उपभोक्ता और कर्मचारियों की सुरक्षा के साथ-साथ न्यूनतम व्यवधान में बिजली सेवा सुनिश्चित करने के लिए प्रतिबद्ध हैं।

Synopsis - As dark clouds gather over Southern Odisha during rainy days, bringing monsoon’s heavy rains, strong winds, and frequent lightning, TP Southern Odisha Distribution Limited (TPSODL) stands fully ready to counter the challenges of the season. To meet any exigency during this monsoon season, company has introduced several proactive measures to provide reliable power supply across its operational area. A dedicated frontline team of 5,925 personnel has been strategically deployed across six operational circles, assisted by emergency vehicles and additional manpower. Six mobile distribution substations and two tower wagons are now stationed for rapid response to outages and tree-fall disruptions. Critical emergency materials including poles, conductors, and LT AB cables are kept in store at strategic level to avoid delays, while 25 ASKA lights and 19 DG sets in each division ensure night-time repair works. Additionally, TPSODL’s online publication of quality metrics like SAIFI and SAIDI further underlines its commitment to delivering quality services. Satellite phones and a dedicated 33kV control desk ensure seamless coordination across all departments, even in the most remote locations. With preparedness rooted in technology and resilient workforce, TPSODL continues to set a benchmark in efficient power distribution during monsoon season. Commenting on the measures undertaken, TPSODL CEO Mr. Amit Kumar Garg said, “During the monsoon, safety remains our top priority — both for our teams on the ground and, most importantly, for our consumers. Our focus is to ensure that every household, business, and essential service across Southern Odisha experiences minimal disruption despite the season’s challenges. By strengthening our network, using advanced technologies like drone surveys, and enhancing our customer support systems, we aim to deliver a power supply that is not only reliable but also responsive to our consumers’ needs and concerns.”

Satellite phones and a dedicated 33kV control desk ensure seamless coordination across all departments, even in the most remote locations. With preparedness rooted in technology and resilient workforce, TPSODL continues to set a benchmark in efficient power distribution during monsoon season. Commenting on the measures undertaken, TPSODL CEO Mr. Amit Kumar Garg said, “During the monsoon, safety remains our top priority — both for our teams on the ground and, most importantly, for our consumers. Our focus is to ensure that every household, business, and essential service across Southern Odisha experiences minimal disruption despite the season’s challenges. By strengthening our network, using advanced technologies like drone surveys, and enhancing our customer support systems, we aim to deliver a power supply that is not only reliable but also responsive to our consumers’ needs and concerns.”

Transforming villages: TPSODL expands Model GP initiative

POST NEWS NETWORK

Berhampur, July 27: TP Southern Odisha Distribution Limited (TPSODL) continues its transformative journey towards rural empowerment by extending its "Model Gram Panchayat (GP)" initiative to 14 more GPs across southern Odisha. Earlier, the company successfully achieved its vision by developing 113 Model GPs, benefiting around 2 lakh people in the region.

This initiative, rooted in TPSODL's commitment to "enhance customer experience through reliable power supply and quality services", focuses on improving the lives of rural consumers by offering a superior experience in areas such as power supply reliability, timely metre reading and billing, new connections, grievance redressal, and overall customer support. It also emphasises electrical safety, community awareness, and digital empowerment.

The Model GP programme is specially designed for GPs that require reliability improvement and safety aware-

ness. These villages, selected from across TPSODL's eight operational districts, are now witnessing transformation in the quality of services.

Speaking on the initiative, TPSODL CEO Amit Kumar Garg said, "We remain committed to driving inclusive growth through the Model GP initiative. This programme is not only about better power supply, it's about building empowered communities. By integrating digital technology, safety, and quality service, we are developing a robust and consumer-centric power distribution system in rural areas."

With this expansion, the total number of model GPs has reached 127. This initiative now spans across eight districts of southern Odisha,

TPSODL'S Model GP initiative extended

STATESMAN NEWS SERVICE

BERHAMPUR, 27 JULY:

TP Southern Odisha Distribution Limited (TPSODL) carried its rural empowerment initiatives by extending its "Model Gram Panchayat (GP)" to 14 more GPs across Southern Odisha. Earlier, the company successfully achieved its vision by developing 113 Model GPs, benefiting around 2 lakh people in the region.

This initiative, rooted in TPSODL's commitment to "Enhance customer experience through reliable power supply and quality services", focuses on improving the lives of rural consumers by offering a superior experience in areas such as power supply reliability, timely meter reading and billing, new connections, griev-

ance redressal, and overall customer support. It also emphasizes electrical safety, community awareness, and digital empowerment, said a release issued by the discom.

The Model GP program is specially designed for gram panchayats that require reliability improvement and safety awareness.

As part of its corporate social responsibility program, TPSODL conducted digital literacy camps to promote the use of e-pay platforms, organized livelihood enhancement programs for women Self-Help Groups (SHGs), and "Club Enerji" sessions aimed at energy conservation in Model GPs. Additionally, TPSODL undertook infrastructure works including pole replacement, network aug-

mentation, cable replacement, and the upgradation of Distribution Transformers (DTRs), ensuring a more stable and efficient power supply in these rural areas.

TPSODL CEO Mr. Amit Kumar Garg said, "We remain committed to driving inclusive growth through the Model GP initiative. This program is not only about better power supply, it's about building empowered communities. By integrating digital technology, safety, and quality service, we are developing a robust and consumer-centric power distribution system in rural areas."

With this expansion, the total number of model Gram Panchayats has reached 127. In the near future, the company plans to adopt more Model GPs.

TPSODL expands Model GP initiative, empowering rural communities

PBD BUREAU

BERHAMPUR, JUL 26

TP Southern Odisha Distribution Limited (TPSODL) has extended its "Model Gram Panchayat (GP)" initiative to 14 more GPs across Southern Odisha, bringing the total number of Model GPs to 127. Previously, 113 Model GPs benefited

around 2 lakh people in the region.

The initiative aims to enhance rural lives by improving power supply reliability, meter reading, billing,

and grievance redressal. It also focuses on electrical safety, community awareness, and digital empowerment.

TPSODL's efforts include infrastructure upgrades such as pole replacements, network expansion, and transformer upgrades, ensuring stable power. Additionally, digital literacy camps, livelihood programs for women's Self-Help Groups (SHGs),

and energy conservation sessions are part of the initiative.

Beyond electrification, the Model GP initiative promotes safe electrical practices, digital payment adoption, and the establishment of Sampark Kendras for quick issue resolution.

TPSODL CEO Amit Kumar Garg emphasized, "This initiative is about more than just power supply – it's about building empowered, tech-savvy communities."

Spanning eight districts – Ganjam, Rayagada, Gajapati, Koraput, Malkangiri, Nabarangpur, Kandhamal, and Boudh – TPSODL plans to expand further, reaffirming its commitment to rural development through reliable electricity and digital inclusion.

Transforming Villages: TPSODL's Model GP Initiative Grows

Berhampur, (correspondent): TP Southern Odisha Distribution Limited (TPSODL) continues its transformative journey towards rural empowerment by extending its "Model Gram Panchayat (GP)" initiative to 14 more GPs across Southern Odisha. Earlier, the company successfully achieved its vision by developing 113 Model GPs, benefiting around 2 lakh people in Odisha. This initiative, rooted in TPSODL's commitment to enhance

customer experience through reliable power supply and quality services, focuses on improving the lives of rural consumers by offering a superior experience in areas such as power supply reliability, timely meter reading and billing, new connections, grievance redressal, and overall customer support. It also emphasizes electrical safety, community awareness, and digital empowerment. The Model GP program is specially designed for

gram panchayats that require reliability improvement and safety awareness. These villages, selected from across TPSODL's eight operational districts, are now witnessing transformation in the quality of services. In the past financial year, several

impactful activities were carried out under this initiative. As part of its corporate social responsibility program, TPSODL conducted digital literacy camps to promote the use of e-pay platforms, organized livelihood enhancement programs for women

Self-Help Groups (SHGs), and "Club Energy" sessions aimed at energy conservation in Model GPs. Additionally, TPSODL undertook infrastructure works including pole replacement, network augmentation, cable replacement, and the upgradation of Distribution Transformers (DTRs), ensuring a more stable and efficient power supply in these rural areas. The vision of the Model GP initiative goes beyond just electrification. It is about

empowering communities through access to reliable electricity, building safer locations, promoting awareness on electrical safety, and setting up Free Call Complaints Centres (Santapak Kendra) for quick resolution of power issues. It also encourages consumers to opt for e-bills and e-payments, making them receive financial benefits while contributing to environmental sustainability.

Synopsis: TP Southern Odisha Distribution Limited (TPSODL) continues its transformative journey towards rural empowerment by extending its “Model Gram Panchayat (GP)” initiative to 14 more GPs across Southern Odisha. Earlier, the company successfully achieved its vision by developing 113 Model GPs, benefiting around 2 lakh people in the region.

This initiative, rooted in TPSODL’s commitment to “Enhance customer experience through reliable power supply and quality services”, focuses on improving the lives of rural consumers by offering a superior experience in areas such as power supply reliability, timely meter reading and billing, new connections, grievance redressal, and overall customer support. It also emphasizes electrical safety, community awareness, and digital empowerment.

The Model GP program is specially designed for gram panchayats that require reliability improvement and safety awareness. These villages, selected from across TPSODL’s eight operational districts, are now witnessing transformation in the quality of services.

In the past financial year, several impactful activities were carried out under this initiative. As part of its corporate social responsibility program, TPSODL conducted digital literacy camps to promote the use of e-pay platforms, organized livelihood enhancement programs for women Self-Help Groups (SHGs), and “Club Enerji” sessions aimed at energy conservation in Model GPs. Additionally, TPSODL undertook infrastructure works including pole replacement, network augmentation, cable replacement, and the upgradation of Distribution Transformers (DTRs), ensuring a more stable and efficient power supply in these rural areas.

Synopsis: TP Southern Odisha Distribution Limited (TPSODL) continues its transformative journey towards rural empowerment by extending its "Model Gram Panchayat (GP)" initiative to 14 more GPs across Southern Odisha. Earlier, the company successfully achieved its vision by developing 113 Model GPs, benefiting around 2 lakh people in the region.

This initiative, rooted in TPSODL's commitment to "Enhance customer experience through reliable power supply and quality services", focuses on improving the lives of rural consumers by offering a superior experience in areas such as power supply reliability, timely meter reading and billing, new connections, grievance redressal, and overall customer support. It also emphasizes electrical safety, community awareness, and digital empowerment.

The Model GP program is specially designed for gram panchayats that require reliability improvement and safety awareness. These villages, selected from across TPSODL's eight operational districts, are now witnessing transformation in the quality of services.

In the past financial year, several impactful activities were carried out under this initiative. As part of its corporate social responsibility program, TPSODL conducted digital literacy camps to promote the use of e-pay platforms, organized livelihood enhancement programs for women Self-Help Groups (SHGs), and "Club Enerji" sessions aimed at energy conservation in Model GPs. Additionally, TPSODL undertook infrastructure works including pole replacement, network augmentation, cable replacement, and the upgradation of Distribution Transformers (DTRs), ensuring a more stable and efficient power supply in these rural areas.

Planting Hope: TPSODL's Sustainability Efforts Bloom in Malkangiri

Behampur (correspondent): Reinforcing its commitment to a greener tomorrow, TP Southern Odisha Distribution Limited (TPSODL) organized a large-scale Plantation Drive under its Tree-Mitra initiative at Sindhrimal Village, Malkangiri District. The drive was part of the ongoing Tata Sustainability Month (TSM-25), aimed at promoting environmental responsibility and enhancing local green cover. During the event, fruit-bearing saplings were planted

with enthusiastic participation from TPSODL volunteers and villagers alike. This collaborative effort not only contributed to environmental sustainability but also strengthened community engagement in the region. Malkangiri, located in Southern Odisha, is known for its rich biodiversity and tribal communities,

Recognizing this, TPSODL has prioritized the district for several CSR and community engagement initiatives, working closely with local residents to create sustainable livelihoods and greener surroundings. Speaking on the occasion, Mr. Amit Kumar Garg, CEO, TPSODL, said, "At TPSODL, sustainability is at the

core of everything we do. Our Tree-Mitra initiative goes beyond planting saplings; it reflects our dedication to building resilient ecosystems and fostering a culture of shared responsibility with the communities we serve. Every small effort, when combined, can make a significant difference to our planet's future." The plantation drive stands as a testament to TPSODL's unwavering commitment to environmental stewardship and social responsibility.

Planting Hope: TPSODL's Sustainability Efforts Bloom in Malkangiri

Berhampur (DMC): Reinforcing its commitment to a greener tomorrow, TP Southern Odisha Distribution Limited (TPSODL) organized a large-scale Plantation Drive under its Tree-Mitra initiative at Sindhrimal Village, Malkangiri District. The drive was part of the ongoing Tata Sustainability Month (TSM-25), aimed at promoting environmental responsibility and enhancing local green cover.

During the event, fruit-bearing saplings were planted with enthusiastic participation from TPSODL volunteers and villagers alike. This collaborative effort not only contributed to environmental sustainability but also strengthened community engagement in the region.

Malkangiri, located in Southern Odisha, is known for its rich biodiversity and tribal communities. Recognizing this, TPSODL has prioritized the district for several CSR and

community engagement initiatives, working closely with local residents to create sustainable livelihoods and greener surroundings.

Speaking on the occasion, Mr. Amit Kumar Garg, CEO, TPSODL, said, "At TPSODL, sustainability is at the core of everything we do. Our Tree-Mitra initiative goes beyond planting saplings; it reflects our dedication to building resilient ecosystems and fostering a culture of shared responsibility with the communities we serve. Every small effort, when combined, can make a significant difference to

our planet's future."

The plantation drive stands as a testament to TPSODL's unwavering commitment to environmental stewardship and social responsibility. It also serves as a powerful reminder that collective action, even through simple acts like planting trees, can lead to meaningful and lasting positive change.

TPSODL remains committed to creating greener, healthier, and more sustainable communities across Southern Odisha, continuing to engage, empower, and inspire local residents through its different initiatives.

मालकानगिरी में टीपीएस ओडीएल का पौधरोपण अभियान

भुवनेश्वर। पर्यावरण संरक्षण के प्रति अपनी प्रतिबद्धता को दोहराते हुए, टीपी साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने मालकानगिरी जिले के सिंघरीमाल गांव में ट्री-मित्र पहल के तहत एक वृहद वृक्षारोपण अभियान आयोजित किया। यह कार्यक्रम टाटा सस्टेनेबिलिटी मंथ 2025 (टीएसएम-25) के अंतर्गत हुआ, जिसका उद्देश्य हरित आवरण बढ़ाना और पर्यावरणीय चेतना को बढ़ावा देना है। इस अवसर पर फलदार पौधों का रोपण किया गया, जिसमें टीपीएसओडीएल के स्वयंसेवकों और स्थानीय ग्रामीणों ने बढ़-चढ़कर भाग लिया। यह सामूहिक प्रयास न केवल पर्यावरणीय सततता की दिशा में एक ठोस कदम है, बल्कि समुदाय की सक्रिय भागीदारी को भी दर्शाता है। मालकानगिरी, जो दक्षिण ओडिशा का एक जैव विविधतापूर्ण जिला है, टीपीएसओडीएल द्वारा विभिन्न सोएसआर और सामुदायिक विकास पहलों के लिए

प्राथमिकता प्राप्त क्षेत्र रहा है। कंपनी स्थानीय समुदायों के साथ मिलकर हरित और स्थायी आजीविका की दिशा में लगातार काम कर रही है। इस अवसर पर टीपीएसओडीएल के सीईओ अमित कुमार गर्ग ने कहा टीपीएसओडीएल में, सततता केवल एक सिद्धांत नहीं बल्कि हमारी कायसंस्कृति का मूल है। ट्री-मित्र पहल सिर्फ पौधे लगाने तक सीमित नहीं है, बल्कि यह समुदायों के साथ मिलकर मजबूत पारिस्थितिकी तंत्र और साझी जिम्मेदारी की भावना को प्रोत्साहित करती है। हर छोटा प्रयास मिलकर धरती के भविष्य को बदल सकता है। यह वृक्षारोपण कार्यक्रम टीपीएसओडीएल की पर्यावरणीय प्रतिबद्धता और सामाजिक उत्तरदायित्व का प्रमाण है।

Synopsis: Reinforcing its commitment to a greener tomorrow, TP Southern Odisha Distribution Limited (TPSODL) organized a large-scale Plantation Drive under its Tree-Mitra initiative at Sindhrimal Village, Malkangiri District. The drive was part of the ongoing Tata Sustainability Month (TSM-25), aimed at promoting environmental responsibility and enhancing local green cover. During the event, fruit-bearing saplings were planted with enthusiastic participation from TPSODL volunteers and villagers alike. This collaborative effort not only contributed to environmental sustainability but also strengthened community engagement in the region. Malkangiri, located in Southern Odisha, is known for its rich biodiversity and tribal communities. Recognizing this, TPSODL has prioritized the district for several CSR and community engagement initiatives, working closely with local residents to create sustainable livelihoods and greener surroundings. Speaking on the occasion, Mr. Amit Kumar Garg, CEO, TPSODL, said, "At TPSODL, sustainability is at the core of everything we do. Our Tree-Mitra initiative goes beyond planting saplings; it reflects our dedication to building resilient ecosystems and fostering a culture of shared responsibility with the communities we serve. Every small effort, when combined, can make a significant difference to our planet's future."

TPSODL boosts Digapahandi's power infrastructure

Berhampur: In a major boost to power reliability in Ganjam district, TP Southern Odisha Distribution Limited (TPSODL) has successfully completed the interlinking Chikiti 33 kV feeder with Digapahandi Primary Substation (PSS). The project also includes the installation of Ring Main Unit (RMU) to facilitate faster fault isolation and efficient load management. The RMU is connected with one incoming and two outgoing power supply. In case of any disruption in one line, the RMU allows seamless power supply through the backup line, thereby minimizing downtime. This initiative will benefit around 12,000 consumers, providing a stable power supply to residents and commercial establishments in Digapahandi town. Speaking on this development, TPSODL CEO Amit Kumar Garg said, "TPSODL has remained steadfast in strengthening power infrastructure. This project is a step forward in our mission to provide high-quality electricity to our consumers. The new feeder link not only reinforces the network but also enhances resilience, ensuring minimal disruption in power supply." TPSODL remains committed to investing in infrastructure development and smart technologies to build a more robust, reliable, and consumer-centric power distribution system across Southern Odisha.

TPSODL enhances power infrastructure in Digapahandi

BERHAMPUR: TP Southern Odisha Distribution Limited (TPSODL) has strengthened the power infrastructure in Ganjam district by interlinking the Chikiti 33 kV feeder with the Digapahandi Primary Substation under its FY24-25 CAPEX plan.

The project includes a 1.6 circuit km long 33 kV line to provide back feeding from the Chikiti Grid to Digapahandi NAC, ensuring a reliable alternative power source during outages or maintenance. A Ring Main Unit (RMU) has also been installed to enable faster fault isolation and efficient load management. The RMU setup allows uninterrupted power supply even if one line fails, significantly reducing downtime. This initiative will benefit around 12,000 consumers, ensuring stable electricity for homes and businesses in Digapahandi. TPSODL CEO Amit Kumar Garg reaffirmed the company's commitment to providing high-quality and resilient power supply across Southern Odisha through sustained infrastructure upgrades and smart solutions.

Odisha Powers Ahead: TPSODL Strengthens Digapahandi's Power Infrastructure

B e r h a m p u r , (correspondent): In a major boost to power reliability in Ganjam district, TP Southern Odisha Distribution Limited (TPSODL) has successfully completed the interlinking Chikiti 33 kV feeder with Digapahandi Primary Substation (PSS). This strategic initiative, executed under the CAPEX plan for FY24-25, reflects TPSODL's commitment to enhancing power infrastructure and ensuring uninterrupted electricity supply to its consumers. As part of

the project, a 1.6 circuit km long 33 kV line has been constructed to establish a back feeding supply line to Digapahandi notified

area council (NAC) from the Chikiti Grid. The newly laid feeder line will serve as a reliable alternative source of power during outages or maintenance work, thereby improving quality of power supply across the region.

The project also includes the installation of Ring Main Unit (RMU) to facilitate faster fault isolation and efficient load management. The RMU is connected with one incoming and two outgoing power supply. In case of any disruption in one line, the RMU allows seamless power

supply through the backup line, thereby minimizing downtime. This initiative will benefit around 12,000 consumers, providing a stable power supply to residents and commercial establishments in Digapahandi town. Speaking on this development, TPSODL CEO Mr. Amit Kumar Garg said, "TPSODL has remained steadfast in strengthening power infrastructure. This project is a step forward in our mission to provide high-quality electricity to our consumers."

Synopsis: In a major boost to power reliability in Ganjam district, TP Southern Odisha Distribution Limited (TPSODL) has successfully completed the interlinking Chikiti 33 kV feeder with Digapahandi Primary Substation (PSS). This strategic initiative, executed under the CAPEX plan for FY24-25, reflects TPSODL’s commitment to enhancing power infrastructure and ensuring uninterrupted electricity supply to its consumers. As part of the project, a 1.6 circuit km long 33 kV line has been constructed to establish a back feeding supply line to Digapahandi notified area council (NAC) from the Chikiti Grid. The project also includes the installation of Ring Main Unit (RMU) to facilitate faster fault isolation and efficient load management. The RMU is connected with one incoming and two outgoing power supply. This initiative will benefit around 12,000 consumers, providing a stable power supply to residents and commercial establishments in Digapahandi town.

Speaking on this development, TPSODL CEO Mr. Amit Kumar Garg said, “TPSODL has remained steadfast in strengthening power infrastructure. This project is a step forward in our mission to provide high-quality electricity to our consumers. The new feeder link not only reinforces the network but also enhances resilience, ensuring minimal disruption in power supply.”

Synopsis: In a major boost to power reliability in Ganjam district, TP Southern Odisha Distribution Limited (TPSODL) has successfully completed the interlinking Chikiti 33 kV feeder with Digapahandi Primary Substation (PSS). This strategic initiative, executed under the CAPEX plan for FY24-25, reflects TPSODL’s commitment to enhancing power infrastructure and ensuring uninterrupted electricity supply to its consumers. As part of the project, a 1.6 circuit km long 33 kV line has been constructed to establish a back feeding supply line to Digapahandi notified area council (NAC) from the Chikiti Grid. The project also includes the installation of Ring Main Unit (RMU) to facilitate faster fault isolation and efficient load management. The RMU is connected with one incoming and two outgoing power supply. This initiative will benefit around 12,000 consumers, providing a stable power supply to residents and commercial establishments in Digapahandi town.

Speaking on this development, TPSODL CEO Mr. Amit Kumar Garg said, “TPSODL has remained steadfast in strengthening power infrastructure. This project is a step forward in our mission to provide high-quality electricity to our consumers. The new feeder link not only reinforces the network but also enhances resilience, ensuring minimal disruption in power supply.”
