TPSODL launches solar rooftop awareness campaign in southern Odisha

**PBD BUREAU
BERHAMPUR, (P)**

TP Southern Odisha Distribution Limited (TPSODL) has launched a major awareness campaign to promote rooftop solar installations across Southern Odisha. This initiative supports the PM Surya Ghar Muft Higi Yojana (PM-SUGM) and aligns with the state's Renewable Energy Policy, highlighting Tata Power's commitment to sustainable energy solutions.

The campaign aims to inform residents, commercial, and industrial customers about the benefits of solar energy and available subsidies.

Key highlights include the Central Financial Assistance (CFA) program under PM-SUGM, offering substantial subsidies for rooftop installations – Rs 30,000 per kW for 1-2 kW systems and Rs 78,000 for systems above 2 kW. The campaign also provides support with the application process and technical evaluations.

Inaugurated by Amit Kumar Garg, CEO of TPSODL, and Kaushik Sanyal, National Head, Renewables at Tata Power, the campaign marks the start of a state-wide effort

to encourage solar rooftop adoption. Consumers participating in the initiative were recognized as Green Champions for their contributions to sustainability.

Odisha, with 280-300 sunny days annually, is well-positioned for significant solar energy expansion. Southern Odisha, with its diverse natural features, is particularly suited for solar infrastructure.

Garg emphasized, "Our campaign in Southern Odisha is designed to leverage the region's solar potential. By promoting PM-SUGM, we aim to make solar energy accessible and affordable, empowering our 2.3 million consumers with reliable and clean energy solutions."

Odisha currently has around 400 MW of installed solar capacity, with goals to reach 10 GW by 2030. The campaign supports these goals by encouraging investment in solar energy, reducing carbon footprints, and contributing to India's clean energy objectives.

Tata Power Solar, with over 2 GW of rooftop capacity and a 15 percent market share, continues to lead the industry, committed to providing affordable and sustainable solar energy solutions nationwide.

TPSODL's drive for adoption of rooftop solar solutions

POST NEWS SERVICE

Bhubaneswar, Sept 4: TP Southern Odisha Distribution Limited (TPSODL) has recently launched a mass awareness campaign to promote adoption of solar rooftop across the southern Odisha, leveraging the region's abundant solar resources.

"The campaign seeks to educate residents, commercial and industrial customers about the benefits of solar energy and available subsidies from the government," company officials said.

"Key elements include information on the Central Financial Assistance (CFA) programme under PM Surya Ghar (Roof Top) Yojana, which provide substantial subsidies for rooftop solar installations," they said.

The subsidy amounts range from ₹8,000 per kW for 1 kW to 2 kW systems, ₹78,000 for 3 kW

and above capacities. The campaign also offers support with the application, process and technical evaluations.

The campaign was inaugurated by TPSODL CEO Amit Kumar Garg, and Tata Power National Grid - Renewables Odisha Head, Koushik Sonpal, in the presence of senior officials from the company.

Emphasizing the importance of this initiative, Garg said, "Our solar awareness campaign in southern Odisha is a strategic move to harness the vast solar potential of the region. Through the provision of the PM Surya Ghar (Roof Top) Yojana, we are committed to making solar energy both accessible and affordable for all."

"By driving solar adoption among our 20 lakh consumer base, we are empowering them with reliable, cost-effective, and clean energy solution," he added.

TPSODL launches mass awareness campaign to promote widescale adoption of Rooftop Solar Solutions across Southern Odisha

Berhampur, (ENS): TP Southern Odisha Distribution Limited (TPSODL) has launched a mass awareness campaign for solar rooftop across Southern Odisha, leveraging the region's abundant solar resources to foster widespread adoption of solar energy. This initiative promotes the PM Surya Ghar Muft Bijli Yojana (PM-SGBBY) and aligns with the state's Renewable Energy (RE) Policy, underscoring Tata Power's unwavering commitment to sustainable energy solutions. The campaign seeks to educate residents and commercial and industrial (C&I) customers on the benefits of solar energy, as well as the available subsidies. Key elements include information on the Central Financial Assistance (CFA) program under PM Surya Ghar Muft Bijli Yojana (PM-SGBBY),

which provides substantial subsidies for rooftop solar installations. The subsidy amounts range from ₹30,000 per KW for 1 kW to 2 kW systems, ₹78,000 for 3 kW and above 3 kW capacities. The campaign also offers support with the application process and technical evaluations. The campaign was inaugurated by Mr. Amit Kumar Garg, CEO, TPSODL and Mr. Kaushik Sanyal, National Head, Renewables, Tata Power in the presence of senior officials from the company. This marks the beginning of a state-wide movement aimed at encouraging consumers to install solar rooftop solutions. As part of this initiative, consumers were honoured as 'Green Champions' in recognition of their adoption of solar and their contributions to sustainability and eco-friendly practices. With an impressive 280-300 sunny

days per year, Odisha is poised for significant solar energy expansion. This potential is driven by the state's vast land resources, including industrial and mining wastelands, along with its reservoirs. Southern Odisha, in particular, offers an ideal landscape for solar power infrastructure due to its diverse natural features.

Emphasizing the importance of this initiative, Mr. Amit Kumar Garg, CEO of TPSODL, stated, "Our solar awareness campaign in Southern Odisha is a strategic move to harness the vast solar potential of this region. Through the promotion of the PM Surya Ghar Muft Bijli Yojana, we are committed to making solar energy both accessible and affordable for all. By driving solar adoption among our 23 lakh consumer base, we are empowering them with reliable,

TPSODL launches solar rooftop campaign in Southern Odisha

Bhubaneswar, (UNI) TP Southern Odisha Distribution Limited (TPSODL) has launched a mass awareness campaign to promote solar rooftops across Southern Odisha, leveraging the region's abundant solar resources to encourage widespread adoption of solar energy. This initiative supports the PM Surya Ghar Muft Bijli Yojana (PMSGMBY) and aligns with the state's Renewable Energy (RE) Policy, highlighting Tata Power's unwavering commitment to sustainable energy solutions. The campaign aims to educate residents, as well as commercial and industrial customers, on the benefits of solar energy and the available subsidies. It was inaugurated by Anil Kumar Garg, CEO of TPSODL, and Kanchik Sanyal, National Head of Renewables at Tata Power, in the presence of senior company officials. This campaign

marks the beginning of a statewide movement to encourage consumers to install solar rooftop solutions. As part of this initiative, consumers were honored as 'Green Champions' in recognition of their adoption of solar energy and their contribution to sustainability and eco-friendly practices. With an impressive 280-300 sunny days per year, Odisha is well-positioned for significant solar energy expansion. This potential is further supported by the state's vast land resources, including industrial and mining wastelands, as well as its reservoirs. Southern Odisha, in particular, offers an ideal climate for the solar power infra-

structure due to its diverse natural features. Emphasizing the importance of this initiative, Garg stated that the solar awareness campaign in Southern Odisha is a strategic move to harness the region's vast solar potential. Through the promotion of PM Surya Ghar Muft Bijli Yojana, TPSODL is committed to making solar energy accessible and affordable for everyone. By driving solar adoption among our 2.5 million consumers, we are empowering them with reliable, cost-effective, and clean energy solutions. Currently, Odisha has approximately 460 MW of installed solar capacity, with ongoing efforts to significantly increase the

figures. The Odisha government's Renewable Energy Policy of 2022 aims to achieve 10 GW of renewable energy capacity by 2030. By capitalizing on the state's considerable solar potential and supportive policies, the campaign seeks to empower residents and businesses to invest in solar energy, reduce their carbon footprint, and contribute to India's broader clean energy goals. Through this campaign, TPSODL aims to raise awareness about the benefits of adopting solar rooftop solutions and reassure consumers that these solutions are easily accessible through Tata Power Solar. Tata Power Solar has a proven track record, with over 20GW of rooftop solar capacity already installed. The company holds a significant market share of 13 percent, making it the number one player in the rooftop solar EPC business for nine consecutive years.

TPSODL Launches Awareness Campaign On Rooftop Solar Energy in Odisha

Berhampur (Odra) (The Power Southern Odisha Distribution Limited (TPSODL) has launched an awareness campaign for solar roofing to promote adoption of solar energy in southern Odisha. The initiative partners the 100 Solar Green 1000 BQ1 Yojna (MSRMHT) and aligns with the state's Renewable Energy (RE) Policy besides underscoring Tata Power's commitment to sustainable energy solutions.

The campaign aims at educating residential and commercial and industrial (C&I) customers on the benefits of solar energy as well as available subsidies. Key elements include information on the Central Financial Assistance (CFA) programme under the MSRMHT. The initiative also offers solar installation under the Yojna, ranging from Rs 30,000 per kW for 1 kW to 2 kW systems, Rs 30,000 for 1 kW and

above 1 kW capacities. The campaign also offers support with the application process and technical evaluations. Aarti Kumar Gogoi, CEO, TPSODL, and Ranjib Singh, National Head, Renewable Energy, Tata Power inaugurated the campaign in the presence of senior officials from the company. This marks the beginning of a state-wide movement for encouraging the adoption of green solar roofing solutions.

As part of this initiative, customers are benefited by Green Champions' recognition of their adoption of solar energy with 200,000 rupees per year. Odisha is poised for significant solar energy expansion. This potential is driven by the state's vast land resources, including industrial and mining wastelands, along with its coastline. Southern Odisha, in particular, offers an ideal landscape for solar power

Solar Awareness Programme for

infrastructure due to its diverse natural features, emphasising the importance of this initiative, Gogoi said. "Our solar awareness campaign in Southern Odisha is a strategic move to harness the vast solar potential of this region. Through the partnership of the

MSRMHT, we are committed to making solar energy both accessible and affordable for all. By driving solar adoption among our 17 lakh customer base, we are empowering them with reliable, cost-effective, and clean energy solutions. This initiative is

in perfect harmony with TPSODL's vision of a green, energy secure Odisha." Currently, Odisha has around 600 MW of installed solar capacity. As part of its commitment to advancing the solar sector, the state government aims at achieving 20 GW of renewable energy capacity by 2030. The TPSODL plans to raise awareness about the benefits of adopting solar roofing solutions through this campaign and ensure customers that these solutions are easily accessible with Tata Power Solar, which has already installed over 2 GW of rooftop solar capacity.

The company holds a significant market share of 15%, making it the number one player in the roofing solar EPC business for state commercial cases. The customers can avail the benefits of the scheme by applying on <https://www.powerplusgroup.com>, a website of TPSODL, owned

टीपीएस ओडीएल ने रूफटॉप सोलर समाधानों के लिए जन जागरूकता अभियान शुरू किया

दक्षिणी ओडिशा से की गई योजना की शुरुआत

नवभारत न्यूज़ : भुवनेश्वर।

टीपीएसओडीएल ने दक्षिणी ओडिशा में सौर ऊर्जा के लिए एक जन जागरूकता अभियान शुरू किया है। यह पहल टीएसईईएल और नेशनल ग्रीन कोर्पोरेशन द्वारा (अर्थात्) जैति के साथ सहयोग में है, जो सौर ऊर्जा समाधानों के लिए छटा पार को अटूट प्रोत्साहन को प्रोत्साहित करता है। यह अभियान निवेशकों और परिवहन और ऑपरेटिंग (सी पीटी अर्थात्) इकाइयों को सौर ऊर्जा के लाभों के साथ-साथ उपलब्ध संचितों के बारे में शिक्षित करना प्रदान करता है। प्रमुख तथ्यों में टीएसईईएल पर सौर ऊर्जा योजना (पीएमएसजीएसपीएल) के तहत केंद्रीय वित्तिय सहायता (सीएफए) कार्यक्रम की जानकारी शामिल है, जो जन और प्रोत्साहन के लिए प्रत्येक संचितों प्रदान करता है। संचितों प्रति 1 किलोवाट के लिए 30,000 रुपये प्रति किलोवाट से 2 किलोवाट के लिए, 3 किलोवाट के लिए 28,000 रुपये और 3 किलोवाट से अधिक क्षमता तक है। अभियान अपडेटेड प्रक्रिया और तकनीकी सुझावों के साथ भी सम्बंधित प्रदान करता है। इस अभियान का उद्देश्य टीपीएसओडीएल के सीईओ अमित कुमार शर्मा और छटा पार के राष्ट्रीय प्रमुख-नवीकरणीय कोषिक सचिव ने कंपनी के प्रतिष्ठित अधिकारियों की उपस्थिति में किया। यह एक समन्वयित ओडिशा की शुरुआत का प्रतीक है जिसका उद्देश्य उपभोक्ताओं को सौर ऊर्जा समाधान स्थापित करने के लिए प्रोत्साहित करना है। इस पहल के हिस्से के रूप में उपभोक्ताओं को सौर को अपनाने और शिक्षण और परामर्श के अनुकूल संचितों में उनके योजना को संचालन में डीएन सीएस के रूप में समर्थन दिया गया। प्रति वर्ष एक प्रथमशर्ती 280-300 सौर सिटी के साथ ओडिशा संचालन और ऊर्जा विकास के लिए देखा है।

इस अभियान के माध्यम से टीपीएसओडीएल और जन संचितों को अपनाने के लाभों के बारे में जानकारी प्रदान करता है और उपभोक्ताओं को आश्वस्त करता है कि ये समाधान छटा पार सोलर के साथ सौर के लिए अत्याधिक सुरुभ हैं।

अभियान में ओडिशा में लगभग 460 मेगावाट स्थापित सौर क्षमता है, इस अद्यतन को काफी बढ़ाने के लिए पार को बढ़ाने के

ओडिशा में लगभग 460 मेगावाट स्थापित सौर क्षमता है

अभियान के लिए अपने प्रतिबद्धता में यह है, जैसे कि 2022 की नवीकरणीय ऊर्जा नीति में उल्लिखित है, जिसका उद्देश्य 2030 तक 10 पीएसटी नवीकरणीय ऊर्जा क्षमता प्रदान करना है। राज्य की कच्चे और क्षमता और महत्वपूर्ण क्षेत्रों को प्रोत्साहित, अभियान का उद्देश्य निवेशकों और व्यवसायों को सौर ऊर्जा में प्रोत्साहित करने, उनके कार्यों परियोजना को कम करने और भारत के लक्ष्य स्थापित ऊर्जा लक्ष्यों में योगदान करने के लिए संचालन करना है।

छटा पार सोलर में 2 पीएसटी से अधिक सौर की सौर क्षमता प्रदान में ही स्थित है। कंपनी के पास 13 प्रकृतियों को महत्वपूर्ण संचितों विस्तार है, जो इसे लगातार भी वर्षों तक सौर सौर टैपेस को संचालन में नंबर एक खिलाड़ी बनाती है। छटा पार सोलर पूरे भारत में हर घर में विद्युत्संचय, सौर और टिकाऊ सौर ऊर्जा लाने के अपने विजन को जारी रखता है।

TPSODL launches solar rooftop campaign in Southern Odisha

Bhubaneswar, Sep 3 (UNI) TP Southern Odisha Distribution Limited (TPSODL) has launched a mass awareness campaign to promote solar rooftops across Southern Odisha, leveraging the region's abundant solar resources to encourage widespread adoption of solar energy.

This initiative supports the PM Surya Ghar Muft Bijli Yojana (PMSCMBY) and aligns with the state's Renewable Energy (RE) Policy, highlighting Tata Power's unwavering commitment to sustainable energy solutions.

The campaign aims to educate residents, as well as commercial and industrial customers, on the benefits of solar energy and the available subsidies. It was inaugurated by Amit Kumar Garg, CEO of TPSODL, and Kaushik Sanyal, National Head of Renewables at Tata Power, in the presence of senior company officials. This campaign marks the beginning of a statewide movement to encourage consumers to install solar rooftop solutions. As part of this initiative, consumers were honored as "Green Champions" in recognition of their adoption of solar energy and their contributions to sustainability and eco-friendly practices.

TPSODL Launches Mass Awareness Campaign To Promote Widescale Adoption Of Rooftop Solar Solutions Across Southern Odisha

4 Views

With the year 2024 drawing to a close, TPSODL has launched a mass awareness campaign for solar rooftop across Southern Odisha, focusing on the region's abundant solar resources to foster widespread adoption of solar energy. The initiative, part of the Tata Group's Green Mission, aims to promote TPSODL's solar solutions across the state's Renewable Energy (RE) zones, encouraging the flow of financing, commercial, and residential energy solutions.

The campaign seeks to address common concerns and misconceptions about rooftop solar, such as the benefits of solar energy, its cost-effectiveness, and the availability of financing. By disseminating accurate information, the campaign aims to address common concerns and misconceptions about solar energy. The initiative is part of the Tata Group's Green Mission, which focuses on promoting sustainable energy solutions. The campaign will target RE zones, offering a 10% discount on solar systems up to 10 kW capacity. The campaign also offers a 10% discount on solar systems up to 10 kW capacity. The campaign also offers a 10% discount on solar systems up to 10 kW capacity.

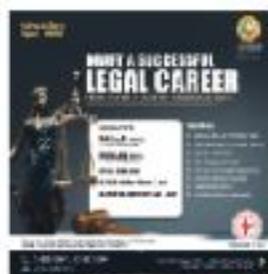

The campaign was initiated by Mr. Anil Kumar Singh, CEO, TPSODL, and Mr. Anil Kumar Singh, National Head, Renewable Energy, in the presence of senior officials from the company. The campaign is a part of the Tata Group's Green Mission, which focuses on promoting sustainable energy solutions. The campaign is a part of the Tata Group's Green Mission, which focuses on promoting sustainable energy solutions.

With an average of 200 kWh of energy per year, Odisha is a potential region for solar energy generation. This presents a unique opportunity for the state to harness its abundant solar resources, along with hydroelectric, Southern Odisha, in particular, offers an ideal backdrop for solar power installations. The state's abundant solar resources, along with hydroelectric, Southern Odisha, in particular, offers an ideal backdrop for solar power installations.

Emphasizing the importance of this initiative, Mr. Anil Kumar Singh, CEO of TPSODL, stated, "As part of our mass awareness campaign, we have initiated a series of events across the state to promote solar energy. Through the promotion of the TPSODL Green Mission Project, we are committed to making solar energy accessible and affordable for all. By harnessing solar energy, we can create a sustainable future, as we empower them with reliable, sustainable, and clean energy solutions. This initiative is in line with TPSODL's vision of providing energy solutions for all."

Currently, Odisha has approximately 400 MW of installed solar capacity, which is expected to increase to 1000 MW by 2030. The state government has also committed to increasing the solar energy capacity to 1000 MW by 2030. The state government has also committed to increasing the solar energy capacity to 1000 MW by 2030. The state government has also committed to increasing the solar energy capacity to 1000 MW by 2030.

Through this campaign, the TPSODL aims to make commercial and residential solar rooftop solutions and systems accessible to the masses. The state government has also committed to increasing the solar energy capacity to 1000 MW by 2030. The state government has also committed to increasing the solar energy capacity to 1000 MW by 2030. The state government has also committed to increasing the solar energy capacity to 1000 MW by 2030.

TPSODL launches awareness on adopting Rooftop Solar Solutions across Southern Odisha

Company aims to drive growth of rooftop solar across Southern Odisha

TPSODL has launched a series of awareness campaigns across Southern Odisha to promote rooftop solar solutions.

The company aims to drive growth of rooftop solar across Southern Odisha. The awareness campaigns are being conducted across various districts in Southern Odisha, including Cuttack, Bhubaneswar, and Puri. The campaigns include seminars, workshops, and door-to-door visits to educate the public about the benefits of rooftop solar.

More

TPSODL Launches Awareness Campaign On Rooftop Solar Energy In Southern Odisha

Delhigate, Tata Power Southern Odisha Distribution Limited (TPSODL) has launched an awareness campaign for solar rooftop to promote adoption of solar energy in southern Odisha.

The initiative promotes the PM Surya Ghar: Muft High Voltage (PM-SHG) and aligns with the state's Sustainable Energy (SE) Policy besides underscoring Tata Power's commitment to sustainable energy solutions. The campaign aims at educating residents on cost-effective and reduced CO2 emissions on the benefits of solar energy as well as available subsidies.

In key elements include information on the Central Financial Assistance (CFA) programme under the PM-SHG. The subsidies for rooftop solar installations under the program range from Rs. 10,000 per kW to 1 kW to 1 Lakh rupees, Rs. 20,000 for 2 kW and above 4 kW capacities. The campaign also offers support with the application process and technical consultation.

Amal Kumar Dasg, CEO, TPSODL, and Sandesh Nayak, National Health Representative, Tata Power inaugurated the campaign in the presence of senior officials from the company. This marks the beginning of a series of awareness initiatives for encouraging the community to go for solar rooftop solutions. As part of this initiative, awareness was launched at Union Chhatrapati in recognition of their adoption of solar energy.

With 300-400 sunny days per year, Odisha is poised for significant solar energy expansion. The potential is driven by the state's rich land resources, including agricultural and unused wastelands, along with its expertise. Southern Odisha, in particular, offers an ideal landscape for solar panel installation due to its diverse natural features.

Emphasizing the importance of this initiative, Dasg said, "Our solar awareness campaign in Southern Odisha is a strategic effort to harness the vast solar potential of this region. Through the promotion of the PM-SHG, we are committed to making solar energy both accessible and affordable for all. By driving solar adoption, we aim to create a sustainable future, we are empowering them with reliable, cost-effective, and clean energy solutions. This initiative is in perfect harmony with TPSODL's vision of a greener, energy-wise Odisha."

Currently, Odisha has secured 40,000 MW of installed solar capacity as part of its commitment to advancing the solar sector. The state government aims at achieving 30 GW of renewable energy capacity by 2030.

The TPSODL plans to raise awareness about the benefits of adopting solar rooftop solutions through the campaign and ensure consumers that their solutions are easily accessible with Tata Power Solar which has already installed over 10 GW of rooftop solar capacity.

The company holds a significant market share of 33%, making it the market size player in the rooftop solar EPC business for solar consumer space. The consumers can avail the benefits of the scheme by applying on <https://www.pmsurya.gov.in/>, a release of TPSODL stated.

TPSODL LAUNCHES MASS AWARENESS CAMPAIGN TO PROMOTE WIDESCALE ADOPTION OF ROOFTOP SOLAR SOLUTIONS ACROSS SOUTHERN ODISHA

By C. B. Singh

TPSODL launches mass awareness campaign to promote widescale adoption of Rooftop Solar Solutions across Southern Odisha

September 03 2024

By C. B. Singh

TPSODL, a leading industrial solutions provider in India, has launched a mass awareness campaign to promote widescale adoption of rooftop solar solutions across Southern Odisha, aiming to leverage its industrial capabilities to foster widespread adoption of solar energy. The initiative promotes the PM Surya Ghar 10kW Rooftop Scheme, an affordable solar energy solution, emphasizing its benefits in reducing electricity bills and promoting green energy adoption in industrial settings.

The campaign seeks to educate industrial and commercial (I&C) industries on the benefits of solar energy and its potential to reduce operational expenses. The initiative focuses on providing I&C industries with comprehensive information on the PM Surya Ghar 10kW Rooftop Scheme, which provides subsidies for rooftop solar installations. The subsidy amount ranges from ₹0.60 per kWh for 1 kW to ₹1.10 systems (₹1.00 for 1 kW and above 1 kW capacity). The program is designed to help I&C industries reduce their electricity bills.

The campaign was inaugurated by Mr. Anil Kumar Singh, CEO, TPSODL, in the presence of Mr. Pradyumn, the Minister, Biju Patil, in the presence of senior officials from the region. The event featured a presentation of a ceremonial memento and a message from the Minister, highlighting the importance of solar energy in achieving sustainable and eco-friendly growth. The event was held at the TPSODL, Odisha, with the presence of senior officials from the region.

With an estimated 100,000 small and medium enterprises (SMEs) in the region, the campaign aims to reach over 100,000 industrial and commercial (I&C) units, providing them with the necessary information and support to adopt solar energy. The initiative is a key part of TPSODL's commitment to sustainable and eco-friendly growth.

TPSODL, as a provider of industrial solutions, has always been committed to driving sustainable growth in Southern Odisha. This strategic move is a key part of its commitment to the region. Through the promotion of the PM Surya Ghar 10kW Rooftop Scheme, TPSODL is making solar energy adoption more accessible and affordable for all. By driving solar adoption among its I&C and residential (R&R) units, TPSODL is contributing to the region's sustainable and eco-friendly growth. The initiative is a key part of TPSODL's commitment to sustainable and eco-friendly growth.

Currently, Odisha has 100,000 small and medium enterprises (SMEs) that can significantly increase their energy efficiency. The Odisha government's initiative to promote solar energy is a key part of its commitment to sustainable and eco-friendly growth. The initiative is a key part of TPSODL's commitment to sustainable and eco-friendly growth. The initiative is a key part of TPSODL's commitment to sustainable and eco-friendly growth.

Through the campaign, TPSODL aims to help I&C industries reduce their electricity bills and increase their energy efficiency. The initiative is a key part of TPSODL's commitment to sustainable and eco-friendly growth. The initiative is a key part of TPSODL's commitment to sustainable and eco-friendly growth. The initiative is a key part of TPSODL's commitment to sustainable and eco-friendly growth.

TPSOOL launches mass awareness campaign to promote widescale adoption of Rooftop Solar Solutions across Southern Odisha

TPSOOL launches mass awareness campaign to promote widescale adoption of Rooftop Solar Solutions across Southern Odisha

- Campaign aims to drive an array of benefits related to PM Surya Ghar Muft 500 Yojana for rooftop solar installations
- Facilitate green transition, empowerment & sustainable socio-economic of solar energy

Bhubaneswar, 3 September 2024: TP Southern Odisha Distribution Limited (TPSOOL) has launched a mass awareness campaign to solar roofing across Southern Odisha, leveraging the region's abundant solar resources to foster widescale adoption of solar energy. This initiative promotes the PM Surya Ghar Muft 500 Yojana (PMSGMY) and aligns with the state's Renewable Energy (RE) Policy, underscoring the firm's unwavering commitment to sustainable energy solutions.

The campaign seeks to educate residents and commercial and industrial (C&I) customers on the benefits of solar energy, as well as the available subsidies. Key demand-side interventions on the Demand-Side Response (DSR) program under PM Surya Ghar Muft 500 Yojana (PMSGMY), which provides substantial incentives for rooftop solar installations. The subsidy amounts range from ₹10,000 per KW to ₹1.80 Lakh for 2 KW systems, ₹20,000 for 3 KW and above 3 KW capacities. The company also offers support with the installation process and technical assistance.

The campaign was inaugurated by Mr. Anil Kumar Das, CEO, TPSOL, and Mr. Kavish Kumar, National Head, Renewable Energy, The Power & the process of solar adoption from the company. This marks the beginning of a state-wide movement aimed at increasing awareness to install solar rooftop systems. As part of the initiative, awareness was focused on Green Champion's recognition of their adoption of solar and their contribution to sustainability and eco-friendly practices.

With an average 100,000 units per year, Odisha is poised for significant solar energy expansion. This growth is driven by the state's rich solar resources, including abundant and rising awareness, along with its resources. Southern Odisha, in particular, offers an ideal landscape for solar power infrastructure due to its abundant natural resources.

Emphasizing the importance of this initiative, Mr. Anil Kumar Das, CEO of TPSOL, stated, "Our solar awareness campaign in Southern Odisha is a strategic move to harness the vast solar potential of the region. Through the promotion of the PM Surya Ghar Muft 500 Yojana, we are committed to making solar energy both accessible and affordable for all. By driving solar adoption among our 25 lakh consumers, we are empowering them with clean, renewable, and cost-effective energy solutions. This initiative is in perfect harmony with TPSOL's vision of a green, energy secure Odisha."

Greenly Odisha has approximately 450 MW of rooftop solar capacity with ongoing efforts to significantly increase this figure. The state government remains steadfast in its commitment to promoting the solar sector, as outlined in the Renewable Energy Policy of 2022, which aims to achieve 10 GW of renewable energy capacity by 2030. By implementing pro-solar policies, including solar incentives and supportive policies, the company aims to empower residents and businesses to adopt solar energy actively. This not only helps in reducing carbon footprint but also ensures Odisha's broader clean energy goals.

In southern Odisha TPSODL's awareness drive for solar rooftop

The TV Southern Odisha Distribution Limited (TPSODL) has launched a new awareness campaign for solar rooftop across southern Odisha, bringing the region's abundant solar resources to bear on widespread adoption of solar energy.

The initiative promotes the PV Surya Utkar South Bill System (SMBU-SBS) and aligns with the State Renewable Energy (RE) Policy, underscoring the State's commitment to sustainable energy solutions.

The campaign seeks to educate residential and commercial and industrial (C&I) consumers on the benefits of solar energy, as well as its available subsidies. Key elements include information on the Central Financial Institutions (CFI) programme under PV Surya Utkar South Bill System (SMBU-SBS), which provides substantial subsidies for rooftop solar installations. The subsidy amounts range from Rs 30,000 per kW for 1.0 MW to 2 MW systems, Rs 10,000 for 2 MW and above 2 MW capacities. The campaign also

offers support with the application process and technical evaluations.

The campaign was inaugurated by TPSODL CEO Amit Kumar Gung and National Power Commission, New Power Kiosks Inauguration Committee officials from the company.

As part of the initiative, awareness was heightened in Union Chhatrapur in recognition of their adoption of solar and their contributions to sustainability across Khordha practices.

Emphasizing the importance of the initiative, Mr. TPSODL CEO Gung stated, "The solar awareness campaign in southern Odisha is a strategic move to harness the vast solar potential of this region. Through the promotion of the PV Surya Utkar South Bill System, we are committed to making solar energy both accessible and affordable for all. By driving solar adoption among our 27 lakh consumer base, we are ensuring that we will deliver cost-effective and clean energy solutions. The initiative is perfectly in line with TPSODL's vision of a green energy sector for India."

TPSODL unveils Volympics

ARINDAM GANGULY, OP

Bhubaneswar, Sept 9: Inspired by Olympic spirit, TP Southern Odisha Distribution Limited (TPSODL) recently inaugurated the 22nd edition of Tata Volunteering Week (TVW), themed Volympics, with a series of impactful events aimed at promoting community betterment and social responsibility.

The event was held at the Helen Keller Red Cross School for the Deaf in Berhampur, where TPSODL CEO Amit Kumar Garg, and Chief Technology Officer Biman Kumar Ghosh were joined by over 35 enthusiastic volunteers to celebrate Teacher's Day with

135 students and 13 teachers.

A key highlight of the event was the inauguration of a significant partnership between TPSODL and the school to promote vocational Saura Art training under the 'Learning for Earning Programme,' focusing on employability and skill development. The initiative empowers students by providing them with the skills to create income-generating opportunities through traditional Saura Art, reinforcing TPSODL's commitment to inclusivity, education, and empowerment.

In addition to cultural performances and insightful interactions between TPSODL leadership and the school community,

the event served as a platform for shared learning and fostering deeper connections between volunteers and students.

Simultaneously, TPSODL organised a free eye check-up camp at the School for Visually Impaired in Koraput, offering essential health services to students.

Speaking on the occasion, Garg said, "We are proud to kick off the 22nd edition of Tata Volunteering Week with a series of impactful and inspiring events. The theme perfectly reflects the company's mission to unite and empower communities by promoting inclusivity, skill development, and healthcare support."

TPSODL launches 'VOLYMPICS' focused on community empowerment, social responsibility

PEO BUREAU

BERHAMPUR, SEP 4

TP Southern Odisha Distribution Limited (TPSODL) has inaugurated the 22nd edition of 'Tata Volunteering Week (TVW), themed VOLYMPICS, with a series of impactful events aimed at promoting community betterment and social responsibility. Inspired by the Olympic spirit, this month-long initiative highlights the Tata Group's commitment to fostering unity and driving positive social change.

The launch event took place at the Union Koller Bad Court

School for the Deaf in Berhampur, where TPSODL CEO Amit Kumar Garg and Chief Technology Officer Bhanu Kumar Ghosh, along with over 30 enthusiastic volunteers, celebrated 'Tackles' Day with 225 students and 13 teachers. The event commenced with a heart-felt tribute to Dr. Sarvagah Bahadurdeva, setting a tone of

respect and appreciation for the occasion.

A key highlight of the event was the inauguration of a significant partnership between TPSODL and the school to promote Vocational Basic Art Training under the Learning for Earning Program. This initiative focuses on employability and skill development, empowering students to create income-generating opportunities through traditional Basic Art. It underscores TPSODL's commitment to inclusivity, education, and empowerment.

In addition, a grand performance and insightful

actions between TPSODL leadership and the school community, the event served as a platform for shared learning and fostering deeper connections between institutions and students.

Simultaneously, TPSODL organized a free eye check-up camp at the School for the Visually Impaired in Saraspur, providing essential health services to students. This initiative further demonstrates TPSODL's dedication to enhancing the quality of life for individuals with special needs through

diverse healthcare support.

Commenting on the launch, TPSODL CEO Garg said, "The VOLYMPICS theme perfectly reflects our mission to create and empower communities by promoting inclusivity, skill development, and healthcare support. Through initiatives like the Vocational Basic Art training and the eye check-up camp, we are making tangible efforts to create lasting change. We believe that by working together, we can improve lives and build a more inclusive society."

Berhampur, September: TP Southern Odisha Distribution Limited (TPSODL) proudly inaugurated the 22nd edition of Tata Volunteering Week (TVW), themed VOLYMPICS, with a series of impactful events aimed at promoting community betterment and social responsibility. Inspired by the Olympic spirit, this month-long initiative underscores the Tata Group's commitment to fostering unity and driving positive social change.

The launch event was held at the Helen Keller Red Cross School for the Deaf in Berhampur, where TPSODL CEO Mr. Amit Kumar Garg, and Chief Technology Officer Mr. Birman Kumar Ghosh were joined by over 35 enthusiastic volunteers to celebrate Teacher's Day with 133 students and 13 teachers. The event began with a heartfelt tribute to Dr. Sanepalli Radhakrishnan, setting a tone of respect and appreciation on Teachers' Day.

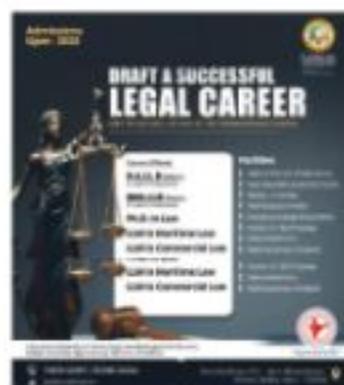

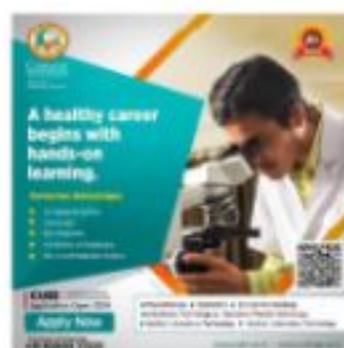

A key highlight of the event was the inauguration of a significant partnership between TPSODL and the school to promote Vocational Saura Art training under the Learning for Earning Program, focusing on employability and skill development. This initiative empowers students by providing them with the skills to create income-generating opportunities through traditional Saura Art, reinforcing TPSODL's commitment to inclusivity, education, and empowerment.

In addition to cultural performances and insightful interactions between TPSODL leadership and the school community, the event served as a platform for shared learning and fostering deeper connections between volunteers and students.

Eye Check-Up Camp for Visually Impaired

Simultaneously, TPSODL organized a free eye check-up camp at the School for Visually Impaired in Koraput, offering essential health services to students. This initiative further highlights TPSODL's dedication to enhancing the quality of life for individuals with special needs through direct healthcare support.

Commenting on the launch, Mr. Amit Garg, CEO of TPSODL, said "We are proud to kick off the 22nd edition of Tata Volunteering Week with a series of impactful and inspiring events. The VOLYMPICS theme perfectly reflects our mission to unite and empower communities by promoting inclusivity, skill development, and healthcare support. Through initiatives like the Vocational Saura Art training and the eye check-up camp, we are making tangible efforts to create lasting change. We believe that by working together, we can improve lives and build a more inclusive society."

TPSODL boosts 33 KV line to power 1.59 lakh consumers in Southern Odisha

PRO BUREAU
Bhubaneswar, Sep 12

TPSODL, Power Southern Odisha Distribution Limited (TPSODL), has made notable strides in enhancing its power infrastructure across Southern Odisha, successfully overcoming challenges posed by the region's challenging terrain, including hilly landscapes, dense forests, and remote areas. These efforts highlight TPSODL's dedication to delivering reliable electricity to every corner of Southern Odisha.

The company's efforts to improve power infrastructure have significantly bolstered the lives of residents in the region, particularly in the hilly areas, where electricity access was previously limited. Through

its, and emergency services, and thereby improving the quality of life for all. Over the past three financial years, TPSODL has completed approximately 21 circuit kilometers of 33 KV power lines, enhancing power reliability for consumers in some of the most remote areas of Southern Odisha.

In the fiscal year 2023-24, TPSODL laid 12.75 circuit kilometers of 33 KV lines across various districts in Southern Odisha, greatly improving power reliability for nearly 7,50,000 consumers. The previous fiscal year saw the installation of 12.75 circuit kilometers of lines, benefiting over 72,000 people. Additionally, in the fiscal year 2021-22, TPSODL established 30 circuit kilometers of 33 KV lines, thereby

Improving power supply for 15,025 consumers.

During fiscal 2023-24, the ambitious plan for the construction and power, focusing on both strength and safety. Infrastructure and creating new lines across Southern Odisha. This consistent expansion plan is already in progress, aiming to further enhance the region's power

infrastructure and provide consistent electricity to even more residents.

TPSODL CEO Amit Kumar Dasgupta expressed his pride in the company's achievements, stating, "Our mission is to ensure a high-quality power supply across Southern Odisha, despite the challenges posed by the region's geography. The significant investments we've made over the past three years are just the beginning. We are committed to continuous improvement and expansion to better serve the people of Southern Odisha."

One of the key projects recently completed by TPSODL, includes the installation of a new 33 KV line from the Gumpala Grid Substation in the Bhubaneswar Power Subdivision. This project has significantly enhanced the

reliability of the power supply for residents in the Jagannalapur, Gumpala, Muzara, Nephela, and Sagarika panchayats within the Gumpala block of Bargarh district.

Sharing his satisfaction with the improved service, Satish Patra, a resident of Gumpala, remarked, "Since TPSODL laid these power lines, we have noticed a significant improvement in service reliability. Power interruptions have been greatly reduced, and we are thankful for the TPSODL team's efforts in bringing about this positive change."

TPSODL remains committed to its goal of providing a reliable and consistent power supply to every nook and corner of Southern Odisha, contributing to the region's development and the well-being of its people.

TPSOOL INSTALLS 33KV LINE IN SOUTHERN ODISHA

Transforming consumers' lives through power infrastructure

Bhubaneswar, Sept 12: TP Southern Odisha Distribution Limited (TPSOOL) has made significant progress in upgrading the power infrastructure across Southern Odisha, successfully overcoming challenges posed by the region's difficult terrain, including hilly landscapes, dense forests, and remote areas. These upgrades ensure consistent TPSOOL's commitment to deliver reliable electricity to every corner of Southern Odisha.

The company's commitment to upgrading the power infrastructure has transformed the lives of consumers in the region, bringing quality power supply to homes, schools, hospitals, and enterprises alike, ensuring a better quality of life for everyone. Over the past three

fiscal years, TPSOOL has laid approximately 274 circuit kilometres of 33KV power lines, enhancing power reliability for consumers in some of the most far-flung areas of Southern Odisha.

In the fiscal year 2023-24, TPSOOL laid 105.70 circuit kilometres of 33KV lines across various districts in Southern Odisha, significantly improving power reliability for rural and semi-urban consumers. The previous fiscal year saw the installation of 125.70 circuit kilometres of lines, benefiting over 1.88 people. Additionally, in the fiscal year 2022-23, TPSOOL installed 19 circuit kilometres of 33KV lines, directly improving the power supply for 13,800 consumers.

Looking forward, TPSOOL has ambitious plans for the current financial year also, to strengthen existing lines infrastructure as well as install new lines across Southern Odisha. The extensive expansion plan is already underway aiming to further bolster the region's power infrastructure and provide consistent electricity to even more residents.

Over the past three fiscal years, TPSOOL has laid approximately 274 circuit kilometres of 33KV power lines, enhancing power reliability for consumers in some of the remote areas of Southern Odisha.

TPSOOL CEO Amit Kumar Gangajapati expressed satisfaction over the company's achievements, stating, "Our mission is to ensure a high-quality power supply across Southern Odisha, regardless of the challenges posed by the region's geography. The infrastructure upgrades we've accomplished over the past three

years are just the beginning. We are dedicated to continuous improvement and expansion to better serve the people of Southern Odisha."

"TPSOOL remains committed to its goal of providing reliable and consistent power supply to every resident of Southern Odisha, contributing to the re-

gion's development and the well-being of its people," he said.

One of the key projects recently completed by TPSOOL includes the installation of a new 33KV line from the Gopabandhu Grid Substation to the Bikanagar Primary Substation. The project has significantly enhanced the stability of the power supply for residents in the Jagannagar, Gopabandhu, Bikanagar, and other surrounding areas, addressing the chronic lack of electricity in the region.

Nishu Pally, a resident of Gopabandhu, said, "Since TPSOOL laid out the power supply, we have noticed a significant improvement in service related to power interruptions. There have been power outages, and we are thankful for TPSOOL's efforts in bringing about this positive change."

Bhubaneswar, (TSB) – TP Southern Odisha Distribution Limited (TPSODL) has made significant progress in upgrading the power infrastructure across Southern Odisha, successfully overcoming challenges posed by the region's difficult terrain, including hilly landscapes, dense forests, and remote areas. These upgrades underscore TPSODL's commitment to delivering reliable electricity to every corner of Southern Odisha.

The company's commitment to upgrading the power infrastructure has transformed the lives of consumers in the region, bringing quality power supply to homes, schools, hospitals, and emergency services, ensuring a better quality of life for everyone. Over the past three financial years, TPSODL has laid approximately 274 circuit kilometers of 33 KV power lines, enhancing power reliability for consumers in some of the most hilly and remote areas of Southern Odisha. In the fiscal year 2023-24, TPSODL successfully laid 129.76 circuit kilometers of 33 KV lines across various districts in Southern Odisha, significantly improving power reliability for nearly 76,000 consumers. The previous fiscal year saw the installation of

122.76 circuit kilometers of lines, benefiting over 72,000 people. Additionally, in the fiscal year 2022-23, TPSODL installed 119 circuit kilometers of 33 KV lines, directly improving the power supply for 60,125 consumers.

Looking forward, TPSODL has ambitious plans for the current financial year also, to strengthen existing line infrastructure as well as installation of new lines across Southern Odisha. This extensive expansion plan is already underway, aiming to further bolster the region's power infrastructure and provide consistent electricity to even more residents. Mr. Anand Kumar Singh, CEO of TPSODL, expressed his pride in the company's achievements, stating, "Our mission is to ensure a high-quality power supply across Southern Odisha, regardless of the challenges posed by the region's geography. The infrastructure upgrades we've accomplished over

the past three years are just the beginning. We are dedicated to continuous improvement and expansion to better serve the people of Southern Odisha."

One of the key projects recently completed by TPSODL includes the installation of a new 33 KV line from the Gumpar Grid Substation to the Bhitargarh Primary Substation. This project has significantly enhanced the stability of the power supply for consumers in the Jagannathpur, Gopalpur, Morana, Korhela, and Bagasara panchayats within the Gumpar block of Rayagada district.

Expressing his satisfaction with the improved service, Nishu Pathy, a resident of Gumpar, remarked, "Since TPSODL took over the power supply, we have noticed a significant improvement in service reliability. Power interruptions have been greatly reduced, and we are thankful for the TPSODL team's efforts in bringing about this positive change."

TPSODL remains committed to its goal of providing a reliable and consistent power supply to every nook and cranny of Southern Odisha, contributing to the region's development and the well-being of its people.

TPSODL Boosts 33 KV Line to Power 1.59 Lakh Consumers in Southern Odisha

Bhubaneswar: TP Southern Odisha Distribution Limited (TPSODL) has made significant progress in upgrading the power infrastructure across Southern Odisha, successfully increasing consumer connectivity in some of the most far-flung areas of Southern Odisha, including hilly landscapes, dense forests, and remote areas. These upgrades underscore TPSODL's commitment to deliver reliable electricity to every corner of Southern Odisha.

The company's continuous upgrading of the power infrastructure has transformed the lives of consumers in the region, bringing quality power supply to homes, schools, hospitals, and emergency services,

ensuring a better quality of life for everyone. Over the past three financial years, TPSODL has laid approximately 214 circuit kilometers of 33 KV power lines, enhancing power reliability for consumers in some of the most far-flung areas of Southern Odisha.

In the fiscal year 2023-24, TPSODL successfully laid 129.70 circuit kilometers of 33 KV lines across various districts in Southern Odisha, significantly improving power reliability for nearly 58,000 consumers. The previous fiscal year saw the installation of 125.70 circuit kilometers of lines, benefiting over 72,000 people. Additionally, in the fiscal year 2021-22, TPSODL established 89 circuit

kilometers of 33KV lines, directly improving the power supply for 10,028 consumers.

Looking forward, TPSODL has ambitious plans for the current financial year also, to strengthen existing line infrastructure as well as erection of new lines across Southern Odisha. This extensive expansion plan is already underway, aiming to further bolster the region's power infrastructure and provide uninterrupted electricity to even more residents.

Mr. Sanj Kumar Gope, CEO of TPSODL, expressed his pride in the company's achievements, stating, "Our mission is to ensure a high-quality power supply across Southern Odisha, regardless of the

challenges posed by the region's geography. The infrastructural upgrades we've accomplished over the past three years are just the beginning. We are dedicated to continuous improvement and expansion to better serve the people of Southern Odisha."

One of the key projects recently completed by TPSODL includes the installation of a new 33 KV line from the Ghatgaon Substation to the Biharaigarh Primary Substation. This project has significantly enhanced the stability of the power supply for residents in the Jagatpur, Ghatgaon, Sathbali, and Bhatgaon panchayats within the Ghatgaon block of

Bhatgaon division.

Sharing his satisfaction with the improved service, Birendra Pradhan, a resident of Ghatgaon, remarked, "Since TPSODL took over the power supply, we have noticed a significant improvement in service reliability. Power interruptions have been greatly reduced, and we are thankful for the TPSODL team's efforts in bringing about this positive change."

TPSODL remains committed to its goal of providing a reliable and consistent power supply to every resident of Southern Odisha, contributing to the region's development and the well-being of its people.

TPSODL Boosts 33 KV Line to Power 1.50 Lakh Consumers in Southern Odisha

By: VAJRA KISHORE

TPSODL has successfully completed the construction of a 33 KV line in Southern Odisha, which will power 1.50 lakh consumers. The project, valued at ₹100 crore, was inaugurated by the Minister of Power, Government of Odisha, on September 10, 2024. The line will cover a length of 150 km and will serve 150,000 consumers in the region. The project is a part of the TPSODL's ongoing efforts to improve the power supply in the state. The Minister expressed his appreciation for the timely completion of the project and the dedication of the staff of TPSODL. He also mentioned that the project will provide a significant boost to the power supply in the region, which will be a major step towards achieving the goal of universal electricity access. The project was inaugurated by the Minister of Power, Government of Odisha, on September 10, 2024. The line will cover a length of 150 km and will serve 150,000 consumers in the region. The project is a part of the TPSODL's ongoing efforts to improve the power supply in the state. The Minister expressed his appreciation for the timely completion of the project and the dedication of the staff of TPSODL. He also mentioned that the project will provide a significant boost to the power supply in the region, which will be a major step towards achieving the goal of universal electricity access.

Bhubaneswar, TP Southern Odisha Distribution Limited (TPSODL) has made significant progress in upgrading the power infrastructure across Southern Odisha, successfully overcoming challenges posed by the region's difficult terrain, including hilly landscapes, dense forests, and remote areas. These upgrades underscore TPSODL's commitment to deliver reliable electricity to every corner of Southern Odisha.

The company's commitment to upgrading the power infrastructure has transformed the lives of consumers in the region, bringing quality power supply to homes, schools, hospitals, and emergency services, ensuring a better quality of life for everyone. Over the past three financial years, TPSODL has laid approximately 374 circuit kilometres of 33 KV power lines, enhancing power reliability for consumers in some of the most far-flung areas of Southern Odisha.

In the fiscal year 2023-24, TPSODL successfully laid 129.70 circuit kilometres of 33 KV lines across various districts in Southern Odisha, significantly improving power reliability for nearly 76,000 consumers. The previous fiscal year saw the installation of 125.70 circuit kilometres of lines, benefiting over 72,000 people. Additionally, in the fiscal year 2021-22, TPSODL established 19 circuit kilometres of 33 KV lines, directly improving the power supply for 10,925 consumers.

Looking forward, TPSODL has ambitious plans for the current financial year also, to strengthen existing lines infrastructure as well as erection of new lines across Southern Odisha. This extensive expansion plan is already underway, aiming to further bolster the region's power infrastructure and provide consistent electricity to even more residents.

TPSODL CEO, Amit Kumar Garg, expressed his pride in the company's achievements, stating, "Our mission is to ensure a high-quality power supply across Southern Odisha, regardless of the challenges posed by the region's geography. The infrastructural upgrades we've accomplished over the past three years are just the beginning. We are dedicated to continuous improvement and expansion to better serve the people of Southern Odisha."

One of the key projects recently completed by TPSODL includes the installation of a new 33 KV line from the Gunupur Grid Substation to the Birkampur Primary Substation. This project has significantly enhanced the stability of the power supply for residents in the Jagannathpur, Gotalpadar, Morama, Siriholi, and Bagasala panchayats within the Gunupur block of Rayagada district.

Sharing his satisfaction with the improved service, Nitesh Padhy, a resident of Gunupur, remarked, "Since TPSODL took over the power supply, we have noticed a significant improvement in service reliability. Power interruptions have been greatly reduced, and we are thankful for the TPSODL team's efforts in bringing about this positive change."

TPSODL remains committed to its goal of providing a reliable and consistent power supply to every resident of Southern Odisha, contributing to the region's development and the well-being of its people.

TPSODL Boosts 33 KV Line to Power 1.59 Lakh Consumers in Southern Odisha

by indusadmin September 11 <http://indusvalleytimes.com/news/tpsodl-boosts-33-kv-line-to-power-1-59-lakh-consumers-in-southern-odisha/>

By Prakash Panigrahi

Bhubaneswar: TP Southern Odisha Distribution Limited (TPSODL) has made significant progress in upgrading the power infrastructure across Southern Odisha, successfully overcoming challenges posed by the region's difficult terrain, including hilly landscapes, dense forests, and remote areas. These upgrades underscore TPSODL's commitment to deliver reliable electricity to every corner of Southern Odisha.

The company's commitment to upgrading the power infrastructure has transformed the lives of consumers in the region, bringing quality power supply to homes, schools, hospitals, and emergency services, ensuring a better quality of life for everyone. Over the past three financial years, TPSODL has laid approximately 274 circuit kilometers of 33 KV power lines, enhancing power reliability for consumers in some of the most far-flung areas of Southern Odisha.

In the fiscal year 2023-24, TPSODL successfully laid 129.79 circuit kilometers of 33 KV lines across various districts in Southern Odisha, significantly improving power reliability for nearly 76,000 consumers. The previous fiscal year saw the installation of 125.79 circuit kilometers of lines, benefiting over 72,000 people. Additionally, in the fiscal year 2021-22, TPSODL established 19 circuit kilometers of 33 KV lines, directly improving the power supply for 10,925 consumers.

Looking forward, TPSODL has ambitious plans for the current financial year also, to strengthen existing lines infrastructure as well as erection of new lines across Southern Odisha. This extensive expansion plan is already underway, aiming to further bolster the region's power infrastructure and provide consistent electricity to even more residents.

Mr. Amit Kumar Gang, CEO of TPSODL, expressed his pride in the company's achievements, stating, "Our mission is to ensure a high-quality power supply across Southern Odisha, regardless of the challenges posed by the region's geography. The infrastructural upgrades we've accomplished over the past three years are just the beginning. We are dedicated to continuous improvement and expansion to better serve the people of Southern Odisha."

One of the key projects recently completed by TPSODL, includes the installation of a new 33 KV line from the Gunpur Grid Substation to the Bikanpur Primary Substation. This project has significantly enhanced the stability of the power supply for residents in the Jagannathpur, Gotāpada, Moxana, Sirjholi, and Bagasola panchayats within the Gunpur Block of Rayagada district.

Sharing his satisfaction with the improved service, Nitesh Padhy, a resident of Gunpur, remarked, "Since TPSODL took over the power supply, we have noticed a significant improvement in service reliability. Power interruptions have been greatly reduced, and we are thankful for the TPSODL team's efforts in bringing about this positive change."

TPSODL remains committed to its goal of providing a reliable and consistent power supply to every resident of Southern Odisha, contributing to the region's development and the well-being of its people.

TPSODL boosts 33 KV Line to power 1.58 Lakh consumers in Southern Odisha

TPSODL News Bureau | July 11, 2024 | Bhubaneswar

Bhubaneswar, 11th July: Southern Odisha Transmission Limited (TPSODL) has made significant progress regarding the power distribution in the Southern Odisha region. The successful completion of the 33 KV line project, which includes fully automated distribution and service areas, marks a significant milestone in TPSODL's commitment to deliver power reliably to the people of Southern Odisha.

The completion of this project is a testament to the hard work and dedication of the staff of TPSODL. The project has not only improved the power supply to the region but also enhanced the overall quality of life for the people of Southern Odisha. TPSODL has set a benchmark for power distribution in the region and is committed to continue to work for the benefit of the people of Southern Odisha.

In the Southern Odisha region, TPSODL has successfully completed the 33 KV line project in the districts of Southern Odisha, significantly improving power supply to over 1.58 lakh consumers. The project has also led to the installation of 22 fully automated substations, ensuring a reliable and efficient power supply to the region. TPSODL is committed to continue to work for the benefit of the people of Southern Odisha.

Looking forward, TPSODL has ambitious plans for the future. The company is committed to continue to work for the benefit of the people of Southern Odisha and is committed to continue to work for the benefit of the people of Southern Odisha.

With a strong focus on innovation and technology, TPSODL is committed to continue to work for the benefit of the people of Southern Odisha and is committed to continue to work for the benefit of the people of Southern Odisha.

As the region grows and develops, TPSODL remains committed to continue to work for the benefit of the people of Southern Odisha and is committed to continue to work for the benefit of the people of Southern Odisha.

With a strong focus on innovation and technology, TPSODL is committed to continue to work for the benefit of the people of Southern Odisha and is committed to continue to work for the benefit of the people of Southern Odisha.

TPSODL Boosts 33 KV Line To Power 1.59 Lakh Consumers In Southern Odisha

By C. B. Singh

By C. B. Singh

Berhampur: TP Southern Odisha Distribution Limited (TPSODL) has made significant progress in upgrading the power infrastructure across Southern Odisha, successfully overcoming challenges posed by the region's difficult terrain, including hilly landscapes, dense forests, and remote areas. These upgrades underscore TPSODL's commitment to deliver reliable electricity to every corner of Southern Odisha.

The company's commitment to upgrading the power infrastructure has transformed the lives of consumers in the region, bringing quality power supply to homes, schools, hospitals, and emergency services, ensuring a better quality of life for everyone. Over the past three financial years, TPSODL has laid approximately 274 circuit kilometres of 33 KV power lines, enhancing power reliability for consumers in some of the most far-flung areas of Southern Odisha.

In the fiscal year 2023-24, TPSODL successfully laid 129.70 circuit kilometres of 33 KV lines across various districts in Southern Odisha, significantly improving power reliability for nearly 76,000 consumers. The previous fiscal year saw the installation of 125.76 circuit kilometres of lines, benefiting over 72,000 people. Additionally, in the fiscal year 2021-22, TPSODL established 19 circuit kilometres of 33 KV lines, directly improving the power supply for 10,925 consumers.

Looking forward, TPSODL has ambitious plans for the current financial year also, to strengthen existing lines infrastructure as well as erection of new lines across Southern Odisha. This extensive expansion plan is already underway, aiming to further bolster the region's power infrastructure and provide consistent electricity to even more residents.

Mr. Anil Kumar Garg, CEO of TPSODL, expressed his pride in the company's achievements, stating, "Our mission is to ensure a high-quality power supply across Southern Odisha, regardless of the challenges posed by the region's geography. The infrastructural upgrades we've accomplished over the past three years are just the beginning. We are dedicated to continuous improvement and expansion to better serve the people of Southern Odisha."

One of the key projects recently completed by TPSODL, includes the installation of a new 33 KV line from the Gumpur Grid Substation to the Birkampur Primary Substation. This project has significantly enhanced the stability of the power supply for residents in the Jagannathpur, Gotlipadar, Morama, Singholi, and Bagasala panchayats within the Gumpur block of Rayagada district.

Sharing his satisfaction with the improved service, Nitish Padhi, a resident of Gumpur, remarked, "Since TPSODL took over the power supply, we have noticed a significant improvement in service reliability. Power interruptions have been greatly reduced, and we are thankful for the TPSODL team's efforts in bringing about this positive change."

TPSODL remains committed to its goal of providing a reliable and consistent power supply to every resident of Southern Odisha, contributing to the region's development and the well-being of its people.

TPSODL warns against fraudulent calls

STATESMAN NEWS SERVICE
BERHAMPUR, 13 SEPTEMBER:

TP Southern Odisha Distribution Limited (TPSODL), a joint venture between Tata Power and the Odisha Government, has issued an advisory alerting customers about cyber fraudsters misleading people by claiming that their electricity connection will be disconnected due to unpaid bills. One such incident in Berhampur involved a fraudster using the number

8777418070.

TPSODL emphasizes that these individuals are not authorized by the company and urges customers to take precautions when responding to such calls or messages. The company reassures customers that it never asks for sensitive information like passwords, OTPs, bank details, or access to mobile or laptop screens during payment transactions. The company also has a dedicated 24/7 toll-free number,

1800-345-6797 / 1912, to assist with any grievances or suspicious activities.

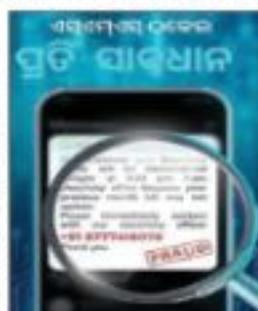

"We at TPSODL prioritize the safety and security of our customers. We are closely monitoring fraudulent activities and encourage customers to report any suspicious calls or messages to our toll-free number. We urge them to use only authorized channels for all transactions," said Mr. Amit Kumar Garg, CEO of TPSODL.

TPSODL warns customers about fraudulent calls and KYC scams

BERHAMPUR, SEP 13

TATA Power Southern Odisha Distribution Limited (TPSODL) has issued a warning to customers about a surge in cyber fraud. Scammers are misleading individuals by claiming that their electricity connection will be disconnected due to unpaid bills. In a recent incident in Berhampur, a fraudster used the number 8777418070.

TPSODL emphasizes that these scammers are not affiliated with the company. Customers are urged to exercise caution when receiving such calls or messages. The company reassures customers that it never requests sensitive information such as passwords, OTPs, bank details, or access to mobile or laptop screens during payment transactions. To ensure secure payments, TPSODL advises customers to use only authorized payment methods and channels.

For any grievances or to report suspicious activities, TPSODL provides a dedicated 24/7 toll-free number: 1800-345-6797/1912.

"We at TPSODL, prioritize the safety and security of our customers. We are actively monitoring fraudulent activities and encourage customers to report any suspicious calls or messages to our toll-free number. We urge them to use only authorized channels for all transactions," said Amit Kumar Garg, CEO of TPSODL. TPSODL remains committed to protecting its customers and advises vigilance against such fraudulent schemes. –PBD

टीपीएस ओडीएल ने ग्राहकों को धोखाधड़ी कॉल्स और केवाईसी स्कैम के प्रति सतर्क रहने की चेतावनी दी

समाचार रिपोर्टर । ब्रह्मपुर।

उदा फोन और ऑडियो सत्रों के बीच एक संयुक्त उद्यम, टीपीएसओडीएल ने ग्राहकों को सावधानीपूर्वक धोखाधड़ी के खतरों से चेतावनी जारी की है। धोखाधड़ी करने वाले लोग यह दावा कर रहे हैं कि उनके क्लिक करने पर बैंक के बिल न चुकाने के कारण डिस्कनेक्ट कर दिया जाएगा। ब्रह्मपुर में एक ऐसा मामला सामने आया है जिसमें एक धोखाधड़ी करने वाले ने 8777418070 नंबर का उपयोग किया।

टीपीएसओडीएल ने स्पष्ट किया है कि वे लोग कंपनी द्वारा अधिकृत नहीं हैं और ग्राहकों से अज्ञात किया है कि ऐसे बटौरों या सदियों का नकार देते समय सावधानी बरतें। कंपनी ने अज्ञात किया कि यह धुआंधार सेक्टर के सेक्टर कभी भी सेक्टर सेक्टर जानकारी जैसे फोनबर्ड, ऑटोटीवी, बैंक विवरण या मोबाइल या सेक्टर सेक्टर तक पहुंच नहीं होगी है। सुरक्षित भुगतान सुनिश्चित करने के लिए टीपीएसओडीएल सभी ग्राहकों को अधिकृत भुगतान विवरणों और फोन का उपयोग करने की सलाह देती है।

कंपनी के पास एक समर्पित 24/7 टोल-फ्री नंबर 1800-345-6797 / 1812 है जो किसी भी विवरण या सहायता की आवश्यकता के लिए

उपलब्ध है।

टीपीएसओडीएल के सीईओ अर्जुन कुमार वर्मा ने कहा टीपीएसओडीएल में हम अपने ग्राहकों की सुरक्षा और सुख को प्राथमिकता देते हैं। हम धोखाधड़ी की गतिविधियों को निवारण कर रहे हैं और ग्राहकों को हमारे टोल-फ्री नंबर पर किसी भी सहायता या सहायता की रिपोर्ट करने के लिए प्रोत्साहित करते हैं। हम उन्हें सभी सेक्टर के लिए केवल अधिकृत वेबसाइट का उपयोग करने की सलाह देते हैं। टीपीएसओडीएल ग्राहकों की सुरक्षा के प्रति प्रतिबद्ध है और ऐसे धोखाधड़ी स्कैमों के खिलाफ सावधानी बरतने का आग्रह करता है।

TPSODL Warns Customers against cyber fraudsters

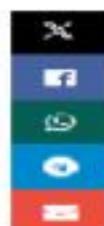

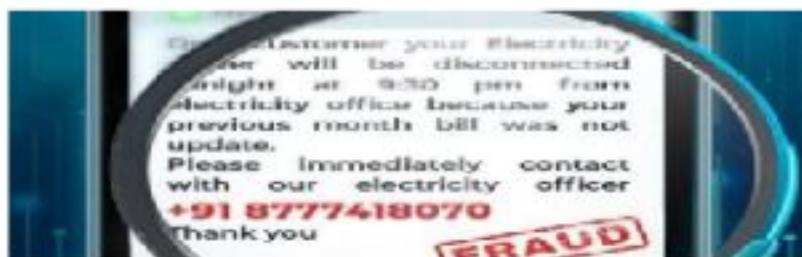

TPSODL, the largest power distribution company in Odisha, has issued a warning to its customers regarding the increasing number of cyber fraudsters targeting them. The company has advised customers to be cautious and not to share their personal information or financial details with anyone who claims to be a representative of TPSODL. The company has also advised customers to report any suspicious activity to the police or the Cyber Crime Cell. TPSODL has also advised customers to use secure and reliable internet connections and to avoid clicking on suspicious links or downloading attachments from unknown sources. The company has also advised customers to regularly update their software and operating systems to protect against vulnerabilities. TPSODL has also advised customers to use strong and unique passwords for their accounts and to avoid using the same password for multiple accounts. The company has also advised customers to be aware of phishing attempts and to verify the identity of anyone who claims to be a representative of TPSODL. TPSODL has also advised customers to be aware of social media scams and to avoid sharing personal information on social media. TPSODL has also advised customers to be aware of mobile phone scams and to avoid providing personal information to anyone who calls them. TPSODL has also advised customers to be aware of email scams and to avoid clicking on suspicious links or downloading attachments from unknown sources. TPSODL has also advised customers to be aware of text message scams and to avoid providing personal information to anyone who texts them. TPSODL has also advised customers to be aware of voice phishing attempts and to avoid providing personal information to anyone who calls them. TPSODL has also advised customers to be aware of impersonation scams and to avoid providing personal information to anyone who claims to be a representative of TPSODL. TPSODL has also advised customers to be aware of romance scams and to avoid providing personal information to anyone who claims to be a romantic partner. TPSODL has also advised customers to be aware of investment scams and to avoid providing personal information to anyone who claims to be an investment advisor. TPSODL has also advised customers to be aware of lottery scams and to avoid providing personal information to anyone who claims to be a lottery winner. TPSODL has also advised customers to be aware of charity scams and to avoid providing personal information to anyone who claims to be a charity representative. TPSODL has also advised customers to be aware of debt relief scams and to avoid providing personal information to anyone who claims to be a debt relief representative. TPSODL has also advised customers to be aware of tax refund scams and to avoid providing personal information to anyone who claims to be a tax refund representative. TPSODL has also advised customers to be aware of prize scams and to avoid providing personal information to anyone who claims to be a prize winner. TPSODL has also advised customers to be aware of sweepstakes scams and to avoid providing personal information to anyone who claims to be a sweepstakes representative. TPSODL has also advised customers to be aware of sweepstakes scams and to avoid providing personal information to anyone who claims to be a sweepstakes representative. TPSODL has also advised customers to be aware of sweepstakes scams and to avoid providing personal information to anyone who claims to be a sweepstakes representative.

TPSODL Warns Customers Against Fraudulent Calls & KYC Scams

TPSODL emphasizes that these individuals are not authorized by the company and urges customers to take precautions when responding to such calls or messages. The company reassures customers that it never asks for sensitive information like passwords, OTPs, bank details, or access to mobile or laptop screens during payment transactions. To ensure safe payments, TPSODL advises all customers to use authorized payment methods and channels.

The company also has a dedicated 24/7 toll free number, 1800-525-6797 / 1912, to assist with any grievances or suspicious activities.

"We at TPSODL prioritize the safety and security of our customers. We are closely monitoring fraudulent activities and encourage customers to report any suspicious calls or messages to our toll free number. We urge them to use only authorized channels for all transactions," said Mr. Amit Kumar Garg, CEO of TPSODL.

TPSODL remains committed to customer

Berhampur, September, 2024: TP Southern Odisha Distribution Limited (TPSODL), a joint venture between Tata Power and the Odisha Government, has issued an advisory alerting customers about cyber fraudsters misleading people by claiming that their electricity connection will be disconnected due to unpaid bills. One such incident in Berhampur involved a fraudster using the number 8777418070.

TPSODL emphasizes that these individuals are not authorized by the company and urges customers to take precautions when responding to such calls or messages. The company reassures customers that it never asks for sensitive information like passwords, OTPs, bank details, or access to mobile or laptop screens during payment transactions. To ensure safe payments, TPSODL advises all customers to use authorized payment methods and channels.

The company also has a dedicated 24/7 toll-free number, 1800-345-6797 / 1912, to assist with any grievances or suspicious activities.

"We at TPSODL prioritize the safety and security of our customers. We are closely monitoring fraudulent activities and encourage customers to report any suspicious calls or messages to our toll-free number. We urge them to use only authorized channels for all transactions," said Mr. Amit Kumar Garg, CEO of TPSODL.

TPSODL remains committed to customer protection and encourages vigilance against such fraudulent schemes.

TPSODL's solar drive: 2.7L register for PM Surya Ghar

PRB ■ BRAHMAPUR

The TP Southern Odisha Distribution Limited (TPSODL) is actively promoting the PM Surya Ghar Muft Bijli Yojana across southern Odisha to encourage the adoption of solar energy. The government initiative aims to empower citizens with affordable solar energy solutions, contributing to a sustainable, green future.

TPSODL's extensive outreach efforts span key districts, including Boudh, Koraput, Rayagada, Malkangiri, Ganjam, Kandhamal, Gajapati and Nabarangapur through stalls, outreach programmes, and participation in Vikas Melas.

The PM Surya Ghar Muft Bijli Yojana enables households to instal solar systems of up to 3 kW capacity, which can help consumers save up to 300 units of electricity per month. The scheme also provides a Government subsidy, offering financial assistance of up to Rs

78,000, making solar energy more accessible to a wide range of consumers. TPSODL's initiative is focused on educating people about these benefits and guiding them through the process of adopting solar power. At each event, TPSODL employees are available to assist consumers with detailed information on the scheme and to explain the technical and financial benefits of solar energy adoption. Consumers are also provided with information leaflets that outline the long-term savings and environmental impact of switching to renewable energy sources.

TPSODL representatives ensure consumers understand the application process and offer end-to-end support from registration to installation, making the transition to solar energy seamless and hassle-free. So far, over 2.7 lakh consumers have already registered for the scheme through the online portal, demonstrating a growing interest in solar power.

TPSODL promotes PM Surya Ghar Muft Bijli Yojana

Already 2.7 lakh consumers register for the scheme

STATESMAN NEWS SERVICE
BERHAMPUR, 22 SEPTEMBER

TP Southern Odisha Distribution Limited (TPSODL) has launched a campaign to promote PM Surya Ghar Muft Bijli Yojana across Southern Odisha to encourage the adoption of solar energy.

TPSODL's outreach efforts span key districts, including Boudh, Koraput, Rayagada, Malkangiri, Ganjam, Kandhamal, Gajapati and Nabarangpur through stalls, outreach programs, and participation in Vikas Melas.

The PM Surya Ghar Muft

Bijli Yojana enables households to install solar systems of up to 3 kW capacity, which can help consumers save up to 300 units of electricity per month. The scheme also provides a government subsidy, offering financial assistance of up to 78,000.

Consumers are also provided with information leaflets that outline the long-term savings and environmental impact of switching to renewable energy sources.

Mr. Amit Kumar Garg, CEO of TPSODL, said, "The PM Surya Ghar Muft Bijli Yojana is a revolutionary step towards empowering

citizens to adopt clean and renewable energy. At TPSODL, we are committed to supporting this transition by providing consumers with all the necessary information and resources they need to embrace solar energy. Our goal is to lower their carbon footprint, and contribute to building a sustainable future for Southern Odisha."

So far, over 2.7 lakh consumers have already registered for the scheme through the online portal, demonstrating a growing interest in solar power, said a release issued by TPSODL.

TPSODL launches campaign for Muft Bijli Yojana in Southern Odisha

PBD BUREAU

BERHAMPUR, SEP 22

TP Southern Odisha Distribution Limited (TPSODL) is promoting the PM Surya Ghar Muft Bijli Yojana to encourage solar energy adoption across Southern Odisha. This initiative empowers citizens with affordable solar solutions for a sustainable future. TPSODL's outreach includes key districts such as Boudh, Koraput, Rayagada, and Ganjam, utilizing stalls, programs, and Vikas Melas.

The scheme allows households to install solar systems up to 3 kW, potentially saving up to 300 units of electricity monthly. A

government subsidy of up to Rs 78,000 makes solar energy more accessible. TPSODL focuses on educating consumers about these benefits and guiding them through the adoption process.

At events, TPSODL staff provide detailed information and support, ensuring a seamless transition to solar energy.

Commenting on the initiative, TPSODL CEO Amit Kumar Garg said, "The PM Surya Ghar Muft Bijli Yojana is a revolutionary step towards empowering citizens to adopt clean and renewable energy. We are committed to supporting this transition by providing consumers with all the necessary information and resources they need to embrace

solar energy. Our goal is to lower their carbon footprint, and contribute to building a sustainable future for Southern Odisha."

To date, over 2.7 lakh consumers have registered online, reflecting growing interest in solar power. TPSODL aims to reach more households, driving a collective shift towards a greener future.

Bhubaneswar: TP Southern Odisha

Dissemination Limited (TPSODL) is actively promoting the PM Surya Ghar Muft Bijli Yojana across Southern Odisha to encourage the adoption of solar energy. This government initiative aims to empower citizens with affordable solar energy solutions, contributing to a sustainable, green future. TPSODL's extensive outreach efforts span key districts, including Boudh, Nuapada, Bargarh, Malkangiri, Gajapati, Kandhamal, Subarnapur and Nabarangpur through staff, outreach programs, and participation in Villas Melas.

The PM Surya Ghar Muft Bijli Yojana enables households to install solar systems of up to 3kW capacity, which can help consumers save up to 100 units of electricity per month. The scheme also provides a government subsidy, offering financial assistance of up to ₹15,000, making solar energy more accessible to a wide range of consumers. TPSODL's initiative is focused on educating people about these benefits and guiding them through the process of adopting solar power.

At each event, TPSODL employees are available to assist consumers with detailed information on the scheme and to explain the technical and financial benefits of solar energy adoption. Consumers are also provided with information leaflets that outline the long-term savings and environmental impact of switching to renewable energy sources. TPSODL representatives ensure consumers understand the application process and offer real-time support from registration to installation, making the transition to solar energy seamless and hassle-free.

Commenting on the initiative, Mr. Anil Kumar Singh, CEO of TPSODL, said, "The PM Surya Ghar Muft Bijli Yojana is a revolutionary step towards empowering citizens to adopt clean and renewable energy. At TPSODL, we are committed to supporting this transition by providing consumers with all the necessary information and resources they need to embrace solar energy. Our goal is to lower their carbon footprint, and contribute to building a sustainable future for Southern Odisha."

TPSODL launches skill development training program in Southern Odisha ITIs

BERHAMPUR: TP Southern Odisha Distribution Limited (TPSODL) has initiated technical training programs at Government Industrial Training Institutes (ITIs) in

Berhampur and Hinjilicut to equip youth with industry-relevant skills. This effort, part of the 'Skilled in Odisha' initiative, aims to enhance students' readiness for careers in the power sector. The inaugural events featured TPSODL CEO Amit Kumar Garg and Govt. ITI Hinjilicut Principal Muktirani Samanta, and ITI Berhampur Principal Ranjan Kumar Parida, who highlighted the program's transformative potential. Students will receive training aligned with the National Skill Qualification Framework (NSQF) and gain hands-on experience at TPSODL facilities, including the HoTT Centre and Smart Meter Lab. This exposure will enhance their employability by familiarizing them with real-world operations and safety protocols. Graduates will also have opportunities for placement with TPSODL, contributing to a skilled workforce in Southern Odisha and supporting India's self-reliance vision. TPSODL currently partners with ITIs in Berhampur, Hinjilicut, Rayagada, Jeypore, and Boudh, with plans for expansion.

TPSODL empowers students with industry-relevant skills

over seven sessions.

Berhampur, Sept 26: In a significant step towards empowering the youth with industry-relevant skills, Tata Power Southern Odisha Distribution Limited (TPSODL) recently launched a series of technical training programmes at government Industrial Training Institutes (ITIs) in Berhampur and Bargarh.

The initiative is part of an ongoing collaboration between TPSODL and ITIs across Southern Odisha, aimed at preparing students for future opportunities in the power sector.

The inaugural events, held at the respective campuses of the ITIs, were marked by the presence of TPSODL CEO Jitendra Kumar Das, alongside senior officials from the organisation, Govt ITI, Bargarh principal Mukund Kumar Samanta and govt ITI Berhampur principal Kameshwar Prasad Jena. The event and expressed enthusiasm for the transformative potential of the programme.

As part of the visit, government officials, including the Minister in Odisha, the partnership aims to bridge the gap between academic knowledge and practical expertise. Students will be trained

using modules aligned with the National Skill Qualification Framework (NSQF), ensuring that they receive standardised and top-quality instruction. The training curriculum has been designed to provide hands-on experience, combining theoretical insights with practical exposure at TPSODL's

cutting-edge facilities.

The students will have the opportunity to train at TPSODL's highly advanced infrastructure, including the SCADA Centre, Power System Control Centre, Smart Meter Lab, and 33/11 KV sub-stations. The practical exposure is designed to familiarise them with real-world operations,

safety protocols, and the latest technology, significantly boosting their employability.

In addition, graduates of the programme will have the opportunity to create placements with TPSODL, offering a viable pathway to employment. By building a skilled workforce, TPSODL is not only contributing to the development of Southern Odisha but also supporting the vision of a self-reliant India.

Currently, TPSODL has partnered with ITIs in Berhampur, Bargarh, Bhubaneswar, Jajpur, and Boudh, with plans to expand further.

दक्षिण ओडिशा के आईटीआई में कौशल विकास प्रशिक्षण कार्यक्रम का उद्घाटन

ब्रह्मपुर : उत्तम-सर्वोच्च कौशल में युवाओं को सशक्त बनाने के लिए एक महात्वापूर्ण काम उठाते हुए, टीपीएसओडीएल लिमिटेड (टीपीएसओडीएल) ने ब्रह्मपुर और विजिलिगुट के सरकारी औद्योगिक प्रशिक्षण संस्थानों (आईटीआई) में तकनीकी प्रशिक्षण कार्यक्रमों को एक बृहत्तर स्तर को है। यह पहल टीपीएसओडीएल और दक्षिण ओडिशा के आईटीआई के बीच गहरा सहयोग का प्रतीक है, जिसका उद्देश्य छात्रों को पारंपरिक सेतु में भविष्य के अवसरों के लिए तैयार करना है। आईटीआई के परिसरों में आयोजित उद्घाटन समारोह में टीपीएसओडीएल के सीईओ अशोक कुमार शर्मा और संघटक के अध्यक्ष अधिकारी मोहन शर्मा ने सरकारी आईटीआई विजिलिगुट की प्राथमिक मुश्किलों को समझाया और आईटीआई ब्रह्मपुर के प्राथमिक रोजन कुमार शर्मा ने कार्यक्रम की परिचालनकारी क्षमता के प्रति उत्साह व्यक्त किया।

ओडिशा सरकार की प्रमुख पहल 'सिम्पल इन ओडिशा' के तहत, यह राष्ट्रीय औद्योगिक ज्ञान और व्यावहारिक विशेषता के बीच की खाई को खोलने का उत्साह रखती है। छात्रों को राष्ट्रीय कौशल मुक्तक दोषों के अनुसार मॉड्यूल का उपयोग करने प्रशिक्षित किया जाया, जिससे उन्हें सशक्त और उच्च गुणवत्ता की शिक्षा मिलेगी। प्रशिक्षण पाठ्यक्रम को व्यावहारिक अनुभव प्रदान करने के लिए डिज़ाइन किया गया है, जिसमें टीपीएसओडीएल की अत्याधुनिक सुविधाओं में सिद्धांतमय अनुभवों के साथ व्यावहारिक अनुभव को जोड़ा गया है। छात्रों को टीपीएसओडीएल की अत्याधुनिक अवसरजन, जिसमें एचओटीटी मॉडर, पावर सिस्टम कंट्रोल मॉडर, स्मार्ट मॉडर लैब, और 33/11 केवी उप-स्टेशन शामिल हैं, में प्रशिक्षण का अवसर मिलेगा। यह व्यावहारिक अनुभव उन्हें व्यावहारिक संभालन, प्रमुख प्रोटोकॉल, और उच्चतम तकनीक से परिचित बनाने के लिए तैयार किया गया है, जो उनकी रोजगार योग्यता को महात्वापूर्ण रूप से बढ़ाएगा।

Berhampur, Odisha | September, 2024: In a significant step towards empowering the youth with industry-relevant skills, TP Southern Odisha Distribution Limited (TPSODL) has launched a series of technical training programs at Government Industrial Training Institutes (ITIs) in Berhampur and Hinjilicut. This initiative is part of an ongoing collaboration between TPSODL and ITIs across Southern Odisha, aimed at preparing students for future opportunities in the power sector.

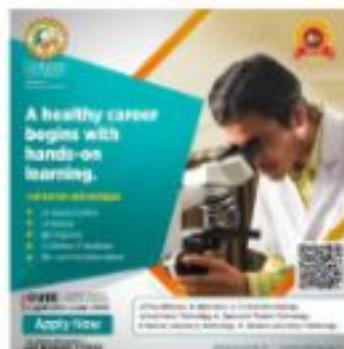

The inaugural events, held at the respective campuses of the ITIs, were marked by the presence of Mr. Amit Kumar Gang, CEO of TPSODL, alongside senior officials from the organization. Joining the ceremony were Smt. Mukta Samanta, Principal of Govt. ITI Hinjilicut, and Mr. Ranjan Kumar Parida, Principal of ITI Berhampur, who expressed their enthusiasm for the transformative potential of the program.

As part of the Government of Odisha's flagship initiative, 'Skilled in Odisha,' this partnership aims to bridge the gap between academic knowledge and practical expertise. Students will be trained using modules aligned with the National Skill Qualification Framework (NSQF), ensuring they receive standardized and top-quality instruction. The training curriculum has been designed to provide hands-on experience, combining theoretical insights with practical exposure at TPSODL's cutting-edge facilities.

The students will have the opportunity to train at TPSODL's highly advanced infrastructure, including the HoTT Centre, Power System Control Centre, Smart Meter Lab, and 23/11 KV Sub-stations. This practical exposure is designed to familiarize them with real-world operations, safety protocols, and the latest technology, significantly boosting their employability.

In addition to certification, graduates of the program will have the opportunity to secure placements with TPSODL, offering a valuable pathway to employment. By building a skilled workforce, TPSODL is not only contributing to the development of Southern Odisha but also supporting the vision of a self-reliant India.

Currently, TPSODL has partnered with ITIs in Berhampur, Hinjilicut, Rayagada, Jeypore, and Boudh, with plans to expand further. Through these collaborative efforts, TPSODL remains committed to its mission of empowering the youth of Southern Odisha with future-ready skills.

TPSODL inaugurates HoTT Center & Tamper testing lab

STATESMAN NEWS SERVICE

BERHAMPUR, 28 SEPTEMBER:

In a significant move to enhance workforce skills and ensure meter integrity, TP Southern Odisha Distribution Limited (TPSODL) inaugurated a state-of-the-art Hands-on Technical Training Center (HoTT) and a Tamper Testing Lab at Ambagada, Berhampur.

The dual facilities were officially opened by Dr. Arun Kumar Panda, Board Director of TPSODL, and Mr. Amit Kumar Garg, CEO of TPSODL. Both initiatives mark a new chapter in TPSODL's commitment to operational excellence and safety across Southern Odisha.

The Hands-on Technical Training Center is designed to

provide practical, real-world training to TPSODL's technical workforce, furthering the company's "Mission Zero Harm" vision. Notably, the company has 16 TPSODL Safety and Skill Development Institute (TSSDI) small training centers where induction and other training are conducted. Faculties are identified from the vicinity of the respective training centers.

Mr. Amit Kumar Garg, CEO of TPSODL, said, "these inaugurations reflect our dedication to continuous improvement in both safety and technology. By empowering our workforce with practical skills and ensuring the integrity of our metering systems, we are setting new standards for operational excellence in Southern Odisha."

TPSODL opens HoTT Center, Tamper Testing Lab in Berhampur

PTO BUREAU

09/09/2024

PT Southern Odisha Distribution Company (TPSODL) has inaugurated a new Hands-on Technical Training Center (HoTT) and a Tamper Testing Lab in Berhampur. The facilities were officially opened by TPSODL, Board Director Anil Kumar Panda, and PTO Area Manager, marking a commitment to enhance workforce skills and ensure meter integrity in Southern Odisha.

The HoTT Center will provide practical training for TPSODL's technical staff, focusing on real-world applications and safety in line with the company's "Mission Zero Three" vision.

The Tamper Testing Lab will equipped electricity meter integrity by repairing and re-certifying defective meters, as well as conducting regular checks of meter tampering.

"We are setting new standards for operational excellence in Southern Odisha by empowering our workforce and ensuring the integrity of our metering systems," said Anil Kumar Panda.

TPSODL Inaugurates HoTT Center and Tamper Testing Lab in Berhampur

Berhampur, (AoBureau): In a significant move to enhance workforce skills and ensure meter integrity, TPSouthern Odisha Distribution Limited (TPSODL) has inaugurated a state-of-the-art Hands-on Technical Training Center (HoTT) and a Tamper Testing Lab at Ambagada, Berhampur. The dual facilities were officially opened by Dr. Arun Kumar Panda, Board Director, of TPSODL, and Mr. Amit Kumar Garg, CEO of TPSODL. Both initiatives mark a new

chapter in TPSODL's commitment to operational excellence and safety across Southern Odisha. The Hands-on Technical Training Center is designed to provide practical, real-world

training to TPSODL's technical workforce, furthering the company's "Mission Zero Harm" vision. With an emphasis on hands-on experience, the center integrates theoretical knowledge

with practical application, equipping employees with the skills necessary to perform their duties safely and efficiently. The facility is designed to simulate real working conditions in the power distribution sector, offering everything from classroom-based learning to a practice yard where workers can operate on replicas of Low Tension (LT) and High Tension (HT) networks. This will allow employees to gain experience with the tools they will use daily.

TPSODL Inaugurates HoTT Center and Tamper Testing Lab in Berhampur

Berhampur, (ENS): In a significant move to enhance workforce skills and ensure meter integrity, TP Southern Odisha Distribution Limited (TPSODL) has inaugurated a state-of-the-art Hands-on Technical Training Center (HoTT) and a Tamper Testing Lab at Ambagada, Berhampur. The dual facilities were officially opened by Dr. Arun Kumar Panda, Board Director, of TPSODL, and Mr. Amit Kumar Garg, CEO of TPSODL. Both initiatives mark a new chapter in TPSODL's commitment to operational excellence and safety across Southern Odisha.

The Hands-on Technical Training Center is designed to provide practical, real-world training to TPSODL's technical workforce,

farthering the company's "Mission Zero Harm" vision. With an emphasis on hands-on experience, the center integrates theoretical knowledge with practical application, equipping employees with the skills necessary to perform their duties safely and efficiently. The facility is designed to simulate real working conditions in the power distribution sector, offering everything from classroom-based learning to a practice yard where workers can operate on replicas of Low Tension (LT) and High Tension (HT) networks. This will allow employees to gain experience with the tools they will use daily.

Notably, the company has 16 TPSODL Safety and Skill Development Institute (TSSDI) small training centers where

induction and other training are conducted. Faculties are identified from the vicinity of the respective training centers.

Complementing the training center, the newly inaugurated Tamper Testing Lab is dedicated to safeguarding the integrity of electricity meters. In this lab, meters undergo comprehensive testing to resist various tampering methods. Once tested and cleared, the meters will be deployed across the region, ensuring accurate billing and preventing fraudulent activities. The facility also handles the repair and re-certification of defective meters. It also enables the faster detection of meter tampering happening in the consumer end.

टीपीएस ओडीएल के एचओटीटी केंद्र और टेम्पर टेस्टिंग लैब का उद्घाटन

भुवनेश्वर: कर्मचारियों को उच्चतम नृद्धि और मीटर को सटीक उपरोक्त सुनिश्चित करने के उद्देश्य से, टीपीएस ओडीएल लिमिटेड (टीपीएसओडीएल) ने भुवनेश्वर के आम्बानु में एक अत्याधुनिक ईट्टम-ओडीएल तकनीकी प्रशिक्षण केंद्र (एचओटीटी) और टेम्पर टेस्टिंग लैब का उद्घाटन किया। टीपीएसओडीएल के सीईओ विवेक डॉ. अरुण कुमार शंका और मुख्य कार्यकारी अधिकारी अमित कुमार शर्मा ने इसे औपचारिक रूप से शुरू किया।

दोनों पहलों ने उद्योग अतिथि में संभालकालक उद्घाटन और शुरुआत के प्रति टीपीएसओडीएल की प्रतिबद्धता को दर्शाया। ईट्टम-ओडीएल तकनीकी प्रशिक्षण केंद्र को टीपीएसओडीएल के व्यावसायिक कर्मचारियों को व्यावसायिक प्रशिक्षण प्रदान करने के लिए डिज़ाइन किया गया है। यह कंपनी के मिशन 'सीरो हार्म बिजन' को मानसूत करेगा।

ईट्टम-ओडीएल अनुभव पर जोर देते हुए, इस केंद्र का उद्देश्य पाठ्यक्रमक ज्ञान को व्यावसायिक प्रयोग के साथ जोड़ना है। इससे कर्मचारियों को सुशिक्षित और प्रभावकारी तरीके से अपने कार्यों का निर्वहन करने के लिए आवश्यक उद्योग प्रदान होगी। यह केंद्र विज्ञान विभाग क्षेत्र में वार्षिक अनुभव प्रदान करने के लिए लक्ष्य किया गया है, जिसमें श्रेणी-आधारित

शिक्षण से लेकर अभ्यास सत्र तक की सुविधाएं उपलब्ध हैं। जहां कर्मचारी लो टेम्पर (एचटी) और हाई टेम्पर (एचटी) मीटरों का काम सीख सकते हैं, जिससे वे विद्युत विभाग क्षेत्र में उपयोग हो रहे उपकरणों के बारे में ज्ञान प्राप्त कर सकते हैं।

कंपनी के पहले से 16 टीपीएसओडीएल मीटरों और मिक्सड टेक्नोलॉजी इन्स्ट्रुमेंट (टीपीएसओडीएल) प्रशिक्षण केंद्र हैं, जहां ईट्टम-ओडीएल और अन्य प्रशिक्षण कार्यक्रम आयोजित किए जाते हैं। संशोधित प्रशिक्षण केंद्र के आरम्भ के क्षेत्र से प्रशिक्षकों को सक्षम किया जा रहा है। इसके अलावा, नवीनीकृत टेम्पर टेस्टिंग लैब विद्युत मीटर को अचूकता सुनिश्चित करने के लिए शुरू की गई है। इस प्रयोगशाला में मीटर के व्यापक परीक्षण किए जाते हैं और निष्पन्न प्रकार को टेम्परेचर सिस्टम को ठीक करने का

प्रयास किया जाता है। परीक्षण सफल होने के बाद इन मीटरों को उद्योग अतिथि में स्थानित किया जाएगा, जिससे सटीक निर्मित सुनिश्चित होगी और उपकरणों की गतिविधियों को ठीक जा सकेगा। इस केंद्र में टोपपूर्व मीटर की सफाया और पुनः प्रमाणन को व्यवस्था भी है, जिससे उपकरणों के पास उचित मीटर टेम्परेचर का यह लक्ष्य को सुनिश्चित होगी।

टीपीएसओडीएल के मुख्य कार्यकारी अधिकारी अमित कुमार शर्मा ने कहा, यह पहल सुलभ और प्रौद्योगिकी में निरंतर उन्नति के प्रति हमारी समर्पित भावना को दर्शाती है। व्यावसायिक उद्योग प्रदान कर कर्मचारियों को सक्षम बनाते हुए, मीटरों की व्यवस्था को अचूकता सुनिश्चित करके हम उद्योग अतिथि में उद्घाटन का एक नया मासूत स्थानित कर रहे हैं।

Berhampur, September: In a significant move to enhance workforce skills and ensure meter integrity, TP Southern Odisha Distribution Limited (TPSODL) has inaugurated a state-of-the-art Hands-on Technical Training Center (HoTT) and a Tamper Testing Lab at Ambagada, Berhampur. The dual facilities were officially opened by Dr. Anus Kumar Panda, Board Director of TPSODL, and Mr. Amit Kumar Garg, CEO of TPSODL. Both initiatives mark a new chapter in TPSODL's commitment to operational excellence and safety across Southern Odisha.

The Hands-on Technical Training Center is designed to provide practical, real-world training to TPSODL's technical workforce, furthering the company's "Mission Zero Harm" vision. With an emphasis on hands-on experience, the center integrates theoretical knowledge with practical application, equipping employees with the skills necessary to perform their duties safely and efficiently. The facility is designed to simulate real working conditions in the power distribution sector, offering everything from classroom-based learning to a practice yard where workers can operate on replicas of Low Tension (LT) and High Tension (HT) networks. This will allow employees to gain experience with the tools they will use daily.

Notably, the company has 10 TPSODL Safety and Skill Development Institute (TSSDI) small training centers where induction and other training are conducted. Facilities are identified from the vicinity of the respective training centers.

Complementing the training center, the newly inaugurated Tamper Testing Lab is dedicated to safeguarding the integrity of electricity meters. In this lab, meters undergo comprehensive testing to resist various tampering methods. Once tested and cleared, the meters will be deployed across the region, ensuring accurate billing and preventing fraudulent activities. The facility also handles the repair and re-certification of defective meters. It also enables the faster detection of meter tampering happening in the consumers end.

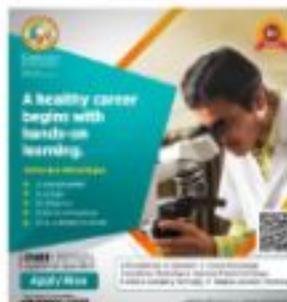

Mr. Amit Kumar Garg, CEO of TPSODL, says, "These inaugurations reflect our dedication to continuous improvement in both safety and technology. By empowering our workforce with practical skills and ensuring the integrity of our metering systems, we are setting new standards for operational excellence in Southern Odisha."

Behampur, September 30: In a significant move to enhance technical skills and ensure future industry of Southern Odisha Distribution Limited (TPSODL) has inaugurated a state-of-the-art HoTT Center (HoTT) and a Tamper Testing Lab at Behampur, Bhubaneswar. The HoTT facility will offer courses by Dr. Anil Kumar Patra, Superintendent of TPSODL, and Dr. Anil Kumar Nayak (DIT) of IITBHU, Varanasi. This new facility will provide a comprehensive environment to provide technical skills and safety across Southern Odisha.

The HoTT Center (HoTT) is designed to provide practical, hands-on training in HoTT related activities, including the company's "Master Live Band" video. With its advanced facilities, the center integrates theoretical knowledge with practical application, ensuring students will be well-prepared to perform their duties safely and efficiently. The facility is designed to address the existing skill gap in the power distribution sector, offering essential technical and safety training to students in a practical and interactive manner. The HoTT Center will offer courses in Low Voltage (LV) and High Voltage (HV) categories. The HoTT also emphasizes the importance of safety, ensuring that all students are well-versed in safety protocols.

Besides, the company has 16 TSSD, Safety and HSE Development Center (SDHC) and HoTT centers across Odisha and other states, providing a wide range of technical and safety training to the workforce of the company.

Dr. Anil Kumar Nayak (DIT) of TPSODL, said, "This HoTT center offers an excellent platform for technical advancement and safety training. It is a significant step towards ensuring that our workforce is well-prepared to handle the challenges of the power distribution sector. We are committed to providing the best quality of training to our students."

16 TPSODL Centers Strengthen Technical Expertise Across Southern Odisha

By A.K. Sahoo

Berhampur (Odisha), Sept. 28: In a significant move to enhance workforce skills and ensure metering integrity, TP Southern Odisha Distribution Limited (TPSODL) has inaugurated a state-of-the-art Hands-on Technical Training Center (HoTT) and a Tamper Testing Lab at Ambagala, Berhampur.

The dual facilities were officially opened by Dr. Anil Kumar Panda, Board Director, of TPSODL, and Mr. Anil Kumar Garg, CEO of TPSODL. Both initiatives mark a new chapter in TPSODL's commitment to operational excellence and safety across Southern Odisha.

The Hands-on Technical Training Center is designed to provide practical, real-world training to TPSODL's technical workforce, furthering the company's 'Mission Zero Harm' vision. With an emphasis on hands-on experience, the center integrates theoretical knowledge with practical application, equipping employees with the skills necessary to perform their duties safely and efficiently. The facility is designed to simulate real working conditions in the power distribution sector, offering everything from classroom-based learning to a practice yard where workers can operate on replicas of Low Tension (LT) and High Tension (HT) networks. This will allow employees to gain experience with the tools they will use daily.

Notably, the company has 16 TPSODL Safety and Skill Development Institute (SSDI) in all training centers where education and other training are conducted. Facilities are identified from the security of the respective training centers.

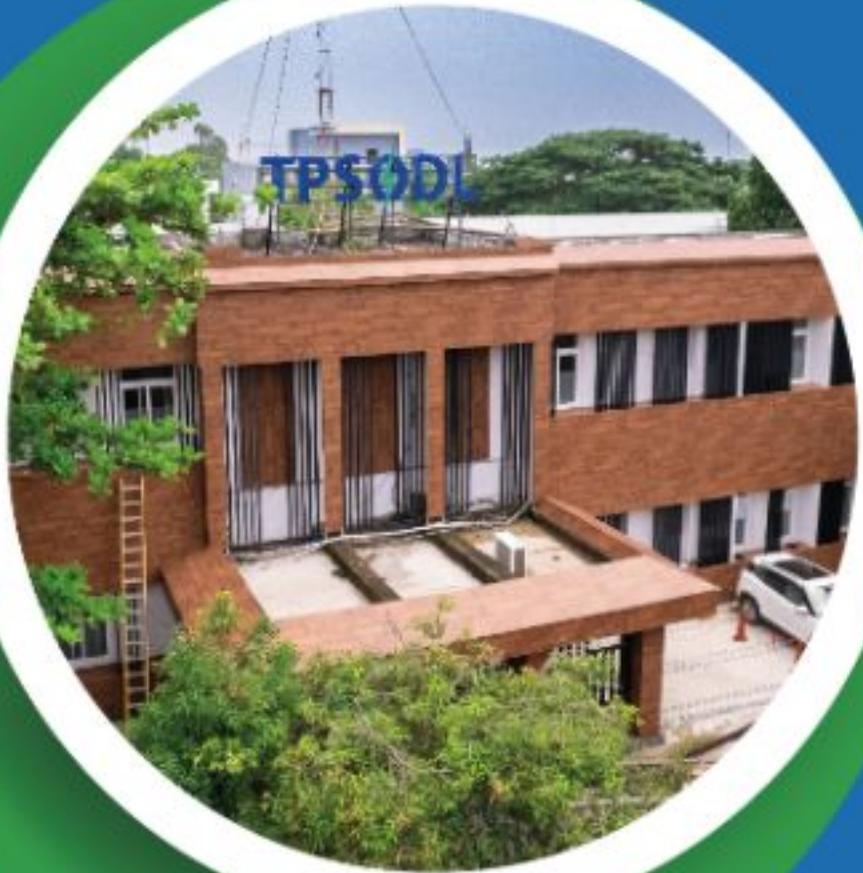

Complementing the training center, the newly inaugurated Tamper Testing Lab is dedicated to safeguarding the integrity of electricity meters. In the lab, meters undergo comprehensive testing to most common tampering methods. Once tested and cleared, the meters will be deployed across the region, ensuring accurate billing and preventing fraudulent activities. The facility also handles the repair and re-commissioning of defective meters. It also enables the faster detection of meter tampering happening in the consumer end.

Mr. Anil Kumar Garg, CEO of TPSODL, says, "These inaugurations reflect our dedication to continuous improvement in both safety and technology. By empowering our workforce with practical skills and ensuring the integrity of our metering systems, we are setting new standards for operational excellence in Southern Odisha."
