Kantamal Substation Capacity Enhanced to Ensure Reliable Summer Power in Boudh

Berhampur, (correspondent): In a major boost to southern Odisha's power infrastructure, TP Southern Odisha Distribution Limited (TPSODL) has successfully completed the capacity augmentation of the Power Substation (PSS) at Kantamal in Boudh district. The move comes in anticipation of a sharp rise in electricity demand during the ongoing summer season. Earlier, the Kantamal PSS operated with two power transformers - one with a capacity of 5 MVA

and another of 1.5 MVA - totaling 6.5 MVA. As part of the upgrade, the 1.5 MVA transformer has been replaced with a new 3.15 MVA unit. This enhancement takes the substation's total capacity to 8.15 MVA, significantly improving its ability to handle in-

creased load and offer seamless power delivery. This upgrade will directly benefit over 5,000 consumers in the Kantamal block, including the block headquarters and surrounding rural pockets. It will also ensure more stable and efficient supply to three

critical feeders: Kantamal Medical, Kantamal Block Headquarters, and Udayapur. These feeders cater to essential services and residential areas, making uninterrupted power supply crucial during high-demand periods. Mr. Amit Kumar Garg, CEO of TPSODL, stated, "With summer demand peaking, reliable electricity becomes vital. This substation upgrade is part of our continuous efforts to strengthen infrastructure, minimize outages, and meet the growing needs of our consumers."

Kantamal Substation Capacity Enhanced to Ensure Reliable Summer Power in Boudh

- TPSODL upgrades capacity from 6.5 MVA to 8.15 MVA
- Over 5,000 consumers to benefit from improved power reliability
- Critical feeders in Kantamal block to experience stable summer supply

Berhampur, April 2025: In a major boost to southern Odisha's power infrastructure, TP Southern Odisha Distribution Limited (TPSODL) has successfully completed the capacity augmentation of the Power Substation (PSS) at Kantamal in Boudh district. The move comes in anticipation of a sharp rise in electricity demand during the ongoing summer season.

Earlier, the Kantamal PSS operated with two power transformers — one with a capacity of 5 MVA and another of 1.5 MVA — totaling 6.5 MVA. As part of the upgrade, the 1.5 MVA transformer has been replaced with a new 3.15 MVA unit. This enhancement takes the substation's total capacity to 8.15 MVA, significantly improving its ability to handle increased

load and offer seamless power delivery. This upgrade will directly benefit over 5,000 consumers in the Kantamal block, including the block headquarters and surrounding rural pockets. It will also ensure more stable and efficient supply to three critical feeders: Kantamal Medical, Kantamal Block Headquarters, and Udayapur. These feeders cater to essential ser-

vices and residential areas, making uninterrupted power supply crucial during high-demand periods. Mr. Amit Kumar Garg, CEO of TPSODL, stated, "With summer demand peaking, reliable electricity becomes vital. This substation upgrade is part of our continuous efforts to strengthen infrastructure, minimize outages, and meet the growing needs of our consumers."

Notice to 1,229 people in 8 dists over construction close to overhead lines

EXPRESS NEWS SERVICE @ Berhampur

IN a major step towards securing public safety and safeguarding power infrastructure, the TP Southern Odisha Distribution Limited (TPSODL) has issued 1,229 notices to people and establishments in connection with unauthorised constructions under and close to overhead electricity lines across its operational areas in southern region of the state.

TPSODL officials said notices have been issued to people in eight districts as part of the distribution company's safety and compliance drive.

The maximum number 655 notices were served in Ganjam, followed by 160 in Koraput, 131 in Malkangiri, 104 in Gajapati, 83 in Nabarangpur, 55 in Rayagada and 38 in Boudh. Officials said unauthorised constructions near electricity lines pose a serious threat to life and property, and also hamper emergency restoration work.

TPSODL CEO Amit Kumar Garg said, "We are committed to enforcing compliance while also educating citizens and urge everyone to strictly avoid construction near electrical lines and to take necessary permissions beforehand," he said.

TPSODL flags ‘unauthorised’ structures near power lines

PRESS TRUST OF INDIA

Berhampur, May 8: In a step towards ensuring public safety, a power utility has issued 1,229 notices to individuals and establishments for alleged unauthorised constructions near overhead electricity distribution lines in eight southern districts of the state.

The notices were issued by the TP Southern Odisha Distribution Limited (TPSODL), a joint venture between Tata Power and the state government. As many as 655 notices, the highest, were served in Ganjam alone, followed by 160 in Koraput, 131 in Malkangiri, 104 in Gajapati, 83 in Nabarangpur, 55 in Rayagada and 38 in Boudh, an official said.

The notices mentioned that “unauthorised” constructions near electricity lines pose a “serious threat to life and property, and also hamper routine maintenance and emergency restoration work.”

The power utility has taken

this step in accordance with the Electricity Act, 2003 and CEA Safety Regulations 2023, they said.

As per the Act, no building or structure is permitted under or near overhead lines without prior approval, which may result in disconnection of the power supply and appropriate legal action.

TPSODL CEO Amit Kumar Garg said, “Safety of the public and our field teams is our topmost priority. These encroachments are hazardous and against the law. We are committed to enforcing compliance while educating citizens. We urge everyone to strictly avoid construction near electrical lines and to take necessary permissions beforehand.”

Consumers who have received notices must act immediately to rectify the situation, and non-compliance may lead to enforcement of actions as prescribed under the Act, the notices said.

TPSODL issues notices to 1229 for power line encroachments

STATESMAN NEWS SERVICE
BERHAMPUR, 7 MAY:

TP Southern Odisha Distribution Limited (TPSODL) has issued 1,229 notices to individuals and establishments for unauthorized constructions under or dangerously close to overhead electricity lines across its operational areas in Southern Odisha.

The maximum number of notices were served in Ganjam (655), followed by Koraput (160), Malkangiri (131), Gajapati (104), Nabarangpur (83), Rayagada (55) and Boudh (38).

TPSODL has taken this

step in accordance with the Electricity Act, 2003 and CEA Safety Regulations 2023. As per the Act, no building or structure is permitted under or near overhead lines without prior approval which may result in disconnection of power supply and appropriate legal action.

Mr. Amit Kumar Garg, CEO, TPSODL, said: "Safety of the public and our field teams is our topmost priority. These encroachments are hazardous and against the law. We are committed to enforcing compliance while also educating citizens. We urge everyone to strictly avoid

construction near electrical lines and to take necessary permissions beforehand."

TPSODL has also rolled out an intensive awareness campaign to educate consumers about these dangers. The campaign includes village meetings, audio-visual vans, posters, Nukkad Nataks, and door-to-door outreach, especially in rural and semi-urban areas.

Consumers who have received notices must act immediately to rectify the situation. Non-compliance will lead to enforcement actions as prescribed under the Act.

TPSODL issues 1,229 notices for power line encroachments

BERHAMPUR: TP Southern Odisha Distribution Limited (TPSODL) has issued 1,229 notices across eight districts for unauthorized constructions near overhead power lines, citing serious safety risks and legal violations. The highest number of notices were served in Ganjam (655), followed by Koraput (160), Malkangiri (131), Gajapati (104),

Nabarangpur (83), Rayagada (55) and Boudh (38). The drive is part of TPSODL's safety and compliance campaign under the Electricity Act, 2003 and CEA Safety Regulations, 2023. Violators risk disconnection of power and legal action. CEO Amit Kumar Garg emphasized the importance of public safety and urged citizens to avoid building near electrical infrastructure. TPSODL has also launched awareness initiatives including village meetings and street plays to educate communities. Consumers are advised to obtain prior approval before any construction near power lines. Immediate action is required from those served notices to avoid further penalties.

TPSODL Issues 1,229 Notices For Power Line Encroachments

Berhampur, (Correspondent): In a major step towards ensuring public safety and safeguarding power infrastructure, TP Southern Odisha Distribution Limited (TPSODL) has issued 1,229 notices to individuals and establishments for unauthorized construction under or dangerously close to overhead electricity lines across its operational areas in Southern Odisha. This action, part of TPSODL's ongoing safety and compliance drive, covers eight districts. The maximum number of notices were served in Ganjam (655), followed by Koraput (160), Malkangiri (131), Gajapati (104), Nabarangpur (83), Rayagada (55) and Boudh (38). Unauthorized constructions near electricity lines pose a serious threat to life and property, and also hamper routine maintenance and emergency restoration work. TPSODL has taken this step in accordance with the

Electricity Act, 2003 and CEA Safety Regulations 2023. As per the Act, no building or structure is permitted under or near overhead lines without prior approval which may result in disconnection of power supply and appropriate legal action. Mr. Amit Kumar Gorg, CEO, TPSODL, said: "Safety of the public and our field teams is our top-most priority. These encroachments are hazardous and against the law. We are committed to enforcing compliance while also educating citizens. We urge everyone to strictly avoid construction near electrical lines and to take necessary permissions beforehand." TPSODL has also rolled out an

intensive awareness campaign to educate consumers about these dangers. The campaign includes village meetings, audio-visual vans, posters, Nakka Natak, and door-to-door outreach, especially in rural and semi-urban areas. TPSODL urges all consumers to take prior approval from the appropriate authority before initiating any construction near electricity lines and to never undertake construction under or close to electrical infrastructure. Violations will be treated seriously in accordance with the law. Consumers who have received notices must act immediately to rectify the situation. Non-compliance will lead to enforcement actions as prescribed under the Act.

टीपीएसओडीएल ने 1,229 उपभोक्ताओं को भेजा नोटिस

जासं, भुवनेश्वर : टीपी दक्षिण ओडिशा वितरण लिमिटेड) ने दक्षिण ओडिशा में विभिन्न स्थानों पर ओवरहेड बिजली लाइनों के पास अनधिकृत निर्माण के लिए 1,229 उपभोक्ताओं और प्रतिष्ठानों को नोटिस जारी किए हैं। कंपनी ने बिजली के बुनियादी ढांचे और सार्वजनिक सुरक्षा सुनिश्चित करने के उद्देश्य से यह कदम उठाया है। टीपीएसओडीएल की सुरक्षा और अनुपालन अभियान के अनुसार पूरे आठ जिलों में कार्रवाई की गई है। गंजाम जिले में सबसे अधिक 655 नोटिस जारी किए गए हैं, इसके बाद कौरापुट में 160, मालकानगिरी में 131, गजपति में 104, नवरंगपुर में 83, रायगढ़ में 55 और बौद्ध जिले में 38 नोटिस जारी किए गए हैं। टीपीएसओडीएल की तरफ से कहा गया है कि बिजली के तारों के पास अनधिकृत निर्माण कार्य जीवन के लिए खतरा पैदा करता है और मरम्मत और रखरखाव और आपातकालीन कार्यों को बाधित करता है। टीपीएसओडीएल ने यह कदम विद्युत अधिनियम 2003 और सीईए संरक्षण नियम 2023 के तहत उठाया है। उपर्युक्त अधिनियम के अनुसार, अनुमति के बिना ओवरहेड बिजली के तारों के पास कोई भवन या निर्माण कार्य नहीं किया जा सकता है, ऐसा न करने पर

बिजली गुल हो सकती है या उचित कानूनी कार्रवाई की जा सकती है। टीपीएसओडीएल के मुख्य कार्यकारी अधिकारी अमित कुमार गर्ग ने कहा है कि जनता और हमारे कर्मचारियों की सुरक्षा हमारी सर्वोच्च प्राथमिकता है। बिजली के तारों के पास अवैध निर्माण खतरनाक है और कानून का उल्लंघन है। हम लोगों को जागरूक करने और कानून का पालन करने के लिए प्रतिबद्ध हैं। हम सभी से अनुरोध करते हैं कि बिजली लाइन के पास निर्माण कार्य न करें और पहले से आवश्यक अनुमति लें। टीपीएसओडीएल ने उपभोक्ताओं को इन खतरनाक परिणामों के बारे में जागरूक करने के लिए एक जागरूकता अभियान भी शुरू किया है। ग्राम सभाएं, दृश्य वैन, पोस्टर, नुक्कड़ नाटक और घर-घर जाकर जागरूकता अभियान आयोजित किए जा रहे हैं, खासकर ग्रामीण क्षेत्रों और शहर के बाहरी इलाकों में। टीपीएसओडीएल ने सभी उपभोक्ताओं से अनुरोध किया है कि वे बिजली लाइन के पास कोई भी निर्माण कार्य शुरू करने से पहले अधिकारियों से पूर्व अनुमति प्राप्त करें और इन अनधिकृत निर्माणों से परहेज करने के लिए कहा गया है। टीपीएसओडीएल ने सूचित किया कि नियमों का उल्लंघन होने पर कानून के अनुसार कड़ी कार्रवाई की जाएगी।

टीपीएस ओडीएल को अभिनव मानव संसाधन पहलों के लिए ओडिशा लीडरशिप अवार्ड

नवभारत रिपोर्टर। ब्रह्मपुर। मानव संसाधन प्रबंधन के क्षेत्र में अभिनव पहलों और उत्कृष्ट संचालन के लिए टीपी सदर ओडिशा इंडस्ट्रीव्यूशन लिमिटेड (टीपी एसओडीएल) को ओडिशा लीडरशिप अवार्ड 2025 से सम्मानित किया गया है।

यह पुरस्कार कंपनी द्वारा अपनाए गए नवीनतम मानव संसाधन उपायों के माध्यम से एक प्रगतिशील और जन-केंद्रित कार्य वातावरण निर्मित करने के प्रयासों को मान्यता देता है। पुरस्कार चयन में कंपनी की विभिन्न पहलों, उपलब्धियों, मीडिया कवरेज और सहायक दस्तावेजों का गहन मूल्यांकन किया गया।

टीपी एसओडीएल ने कर्मचारी सशक्तिकरण, विविधता को बढ़ावा, निरंतर प्रशिक्षण, डिजिटल स्किल्स का उपयोग और समावेशी कार्य संस्कृति के निर्माण पर विशेष ध्यान दिया है। ये सभी पहलें कर्मचारियों को सशक्त बनाने के साथ-साथ उन्हें व्यावसायिक लक्ष्यों से जोड़ती हैं।

मानव संसाधन अधिकारी और औद्योगिक विशेषज्ञों की उपस्थिति में आयोजित एक समारोह में टीपी

एसओडीएल की ओर से मानव संसाधन प्रमुख संजीव कौशिक और डिप्टी जनरल मैनेजर सुनील कुमार रथ ने यह पुरस्कार ग्रहण किया। टीपीएस ओडीएल के मुख्य कार्यकारी अधिकारी अमित कुमार गर्ग ने कहा, इस प्रतिष्ठित पुरस्कार को प्राप्त कर हम सभी गर्वित हैं। यह हमारी उस प्रतिबद्धता को दर्शाता है जो हम एक प्रेरणादायक और समावेशी कार्य वातावरण निर्माण की दिशा में निभा रहे हैं। हमने ऐसा

माहौल तैयार किया है जहां कर्मचारी उत्कृष्टता की ओर बढ़ सकें। इसके लिए मैं हमारी मानव संसाधन टीम और टीपी एसओडीएल के प्रत्येक सदस्य को शुभकामनाएं देता हूँ। इस मान्यता के साथ टीपी एसओडीएल ने मानव संसाधन प्रबंधन के क्षेत्र में एक अग्रणी संस्था के रूप में अपनी पहचान बनाई है, जिससे न केवल कर्मचारियों का विकास हुआ है बल्कि संगठन की भी उन्नति हुई है।

କ୍ଷମା ସହ ଯୋଡ଼ିଥାଏ। ବିଭିନ୍ନ କମ୍ପାନୀର ମାନବ ସମ୍ବଳ ଅଧିକାରୀ ଏବଂ ଶିଳ୍ପ ବିଶେଷଜ୍ଞଙ୍କ ଉପସ୍ଥିତିରେ ଆୟୋଜିତ ଏକ କର୍ମକ୍ରମ,

କାର୍ଯ୍ୟକ୍ରମରେ ଟିପିଏସ୍‌ଓଡିଏଲ୍ ପକ୍ଷରୁ ମାନବ ସମ୍ବଳ ବିଭାଗ ମୁଖ୍ୟ ସଞ୍ଚାର କୌଶିକ ଏବଂ ମାନବ ସମ୍ବଳ ଡେପୁଟି ଜେନେରାଲ ମ୍ୟାନେଜର ସୁନିଲ କୁମାର ରଥ ପୁରସ୍କାର

ଗ୍ରହଣ କରିଥିଲେ। ଟିପିଏସ୍‌ଓଡିଏଲ୍ ମୁଖ୍ୟ କାର୍ଯ୍ୟନିର୍ବାହୀ ଅଧିକାରୀ ଅମିତ କୁମାର ଗର୍ଗ କହିଛନ୍ତି, “ଏହି ସମ୍ମାନଟି ପୁରସ୍କାର ପାଇଥିବାରୁ ଆମେ ସମସ୍ତେ ଉତ୍ସାହୀ। ଯାହା ଏକ ପ୍ରେରଣାଦାୟୀ ଓ ସମାବେଶୀ କର୍ମକ୍ଷେତ୍ର ନିର୍ମାଣ ଦିଗରେ ଆମର ପ୍ରତିବଦ୍ଧତାକୁ ଦର୍ଶାଏ। ଆମେ କାର୍ଯ୍ୟକ୍ଷେତ୍ରରେ ଏକାକି ପରିବେଶ ତିଆରି କରିଛୁ। ଯେଉଁଠାରେ କର୍ମଚାରୀମାନେ ଉତ୍ସାହ ସାଥୀ କର୍ମ କରନ୍ତି। ଏହାକୁ ଆମର ମାନବ ସମ୍ବଳ ବିଭାଗ ଏବଂ ଟିପିଏସ୍‌ଓଡିଏଲ୍ ପ୍ରତ୍ୟେକ ସଦସ୍ୟଙ୍କୁ ଶୁଭେଚ୍ଛା କରୁଛି। ଏହି ସମ୍ମାନଟି କାର୍ଯ୍ୟକ୍ରମରେ ଟିପିଏସ୍‌ଓଡିଏଲ୍ ପକ୍ଷରୁ ମାନବ ସମ୍ବଳ ବିଭାଗ ମୁଖ୍ୟ ସଞ୍ଚାର କୌଶିକ ଏବଂ ମାନବ ସମ୍ବଳ ଡେପୁଟି ଜେନେରାଲ ମ୍ୟାନେଜର ସୁନିଲ କୁମାର ରଥ ପୁରସ୍କାର ସ୍ୱୀକୃତି ସହ ଟିପିଏସ୍‌ଓଡିଏଲ୍ ମାନବ ସମ୍ବଳ ପରିଚାଳନା କ୍ଷେତ୍ରରେ ଏକ ଅଗ୍ରଣୀ ସଂସ୍ଥା ହୋଇପାରିଛି। ଯାହାଫଳରେ ଉତ୍ତମ କର୍ମଚାରୀ ଓ ଅନୁସାଧାରଣ ଅଭିବୃଦ୍ଧି ହେଉଛି।”

Synopsis: TP Southern Odisha Distribution Limited (TPSODL) has been honoured with the “Organization with Innovative HR Practices” award under the “Excellence in Innovation” category at the Odisha Leadership Awards 2025. The award recognizes TPSODL’s efforts in creating a progressive and people-centric workplace through innovative human resource practices. The selection was based on a detailed evaluation of the company’s initiatives, achievements, media coverage, and supporting documents. TPSODL stood out for its focus on employee engagement, well-being, diversity, continuous learning, adoption of digital HR tools, and building an inclusive work culture. These initiatives have helped strengthen its workforce and align people strategies with business goals. The award was received by Mr. Sanjeev Kaushik, Head HR, IR, ES&A, and Mr. Sunil Kumar Rath, Deputy General Manager – HR, at a ceremony attended by HR leaders and industry experts. Mr. Amit Kumar Garg, CEO, TPSODL, said: “This award is a proud moment for us. It reflects our commitment to creating an inspiring and inclusive workplace where employees feel empowered to achieve excellence. I congratulate our HR team and every member of the TPSODL family for this achievement.”

Synopsis: TP Southern Odisha Distribution Limited (TPSODL) has been honoured with the “Organization with Innovative HR Practices” award under the “Excellence in Innovation” category at the Odisha Leadership Awards 2025. The award recognizes TPSODL’s efforts in creating a progressive and people-centric workplace through innovative human resource practices. The selection was based on a detailed evaluation of the company’s initiatives, achievements, media coverage, and supporting documents. TPSODL stood out for its focus on employee engagement, well-being, diversity, continuous learning, adoption of digital HR tools, and building an inclusive work culture. These initiatives have helped strengthen its workforce and align people strategies with business goals. The award was received by Mr. Sanjeev Kaushik, Head HR, IR, ES&A, and Mr. Sunil Kumar Rath, Deputy General Manager – HR, at a ceremony attended by HR leaders and industry experts. Mr. Amit Kumar Garg, CEO, TPSODL, said: “This award is a proud moment for us. It reflects our commitment to creating an inspiring and inclusive workplace where employees feel empowered to achieve excellence. I congratulate our HR team and every member of the TPSODL family for this achievement.”

TPSODL and MKCG Medical College collect 118 units of blood on World Red Cross Day

BERHAMPUR: In a heartening display of community service, TP Southern Odisha Distribution Limited (TPSODL), in collaboration with MKCG Medical

College & Hospital and SOCH, a voluntary organization of MKCG students, organized a blood donation camp to mark World Red Cross and Red Crescent Day. Held at the premises of MKCG Medical College in Berhampur, the camp was inaugurated by Dr. Suchitra Das, Dean of MKCG Medical College & Hospital. The event drew enthusiastic participation from TPSODL employees, medical students, doctors, and volunteers, resulting in the collection of 118 units of blood. Amit Kumar Garg, CEO of TPSODL, lauded the effort, stating, "Blood donation is a profound act of service to humanity. At TPSODL, we are proud to stand for such causes that foster compassion, save lives, and strengthen the fabric of our community." Dr. Das also praised the initiative, encouraging youth and healthcare workers to continue supporting such life-saving efforts.

TPSODL and MKCG Medical College Join Hands to Collect 118 Units of Blood

Berhampur, (correspondent): To mark World Red Cross and Red Crescent Day, TPSODL (TP Southern Odisha Distribution Limited), in collaboration with MKCG Medical College & Hospital and SOCH - A voluntary Organisations of MKCG MCH students, organized a blood donation camp at the premises of MKCG Medical College, Berhampur. The event was inaugurated by Dr. Suchitra Das, Dean of MKCG Medical College & Hospital, in the presence of senior medical professionals, TPSODL employees,

and enthusiastic medical students. The camp reflected true community spirit, bringing together people from different walks of life for a common cause - to save lives. In total, 118 units of blood were collected, which will go a long way in supporting emergency needs and critical care services in hospitals.

This noble initiative witnessed active participation from TPSODL employees, medical students, doctors, and volunteers who came forward with selfless intent and a strong sense of social responsibility. Mr. Amit Kumar Garg, CEO of TPSODL, said, "Blood donation is a profound act of ser-

vice to humanity. It is our collective duty to support each other in times of need. At TPSODL, we are proud to stand for such causes that foster compassion, save lives, and strengthen the fabric of our community." Dr. Suchitra Das also appreciated the initiative and encouraged the youth and healthcare workers to continue their support for such events. Through these activities, TPSODL aims to establish a culture of empathy, volunteerism, and social solidarity among its employees and the community at large.

TPSODL ensures uninterrupted power to defence institution

STATESMAN NEWS SERVICE
BERHAMPUR, 20 MAY:

TP Southern Odisha Distribution Limited (TPSODL) has successfully completed the upgradation of a critical 33 KV power line to the Army Air Defence College in Gopalpur, Odisha — a key step towards enhancing power reliability for a strategic defence institution.

The Army Air Defence College, located along the coastal belt of Odisha, plays a vital role in India's defence training framework. Strengthening its power infrastructure

was crucial to ensure uninterrupted functioning of training and operational activities within the establishment.

The project was completed in January and involved a comprehensive upgrade of a 7.0 circuit kilometre stretch of the 33 KV line. The scope included replacement of old conductors, erection of damaged poles, and installation of 120 new electric poles. Additionally, bird guards were installed along the route to minimise the risk of outages caused by bird interference.

This infrastructure aug-

mentation has resolved previous reliability issues and ensured a stable, continuous power supply to the Army Air Defence College.

Mr. Amit Kumar Garg, CEO, TPSODL, said, "Empowering institutions of national importance through robust and reliable power infrastructure is at the core of our mission. The successful completion of this project reaffirms our commitment to delivering quality power supply to every corner of Southern Odisha, including key defence establishments."

TPSODL enhances power supply to Army Air Defence College

PBD BUREAU

BERHAMPUR, MAY 20

TP Southern Odisha Distribution Limited (TPSODL) has successfully upgraded a critical 33 KV power line supplying the Army Air Defence College in Gopalpur, Odisha. The project, completed in January, strengthens the power infrastructure of this key defence training institution.

Spanning 7 circuit kilometres, the upgrade included replacing old conductors, erecting 120 new poles, and installing bird guards to reduce outages. These improvements have resolved previous reliability issues, ensuring stable and uninterrupted

power crucial for the college's training and operations.

Amit Kumar Garg, CEO of TPSODL, said, "Empowering institutions of national importance with reliable power is central to our mission. This upgrade underscores our commitment to quality power delivery across Southern Odisha."

The initiative is part of TPSODL's broader efforts to reinforce its distribution network, support strategic establishments, and enhance overall consumer satisfaction.

TPSODL Ensures Reliable Power to Key Defence Institution

Berhampur, (DMC): TP Southern Odisha Distribution Limited (TPSODL) has successfully completed the upgradation of a critical 33 KV power line to the Army Air Defence College in Gopalpur, Odisha—a key step towards enhancing power reliability for a strategic defence institution. The Army Air Defence College, located along the coastal belt of Odisha, plays a vital role in India's defence training framework. Strengthening its power infrastructure was crucial to ensure uninterrupted functioning of training and operational activities within the establishment. The project was completed in January and involved a comprehensive upgrade of a 7.0 circuit kilometre stretch of the 33 KV line. The scope included replacement of old conductors, erection of damaged poles, and installation of 120 new electric poles. Additionally, bird guards were installed along the route to minimise the risk of outages caused by bird interference. This infrastructure augmentation has resolved previous reliability issues and ensured a stable, continuous power supply to the Army Air Defence College. The upgraded line is now capable of meeting the power demands of the institution more efficiently, contributing to its operational readiness and performance. Mr. Amit Kumar Garg, CEO, TPSODL, said, "Empowering institutions of national importance through robust and reliable power infrastructure is at the core of our mission. The successful completion of this project reaffirms our commitment to delivering quality power supply to every corner of Southern Odisha, including key defence establishments." This project stands as a testament to TPSODL's focus on building resilient infrastructure and supporting national service institutions. It is part of the company's broader efforts to strengthen the power distribution network across its licensed area, improve consumer satisfaction, and ensure 24x7 reliable electricity.

टीपीएसओडीएल ने बिजली लाइन को किया अपग्रेड

जगरण संवाददाता, भुवनेश्वर : टीपीएसओडीएल ने गोपालपुर में आर्मी एयर डिपेंस कालेज को जोड़ने वाली 33 केवी की बिजली लाइन को अपग्रेड किया है। इससे इन महत्वपूर्ण रक्षा संस्थानों को विश्वसनीय बिजली आपूर्ति हो सकेगी। ओडिशा के तट पर आर्मी एयर डिपेंस कालेज भारतीय रक्षा बलों का एक महत्वपूर्ण हिस्सा है। ऐसे ही एक प्रमुख राष्ट्रीय संस्थान में प्रतिष्ठान और अन्य रक्षा कार्यों को सुचारु रूप से चलाने के लिए बिजली के बुनियादी ढांचे को मजबूत किया गया है।

अपग्रेडेशन प्रोजेक्ट इस साल

विद्युत संदाओं में व्यवधान को रोकने के लिए 33 केवी लाइनों पर लगाया गया बर्ड गार्ड

पूरा हो चुका है और इसने 7.0 सेकेंड फिलोमांटर लंबी 33 केवी पावर लाइन को अपग्रेड किया है। इस चरण में पुराने कंडक्टरों को बदलकर और क्षतिग्रस्त बिजली के खंभों को हटाकर 120 नए बिजली के खंभे लगाए गए हैं। इसके अलावा पक्षियों के स्पर्श से बिजली सेवाओं में व्यवधान को रोकने के लिए 33 केवी

लाइन पर बर्ड गार्ड लगाए गए हैं। इस बुनियादी ढांचे के उन्नयन के साथ मौजूदा समस्याओं को दूर किया गया है और आर्मी एयर डिपेंस कालेज को स्थायी और गुणवत्तापूर्ण बिजली की आपूर्ति सुनिश्चित की गई है। इस कदम से इन रक्षा प्रतिष्ठानों की बिजली की मांग पूरी होगी। अमित कुमार गर्ग, मुख्य कार्यकारी अधिकारी, टीपीएसओडीएल ने कहा कि हमारा एक मुख्य उद्देश्य मजबूत बिजली बुनियादी ढांचे के माध्यम से राष्ट्रीय स्तर के संस्थानों को बेहतर सेवाएं प्रदान करना है।

यह परियोजना दक्षिण ओडिशा के हर नुक्संद और कोने में गुणवत्तापूर्ण बिजली सेवाएं प्रदान करने के प्रति हमारी प्रतिबद्धता को दर्शाती है। यह मजबूत बुनियादी ढांचे के निर्माण और राष्ट्रीय महत्व के संस्थानों को बिजली सेवाएं प्रदान करने पर टीपीएसओडीएल के महत्व को दर्शाता है। कंपनी उपभोक्ता संतुष्टि और 24x7 विश्वसनीय बिजली सुनिश्चित करने के आशय, टीपीएसओडीएल के तहत आने वाले क्षेत्र में बिजली वितरण नेटवर्क को बेहतर बनाने के लिए बड़े पैमाने पर प्रयास कर रही है।

टीपीएस ओडीएल ने 33 केवी विद्युत लाइन का सफल उन्नयन किया

नवभारत ब्यूरो। भुवनेश्वर।

टीपी साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने आर्मी एयर डिफेंस कॉलेज, गोपालपुर को आपूर्ति की जाने वाली एक महत्वपूर्ण 33 केवी विद्युत लाइन के उन्नयन कार्य को सफलतापूर्वक पूरा कर लिया है। यह परियोजना देश की सामरिक दृष्टिकोण से महत्वपूर्ण इस रक्षा प्रशिक्षण संस्थान के लिए बिजली आपूर्ति की विश्वसनीयता बढ़ाने की दिशा में एक बड़ा कदम है। इस परियोजना के तहत 7.0 सर्किट किलोमीटर लंबी लाइन को उन्नत किया गया। कार्य की परिधि में पुराने कंडक्टरों को बदलना, क्षतिग्रस्त खंभों की मरम्मत व पुनःस्थापना और 120 नए विद्युत पोलों की स्थापना शामिल थी। साथ ही, पक्षियों से होने वाले व्यवधानों को कम करने के लिए बर्ड गाइड्स भी लगाए गए। इस संरचनात्मक सुधार से अब कॉलेज को निर्बाध और स्थिर बिजली आपूर्ति सुनिश्चित हो गई है, जिससे इसके प्रशिक्षण और संचालन संबंधी

गतिविधियों में कोई बाधा नहीं आएगी। यह उन्नत लाइन अब संस्थान की बढ़ती बिजली आवश्यकताओं को और अधिक कुशलता से पूरा करने में सक्षम है। टीपीएस ओडीएल के सीईओ अमित कुमार गर्ग ने कहा- राष्ट्रीय महत्व की संस्थाओं को मजबूत और विश्वसनीय विद्युत अवसंरचना प्रदान करना हमारे मिशन का एक अहम हिस्सा है। इस परियोजना की सफलता हमारे दक्षिण ओडिशा के हर कोने में गुणवत्तापूर्ण बिजली आपूर्ति सुनिश्चित करने की प्रतिबद्धता को दर्शाती है। यह परियोजना टीपीएसओडीएल की क्षेत्रीय विद्युत वितरण प्रणाली को मजबूत करने, निर्बाध बिजली आपूर्ति सुनिश्चित करने की व्यापक पहल का हिस्सा है।

Synopsis: TP Southern Odisha Distribution Limited (TPSODL) has successfully completed the upgradation of a critical 33 KV power line to the Army Air Defence College in Gopalpur, Odisha — a key step towards enhancing power reliability for a strategic defence institution. The Army Air Defence College, located along the coastal belt of Odisha, plays a vital role in India's defence training framework. Strengthening its power infrastructure was crucial to ensure uninterrupted functioning of training and operational activities within the establishment.

The project was completed in January and involved a comprehensive upgrade of a 7.0 circuit kilometre stretch of the 33 KV line. The scope included replacement of old conductors, erection of damaged poles, and installation of 120 new electric poles. Additionally, bird guards were installed along the route to minimise the risk of outages caused by bird interference. This infrastructure augmentation has resolved previous reliability issues and ensured a stable, continuous power supply to the Army Air Defence College. The upgraded line is now capable of meeting the power demands of the institution more efficiently, contributing to its operational readiness and performance.

Mr. Amit Kumar Garg, CEO, TPSODL, said, "Empowering institutions of national importance through robust and reliable power infrastructure is at the core of our mission. The successful completion of this project reaffirms our commitment to delivering quality power supply to every corner of Southern Odisha, including key defence establishments."

TPSODL goes green with solar energy

BHUBANESWAR: In a major push toward renewable energy adoption, TP Southern Odisha Distribution Limited (TPSODL) has successfully installed solar power systems with a cumulative capacity of 396.4 kilowatt across 16 strategic locations in southern Odisha.

The solar installations span a diverse set of facilities including the corporate, Circle, division and section offices and several primary sub-stations. The distribution company now harnesses solar energy not only to meet a portion of their power requirements but also to set an example for sustainable utility practices in the region.

The corporate office in Berhampur leads the way with a 100-kW installation, followed by major installations at Chatrapur division office (34.1 kW), MRT Ambagada (27.5 kW), Sasan Ambagaon PSS (28.6 kW) and the combined Hinjili CRC division office and PSS (28.05 kW).

“The transition to solar energy has already started showing tangible results through reduced electricity expenses at these sites. All these installations adhere to the highest safety and engineering standards with rooftop designs optimised for maximum solar efficiency and seamless integration with existing structures,” said TPSODL CEO Amit Kumar Garg.

TPSODL installs solar power systems of 396 kilowatts

STATESMAN NEWS SERVICE
BERHAMPUR, 29 MAY:

TP Southern Odisha Distribution Limited (TPSODL) has successfully installed solar power systems with a cumulative capacity of 396.4 kilowatts (kW) across 16 strategic locations in Southern Odisha.

The solar installations span a diverse set of facilities, including the Corporate Office, Circle and Division Offices, and critical Primary Sub-Stations (PSS) and Section Offices. The corporate headquarters in Berhampur leads the way with a 100-kW installation, followed by major installations at Chatrapur Division Office (34.1 kW), MRT Ambagada (27.5

kW), Sasan Ambagaon PSS (28.6 kW), and the Combined Hinjili CRC, Division Office, and PSS (28.05 kW).

TPSODL has equipped each of the installations with advanced smart meters and IoT-enabled monitoring systems, which allow real-time tracking of energy generation and usage.

With an estimated annual carbon offset of 388.5 tons of CO₂, the move not only helps to combat climate change but also encourages greater community awareness about renewable energy. Employee engagement programs are also being launched to build a deeper understanding of sustainability within the organization.

Mr. Amit Kumar Garg, CEO of TPSODL, said, "Sustainability is not just an initiative at TPSODL; it is embedded in our operational DNA. These solar installations mark an important milestone in our journey to reduce carbon emissions and lead by example in Southern Odisha's transition to a greener energy future."

Looking ahead, TPSODL has ambitious plans to expand its solar efforts. The company is set to commission solar power systems at over 10 additional Primary Sub-Stations and Section Offices, which will collectively add another 370 kW to its installed capacity. Once completed, this expansion will nearly double TPSODL's current solar footprint, taking the total to more than 760 kW in the near future.

TPSODL powers up Southern Odisha with solar energy

BERHAMPUR: TP Southern Odisha Distribution Limited (TPSODL) has installed 396.4 kW of solar power across 16 locations in Southern Odisha, marking a major stride in its sustainability journey. Key sites include the Berhampur Corporate Office (100 kW), Chatrapur Division (34.1 kW), and Sasan Ambagaon PSS (28.6 kW). These systems are equipped with smart meters and IoT-based monitoring for real-time tracking. The initiative is expected to offset 388.5 tons of CO2 annually, supporting TPSODL’s Environmental, Social, and Governance (ESG) goals. CEO Amit Kumar Garg emphasized the company’s commitment to a greener future. Plans are underway to expand capacity by an additional 370 kW, nearly doubling TPSODL’s solar footprint.

TPSODL Powers Ahead with Solar Energy

BHUBANESWAR, (Correspondent):: In a major push toward sustainability and renewable energy adoption, TP Southern Odisha Distribution Limited (TPSODL) has successfully installed solar power systems with a cumulative capacity of 396.4 kilowatts (kW) across 16 strategic locations in Southern Odisha. TPSODL continues to redefine responsible energy distribution by integrating clean energy into its operational infrastructure. The solar installations span a diverse set of facilities, including the Corporate Office, Circle and

Division Offices, and critical Primary Sub-Stations (PSS) and Section Offices. These locations now harness solar energy not only to meet a portion of their power requirements but also to set an example for sustainable utility practices in the region. The corporate headquarters in Berhampur leads the way with a 100-kW

installation, followed by major installations at Chatrapur Division Office (34.1 kW), MRT Ambagada (27.5 kW), Sasan Ambagaon PSS (28.6 kW), and the Combined Hinjli CRC, Division Office, and PSS (28.05 kW). Other facilities like Bhanjavihar PSS (16.5 kW), Narendrapur PSS

(18.7 kW), Taratarini PSS (17.05 kW), Gopalpur PSS (15.4 kW), and Ganjam PSS (17.05 kW) have also been brought under the solar network. Installations at Ambagada PSS, Ramchandrapur PSS, Golanthara/Mantridih PSS, Taratarini Section Office, City Circle Office, and the Combined Hinjli Section and Kanchudu Section collectively contribute to this growing green footprint. The transition to solar energy has already started to show tangible results through reduced electricity expenses at these sites.

TPSODL installs 396.4 kW of solar Power systems across Southern Odisha

Bhubaneswar, (UNI) In a significant step toward sustainability and the adoption of renewable energy, TP Southern Odisha Distribution Limited (TPSODL) has successfully installed solar power systems with a total capacity of 396.4 kilowatts (kW) at 16 strategic locations across Southern Odisha. The installations span a wide range of facilities, including the Corporate Office, Circle and Division Offices, as well as critical Primary Sub-Stations (PSS) and Section Offices. These locations now partially rely on solar energy, setting a strong example of sustainable utility practices in the region. Leading the initiative is the corporate headquarters in Berhampur, which boasts a 100-kW solar installation. Other notable projects include the Chatrapur Division Office (34.1 kW), MRT Ambagada (27.5 kW), Sasan Ambagaon PSS (28.6 kW), and the combined Hinjli CRC, Division Office, and PSS (28.05 kW).

The shift to solar energy has already begun to yield results, notably in the form of reduced electricity costs. TPSODL has equipped all sites with advanced smart meters and IoT-enabled monitoring systems, allowing real-time tracking of both energy generation and consumption. All systems have been installed in compliance with the highest safety and engineering standards. The rooftop designs are optimized for maximum solar efficiency and ensure seamless integration with existing infrastructure. With an estimated annual carbon offset of 388.5 tons of CO₂, this initiative contributes to the fight against climate change while promoting community awareness of renewable energy.

Speaking on the achievement, TPSODL CEO Amit Kumar Garg said, "These solar installations mark a major milestone in our journey toward reducing carbon emissions and leading by example in Southern Odisha's transition to a greener energy future." Looking ahead, TPSODL has ambitious plans to further expand its solar initiatives. The company is preparing to commission solar power systems at more than 10 additional Primary Substations and Section Offices, which will contribute an additional 370 kW to its installed capacity. Upon completion, this expansion will nearly double TPSODL's current solar capacity, taking the total to over 760 kW in the near future, Garg said.

TPSODL Powers Ahead with Solar Energy

Berhampur, (ENS): In a major push toward sustainability and renewable energy adoption, TP Southern Odisha Distribution Limited (TPSODL) has successfully installed solar power systems with a cumulative capacity of 396.4 kilowatts (kW) across 16 strategic locations in Southern Odisha. TPSODL continues to redefine responsible energy distribution by integrating clean energy into its operational infrastructure.

The solar installations span a diverse set of facilities, including the Corporate Office, Circle and Division Offices, and critical Primary Sub-Stations (PSS) and Section Offices. These locations now harness solar energy not only to meet a portion of their

power requirements but also to set an example for sustainable utility practices in the region. The corporate headquarters in Berhampur leads the way with a 100-kW installation, followed by major installations at Chutrapur Division Office (34.1 kW), MRT Ambagada (27.5 kW), Sasan Ambagaon PSS (28.6 kW), and the Combined Hinjli CRC, Division Office, and PSS (28.05 kW).

Other facilities like Bhanjavihar PSS (16.3 kW), Narendrapur PSS (18.7 kW), Taratarini PSS (17.05 kW), Gopalpur PSS (15.4 kW), and Ganjam PSS (17.05 kW) have also been brought under the solar network. Installations at Ambagada PSS, Ramchandrapur PSS, Golanthara/

Mantridih PSS, Taratarini Section Office, City Circle Office, and the Combined Hinjli Section and Kanchudu Section collectively contribute to this growing green footprint.

The transition to solar energy has already started to show tangible results through reduced electricity expenses at these sites. TPSODL has equipped each of the installations with advanced smart meters and IoT-enabled monitoring systems, which allow real-time tracking of energy generation and usage. All installations adhere to the highest safety and engineering standards, with rooftop designs optimized for maximum solar efficiency and seamless integration with existing structures.

This initiative is a crucial component of TPSODL's broader Environmental, Social, and Governance (ESG) agenda. With an estimated annual carbon offset of 388.5 tons of CO₂, the move not only helps to combat climate change but also encourages greater community awareness about renewable energy. Employee engagement programs are also being launched to build a deeper understanding of sustainability within the organization.

Speaking on the achievement, Mr. Amit Kumar Garg, CEO of TPSODL, said, "Sustainability is not just an initiative at TPSODL; it is embedded in our operational DNA. These solar installations mark an important milestone in our

journey to reduce carbon emissions and lead by example in Southern Odisha's transition to a greener energy future."

Looking ahead, TPSODL has ambitious plans to expand its solar efforts. The company is set to commission solar power systems at over 10 additional Primary Sub-Stations and Section Offices, which will collectively add another 370kW to its installed capacity. Once completed, this expansion will nearly double TPSODL's current solar footprint, taking the total to more than 760 kW in the near future.

With a strong commitment to empower communities, adopt innovation, and ensure energy equity across Southern Odisha, TPSODL's solar efforts stand as a shining example of what integrated, clean utility services can accomplish.

TPSODL Powers Ahead with Solar Energy

- 396.4 kW Capacity Installed Across 16 Locations in Southern Odisha
- Set to Cut 388.5 Tons of CO2 Every Year
- Soon, 10 More Offices to Run on Solar

Bhubaneswar, May 29: In a major push toward sustainability and renewable energy adoption, TP Southern Odisha Distribution Limited (TPSODL) has successfully installed solar power systems with a combined capacity of 396.4 kilowatts (kW) across 16 strategic locations in Southern Odisha. TPSODL, committed to modernising its responsible energy distribution by integrating clean energy into its operational infrastructure. The solar installations span a diverse set of facilities, including the Corporate Office, Circle and Division Offices, and critical Primary Sub-Stations (PSS) and Section Offices. These locations now harness solar energy not only to meet a portion of their power requirements but also to set an example for sustainable utility practices in the region. The corporate headquarters in Bhubaneswar leads the way with a 199.4 kW installation, followed by major installations at Cuttack Division Office (54.1 kW), NMT Ambajala (37.5 kW), Saron Archapada PSS (28.6 kW), and the Combined District Circle, Division Office, and PSS (28.05 kW). Other facilities like Bhubaneswar PSS (16.5 kW), Narasingpur PSS (16.7 kW), Samsara PSS (17.05 kW), Gajapati PSS (15.3 kW), and Ganjam PSS (17.05 kW) have also been brought under the solar network. Installations at Ambajala PSS, Ransatabad PSS, Gokulnagar Main PSS, Turakshi Section Office, City Circle Office, and the Combined High Section and Ransatabad Section collectively contribute to the growing green footprint. The transition to solar energy has already started to show tangible results through reduced electricity expenses at these sites. TPSODL has equipped each of the installations with advanced smart meters and IoT-enabled monitoring systems, which allow real-time tracking of energy generation and usage. All installations

adhere to the highest safety and engineering standards, with rooftop designs optimised for maximum solar efficiency and seamless integration with existing structures.

This initiative is a crucial component of TPSODL's broader Environmental, Social, and Governance (ESG) agenda. With an estimated annual carbon offset of 388.5 tons of CO2, the move not only helps to combat climate change but also encourages greater community awareness about renewable energy. Targeted engagement programs are also being launched to build a deeper understanding of sustainability within the organisation.

Speaking on the occasion, Mr. Anil Kumar Gogoi, CEO of TPSODL, said, "Sustainability is not just an initiative at TPSODL; it is embedded in our operational DNA. These solar installations mark an important milestone in our journey to replace carbon emissions and lead by example in Southern Odisha's transition to a greener energy future."

Looking ahead, TPSODL has ambitious plans to expand its solar efforts. The company is set to commission solar power systems at over 10 additional Primary Sub-Stations and Section Offices, which will collectively add another 500 kW to its installed capacity. Once completed, this expansion will nearly double TPSODL's current solar footprint, taking the total to more than 700 kW in the near future.

With a strong commitment to empower communities, adopt innovation, and ensure energy equity across Southern Odisha, TPSODL's solar efforts stand as a shining example of what integrated, clean utility services can accomplish.

दक्षिण ओडिशा में 16 स्थानों पर स्थापित किए 396.4 किलोवाट क्षमता के सौर पैनल

जागरण संवाददाता, भुवनेश्वर : टीपी सदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने पर्यावरण की स्थिरता और संरक्षण और नवीकरणीय ऊर्जा को अपनाने के क्षेत्र में दक्षिण ओडिशा में 16 स्थानों पर 396.4 किलोवाट क्षमता के सौर पैनल सफलतापूर्वक स्थापित किए हैं। सौर ऊर्जा को लेकर केन्द्र एवं राज्य सरकार की तरफ से दिए जा रहे महत्व के बीच टीपीएसओडीएल ने स्वच्छ ऊर्जा को अपनाकर अपने परिचायन बुनियादी ढांचे को नया रूप देकर एक बड़ी उपलब्धि हासिल की है।

टीपीएसओडीएल की सफलता पर टिप्पणी करते हुए, सईओ अमित कुमार गर्ग ने कहा है कि सतत विकास केवल टीपीएसओडीएल का एक पहल नहीं है बल्कि यह हमारी प्रबंधकीय जिम्मेदारी है और यह हमारे डीएनए में है। इन सौर पैनलों की स्थापना भविष्य में दक्षिण ओडिशा को हरित ऊर्जा का स्रोत बनाने में महत्वपूर्ण भूमिका निभाएगी और कार्बन फुटप्रिंट को कम करने में मदद करेगी। उन्होंने कहा कि भविष्य में, टीपीएसओडीएल को सौर

● प्रति वर्ष 388.5 टन कार्बन डाइऑक्साइड को कम करने का लक्ष्य

● जल्द ही 10 और कार्यालय को सौर ऊर्जा से संचालित करने का रखा है लक्ष्य

ऊर्जा के क्षेत्र में कई महत्वाकांक्षी योजनाएं हैं जो सौर ऊर्जा के विकास में बहुत उपयोगी हो सकती हैं।

कंपनी का लक्ष्य आने वाले दिनों में अपने 10 प्राथमिक सबस्टेशनों, अनुभाग कार्यालयों को सौर ऊर्जा देना है। जिसकी क्षमता 370 किलोवाट है। एक बार जब ये कार्यालय सौर ऊर्जा से संचालित हो जाते हैं, तो कंपनी अपनी कुल सौर क्षमता को दोगुना कर सकती है जो 760 किलोवाट क्षमता होगी। टीपीएसओडीएल दक्षिण ओडिशा में समुदायों को सशक्त बनाने, अभिनव पहल करने और ऊर्जा समानता सुनिश्चित करने के लिए दृढ़ता से प्रतिबद्ध है। सौर ऊर्जा के क्षेत्र में कंपनी के प्रयास विशेष महत्व रखते हैं और एक उदाहरण हैं।

इन जगहों पर लगाए गए हैं सौर पैनल

ये सौर पैनल कंपनी के कारपोरेट आफिस, सर्फैल आफिस, डिवीजन आफिस के साथ-साथ प्राइमरी सबसक्रिप्शन और सेक्शन आफिस में लगाए गए हैं। इन स्थानों पर सौर पैनलों की स्थापना के साथ, न केवल दैनिक बिजली की जरूरतों को पूरा किया जा रहा है, बल्कि इसने ऊर्जा के क्षेत्र में एक स्थायी विकल्प के रूप में उपयोग करके इस क्षेत्र में एक उदाहरण भी बनाया है। कंपनी के बरहमपुर स्थित कारपोरेट कार्यालय में कुल 100 किलोवाट, छतरपुर मंडल में 34.1 किलोवाट, एमआरटी अंबगढ़ में 27.5 किलोवाट, शासन अंबगढ़ पीएसएस में 28.6 किलोवाट, जबकि हिन्जिली सीआरसी, मंडल कार्यालय और पीएसएस में कुल 28.05 किलोवाट क्षमता के सौर पैनल लगाए गए हैं। भंजविहार पीएसएस (16.5 किलोवाट), नरेन्द्रपुर पीएसएस (18.7 किलोवाट), तारातारिणी पीएसएस (17.05 किलोवाट), गोपालपुर पीएसएस (15.4 किलोवाट) और गजम पीएसएस (17.05 किलोवाट) में पावर पैनल स्थापित किए गए हैं।

हरित ऊर्जा की ओर बड़ा कदम: टीपीएसओडीएल ने बढ़ाया सौर नेटवर्क

भुवनेश्वर। सतत विकास और नवीकरणीय ऊर्जा को बढ़ावा देने के अपने प्रयासों के तहत, टीपी साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने दक्षिण ओडिशा के 16 रणनीतिक स्थलों पर कुल 396.4 किलोवाट क्षमता की सौर ऊर्जा प्रणाली सफलतापूर्वक स्थापित की है। इस पहल से न केवल कंपनी के परिचालन में ऊर्जा लागत में कमी आई है, बल्कि यह क्षेत्र में स्वच्छ ऊर्जा को अपनाने की दिशा में एक प्रेरक उदाहरण भी बन गया है। इन सौर ऊर्जा संयंत्रों की स्थापना कंपनी के कॉर्पोरेट कार्यालय, सर्कल और डिवीजन कार्यालयों, साथ ही प्रमुख प्राइमरी सब-स्टेशनों और सेक्शन कार्यालयों में की गई है। ब्रह्मपुर स्थित कॉर्पोरेट मुख्यालय में सबसे बड़ी 100 किलोवाट की स्थापना की गई है। इसके अलावा छत्रपुर डिवीजन कार्यालय (34.1 किलोवाट), एमआरटी अंबागड़ा (27.5 किलोवाट), ससन अंबागांव पीएसएस (28.6 किलोवाट), और हिंजली सीआरसी, डिवीजन ऑफिस व पीएसएस (28.05 किलोवाट) में भी प्रमुख संयंत्र लगाए गए हैं। अन्य प्रतिष्ठानों जैसे भंजविहार पीएसएस (16.5 किलोवाट), नरेंद्रपुर पीएसएस (18.7 किलोवाट), तारातारिणी पीएसएस (17.05 किलोवाट), गोपालपुर पीएसएस (15.4 किलोवाट) और गंजाम पीएसएस (17.05 किलोवाट) को भी सौर ऊर्जा नेटवर्क में शामिल किया गया है। हर संयंत्र को स्मार्ट मीटर और इंटरनेट ऑफ थिंग्स-सक्षम निगरानी प्रणाली से सुसज्जित किया गया है, जिससे ऊर्जा उत्पादन और खपत की रीयल-टाइम ट्रैकिंग संभव हो पाती है। सभी प्रणालियां उच्चतम सुरक्षा और इंजीनियरिंग मानकों का पालन करते हुए स्थापित की गई हैं। टीपीएसओडीएल के सीईओ अमित कुमार गर्ग ने कहा सततता हमारे लिए कोई पहल नहीं, बल्कि हमारी परिचालन संस्कृति का हिस्सा है।

These solar installations mark an important milestone in our journey to reduce carbon emissions and lead by example in Southern Odisha's transition to a greener energy future."

Looking ahead, TPSODL has ambitious plans to expand its solar efforts. The company is set to commission solar power systems at over 10 additional Primary Sub-Stations and Section Offices, which will collectively add another 370 kW to its installed capacity. Once completed, this expansion will nearly double TPSODL's current solar footprint, taking the total to more than 760 kW in the near future.

Synopsis: In a major push toward sustainability and renewable energy adoption, TP Southern Odisha Distribution Limited (TPSODL) has successfully installed solar power systems with a cumulative capacity of 396.4 kilowatts (kW) across 16 strategic locations in Southern Odisha. TPSODL continues to redefine responsible energy distribution by integrating clean energy into its operational infrastructure. The solar installations span a diverse set of facilities, including the Corporate Office, Circle and Division Offices, and critical Primary Sub-Stations (PSS) and Section Offices. These locations now harness solar energy not only to meet a portion of their power requirements but also to set an example for sustainable utility practices in the region. The corporate headquarters in Berhampur leads the way with a 100-kW installation, followed by major installations at Chatrapur Division Office (34.1 kW), MRT Ambagada (27.5 kW), Sasan Ambagaon PSS (28.6 kW), and the Combined Hinjli CRC, Division Office, and PSS (28.05 kW). Other facilities like Bhanjavihar PSS (16.5 kW), Narendrapur PSS (18.7 kW), Taratarini PSS (17.05 kW), Gopalpur PSS (15.4 kW), and Ganjam PSS (17.05 kW) have also been brought under the solar network. Installations at Ambagada PSS, Ramchandrapur PSS, Golanthara/Mantridih PSS, Taratarini Section Office, City Circle Office, and the Combined Hinjli Section and Kanchudu Section collectively contribute to this growing green footprint. This initiative is a crucial component of TPSODL's broader Environmental, Social, and Governance (ESG) agenda. With an estimated annual carbon offset of 388.5 tons of CO₂, the move not only helps to combat climate change but also encourages greater community awareness about renewable energy. Employee engagement programs are also being launched to build a deeper understanding of sustainability within the organization. Speaking on the achievement, Mr. Amit Kumar Garg, CEO of TPSODL, said, "Sustainability is not just an initiative at TPSODL; it is embedded in our operational DNA. These solar installations mark an important milestone in our journey to reduce carbon emissions and lead by example in Southern Odisha's transition to a greener energy future."

Looking ahead, TPSODL has ambitious plans to expand its solar efforts. The company is set to commission solar power systems at over 10 additional Primary Sub-Stations and Section Offices, which will collectively add another 370 kW to its installed capacity. Once completed, this expansion will nearly double TPSODL's current solar footprint, taking the total to more than 760 kW in the near future.
