PM Surya Ghar Sparks a Solar Movement Across Southern Odisha

*** Growing Public Trust Makes Rooftop Solar a Preferred Choice**

Berhampur: Rooftop solar is witnessing unprecedented momentum across Southern Odisha as an increasing number of households embrace clean energy under the PM Surya Ghar: Muft Bijli Yojana. Driven by sustained consumer awareness initiatives and seamless implementation by TP Southern Odisha Distribution Limited (TPSODL), the scheme is transforming the way consumers perceive solar energy. What was once considered a costly alternative is now emerging as a practical, affordable, and long-term solution for reducing electricity bills while promoting environmental sustainability.

The growing public confidence in rooftop solar is reflected in the rising number of installations across the TPSODL operational area. So far, 54,390 families have applied under the PM Surya Ghar: Muft Bijli Yojana. Of these, 22,242 households have already installed rooftop solar systems under the scheme. Out of which 12,743 consumers have adopted rooftop solar through TPSODL's Utility-Led Aggregation (ULA) Model.

"Our electricity bill used to be very high because we are a large family and our power consumption was significant. During a TPSODL awareness campaign, we learned about the PM Surya Ghar: Muft Bijli Yojana. With TPSODL's support, we installed a rooftop solar system, received the subsidy on time, and now our electricity bill is minimal. I urge every household to adopt solar because it is affordable, sustainable, and environment-friendly," said Ranjita Sethi, a beneficiary of the scheme.

Among all operational districts, Ganjam has emerged as the leader with 14,278 rooftop solar installations, making it one of the top two districts in Odisha for rooftop solar adoption. The momentum is also steadily growing across Gajapati (1492), Nabarangpur (1328), Rayagada (1452), Boudh (1,087), Koraput (1,169), Malkangiri (714) and Kandhamal (649), indicating the increasing acceptance of renewable energy across both urban and rural communities.

A significant driver behind this transition has been TPSODL's Utility-Led Aggregation (ULA) Model, which has made rooftop solar affordable and accessible. Under the model, consumers can install a 1 kW rooftop solar system by paying only ₹1,875. Consumers opting for a 2 kW system receive a combined subsidy of ₹1.10 lakh, while those installing a 3 kW system receive financial assistance of ₹1.38 lakh from the Central and State Governments. State Govt. is providing highest subsidy to the beneficiaries among all the states in the country.

The encouraging response also reflects a changing consumer mindset, with rooftop solar increasingly being viewed as a smart investment that offers long-

term financial savings, energy independence and environmental benefits. Through continuous awareness drives, consumer engagement programmes and simplified adoption processes, TPSODL continues to promote the large-scale adoption of clean energy across Southern Odisha.

Speaking on the growing adoption, Amit Kumar Garg, CEO, TPSODL, said, "The increasing response to PM Surya Ghar is encouraging. More families are recognising that rooftop solar is not only an investment in clean energy but also in long-term savings and energy independence. Through our awareness initiatives and the Utility-Led Aggregation Model, we are making solar simple, affordable and accessible for every eligible household. We remain committed to accelerating this clean energy transition across Southern Odisha."

The growing adoption of rooftop solar under the PM Surya Ghar: Muft Bijli Yojana reflects the collective efforts of consumers, government support and TPSODL's sustained facilitation. With every new installation, TPSODL is strengthening Southern Odisha's transition towards clean energy and contributing to a greener, more sustainable and energy-secure future.

Rooftop solar adoption surges in southern Odisha under TPSODL's ULA model

Bhubaneswar, Aug 12 (TNT) Rooftop solar adoption is gaining significant momentum across southern Odisha, with an increasing number of households opting for clean energy under the PM Surya Ghar: Muft Bijli Yojana, supported by TP Southern Odisha Distribution Limited's (TPSODL) Utility-Led Aggregation (ULA) Model.

The initiative has made rooftop solar more affordable and accessible to consumers, while sustained awareness campaigns and streamlined implementation by TPSODL are encouraging households to shift towards renewable energy.

Solar power, once perceived as an expensive alternative, is increasingly emerging as a practical and cost-effective solution for households seeking to reduce electricity bills while contributing to environmental sustainability.

गंजाम में पीएम सूर्य घर योजना से रोशन हुए 22 हजार घर

जागरण संवाददाता, भुवनेश्वर: दक्षिण ओडिशा में स्वच्छ ऊर्जा की ओर बढ़ते कदम अब जनआंदोलन का रूप लेते नजर आ रहे हैं। प्रधानमंत्री सूर्य घर मुफ्त बिजली योजना के तहत हजारों परिवार अपने घरों की छतों पर सोलर पैनल लगाकर बिजली बिल में बचत के साथ पर्यावरण संरक्षण में भी योगदान दे रहे हैं। टीपी सदरन ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) के जागरूकता कार्यक्रमों और सरकार की आकर्षक सब्सिडी से रूफटॉप सोलर लोगों की पसंद बनता जा रहा है। टीपीएसओडीएल के आंकड़ों के मुताबिक योजना के तहत अब तक 54,390 परिवार आवेदन कर चुके हैं। इनमें 22,242 घरों में सोलर सिस्टम स्थापित हो चुके हैं। वहीं, यूटिलिटी-लेड एग्रीगेशन (यूएलए) मॉडल के माध्यम से 12,743 उपभोक्ताओं ने भी सोलर सिस्टम लगवाया है। दक्षिण ओडिशा में गंजाम सौर ऊर्जा

दक्षिण ओडिशा में सोलर पावर स्थापित करते टीपीएसओडीएल के कर्मचारी • जागरण

अपनाने में सबसे आगे हैं। जिले में 14,278 रूफटॉप सोलर सिस्टम लगाए जा चुके हैं, जिससे गंजाम पूरे ओडिशा में दूसरे स्थान पर पहुंच गया है। गजपति में 1,492, रायगड़ा में 1,452, नवरंगपुर में 1,328, कोरापुट में 1,169, बौद्ध में 1,087, मलकानगिरि में 714 और कंधमाल में 649 सिस्टम स्थापित किए गए हैं। इससे ग्रामीण और आदिवासी बहुत इलाकों में भी सौर ऊर्जा के प्रति बढ़ती जागरूकता का संकेत

मिलता है। यूएलए मॉडल के तहत एक किलोवाट का सिस्टम मात्र 1,875 रुपये में उपलब्ध कराया जा रहा है। दो किलोवाट सिस्टम पर केंद्र और राज्य सरकार की ओर से कुल 1.10 लाख रुपये तथा तीन किलोवाट सिस्टम पर 1.38 लाख रुपये तक की सब्सिडी मिल रही है। बरहमपुर की रंजिता सेठी ने बताया कि सोलर पैनल लगाने के बाद उनके बड़े परिवार का बिजली खर्च काफी कम हुआ है।

NAVBHARAT

दक्षिण ओडिशा में सोलर क्रांति, 54 हजार से ज्यादा परिवारों ने पीएम सूर्य घर के लिए किया आवेदन

नवभारत न्यूज़। भुवनेश्वर। दक्षिण ओडिशा में सफ्टवेयर सोलर को लेकर लंबी का रास्ता तैयारी से बढ़ रहा है। पीएम सूर्य घर: मुफ्त बिजली योजना के तहत बड़ी संख्या में परिवार सौर ऊर्जा अपना रहे हैं। उपभोक्ता जागरूकता अभियानों और टीवी सदस्य ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीडीएसओडीएल) को पहले से सफ्टवेयर सोलर अब महंगे विकल्प के बजाय बिजली बिल कम करने और लंबे समय में बचत का व्यावहारिक माध्यम बनता जा रहा है। टीडीएसओडीएल के संचालन क्षेत्र में अब तक 54,390 परिवारों ने पीएम सूर्य घर योजना के तहत आवेदन किया है। इनमें से 22,242 घरों में सफ्टवेयर सोलर सिस्टम लगाए जा चुके हैं। इनमें 12,743 उपभोक्ताओं ने टीडीएसओडीएल के सुटिलिटी-आधारित एकाधिकरण (मूलतः) मॉडल के जरिए सोलर सिस्टम अपनाया है। कंपनी के अनुसार, लगातार चल रहा जागरूकता अभियानों से लोगों में सौर ऊर्जा की लेकर भरपूर बढ़ा है। अब ग्रामीण और शहरी दोनों क्षेत्रों में परिवार इसे बिजली खर्च कम करने

दक्षिण ओडिशा के जिलों में संचालित सफ्टवेयर सोलर लक्ष्मी के मामले में सबसे आगे है। जिले में अब तक 14,276 सफ्टवेयर सोलर इंस्टॉलेशन हो चुके हैं, जिसमें संचालित ओडिशा के सौर जो जिलों में शामिल हो गया है। अन्य जिलों में भी सौर ऊर्जा की स्वीकार्यता बढ़ रही है। गतवर्ष में 1,492, नवगणपुर में 1,328, बलसोरा में 1,452, बोध में 1,087, कोणार्ड में 1,169, मानसगिरी में 714 और कंपकान में 649 सफ्टवेयर सोलर इंस्टॉलेशन दर्ज किए गए हैं। टीडीएसओडीएल के मूलतः मॉडल ने योजना को अद्यतन उपभोक्ताओं के लिए अधिक विश्वसनीय बनाने में महत्वपूर्ण भूमिका निभाई है।

के साथ परिवारों में संचालित के लिए भी उपयोगी मान रहे हैं। बिजली बिल घटा तो रोजीत सेटी ने दूसरी से भी अपनाई की अपील की : योजना को लक्ष्मी रोजीत सेटी ने बताया कि बड़े परिवार के कारण उनका बिजली बिल काफी अधिक आता था। टीडीएसओडीएल के जागरूकता अभियान के दौरान उन्हें पीएम सूर्य घर योजना की जानकारी मिली। कंपनी की मदद से उन्होंने सफ्टवेयर

'सोलर ऊर्जा के साथ लंबी अवधि की बचत भी'

टीडीएस ओडीएल के सीईओ अमित कुमार वर्मा ने कहा कि पीएम सूर्य घर को मिल रही प्रतिक्रिया उत्साहजनक है। परिवार अब समझ रहे हैं कि सफ्टवेयर सोलर केवल स्वच्छ ऊर्जा में निवेश नहीं, बल्कि लंबी अवधि की बचत और ऊर्जा आनंदन के साथ भी सम्बंधित है। उन्होंने कहा कि कंपनी जागरूकता अभियानों और मूलतः मॉडल के जरिए सोलर को हर घर परिवार के लिए सरल, विश्वसनीय और मुफ्त बनाने के लिए प्रयास है। दक्षिण ओडिशा में बहुत सफ्टवेयर सोलर अपनाते का चलन उपभोक्ताओं, सरकार और टीडीएसओडीएल के संयुक्त प्रयासों का परिणाम माना जा रहा है।

सोलर लगाना और समय पर संचालनी भी मिली। अब उनका बिजली बिल बहुत कम हो गया है। उन्होंने अन्य परिवारों से भी सौर ऊर्जा अपनाने की अपील की।

PM Surya Ghar Sparks Solar Movement Across Southern Odisha

By Nalini Sahu

491 1.4k

Rooftop solar is witnessing unprecedented momentum across Southern Odisha as an increasing number of households embrace clean energy under the PM Surya Ghar: Muft Biji Yojana. Driven by sustained consumer awareness initiatives and seamless implementation by TP Southern Odisha Distribution Limited (TPSODL), the scheme is transforming the way consumers perceive solar energy. What was once considered a costly alternative is now emerging as a practical, affordable, and long-term solution for reducing electricity bills while promoting environmental sustainability.

Identifying potential consumer areas, the TP Southern Odisha Distribution Limited (TPSODL) has initiated a series of targeted awareness campaigns, including door-to-door visits, community meetings, and digital outreach through social media and local radio. These efforts have successfully educated households on the benefits and process of adopting rooftop solar.

The growing public confidence in rooftop solar is reflected in the rising number of installations across the TPSODL operational area. To date, 54,339 families have opted under the PM Surya Ghar: Muft Biji Yojana. Of these, 22,252 households have already installed rooftop solar systems under the scheme. Out of which 12,783 consumers have adopted rooftop solar through TPSODL's Utility List Aggregation (ULA) Model.

"Our electricity bill used to be very high because we are a large family and our power consumption was significant. During a TPSODL awareness campaign, we learned about the PM Surya Ghar: Muft Biji Yojana. With TPSODL's support, we installed a rooftop solar system, received the subsidy on time, and now our electricity bill is minimal. I urge every household to adopt solar because it is affordable, sustainable, and environment-friendly," said Binodini Sahoo, a beneficiary of the scheme.

Among all operational districts, Ganjam has emerged as the leader with 14,278 rooftop solar installations, making it one of the top two districts in Odisha for rooftop solar adoption. The momentum is also steadily growing across Galgaon (1,492), Nabarangpur (1,328), Rayagada (1,452), Boudh (1,087), Koraput (1,169), Malkangiri (714) and Kandhamal (540), indicating the increasing acceptance of renewable energy across both urban and rural communities.

A significant driver behind this transition has been TPSODL's Utility List Aggregation (ULA) Model, which has made rooftop solar affordable and accessible. Under the model, consumers can install a 1 kW rooftop solar system by paying only ₹1,275. Consumers opting for a 2 kW system receive a combined subsidy of ₹1.10 lakh, while those installing a 3 kW system receive financial assistance of ₹1.38 lakh from the Central and State Governments. State Govt. is providing highest subsidy to the beneficiaries among all the states in the country.

The encouraging response also reflects a changing consumer mindset, with rooftop solar increasingly being viewed as a smart investment that offers long-term financial savings, energy independence and environmental benefits. Through continuous awareness drives, consumer engagement programmes and simplified adoption processes, TPSODL continues to promote the large-scale adoption of clean energy across Southern Odisha.

Speaking on the growing adoption, Amit Kumar Garg, CEO, TPSODL, said, "The increasing response to PM Surya Ghar is encouraging. More families are recognising that rooftop solar is not only an investment in clean energy but also a long-term savings and energy independence. Through our awareness initiatives and the Utility List Aggregation Model, we are making solar simple, affordable and accessible for every eligible household. We remain committed to accelerating this clean energy transition across Southern Odisha."

The growing adoption of rooftop solar under the PM Surya Ghar: Muft Biji Yojana reflects the collective efforts of consumers, government support and TPSODL's sustained facilitation. With every new installation, TPSODL is strengthening Southern Odisha's transition towards clean energy and contributing to a greener, more sustainable and energy-secure future.

PM SURYA GHAR SPARKS A SOLAR MOVEMENT ACROSS SOUTHERN ODISHA

By Nalini Sahu

PM Surya Ghar sparks a solar movement across Southern Odisha

August 13

Growing public trust makes rooftop solar a preferred choice

By Nalini Sahu

Bhubaneswar: Rooftop solar is witnessing unprecedented momentum across Southern Odisha as an increasing number of households embrace clean energy under the PM Surya Ghar: Muft Biji Yojana. Driven by sustained consumer awareness initiatives and seamless implementation by TP Southern Odisha Distribution Limited (TPSODL), the scheme is transforming the way consumers perceive solar energy. What was once considered a costly alternative is now emerging as a practical, affordable, and long-term solution for reducing electricity bills while promoting environmental sustainability.

The growing public confidence in rooftop solar is reflected in the rising number of installations across the TPSODL operational area. To date, 54,339 families have opted under the PM Surya Ghar: Muft Biji Yojana. Of these, 22,252 households have already installed rooftop solar systems under the scheme. Out of which 12,783 consumers have adopted rooftop solar through TPSODL's Utility List Aggregation (ULA) Model.

"Our electricity bill used to be very high because we are a large family and our power consumption was significant. During a TPSODL awareness campaign, we learned about the PM Surya Ghar: Muft Biji Yojana. With TPSODL's support, we installed a rooftop solar system, received the subsidy on time, and now our electricity bill is minimal. I urge every household to adopt solar because it is affordable, sustainable, and environment-friendly," said Binodini Sahoo, a beneficiary of the scheme.

Among all operational districts, Ganjam has emerged as the leader with 14,278 rooftop solar installations, making it one of the top two districts in Odisha for rooftop solar adoption. The momentum is also steadily growing across Galgaon (1,492), Nabarangpur (1,328), Rayagada (1,452), Boudh (1,087), Koraput (1,169), Malkangiri (714) and Kandhamal (540), indicating the increasing acceptance of renewable energy across both urban and rural communities.

A significant driver behind this transition has been TPSODL's Utility List Aggregation (ULA) Model, which has made rooftop solar affordable and accessible. Under the model, consumers can install a 1 kW rooftop solar system by paying only ₹1,275. Consumers opting for a 2 kW system receive a combined subsidy of ₹1.10 lakh, while those installing a 3 kW system receive financial assistance of ₹1.38 lakh from the Central and State Governments. State Govt. is providing highest subsidy to the beneficiaries among all the states in the country.

The encouraging response also reflects a changing consumer mindset, with rooftop solar increasingly being viewed as a smart investment that offers long-term financial savings, energy independence and environmental benefits. Through continuous awareness drives, consumer engagement programmes and simplified adoption processes, TPSODL continues to promote the large-scale adoption of clean energy across Southern Odisha.

Speaking on the growing adoption, Amit Kumar Garg, CEO, TPSODL, said, "The increasing response to PM Surya Ghar is encouraging. More families are recognising that rooftop solar is not only an investment in clean energy but also a long-term savings and energy independence. Through our awareness initiatives and the Utility List Aggregation Model, we are making solar simple, affordable and accessible for every eligible household. We remain committed to accelerating this clean energy transition across Southern Odisha."

The growing adoption of rooftop solar under the PM Surya Ghar: Muft Biji Yojana reflects the collective efforts of consumers, government support and TPSODL's sustained facilitation. With every new installation, TPSODL is strengthening Southern Odisha's transition towards clean energy and contributing to a greener, more sustainable and energy-secure future.

TPSODL celebrates International Youth Day

Berhampur: With technology and the world of work changing rapidly, young people must continuously upgrade their skills, embrace innovation and remain adaptable to emerging opportunities, speakers said at an International Youth Day programme held at Khetramohan Science College, Narendrapur.

The interactive programme brought together students from various education institutions and representatives of TPSODL (TP Southern Odisha Distribution limited) for a discussion on the changing professional landscape and the growing opportunities available to young people in Odisha.

Students were encouraged to look beyond conventional career choices and connect their interests and passion with emerging areas of work. The interaction focused on the importance of Artificial Intelligence, digital technology, communication, creativity, critical thinking, entrepreneurship and continuous learning.

The discussion assumed particular relevance in Odisha, where skill development and building a future-ready workforce have emerged as important priorities. The State's Skill Development and Technical Education Department has articulated the vision of making "Skilled-in-Odisha" a globally recognised identity, while recent State Economic Survey findings point to improving digital skills and growing emphasis on AI capabilities.

Students actively participated in the session, sharing their aspirations and seeking perspectives on careers, technology and the changing demands of the workplace. They were also encouraged to use digital resources responsibly and develop skills that can enhance their employability and entrepreneurial potential.

The programme also highlighted that today's youth are not merely the leaders of tomorrow but active contributors to society today. Their ideas, skills and willingness to learn can play an important role in shaping Odisha's future.

The observance concluded with a message encouraging students to keep learning, embrace change, build relevant skills and turn emerging opportunities into meaningful contributions.

बदलते रोजगार परिदृश्य के बीच एआई और नवाचार अपनाने पर दिया जोर

टीपीएस ओडीएल ने युवाओं को दिखाई नई राह

बर्हमपुर। अंतरराष्ट्रीय युवा दिवस के अवसर पर बर्हमपुर स्थित खेतमोहन साइंस कॉलेज में टीपीएसओडीएल की ओर से विशेष कार्यक्रम आयोजित किया गया। कार्यक्रम में विभिन्न शिक्षण संस्थानों के विद्यार्थियों और टीपीएसओडीएल के प्रतिनिधियों ने हिस्सा लिया। इस दौरान बदलते रोजगार परिदृश्य और युवाओं के लिए उपलब्ध अवसरों पर चर्चा की गई। कार्यक्रम में बोलते हुए उन्होंने कहा कि तकनीक और रोजगार की दुनिया तेजी से बदल रही है। ऐसे में युवाओं को लगातार अपने कौशल को बेहतर बनाने, नवाचार को अपनाने और नए अवसरों के अनुसार खुद को ढालने की जरूरत है। विद्यार्थियों को पारंपरिक करियर विकल्पों तक सीमित न रहने और अपने रुचि व क्षमता को रोजगार के नए क्षेत्रों में जोड़ने के लिए प्रोत्साहित किया गया। चर्चा में

अर्टिफिशियल इंटेलिजेंस, डिजिटल तकनीक, संस्था बदलाव, रचनात्मकता, आलोचनात्मक सोच, उद्यमिता और निरंतर सीखने के महत्व पर विशेष जोर दिया गया। ओडिशा में कौशल विकास और भविष्य के लिए तैयार करने के लिए करने की दिशा में किए जा रहे प्रयासों के

संदर्भ में भी कार्यक्रम की प्रासंगिकता पर चर्चा हुई। राज्य के कौशल विकास एवं तकनीकी शिक्षा विभाग की ओर से किला-दूर-ओडिशा की वैश्विक पहचान दिलाने की दिशा में किए जा रहे प्रयासों का भी उल्लेख किया गया। कार्यक्रम में विद्यार्थियों ने सक्रिय रूप से हिस्सा लिया

और करियर, तकनीक तथा बदलते कार्यस्थल की जरूरतों से जुड़े समाधान सुने। उन्हें डिजिटल संसाधनों का ज़िम्मेदारी से इस्तेमाल करने और रोजगार तथा उद्यमिता की संभावनाओं को बढ़ाने वाले कौशल विकसित करने के लिए प्रेरित किया गया।

A group of students and teachers are standing outdoors, holding a large white banner. The banner features the text "VOLUNTEERING PROGRAM" in bold, black capital letters. Above the text, there are logos for "PYP" (United Nations logo) and "PYPAL" (United Nations logo). Below the text, there are colorful illustrations of people and a globe. The students are wearing school uniforms, and the teachers are wearing red and black attire. The background shows a school building and trees.

TPSODL celebrates International Youth Day

August 12 2020

the AEC, therefore

Berhampur (Odisha), Aug. 12: Berhampur: With technology and the world of work changing rapidly, young people must continuously upgrade their skills, embrace innovation and remain adaptable to emerging opportunities, speakers said at an International Youth Day programme held at Kharasahi Science College, Nawabnagar.

The interactive programme brought together students from various education institutions and representatives of TPSOOL (TP Southern Orissa Distribution limited) for a discussion on the changing professional landscape and the growing opportunities available to young people in Orissa.

Students were encouraged to look beyond conventional career choices and connect their interests and passion with emerging areas of work. The interaction focused on the importance of Artificial Intelligence, digital technology, communication, creativity, critical thinking, entrepreneurship and continuous learning.

The discussion assumed particular relevance in Odisha, where skill development and building a future-ready workforce have emerged as important priorities. The State's Skill Development and Technical Education Department has articulated the vision of making 'Skilled-in-Odisha' a globally recognised identity, while recent State Economic Survey findings point to improving digital skills and growing emphasis on AI capabilities.

Students actively participated in the session, sharing their aspirations and seeking perspectives on careers, technology and the changing demands of the workplace. They were also encouraged to use digital resources responsibly and develop skills that can enhance their employability and entrepreneurial potential.

The programme also highlighted that today's youth are not merely the leaders of tomorrow but active contributors to society today. Their ideas, skills and willingness to learn can play an important role in

With technology and the world of work changing rapidly, young people must continuously upgrade their skills, embrace innovation and remain adaptable to emerging opportunities, speakers said at an International Youth Day programme held at Khetramohan Science College, Narendrapur.

The interactive programme brought together students from various education institutions and representatives of TPSODL (TP Southern Odisha Distribution limited) for a discussion on the changing professional landscape and the growing opportunities available to young people in Odisha.

Students were encouraged to look beyond conventional career choices and connect their interests and passion with emerging areas of work. The interaction focused on the importance of Artificial Intelligence, digital technology, communication, creativity, critical thinking, entrepreneurship and continuous learning.

The discussion assumed particular relevance in Odisha, where skill development and building a future-ready workforce have emerged as important priorities. The State's Skill Development and Technical Education Department has articulated the vision of making "Skilled-in-Odisha" a globally recognised identity, while recent State Economic Survey findings point to improving digital skills and growing emphasis on AI capabilities.

Students actively participated in the session, sharing their aspirations and seeking perspectives on careers, technology and the changing demands of the workplace. They were also encouraged to use digital resources responsibly and develop skills that can enhance their employability and entrepreneurial potential.

The programme also highlighted that today's youth are not merely the leaders of tomorrow but active contributors to society today. Their ideas, skills and willingness to learn can play an important role in shaping Odisha's future.

The observance concluded with a message encouraging students to keep learning, embrace change, build relevant skills and turn emerging opportunities into meaningful contributions.

Bermampur (Orissa), Aug. 12.

Bornhapur. With technology and the world of work changing rapidly, young people must continuously upgrade their skills, embrace innovation and remain adaptable to emerging opportunities, speakers said at an International Youth Day programme held at Raddaiah Science College, Nandamuri.

The interactive programme brought together students from various education institutions and representatives of TPSOOL (TP Sochiem Odisha Organisation Limited) for a discussion on the changing professional landscape and the growing opportunities available to young people in Odisha.

Students were encouraged to look beyond conventional career choices and connect their interests and passion with emerging areas of work. The education focused on the importance of Artificial Intelligence, digital technology, communication, creativity, critical thinking, entrepreneurship and continuous learning.

The discussion assumed particular relevance in Ontario, where skill development and building a future-ready workforce have emerged as important priorities. The Ontario Skill Development and Technical Education Department has articulated the vision of making "Ontario a globally recognised identity, while recent State Economic Strategy findings point to improving digital skills and growing emphasis on AI capabilities."

Students actively participated in the session, sharing their aspirations and seeking perspectives on careers, technology and the changing demands of the workplace. They were also encouraged to use digital resources responsibly and develop skills that can enhance their employability and entrepreneurial potential.

The programme also highlighted that today's youth are not merely the leaders of tomorrow but active contributors to society today. Their ideas, skills and willingness to learn can play an important role in shaping Odisha's future.

The observance concluded with a message encouraging students to keep learning, embrace change, build relevant skills and turn emerging opportunities into meaningful contributions.

The interactive programme brought together students from various education institutions and representatives of TPSODL (TP Southern Odisha Distribution limited) for a discussion on the changing professional landscape and the growing opportunities available to young people in Odisha.

Students were encouraged to look beyond conventional career choices and connect their interests and passion with emerging areas of work. The interaction focused on the importance of Artificial Intelligence, digital technology, communication, creativity, critical thinking, entrepreneurship and continuous learning.

The discussion assumed particular relevance in Odisha, where skill development and building a future-ready workforce have emerged as important priorities. The State's Skill Development and Technical Education Department has articulated the vision of making "Skilled-In-Odisha" a globally recognised identity, while recent State Economic Survey findings point to improving digital skills and growing emphasis on AI capabilities.

Students actively participated in the session, sharing their aspirations and seeking perspectives on careers, technology and the changing demands of the workplace. They were also encouraged to use digital resources responsibly and develop skills that can enhance their employability and entrepreneurial potential.

The programme also highlighted that today's youth are not merely the leaders of tomorrow but active contributors to society today. Their ideas, skills and willingness to learn can play an important role in shaping Odisha's future.

The observance concluded with a message encouraging students to keep learning, embrace change, build relevant skills and turn emerging opportunities into meaningful contributions.

TPSODL celebrates International Youth Day

By Odisha Veda — Last updated Aug 12, 2025

Bureau,Odishabarta

Brahmapur: With technology and the world of work changing rapidly, young people must continuously upgrade their skills, embrace innovation and remain adaptable to emerging opportunities, speakers said at an International Youth Day programme held at Khairamohan Science College, Narendrapur.

The interactive programme brought together students from various education institutions and representatives of TPSODL (TP Southern Odisha Distribution limited) for a discussion on the changing professional landscape and the growing opportunities available to young people in Odisha.

Students were encouraged to look beyond conventional career choices and connect their interests and passion with emerging areas of work. The interaction focused on the importance of Artificial Intelligence, digital technology, communication, creativity, critical thinking, entrepreneurship and continuous learning.

The discussion assumed particular relevance in Odisha, where skill development and building a future-ready workforce have emerged as important priorities. The State's Skill Development and Technical Education Department has articulated the vision of making "Skilled-In-Odisha" a globally recognised identity, while recent State Economic Survey findings point to improving digital skills and growing emphasis on AI capabilities.

Students actively participated in the session, sharing their aspirations and seeking perspectives on careers, technology and the changing demands of the workplace. They were also encouraged to use digital resources responsibly and develop skills that can enhance their employability and entrepreneurial potential.

The programme also highlighted that today's youth are not merely the leaders of tomorrow but active contributors to society today. Their ideas, skills and willingness to learn can play an important role in shaping Odisha's future.

The observance concluded with a message encouraging students to keep learning, embrace change, build relevant skills and turn emerging opportunities into meaningful contributions.

TPSODL Celebrates 80th Independence Day with Patriotism and Enthusiasm

- **Celebrations held across Corporate, Circle and Division Offices**
- **Solar consumers, employees and meritorious students felicitated**

Berhampur: TP Southern Odisha Distribution Limited (TPSODL) celebrated the 80th Independence Day with great enthusiasm and patriotic spirit at its Corporate Office and across all circle and division offices in Southern Odisha.

At the Corporate Office, TPSODL CEO Mr. Amit Kumar Garg hoisted the National Flag in the presence of senior leaders and employees. The celebrations began with the singing of the National Song Vande Mataram, followed by the National Anthem.

The programme also featured cultural performances by school children, adding colour and joy to the Independence Day celebrations.

As part of the programme, TPSODL felicitated consumers who have adopted rooftop solar systems under the PM Surya Ghar: Muft Bijli Yojana. Employees who made significant contributions towards promoting and implementing the rooftop solar initiative were also recognised for their efforts.

TPSODL also felicitated the wards of employees who secured more than 90% marks in their board examinations. The initiative recognised their academic achievement and encouraging them to continue pursuing excellence.

Speaking on the occasion, Mr. Amit Kumar Garg, CEO, TPSODL, said, “As we move towards the vision of Viksit Bharat, we must adopt new technologies and focus on innovation. The responsibility of development does not belong only to the Government; every individual has a role to play. Electricity is not just a facility; it is a support that enables families and communities to grow. TPSODL is committed to providing this support to every household and contributing to the growth of our community and our state. At the same time, we must make safety, transparency and integrity an integral part of everything we do.”

The celebrations across TPSODL offices reflected the organisation’s commitment to the nation, its consumers, employees and the communities it serves.

TPSODL Strengthens Power Network in Chhatrapur with Underground Cabling

- Collectorate, SP Office, and Sub Divisional Hospital now powered by uninterrupted underground supply.
- Reliable electricity benefits 1,000+ residents and key business streets.
- Upgraded system links Upper & Lower Bus Stand feeders for seamless backup.

Berhampur: TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has completed a 3.4 km underground cabling project in Chhatrapur. This project provides stronger and more reliable power for the district headquarters of Ganjam.

The new 11kV underground power network ensures reliable, uninterrupted, and storm proof electricity for key government and administrative offices. Institutions now connected include the Ganjam Collectorate, SP Office, and the Sub Divisional Hospital in Chhatrapur.

In addition to serving public administration offices, the new underground network delivers safer and more reliable electricity to nearly 1,000 residents in Chhatrapur. It also strengthens power supply for prominent commercial hubs across the town. Major areas benefiting from this project include High School Road, Karini Sahi, Fish Market Road, Chhatrapur Main Road, Nilakantha Sahi, Kapila Sahi, and Patra Sahi.

A major technical highlight of this project is the improved interconnection between the Lower Bus Stand Feeder and the Upper Bus Stand Feeder. Both feeders are powered by the Chhatrapur Primary Substation.

By linking them through underground cabling, TPSODL can now reroute electricity more efficiently. This makes it easier to manage power during maintenance or emergency breakdowns. As a result, the entire town receives continuous electricity without long interruptions.

Speaking on this milestone, Mr. Amit Kumar Garg, CEO, TPSODL, said: "Modernizing our distribution network with strong and safe underground infrastructure is a major goal for TPSODL. Chhatrapur is the administrative center of Ganjam district, and securing uninterrupted power supply for key offices like the Collectorate, SP Office, and the local hospital is essential for smooth public services and emergency response. This 3.4 km underground cabling project not only protects our power network from severe weather but also enhances safety and reliability for over 1,000 local residents and shopkeepers on busy commercial roads."

TPSODL remains committed to upgrading power infrastructure across Southern Odisha to deliver continuous, safe, and quality power to all its consumers.

PRO BUREAU

BERHAMPUR, AUG 19

STRENGTHENING the power supply in Chhatrapur, the headquarters of Ganjam district, TP Southern Odisha Distribution Limited (TPSODL) has completed a 3.4-km underground cabling project, improving reliability for key government and administrative offices.

The new 11kV under-

ground network provides reliable and storm-proof electricity to key institutions, including the Ganjam Collectorate, SP Office and Sub-Divisional Hospital in Chhatrapur.

Besides government and administrative offices, the network provides safe and more reliable power to nearly 1,000 residents and strengthens electricity supply to commercial areas across the town.

The areas benefiting from the project include

High School Road, Karini Sahi, Fish Market Road, Chhatrapur Main Road, Nilakantha Sahi, Kapila Sahi and Patra Sahi.

A key technical feature of the project is the

improved interconnection between the Lower Bus Stand Feeder and Upper Bus Stand Feeder, both powered by the Chhatrapur Primary Substation.

The underground con-

nection enables TPSODL to reroute electricity more efficiently during maintenance or emergency breakdowns, helping maintain power supply across the town without prolonged interruptions.

Speaking on the project, TPSODL CEO Amit Kumar Garg said modernising the distribution network with safe and strong underground infrastructure is a major goal for the company.

"Chhatrapur is the administrative centre of

Ganjam district, and securing uninterrupted power supply for key offices like the Collectorate, SP Office and the local hospital is essential for smooth public services and emergency response," he said.

Garg said the 3.4-km underground cabling project would also protect the power network from severe weather and enhance safety and reliability for more than 1,000 local residents and shopkeepers on busy commercial roads.

छत्रपुर में 3.4 किमी भूमिगत केबलिंग पूरी, अब निर्वाध बिजली

जारा, भुवनेश्वर: गंजाम जिला मुख्यालय छत्रपुर में बिजली आपूर्ति व्यवस्था को मजबूत बनाने की दिशा में बड़ा कदम उठाया गया है। टाटा पावर और ओडिशा सरकार के संयुक्त उपक्रम टीपीएसओडीएल ने नई लिमिटेड (टीपीएसओडीएल) ने 3.4 किलोमीटर लंबी भूमिगत

केबलिंग परियोजना पूरी कर ली है। इसके बाद शहर के प्रमुख सरकारी कार्यालयों, अस्पतालों और आवासीय एवं व्यावसायिक इलाकों में अधिक सुरक्षित और भरोसेमंद बिजली आपूर्ति सुनिश्चित हो सकेगी। टीपीएसओडीएल ने नई लिमिटेड (टीपीएसओडीएल) ने 3.4 किलोमीटर लंबी भूमिगत

केबलिंग परियोजना पूरी कर ली है। इसके बाद शहर के प्रमुख सरकारी कार्यालयों, अस्पतालों और आवासीय एवं व्यावसायिक इलाकों में अधिक सुरक्षित और भरोसेमंद बिजली आपूर्ति सुनिश्चित हो सकेगी। टीपीएसओडीएल ने नई लिमिटेड (टीपीएसओडीएल) ने 3.4 किलोमीटर लंबी भूमिगत

टीपीएस ओडीएल ने पूरी की 3.4 किमी भूमिगत केबलिंग

कलेक्टराट से अस्पताल तक मजबूत हुई बिजली आपूर्ति

नवभारत रिपोर्टर। बल्लपुर। गंजाम जिले के मुख्यालय छत्रपुर में बिजली आपूर्ति व्यवस्था को और मजबूत करने हुए टीपीएसओडीएल लिमिटेड (टीपीएसओडीएल) ने 3.4 किलोमीटर भूमिगत केबलिंग परियोजना पूरी कर ली है। टाटा पावर और ओडिशा सरकार के संयुक्त उपक्रम टीपीएसओडीएल की इस परियोजना से प्रमुख सरकारी संस्थानों के साथ शहर के करीब एक हजार उपभोक्ताओं और प्रमुख व्यावसायिक इलाकों को अधिक सुरक्षित और भरोसेमंद बिजली आपूर्ति मिलेगी। परियोजना के तहत 11 किलोमीटर भूमिगत केबलिंग बिछाई गई है। इससे गंजाम कलेक्टराट, पुलिस अधीक्षक कार्यालय और छत्रपुर उप मंडलीय अस्पताल को निर्बाध बिजली आपूर्ति सुनिश्चित करने में मदद मिलेगी। भूमिगत नेटवर्क होने से खराब मौसम और तेज ओधी-बहिस के दौरान बिजली आपूर्ति बाधित होने की आशंका भी कम

होगी इस परियोजना का लाभ छत्रपुर के प्रमुख रिहायशी और व्यावसायिक इलाकों को भी मिलेगा। हाई स्कूल रोड, करिणी सही, फिश मार्केट रोड, छत्रपुर मेन रोड, नीलकण्ठ साहि, कपिला सही और पत्रा सही समेत कई क्षेत्रों में बिजली आपूर्ति व्यवस्था मजबूत होगी। परियोजना की एक अहम विशेषता लोअर बस स्टैंड फीडर और अपर बस स्टैंड फीडर के बीच भूमिगत नेटवर्क के जरिए बेहतर

कनेक्टिविटी है। दोनों फीडरों को छत्रपुर प्राथमिक सब-स्टेशन से बिजली मिलती है। अब अपर में जुड़ने के बाद जरूरत पड़ने पर एक फीडर से दूसरे फीडर को और बिजली आपूर्ति को आसानी से मोड़ा जा सकेगा। खराब मौसम या किसी तकनीकी खराबी की स्थिति में भी बिजली आपूर्ति को वैकल्पिक फीडर के जरिए जल्द बहाल करने में मदद मिलेगी। इससे लंबे समय तक बिजली कटौती से बचने के साथ पूरे

शहर में आपूर्ति की निरंतरता बनाए रखना आसान होगा।

टीपीएसओडीएल के सीईओ अमित कुमार गार्ग ने कहा कि, सुरक्षित और मजबूत भूमिगत बुनियादी ढांचे के जरिए बिजली नेटवर्क का आधुनिकीकरण कंपनी की प्रमुख प्राथमिकताओं में है। छत्रपुर गंजाम जिले का प्रशासनिक केंद्र है, इसलिए कलेक्टराट, एसपी कार्यालय और अस्पताल जैसे महत्वपूर्ण संस्थानों को निर्बाध बिजली उपलब्ध कराना जरूरी है। उनके अनुसार, 3.4 किलोमीटर की यह भूमिगत केबलिंग परियोजना खराब मौसम से बिजली नेटवर्क की सुरक्षा बढ़ाने के साथ एक हजार से अधिक स्थानीय निवासियों और व्यावसायिक प्रतिष्ठानों के लिए आपूर्ति की सुरक्षा और विश्वसनीयता भी बढ़ाएगी। टीपीएसओडीएल ने दक्षिण ओडिशा में बिजली निरंतर व्यवस्था को आधुनिक बनाने और उपभोक्ताओं की सुरक्षित, कुशलपूर्ण तथा निर्बाध बिजली उपलब्ध कराने के लिए बुनियादी ढांचे को लगातार मजबूत करने की प्रतिबद्धता दोहराई है।

TPSODL strengthens power network in Chhatrapur with underground cabling

© The Author(s) 2019

Bhubaneswar: TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has completed a 3.4 km underground cabling project in Chinhatpur. This project provides stronger and more reliable power for the district headquarters of Cuttack.

The new TNEC underground power network ensures reliable, uninterrupted, and storm proof electricity for key government and administrative offices. Institutions now connected include the Gandhinagar Collectorate, BP Office, and the Sub Divisional Hospital in Chandrapur.

In addition to serving public administration offices, the new underground network delivers safer and more reliable electricity to nearly 1,000 residents in Chetumal. It also strengthens power supply for prominent commercial hubs across the town. Major areas benefiting from this project include High School Road, Karen Sahi, Fish Market Road, Chetumal Main Road, Niskankha Sahi, Kacka Sahi, and Peters Sahi.

A major technical highlight of this project is the improved interconnection between the Lower Bus Stand Feeder and the Upper Bus Stand Feeder. Both feeders are powered by the Chikmagalur Primary Substation.

By leaving them through underground cabling, TPSCD can now reroute electricity more efficiently. This makes it easier to manage power during maintenance or emergency breakdowns. As a result, the entire town receives continuous electricity without loss interruptions.

Speaking on this milestone, Anil Kumar Garg, CEO, TSPSOL, said, "Modernizing our distribution network with strong and safe underground infrastructure is a major goal for TSPSOL. Chhatrapati is the administrative center of Gargan district, and securing uninterrupted power supply for key offices like the Collectorate, SP Office, and the local hospital is essential for smooth public services and emergency response. This 3.4 km underground cabling project not only protects our power network from severe weather but also enhances safety and reliability for over 1,000 local residents and shopkeepers on busy commercial roads."

TPSODL remains committed to upgrading power infrastructure across Southern Odisha to deliver continuous, safe, and quality power to all its consumers.

TPSODL Strengthens Power Network in Chhatrapur with Underground Cabling

① 2004年12月 ② 2005年3月25日

News Desk, OdishaBarta

Collectorate, SP Office, and Sub Divisional Hospital now powered by uninterrupted underground supply.

Reliable electricity benefits 1,000+ residents and key business streets.

Ungraded system links Upper & Lower Bus Stand feeders for seamless backup

Berhampur: TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has completed a 3.4 km underground cabling project in Chhatrapur. This project provides stronger and more reliable power for the district headquarters of Ganjam.

The new 11kV underground power network ensures reliable, uninterrupted, and storm proof electricity for key government and administrative offices. Institutions now connected include the Ganjam Collectorate, SP Office, and the Sub Divisional Hospital in Chhatrapur.

In addition to serving public administration offices, the new underground network delivers safer and more reliable electricity to nearly 1,000 residents in Chhatrapur. It also strengthens power supply for prominent commercial hubs across the town. Major areas benefiting from this project include High School Road, Karini Sahi, Fish Market Road, Chhatrapur Main Road, Nilakuntha Sahi, Kapila Sahi, and Patra Sahi.

A major technical highlight of this project is the improved interconnection between the Lower Bus Stand Feeder and the Upper Bus Stand Feeder. Both feeders are powered by the Chhatraour Primary Substation.

By linking them through underground cabling, TPSODL can now reroute electricity more efficiently. This makes it easier to manage power during maintenance or emergency breakdowns. As a result, the entire town receives continuous electricity without long interruptions.

Speaking on this milestone, Mr. Amit Kumar Gang, CEO, TPSCOI, said: "Modernizing our distribution network with strong and safe underground infrastructure is a major goal for TPSCOI. Chhatrapati is the administrative center of Ganjam district, and securing uninterrupted power supply for key offices like the Collectorate, SP Office, and the local hospital is essential for smooth public services and emergency response. This 3.4 km underground cabling project not only protects our power network from severe weather but also enhances safety and reliability for over 1,000 local residents and shopkeepers on busy commercial roads."

TPSODL remains committed to upgrading power infrastructure across Southern Odisha to deliver continuous, safe, and quality power to all its consumers.

Ganjam Ranks No. 1 in Solar Installations

- **Ganjam emerges as Odisha's solar leader**
- **25,277 installations across eight districts**
- **Southern Odisha strengthens clean energy transition**
- **Rooftop solar adoption gaining strong momentum**

Berhampur, August 2026: Ganjam has emerged as the leading district in Odisha in rooftop solar adoption, recording 16,418 installations, the highest in the State. The achievement places the southern district at the forefront of Odisha's growing transition towards clean and renewable energy. The milestone reflects the growing acceptance of solar energy among households and the increasing shift towards sustainable power generation.

The State-wide data presents a strong picture of rooftop solar adoption, with Baleshwar ranking a close second in installations, followed by Khordha and Cuttack. The performance of these districts highlights the expanding footprint of rooftop solar across both urban and rural Odisha, with Ganjam leading the State in the number of installations.

Ganjam's performance is particularly significant for Southern Odisha, where it has emerged as the clear leader among the eight districts served by TP Southern Odisha Distribution Limited (TPSODL). The eight districts—Ganjam, Gajapati, Kandhamal, Rayagada, Nabarangpur, Malkangiri, Koraput and Boudh—have together recorded 25,277 rooftop solar installations.

The growing adoption is being driven by the PM Surya Ghar Muft Bijli Yojana, which is enabling households to adopt rooftop solar with government support. TPSODL is complementing the initiative through consumer awareness, grassroots outreach and Utility-Led Aggregation (ULA) Model, facilitating greater access to rooftop solar across its operational districts.

The growing presence of solar panels on rooftops is gradually changing the way households view and use electricity. Consumers are increasingly becoming participants in clean energy generation, harnessing sunlight to meet a part of their electricity requirements while contributing to a greener energy mix.

Commenting on the achievement, Mr. Amit Kumar Garg, CEO, TPSODL, said, "Ganjam emerging as the leading district in Odisha in rooftop solar adoption is a significant milestone in the State's clean energy journey. This achievement reflects the growing confidence of consumers in solar energy and the collective efforts of the administration, communities and stakeholders. We deeply appreciate the proactive support and cooperation extended by the Ganjam district administration, along with the administrations across all our operational districts, in facilitating awareness and adoption of rooftop solar. TPSODL remains committed to working closely with all stakeholders to take this momentum forward and enable more households across Southern Odisha to embrace clean, sustainable and energy-secure solutions."

TPSODL continues to undertake door-to-door awareness campaigns, Gram Panchayat engagements, consumer outreach programmes and stakeholder interactions to encourage rooftop solar adoption. The company remains committed to supporting consumers in accessing the benefits of government-backed solar initiatives and accelerating Southern Odisha's contribution to the State's renewable energy journey.

Ganjam leading Odisha in rooftop solar panel installation under the PM Surya Ghar scheme

BERHAMPUR (ODISHA): (Aug 22) Ganjam has emerged as the leading district in Odisha in the installation of rooftop solar panels under the Centre's PM Surya Ghar: Muft Bijli Yojana, officials said.

According to them, Ganjam has recorded the installation of 16,418 rooftop solar projects, followed by Balasore with 16,407 installations, Khurda with 14,603 units, Cuttack with 13,758 units and Mayurbhanj with 9,751 units.

People have shown much interest in availing benefits under the scheme, said Ganjam District Collector Keerthi Vasan V.

BERHAMPUR, AUG 22

GANJAM has emerged as the leading district in Odisha in the installation of rooftop solar panels under the Centre's PM Surya Ghar: Muft Bijli Yojana, officials said.

According to them, Ganjam has recorded the installation of 16,418 rooftop solar projects, followed by Balasore with 16,407 installations, Khurda with 14,603 units, Cuttack with 13,758 units and Mayurbhanj with 9,751 units.

People have shown much interest in availing benefits under the scheme, said Ganjam District Collector Keerthi Vasan V.

"We hope to achieve the goal of adding another

25,000 rooftop solar systems by the end of March 2027 as a part of continued efforts towards a sustainable and green future," he said.

A senior government officer said the milestone reflects the growing acceptance of solar energy among households and the increasing shift towards sustainable power generation.

TP Southern Odisha Distribution Limited

(TPSODL), the implementing agency, said the distribution company's grassroots outreach and utility-led aggregation model facilitated greater access to rooftop solar panels across eight southern Odisha districts.

Amit Kumar Garg, the chief executive officer of TPSODL, said the discom was carrying out door-to-door campaigns encouraging people to adopt rooftop solar panels.

AROUND ODISHA

TPSODL facilitates solar installation, Ganjam stands No-1

Berhampur, August 2026: Ganjam has emerged as the leading district in Odisha in rooftop solar adoption, recording 16,418 installations, the highest in the State. The achievement places the southern district at the forefront of Odisha's growing transition towards clean and renewable energy.

The State-wide data presents a strong picture of rooftop solar adoption, with Baleshwar close to second in installations, followed by Khordha and Cuttack. The eight south Odisha districts—Ganjam, Gajapati, Kandhamal, Rayagada, Nabarangpur, Malkangiri, Koraput and Boudh—have together recorded 25,277 rooftop solar installations.

The growing adoption is being driven by the PM Surya Ghar Muft Bijli Yojana, which is enabling households to adopt rooftop solar with government support. TPSODL is complementing the initiative through consumer awareness, grassroots outreach and Utility-Led Aggregation (ULA) Model. The release said.

POLITICAL & BUSINESS DAILY

Ganjam Ranks No. 1 in Solar Installations

Berhampur, (Correspondent) 6: Ganjam has emerged as the leading district in Odisha in rooftop solar adoption, recording 16,418 installations, the highest in the State. The achievement places the southern district at the forefront of Odisha's growing transition towards clean and renewable energy. The milestone reflects the growing acceptance of solar energy among households and the increasing shift towards sustainable power generation. The State-wide data presents a strong picture of rooftop solar adoption, with Baleshwar ranking a close second in installations, followed by Khordha and Cuttack. The performance

of these districts highlights the expanding footprint of rooftop solar across both urban and rural Odisha, with Ganjam leading the State in the number of installations. Ganjam's performance is particularly significant for Southern Odisha, where it has emerged as the clear leader among the eight districts

served by TP Southern Odisha Distribution Limited (TPSODL). The eight districts—Ganjam, Gajapati, Kandhamal, Rayagada, Nabarangpur, Malkangiri, Koraput and Boudh—have together recorded 25,277 rooftop solar installations. The growing adoption is being driven by the PM Surya

Ghar Muft Bijli Yojana, which is enabling households to adopt rooftop solar with government support. TPSODL is complementing the initiative through consumer awareness, grassroots outreach and Utility-Led Aggregation (ULA) Model, facilitating greater access to rooftop solar across its operational districts. The growing presence of solar panels on rooftops is gradually changing the way households view and use electricity. Consumers are increasingly becoming participants in clean energy generation, harnessing sunlight to meet a part of their electricity requirements while contributing to a greener energy mix.

Ganjam Tops Odisha In Rooftop Solar Installations Under PM Surya Ghar Yojana

By OMMCOM NEWS | August 22, 2021 | In Odisha

Bharangas: Ganjam has emerged as Odisha's leading district in rooftop solar adoption under the Centre's flagship PM Surya Ghar: Muft Yojana. According to official data, Ganjam has recorded 15,433 rooftop solar installations, the highest in the state.

It is closely followed by Balasore with 15,467 units, Khurda with 14,035, Cuttack with 13,750 and Mayurbhanj with 9,753. Collector Ganjam, Keerti Vasan V, said the response from the public has been overwhelming.

"People have shown much interest in availing benefits under the scheme. We hope to add another 25,000 rooftop solar systems by the end of March 2022 as part of our continued effort towards sustainable and green future," he said.

Officials said the milestone reflects growing acceptance of solar energy among households and a clear shift towards sustainable and clean power generation. TP Southern Odisha Distribution Limited (TPSODL), the implementing agency for eight southern districts, added that the growth in the green energy sector and utility-led aggregation model that improved access to rooftop solar.

Ganjam has emerged as the leading district in Odisha in the installation of rooftop solar panels under the Centre's PM Surya Ghar: Muft Yojana, officials said.

According to them, Ganjam has recorded the installation of 15,433 rooftop solar projects, followed by Balasore with 15,467 installations, Khurda with 14,035 units, Cuttack with 13,750 units and Mayurbhanj with 9,753 units.

People have shown much interest in availing benefits under the scheme, said Ganjam District Collector Keerti Vasan V.

"We hope to achieve the goal of adding another 25,000 rooftop solar systems by the end of March 2022 as part of our continued effort towards a sustainable and green future," he said.

A senior government official said the milestone reflects the growing acceptance of solar energy among households and the increasing shift towards sustainable power generation.

TP Southern Odisha Distribution Limited (TPSODL), the implementing agency, said the distribution company's grassroots outreach and utility-led aggregation model facilitated greater access to rooftop solar panels across eight southern Odisha districts.

Attacks on Power Staff Draw Strict Action

Berhampur, August 2026: Two separate incidents involving alleged manhandling of frontline employees during routine electricity-related activities in Kabisuryanagar and Boudh have prompted TPSODL to reiterate its commitment to the safety, dignity and security of its employees working in the field. In both cases, the company promptly coordinated with the local authorities, following which police action was initiated against the persons involved.

In the first incident on 13 August, a team was carrying out a scheduled de-hooking drive against illegal electricity connections at Nayan Sahi, Barida village, under Kabisuryanagar jurisdiction. According to the complaint, a group of individuals obstructed the team's official duties and the situation subsequently turned violent, resulting in injuries to a frontline employee. Other members of the team were also reportedly confined at the location. Following information about the incident, the police intervened and rescued the employees. FIR No. 0468 was registered at Kabisuryanagar Police Station against Munna Majhi, Samir Sahu and two unidentified persons, who, as per the record, were arrested.

In another incident on 14 August 2026, a meter reader carrying out scheduled meter reading and billing activities at Biswanathpur in Boudh district was allegedly manhandled following a dispute over an electricity bill. The employee sustained injuries, while his mobile phone was reportedly taken and the billing printer was damaged. Local staff immediately reached the spot and contacted the emergency response service. Subsequently, FIR No. 0343 was lodged at the local police station against Arjuna Nayak and four others, with police initiating legal action.

A senior company official said, "Our frontline employees work every day to provide essential electricity services to consumers and communities, often in challenging circumstances. Any form of violence, intimidation or obstruction of their lawful duties is unacceptable. We are extending all necessary support to the affected employees and are cooperating with the authorities in the legal proceedings."

The company emphasised that consumer concerns and grievances should always be addressed through dialogue and established grievance-redressal mechanisms, rather than confrontation or violence. Employees engaged in meter reading, billing, maintenance, enforcement and other field activities are an important link between the electricity distribution system and consumers.

TPSODL also made it clear that any incident involving violence, threats, intimidation or obstruction of employees while discharging their official duties will be viewed seriously and dealt with strictly through appropriate legal and institutional mechanisms. The company will continue to work closely with the police and local administration whenever such incidents occur.

TPSODL reiterated that constructive engagement with consumers remains a priority and appealed to consumers and communities to cooperate with field personnel and resolve electricity-related concerns through appropriate grievance-redressal channels.

TPSODL also made it clear that any incident involving violence, threats, intimidation or obstruction of employees while discharging their official duties will be viewed seriously and dealt with strictly through appropriate legal and institutional mechanisms. The company will continue to work closely with the police and local administration whenever such incidents occur.

TPSODL reiterated that constructive engagement with consumers remains a priority and appealed to consumers and communities to cooperate with field personnel and resolve electricity-related concerns through appropriate grievance-redressal channels.

TPSODL Felicitated Green Champions

Berhampur: Reinforcing its commitment to clean energy and a sustainable future, TP Southern Odisha Distribution Limited (TPSODL) felicitated consumers and employees as 'Green Champions' on the eve of Independence Day. Total of 32 Nos. of consumers and 51 Nos. of employees were honoured for first solar connection beneficiaries & their efforts respectively under PMSG:MBY scheme. Their contributions have significantly advanced the adoption and promotion of rooftop solar energy across Southern Odisha.

The organisation felicitated 32 consumers from eight districts (four Nos. from each District) of six circles of TPSODL for adopting rooftop solar and contributing towards a greener and more sustainable future. The recognition celebrates consumers who have embraced solar energy not only to reduce their electricity expenses but also to contribute towards reducing dependence on conventional sources of energy.

The employees were also recognised for their commendable efforts in supporting consumers throughout the solar adoption journey. From registration and documentation to facilitating installation, inspection, and commissioning & subsidy disbursement. Their proactive approach has played an important role in making the transition to clean and renewable energy more seamless for consumers.

Sharing his experience as a felicitated Green Champion, Muralidhar Panda, a consumer from Gunupur in Rayagada district, said, "This Independence Day, I feel very proud to be felicitated by TPSODL as a Green Champion. It gives me immense satisfaction that I am contributing towards a sustainable future for my society. I have installed a 3-kW solar system and have been able to save around ₹1,500–₹2,000 on my monthly electricity bills. I have also received subsidy support from both the State and Central Governments. Adopting solar has been a very rewarding experience for me."

Speaking on the occasion, Mr. Amit Kumar Garg, CEO, TPSODL, said, "The Green Champions being felicitated, represent the collective spirit needed to accelerate India's transition towards clean energy. Our consumers have demonstrated that individual action can create a meaningful impact on the environment and society, while our employees have worked closely with consumers to simplify the solar adoption journey. At TPSODL, we remain committed to making renewable energy more accessible, affordable and convenient for consumers across Southern Odisha."

TPSODL has received over 51,000 applications from consumers across Southern Odisha for rooftop solar installation, reflecting the growing interest and adoption of clean and renewable energy in the region.

TPSODL Wins CSR Impact Award 2026

Berhampur, August 2026: TP Southern Odisha Distribution Limited (TPSODL) has been honoured with the CSR Impact Award 2026 for its sustained efforts towards creating meaningful and lasting impact across communities in Southern Odisha. Organised by the Department of Public Enterprise, Government of Odisha, in association with Odisha Corporate Foundation and Freedom Edu, the award recognises initiatives that have contributed to healthcare, livelihoods, skill development and community empowerment.

The event was inaugurated by Hon'ble Governor of Odisha Dr. Hari Babu Kambhampati, in the presence of Mr. Sukant Panigrahi, Hon'ble MP, Phulbani; and Mr. Rabindra Narayan Behera, Hon'ble MP, Jajpur; and Mr. Md. Sadique Alam, IAS, Commissioner-cum-Secretary, Department of Public Enterprise, Government of Odisha.

During the valedictory session, the award was presented to Sri Dillip Kumar Sahoo, Head-CSR and team by Mr. Sujeet Kumar, Hon'ble Member of Parliament, Rajya Sabha. The session was attended by distinguished personalities including Mr. Tapan Chand, Former CMD, NALCO; Mr. Gagan Swain, Director-Finance, GRIDCO; and Mr. Arun Rath, Chairman, Centre of Corporate Governance, CSR & Sustainability, IIM Nagpur.

Speaking on the recognition, Mr. Amit Kumar Garg, CEO, TPSODL, said, "This recognition reflects the collective efforts of our teams, partners and communities. For us, the true measure of our work is the difference it makes in people's lives. We remain committed to creating sustainable opportunities and meaningful impact across Southern Odisha."

TPSODL's CSR initiatives span several areas of community development. Its Mobile Health Dispensaries are taking healthcare services closer to communities in remote areas, while Lab-on-Wheels facilities provide health check-ups, pathological tests and medical consultation including medicines free of the cost. The company also promotes organic farming in tribal-dominated areas and supports livelihood opportunities through initiatives such as Manufacturing and Sale of Dhoopbati, Vocational Training, Chef Training and Beauty therapy Courses.

Through Anokha Dhaaga, communities are being supported with opportunities linked to traditional skills and livelihoods. The company also works towards youth skill development and employment, helping young people build practical capabilities and access livelihood opportunities.

Recognising the importance of holistic community development, TPSODL also supports sports and sporting talent, providing young people opportunities to develop their abilities and pursue their aspirations.

The recognition reflects TPSODL's continued endeavour to go beyond conventional CSR interventions and create sustainable opportunities, stronger communities and meaningful change in everyday lives across Southern Odisha.

Bhubaneswar, August 2026: TP Southern Odisha Distribution Limited (TPSODL) has been honoured with the CSR Impact Award 2026 for its sustained efforts towards creating meaningful and lasting impact across communities in Southern Odisha. Organized by the Department of Public Enterprises, Government of Odisha, in association with Odisha Corporate Foundation and Freedom Fila, the award recognises initiatives that have contributed to healthcare, livelihoods, skill development and community empowerment.

The event was inaugurated by Hon'ble Governor of Odisha Dr. Hailu Babu Kumbharpalli, in the presence of Mr. Sukant Panigrahi, Hon'ble MP, Bhubaneswar, and Mr. Babindra Narayan Behera, Hon'ble MP, Jagpur, and Mr. Md. Saadique Alam, Minister-in-Charge, Department of Public Enterprises, Government of Odisha.

During the valedictory session, the award was presented to Sri Dilip Kumar Sahoo, Head-CSR and team by Mr. Suresh Kumar, Hon'ble Member of Parliament, Rajya Sabha. The session was attended by distinguished personalities including Mr. Tapen Chandra, Former CMD, NALCO; Mr. Gagan Swain, Director-Finance, GRIDCO; and Mr. Anurag, Chairman, Centre of Corporate Governance, CSR & Sustainability, IIM Nagpur.

Speaking on the recognition, Mr. Anil Kumar Garg, CEO, TPSODL, said, "This recognition reflects the collective efforts of our teams, partners and communities. For us, the true measure of our work is the difference it makes in people's lives. We remain committed to creating sustainable opportunities and meaningful impact across Southern Odisha."

TPSODL's CSR initiatives span several areas of community development. Its Mobile Health Dispensaries are taking healthcare services closer to communities in remote areas, while Lab-on-Wheels facilities provide health check-ups, pathological tests and medical consultation including medicines free of the cost. The company also promotes organic farming in tribal-dominated areas and supports livelihood opportunities through initiatives such as Manufacturing and Sale of Chhapbati, Vocational Training, Chief Training and Beauty Therapy Courses.

Through Anukha Chhaga, communities are being supported with opportunities linked to traditional skills and livelihoods. The company also works towards youth skill development and employment, helping young people build practical capabilities and access livelihood opportunities.

Recognising the importance of holistic community development, TPSODL also supports sports and sporting talent, providing young people opportunities to develop their abilities and pursue their aspirations.

The recognition reflects TPSODL's continued endeavour to go beyond conventional CSR interventions and create sustainable opportunities, stronger communities and meaningful change in everyday lives across Southern Odisha.

[TPSODL Wins CSR Impact Award 2026](#)

TPSODL Wins CSR Impact Award 2026 Bhubaneswar, August 2026: TP Southern Odisha Distribution Limited (TPSODL) has been honoured with the CSR Impact Award 2026 for its sustained efforts towards creating meaningful and lasting impact across communities in Southern Odisha. Organised by the Department of Public Enterprise, Government of Odisha, in association with Odisha Corporate Foundation and Freedom Edu, the award recognises initiatives that have contributed to healthcare, livelihoods, skill development and community empowerment. The event was inaugurated by Hon'ble Governor of Odisha Dr. Hari Babu Kambhampati, in the presence of Mr. Sukant Panigrahi, Hon'ble MP, Phulbani; and Mr. Rabinchandra Narayan Behera, Hon'ble MP, Jajpur; and Mr. Md. Sadique Alam, IAS, Commissioner-cum-Secretary, Department of Public Enterprise, Government of Odisha. During the valedictory session, the award was presented to Sri Dilip Kumar Sahoo, Head-CSR and team by Mr. Sujeet Kumar, Hon'ble Member of Parliament, Rajya Sabha. The session was attended by distinguished personalities including Mr. Tapan Chandra, Former CMD, NALCO; Mr. Gagan Swain, Director-Finance, GRIDCO; and Mr. Arun Rath, Chairman, Centre of Corporate Governance, CSR & Sustainability, IIM Nagpur. Speaking on the recognition, Mr. Amit Kumar Garg, CEO, TPSODL, said, "This recognition reflects the collective efforts of our teams, partners and communities. For us, the true measure of our work is the difference it makes in people's lives. We remain committed to creating sustainable opportunities and meaningful impact across Southern Odisha." TPSODL's CSR initiatives span several areas of community development, its Mobile Health Dispensaries are taking healthcare services closer to communities in remote areas, while Lab-on-Wheels facilities provide health check-ups, pathological tests and medical consultation including medicines free of the cost. The company also promotes organic farming in tribal-dominated areas and supports livelihood opportunities through initiatives such as Manufacturing and Sale of Dhoopbati, Vocational Training, Chef Training and Beauty therapy Courses. Through Anokha Dhaaga, communities are being supported with opportunities linked to traditional skills and livelihoods. The company also works towards youth skill development and employment, helping young people build practical capabilities and access livelihood opportunities. Recognising the importance of holistic community development, TPSODL also supports sports and sporting talent, providing young people opportunities to develop their abilities and pursue their aspirations. The recognition reflects TPSODL's continued endeavour to go beyond conventional CSR interventions and create sustainable opportunities, stronger communities and meaningful change in everyday lives across Southern Odisha.

On the occasion of National Sports Day Catch Them Young: TPSODL Empowers Grassroots Athletes

- **TPSODL-supported athletes win district medals; 4 qualify for Delhi State Open Athletics Championships 2026**
- **Identifies school-level talent and provides professional coaching, mentorship, nutrition and competitive exposure**
- **Extends sports kits and opportunities to over 200 visually impaired students and children with special needs**

Berhampur, August 2026: As India celebrates National Sports Day on August 29, TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, is reaffirming its commitment to nurturing sporting talent at the grassroots and creating opportunities for young athletes to shine. By combining talent identification, professional coaching, mentorship, nutrition, and exposure to competitive platforms, TPSODL is using sports as a powerful way to empower youth and strengthen communities across Southern Odisha.

At the core of this journey is the “Catch Them Young” initiative, which identifies promising athletes at the school level and provides them with a structured pathway for growth. Starting with 16 talented youngsters, the programme expanded through systematic school level screenings, identifying 17 more students for advanced athletic development.

TPSODL’s approach goes beyond training. Selected athletes receive professional coaching, structured practice, expert mentorship, nutritional guidance, performance monitoring, and opportunities to compete at district, state, and national levels. This holistic support helps them build not only sporting skills but also discipline, confidence, and resilience.

The results are already visible. TPSODL, supported athletes have won multiple medals at district competitions, while four athletes qualified for the Delhi State Open Athletics Championships 2026 at Jawaharlal Nehru Stadium, New Delhi. Among them, Puspabati Raita secured third place in the 600m event, a shining example of how grassroots talent can flourish with the right support.

TPSODL’s vision also embraces inclusivity. The company has extended sports kits and equipment to children with disabilities and special needs. More than 200 visually impaired students at the Red Cross Blind School in Baliguda, Malkangiri, and Koraput have benefited, while support to SAIMA Special School, Kodala has created opportunities for children with special needs to participate in sports. Equipment support has also been extended to young athletes in disciplines such as weightlifting, reinforcing TPSODL’s mission of enabling access to sports at the community level.

Speaking on this, Mr. Amit Kumar Garg, CEO, TPSODL, said: “Sport is not merely about winning medals; it is about building confidence, discipline, resilience and the belief that every young person can achieve more. At TPSODL, we are committed to identifying talent at the grassroots and providing the right ecosystem of coaching, mentorship, nutrition and exposure so that promising athletes can realise their potential. Our aim is also to make sports more inclusive, ensuring that children from diverse backgrounds and abilities get an opportunity to participate, grow and excel.”

With more than 320 children and young athletes directly benefiting from its initiatives, TPSODL is steadily building a model that connects grassroots talent identification with sustained development and competitive exposure.

Sports is equally becoming part of the workplace culture at TPSODL. The organisation conducts sporting competitions across its circles and at the Corporate level, including badminton, table tennis, carrom, chess and cricket, enabling employees from different parts of Southern Odisha to come together, compete and build camaraderie. Annual badminton and table tennis competitions at the Corporate level further strengthened this spirit of participation and teamwork.

The sporting culture extends to the company's wider partner ecosystem through the Business Associates Sports Meet. The 2026 edition at Mahatma Gandhi Stadium, Berhampur, brought together 220 participants from 20 Business Associates, with track events and team games promoting fitness, teamwork and healthy competition.

Beyond organised tournaments, TPSODL employees and sports coaches have also participated in marathons and endurance events, encouraging a broader culture of fitness and active living among the workforce.

As National Sports Day honours the spirit of sporting excellence and the legacy of hockey legend Major Dhyan Chand, TPSODL continues to believe that every promising athlete deserves an opportunity to be seen, supported, and encouraged. Through its sustained sports initiatives, the company is transforming potential into performance and building a stronger sporting ecosystem for the youth of Southern Odisha.

Catch Them Young: TPSODL Empowers Grassroots Athletes

PRD BUREAU
BERHAMPUR, AUGUST 28

As India celebrates National Sports Day on August 29, TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, is reaffirming its commitment to nurturing sporting talent at the grassroots and creating opportunities for young athletes to shine.

By combining talent identification, professional coaching, mentorship, nutrition, and exposure to competitive platforms, TPSODL is using sports as a powerful way to empower youth and strengthen communities across Southern Odisha.

At the core of this journey is the "Catch Them Young" initiative, which identifies promising athletes at the school level and provides them with a structured pathway for growth. Starting with 16 talented youngsters, the programme

expanded through systematic school level screenings, identifying 17 more students for advanced athletic development. TPSODL's approach goes beyond training; selected athletes receive professional coaching, structured practice, expert mentorship, nutritional guidance, performance monitoring, and opportunities to compete at district, state, and national levels.

This holistic support helps them build not only sporting skills but also discipline, confidence, and resilience.

The results are already visible. TPSODL-supported athletes have won multiple medals at district competitions, while four athletes qualified for the Delhi State Open Athletics Championships 2026 at Jawaharlal Nehru Stadium, New Delhi.

Among them, Puspabati Raita secured third place in the 600m event, a shining example of how grassroots talent can flourish with the right support.

TPSODL's initiative also reinforces inclusivity. The company has extended sports kits and exposure to children with disabilities and special needs. More than 200 visually impaired students at the Red Cross Blind School in Baliguda, Malkangiri, and Koraput have benefited, while support to SAIMA Special School, Kodala has created opportunities for children with special needs to participate in sports.

Equipment support has also been extended to young athletes in disciplines such as weightlifting, netballing. TPSODL's mission of creating future champions, ensuring that children from diverse backgrounds and abilities get an opportunity to participate, grow and excel.

With more than 320 athletes and young athletes, the initiative has been a success story. TPSODL is steadily building a roster that connects grassroots talent identification with sustained development and competitive exposure.

Sports is equally becoming part of the workplace culture at TPSODL. The organisation's employees and sports coaches have also participated in marathons and endurance events, encouraging a healthier culture of fitness and active living among the workforce.

As National Sports Day honours the spirit of sporting excellence and the legacy of hockey legend Major Dhyan Chand, TPSODL continues to believe that every promising athlete deserves an opportunity to be seen, supported, and encouraged. Through its sustained sports initiatives, the company is transforming potential into performance and building a stronger sporting ecosystem for the youth of Southern Odisha.

TPSODL Empowers Grassroots Athletes

‘कैच देम यंग’ से दक्षिण ओडिशा की खेल प्रतिभाओं को मिल रही नई उड़ान

2026 दिल्ली स्टेट ओपन एथलेटिक्स चैंपियनशिप के लिए क्वालीफाई टीपीएसओडीएल के 'कैच देम यंग' अभियान के तहत प्रशिक्षित चार खिलाड़ी।

जासं, भुवनेश्वर: दक्षिण ओडिशा के गांव-कस्बों में छिपी खेल प्रतिभाओं को तराशकर बड़े मंच तक पहुंचाने की पहल रंग ला रही है। टाटा पावर और ओडिशा सरकार के संयुक्त उपक्रम टीपी साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) के 'कैच देम यंग' अभियान के तहत प्रशिक्षित चार खिलाड़ियों ने 2026 दिल्ली

स्टेट ओपन एथलेटिक्स चैंपियनशिप के लिए क्वालीफाई किया है। कंपनी की ओर से प्रतिभावान खिलाड़ियों को प्रशिक्षण, विशेषज्ञ मार्गदर्शन और पोषण सहायता के साथ विभिन्न प्रतियोगिताओं में भाग लेने के अवसर भी उपलब्ध कराए जा रहे हैं। अभियान की शुरुआत 16 प्रतिभाशाली युवक-युवतियों के साथ हुई थी। इसके बाद विभिन्न स्कूलों

में प्रतिभा खोज अभियान चलाकर 17 और विद्यार्थियों का उन्नत एथलेटिक्स प्रशिक्षण के लिए चयन किया गया। चयनित खिलाड़ियों को पेशेवर प्रशिक्षण के साथ नियमित अभ्यास, विशेषज्ञों का मार्गदर्शन, पोषण संबंधी सलाह और प्रदर्शन का लगातार मूल्यांकन किया जा रहा है। टीपीएसओडीएल के सहयोग से प्रशिक्षण प्राप्त खिलाड़ियों ने जिला स्तर की विभिन्न प्रतियोगिताओं में कई पदक जीते हैं। वहीं चार खिलाड़ियों ने नई दिल्ली के जवाहरलाल नेहरू स्टेडियम में आयोजित 2026 दिल्ली स्टेट ओपन एथलेटिक्स चैंपियनशिप के लिए क्वालीफाई किया। इनमें पुष्पावती रैता ने 600 मीटर दौड़ में तीसरा स्थान हासिल कर अपनी प्रतिभा का परिचय दिया। कंपनी की ओर से दिव्यांग बच्चों को भी खेलों से जोड़ने की पहल की जा रही है।
