ଲୋକଙ୍କ ପାଖରେ ପହଞ୍ଚିବା ଆମର ଲକ୍ଷ୍ୟ

ରାୟଗଡ଼ା ସର୍କଲର ମୁଖ୍ୟ ଭାବରେ ଦୀର୍ଘ ଦିନର ଅଭିଜ୍ଞତା ରଖିଥିବା ଶ୍ରୀ ନରୋତ୍ତମ ପଟ୍ଟନାୟକ ଏବେ ଏବେ ଆସିକା ସର୍କଲର ମୁଖ୍ୟ ଭାବରେ ଦାୟିତ୍ୱ ଗ୍ରହଣ କରିଛନ୍ତି । ଉଭୟ ଭୌଗୋଳିକ ଓ ଜନସଂଖ୍ୟା ଦୃଷ୍ଟିରୁ ଆସିକା ସର୍କଲ ଖୁବ୍ ଭିନ୍ନ । ଏ ଦିଗରେ ତାଙ୍କର ଅନୁଭବକୁ ନେଇ ସେ ଆମ ସହ ଏଥରର ଆଳାପରେ

ପ୍ରଶ୍ନ - ଆସିକା ସର୍କଲର ମୁଖ୍ୟ ଭାବରେ ଆପଣ ନୂଆ କରି ଯୋଗ ଦେଇଛନ୍ତି । ଏଥିପାଇଁ ଆପଣଙ୍କୁ ଅନେକ ଅନେକ ଶୁଭେଚ୍ଛା । ସ୍ଥାନ ବଦଳିଲେ ଦାୟିତ୍ୱ ବଦଳେ କି ? ଆପଣଙ୍କର ନୂଆ ଦାୟିତ୍ୱ କେତେ ଆହ୍ୱାନପୂର୍ଣ୍ଣ ରହିବ ବୋଲି ଭାବୁଛନ୍ତି ?

ଉତ୍ତର – ଶୁଭେଚ୍ଛା ପାଇଁ ବହୁତ ଧନ୍ୟବାଦ । ସ୍ଥାନ ବଦଳିଲେ, ଦାୟିତ୍ୱ କେବେ ବଦଳିଯାଏ ନାହିଁ । ଲୋକଙ୍କୁ ସେବା ଯୋଗାଇବା, ଲୋକଙ୍କ ପାଖରେ ସମସ୍ତ ସେବା ପହଞ୍ଚାଇବା ହେଉଛି ଆମର ଲକ୍ଷ୍ୟ । ଏହା କେବଳ ମୋର ନୁହେଁ ପୂରା ଟିପିଏସ୍‌ଓଡିଏଲର ଲକ୍ଷ୍ୟ । ସ୍ଥାନୀୟ ପ୍ରଶାସନ, ବିଭିନ୍ନ ଅଂଶୀଦାରଙ୍କ ସହିତ ଯେଉଁମାନେ ବି ଆମ ସେବା ସହିତ ଉଭୟ ପ୍ରତ୍ୟକ୍ଷ ଆଉ ପରୋକ୍ଷ ଭାବରେ ଜଡ଼ିତ ସଭିଙ୍କ ସହିତ ସମନ୍ୱୟ ରକ୍ଷା କରିବା ସହିତ ପ୍ରଗତି ହେବା ଦରକାର ଏହା ହେଉଛି ମୋର ଲକ୍ଷ୍ୟ । ତେବେ ରାୟଗଡ଼ା ତୁଳନାରେ ଆସିକା କଥାକୁ ଦେଖିଲେ, ରାୟଗଡ଼ାର କ୍ଷେତ୍ରଫଳ ଆସିକାଠାରୁ ଢେର୍ ଅଧିକ । ବହୁ ଦୂରରେ ଗାଁଗୁଡ଼ିକ ଅବସ୍ଥାପିତ । ସେଇ ଅନୁସାରେ ଆସିକାର ଘନତ୍ୱ ଅଧିକ । ତେବେ ଆଜିର ଦିନରେ ବିଦ୍ୟୁତ ସେବା ବ୍ୟତୀତ ଚଳିବା କଷ୍ଟକର । ତେଣୁକରି ଆମେ ଏ ଦିଗରେ ମଧ ଧ୍ୟାନ ଦେଉଛୁ । ବିଜୁଳି ଶକ୍ତିର ସଞ୍ଚୟକୁ ନେଇ ସଚେତନତା ସୃଷ୍ଟି କରିବାରେ ଚେଷ୍ଟା କରୁଛୁ ।

ପ୍ରଶ୍ନ - ରାୟଗଡ଼ା ଆଉ ଆଜିର ରାୟଗଡ଼ା ଭିତରେ ଶକ୍ତି କ୍ଷେତ୍ରରେ ଆପଣ କେଉଁସବୁ ପରିବର୍ତ୍ତନ ଉପଲବ୍ଧି କରିଛନ୍ତି ଯାହା ରାୟଗଡ଼ାର ବିଦ୍ୟୁତ ବିତରଣ କ୍ଷେତ୍ରରେ ଏକ ମାଇଲଖୁଣ୍ଟ ?

ଉତ୍ତର – ୨୦୨୩ ମସିହାରେ ମୁଁ ରାୟଗଡ଼ା ସର୍କଲର ଦାୟିତ୍ୱ ନେଲି । ସେ ସମୟରେ ରାୟଗଡ଼ା ସହରରେ ଭରସାଯୋଗ୍ୟ ବିଜୁଳି ଯୋଗାଣକୁ ନେଇ ବହୁ ଅସୁବିଧା ଥିଲା । ୩୩କେଭି ବିଦ୍ୟୁତ ଭିତ୍ତିଭୂମିର ଉନ୍ନତୀକରଣ, କଣ୍ଡକ୍ଟର ଅପଗ୍ରେଡେସନ, ଟ୍ରାନ୍ସଫର୍ମର ଅପଗ୍ରେଡେସନ ପ୍ରତି ଦୃଷ୍ଟି ଦେବାକୁ ପଡ଼ିଲା । ଶେଷ ତିନି ବର୍ଷ ମଧରେ ଆମର ୨୭ଟି ସେକ୍ସନ ଅଫିସ, ୧୦ଟି ସବଡିଭିଜନ ଅଫିସ, ଏମଆରଟି, ପ୍ରୋଜେକ୍ଟ ସହିତ ଅନ୍ୟାନ୍ୟ ସବୁ ବିଭାଗର ଭିତ୍ତିଭୂମି ସୁଦୃଢ଼ ହୋଇଥିଲା । ଯଦ୍ୱାରା ଆମର ସମସ୍ତ କର୍ମଚାରୀମାନେ ସୁରୁଖୁରୁରେ କାମ କରିପାରିଲେ । ସେହିପରି କାର୍ଯ୍ୟକ୍ଷେତ୍ରରେ ୫ଟି ଏସ୍ ର ଅନୁପାଳନ କରିବା ଉପରେ ଧ୍ୟାନ ଦିଆଯାଇଥିଲା । ଆଜି ରାୟଗଡ଼ା ସହରର ବୈଷୟିକ ଓ ବାଣିଜ୍ୟ(ଏଟିସି) କ୍ଷତି ଆଜି ଏକ ଅଙ୍କ ବିଶିଷ୍ଟ ସଂଖ୍ୟାରେ ପହଞ୍ଚି ପାରିଛି ।

ପ୍ରଶ୍ନ - ଟିପିଏସ୍‌ଓଡିଏଲ୍ ସବୁବେଳେ ସୁରକ୍ଷାକୁ ଗୁରୁତ୍ୱ ଦିଏ । ସେହିଭଳି ଶକ୍ତି କ୍ଷେତ୍ରରେ ନୂଆ ନୂଆ ଟେକ୍ନୋଲୋଜିର ପ୍ରୟୋଗ ମଧ କରେ । ଆପଣଙ୍କ ମତରେ ସୁରକ୍ଷା ଆଉ ଟେକ୍ନୋଲୋଜି ବିଦ୍ୟୁତ ଭିତ୍ତିଭୂମିକୁ ସୁଦୃଢ଼ କରିବାରେ କେତେ ସହାୟକ ହୁଏ ?

ଉତ୍ତର – ନିଶ୍ଚିତ ଭାବରେ, ଉଭୟ ସୁରକ୍ଷା ଆଉ ଟେକ୍ନୋଲୋଜିର ଆବଶ୍ୟକତା ବହୁତ ରହିଛି । କାହିଁକି ନା ଆମେ ଗୋଟେ ପ୍ଲାଣ୍ଟରେ କାର୍ଯ୍ୟ କରିଲେ ଗୋଟେ ସିମୀତ ପରିଧି ଭିତରେ କାମ କରୁ । ହେଲେ ଏକ ବିତରଣ କମ୍ପାନୀ ସହିତ କାମ କରିବାବେଳେ ବିଶେଷ କରି ଓଡ଼ିଶାରେ ଆମକୁ ଅପହଞ୍ଚ ଇଲାକାରେ ଥିବା ଆମ ସହକର୍ମୀ ପ୍ରତି ମଧ ଧ୍ୟାନ ଦେବାକୁ ହେବ । ସୁରକ୍ଷା ସାଙ୍ଗରେ ଭରସାଯୋଗ୍ୟ ବିଜୁଳି ଯୋଗାଣକୁ ଗୁରୁତ୍ୱ ଦେବାର ଆବଶ୍ୟକତା ରହିଛି । ସେହିଭଳି ଟେକ୍ନୋଲୋଜି କ୍ଷେତ୍ରରେ ଟିପିଏସ୍‌ଓଡିଏଲ୍ ତାର ସେବା ଯୋଗାଉଥିବା ଅଞ୍ଚଳରେ ସ୍କାଡା ଏବଂ ଜିଆଇଏସ୍ ଭଳି ଟେକ୍ନୋଲୋଜି ଆପଣାଇଛି । ଯେଉଁଥିରେ ପ୍ରତିଟି ଅଞ୍ଚଳ ବିଷୟରେ ଜାଣି ହେଉଛି । ଯଦ୍ୱାରା ତୁରନ୍ତ ତ୍ରୁଟି ଚିହ୍ନଟ ସାଙ୍ଗକୁ ରକ୍ଷଣାବେକ୍ଷଣ କରାଯାଇପାରୁଛି ।

ପ୍ରଶ୍ନ - ଉପଭୋକ୍ତାଙ୍କ ସମସ୍ୟାର ସମାଧାନ ତଥା ଗୁଣାତ୍ମକ ବିଜୁଳି ଯୋଗାଣ ପାଇଁ ଆପଣ କେଉଁ ସବୁ ପଦକ୍ଷେପ ଗ୍ରହଣ କରିବାକୁ ପସନ୍ଦ କରିବେ ? ଉପଭୋକ୍ତା ଓ କର୍ମଚାରୀଙ୍କ ଭିତରେ ସମନ୍ୱୟକୁ ସୁଦୃଢ଼ କରିବା ଦିଗରେ ଆପଣଙ୍କର ଚେଷ୍ଟା କେମିତି ରହିବ ?

ଉତ୍ତର – ଉପଭୋକ୍ତା ହୁଅନ୍ତୁ କି କର୍ମଚାରୀ ତଥା ମୋର ସହକର୍ମୀମାନେ ସମସ୍ତଙ୍କ ପ୍ରତି "ସେମାନେ ମୋର" ଏଇ ଭାବନା ରହିବା ଦରକାର । ଏଥିପାଇଁ ଉଭୟ କର୍ମଚାରୀ ଏବଂ ଉପଭୋକ୍ତାଙ୍କ ଭିତରେ ସମନ୍ୱୟ ରହିବା ଦରକାର । ସେ ଲାଗି ଉଭୟଙ୍କ ଆତ୍ମବିଶ୍ୱାସ ବଢ଼ାଇବାକୁ ପଡ଼ିବ । ଏଥିପାଇଁ ଆମକୁ ତୃଣମୂଳ ସ୍ତରରୁ ଆମ ଉପଭୋକ୍ତାଙ୍କୁ ଅଧିକ ସଚେତନ କରାଯିବା ଦରକାର । ସେମାନେ ସଶକ୍ତ ହେବା ଦରକାର । ଯଦ୍ୱାରା ଉଭୟଙ୍କ ସମନ୍ୱୟରେ ସବୁ କାମ ଠିକ୍ ସମୟରେ ହେଇ ପାରିବ ।

ପ୍ରଶ୍ନ - କାର୍ଯ୍ୟକ୍ଷେତ୍ର ବାହାରେ ଆପଣ ନିଜର ଅବସର ସମୟକୁ କିପରି ଅତିବାହିତ କରନ୍ତି ?

ଉତ୍ତର – କାର୍ଯ୍ୟକ୍ଷେତ୍ର ବାହାରେ ମୋର ଅବସର ସମୟକୁ ଅଫିସର ବରିଷ୍ଠ ସହଯୋଗୀ, ସାହି ପଡ଼ିଶା ତଥା ସମ୍ପର୍କୀୟଙ୍କ ସହ କଥା ହେବାରେ ବିତାଇବାକୁ ଭଲ ପାଏ । ସେମାନଙ୍କ କଥା ଜାଣିବାକୁ ପସନ୍ଦ କରେ । ସେହିପରି ସକାଳ ଓ ସନ୍ଧ୍ୟାରେ ଚାଲିବାରେ ମୋ ସମୟ ବିନିଯୋଗ କରେ । ଓଡ଼ିଆରେ ଅକ୍ଷୟ ମହାନ୍ତିଙ୍କୁ ଶୁଣେ । ଭିକାରୀ ବଳଙ୍କୁ ଶୁଣେ । ସେହିପରି ଅରିଜିତ ସିଂହ, ଶଙ୍କର ମହାଦେବନ ମୋର ପ୍ରିୟ ଗାୟକ । କେବେ କେବେ ଗୀତ ଗାଏ ମଧ । ସେଥିପ୍ରତି ମୋର ରୁଚି ଅଛି । ଅନୁରୂପ ଭାବରେ ସ୍ୱେଚ୍ଛାକୃତ ଭାବରେ ମୁଁ ଅନେକ କାର୍ଯ୍ୟରେ ସାମିଲ ହେବାକୁ ପସନ୍ଦ କରେ ।

CEO's Desk

I am delighted to present this edition of Arunima, which highlights our collective journey towards clean energy, sustainability, and a greener future. As the Solar Month celebrations concluded, it is an opportune moment to reflect on the remarkable progress being made towards clean energy adoption across Southern Odisha.

At TPSODL, we are committed to supporting India's renewable energy vision by promoting rooftop solar installations, creating consumer awareness, and facilitating seamless integration of solar power into the grid. The response to the PM Surya Ghar Muft Bijli Yojana has been encouraging, with more households exploring the benefits of generating their own clean energy. Our efforts under Utility-Led Aggregation (ULA) are also helping accelerate solar adoption and making the transition easier for consumers.

Solar energy is more than just a source of power—it is an investment in a greener environment, lower energy costs, and a sustainable future for generations to come. The stories and initiatives featured in this edition reflect the collective efforts of consumers, employees, partners, and communities in advancing this journey.

Let us continue working together to power progress through clean and green energy.

Amit Kumar Garg
CEO

ODISHA SHINES AT PM SURYA GHAR EXCELLENCE AWARDS 2026

Odisha has earned national recognition at the PM Surya Ghar Excellence Awards 2026, securing the 1st position in the Medium Consumer Base category for the successful implementation of the PM Surya Ghar: Muft Bijli Yojana. This achievement reflects the state's strong commitment to accelerating rooftop solar adoption through the collaborative efforts of the Government of Odisha and Tata Power-led Odisha DISCOMs.

The recognition follows Odisha's exceptional performance during the nationwide "Month of Solar" campaign held in May 2026.

Key Achievements

1st Rank – Highest number of consumer applications
1st Rank – Maximum rooftop solar installations commissioned
1st Rank – Highest number of DISCOM technical inspections conducted
3rd Rank – Maximum vendor registrations

The rooftop solar programme is transforming lives across the state by reducing electricity costs and promoting clean energy adoption. In Western Odisha alone, nearly 11,000 households have achieved near-zero monthly electricity bills through rooftop solar installations.

Beyond energy savings, the initiative is enabling families to invest in education, healthcare, and long-term financial security. This national recognition reinforces Odisha's leadership in India's clean energy transition and highlights the collective efforts of the Government of Odisha, Tata Power-led Odisha DISCOMs, implementation partners, and consumers in building a greener and more sustainable future.

Hon'ble Union Minister for New and Renewable Energy, Shri Pralhad Joshi, presenting the award to Odisha for outstanding performance under PM Surya Ghar: Muft Bijli Yojana.

Solar Success in Southern Odisha

FROM ROOFTOPS TO RENEWABLES: POWERING A GREENER FUTURE

The story of Southern Odisha has always been one of resilience and transformation. Today, another silent revolution is unfolding across its villages, towns and cities—a solar revolution that is lighting homes, reducing electricity bills and shaping a greener future.

Across the eight districts of Ganjam, Gajapati, Kandhamal, Boudh, Rayagada, Koraput, Nabarangpur and Malkangiri, households are increasingly transforming their rooftops into miniature power plants. What was once considered a technology of the future has now become a practical solution for everyday life.

Driven by the vision of the Government of India and supported by initiatives such as PM Surya Ghar: Muft Bijli Yojana and the ULA Scheme, rooftop solar is steadily emerging as a powerful tool for energy security, financial savings and environmental sustainability.

A REGION EMBRACING CLEAN ENERGY

Southern Odisha today is witnessing rapid growth in rooftop solar adoption across urban centres, rural landscapes and remote tribal regions. Consumers from diverse socio-economic backgrounds are recognizing that solar energy is not merely an alternative—it is a long-term investment in a sustainable future.

Many households have experienced significant reductions in their monthly electricity bills, transforming electricity from a recurring expense into a source of savings and self-reliance. At the same time, the increasing use of solar power is contributing to a cleaner environment by reducing dependence on conventional energy sources and lowering carbon emissions.

Solar Success in Southern Odisha

As part of the Ministry of New and Renewable Energy's "Month of Solar" initiative, TPSODL intensified awareness campaigns across Southern Odisha.

Village meetings, stakeholder interactions, consumer outreach programs and engagements with local leaders helped spread the message of clean energy to every corner of the region. The campaign covered numerous villages and blocks, fostering meaningful interactions with community representatives and local institutions.

To further strengthen the renewable energy ecosystem, TPSODL also convened meetings with vendors and stakeholders to accelerate rooftop solar adoption.

In addition, Sarpanch Connect Programs have played a vital role in creating awareness about the benefits of rooftop solar, including lower electricity costs, energy independence and environmental sustainability.

BUILDING A SELF-RELIANT FUTURE

The transition to renewable energy is not merely about technology it is about creating opportunities, empowering consumers and building climate-resilient communities.

Every rooftop solar installation represents a step towards energy independence. Every consumer who adopts solar becomes a partner in sustainable development. And every ray of sunlight harnessed today helps build a brighter tomorrow.

As Southern Odisha embraces clean energy, it is setting an inspiring example for the rest of the state and the nation.

Powered With Solar

SUNSHINE ON EVERY ROOF: THE STORY OF TWO SOLAR VILLAGES

The journey towards a cleaner and more sustainable future is taking shape in Bhatakumarada and Matikhala villages of Ganjam district. Under the PM Surya Ghar Muft Bijli Yojana, households are harnessing solar energy from their rooftops, reducing dependence on conventional power sources and contributing to India's renewable energy goals.

Across India, the PM Surya Ghar Muft Bijli Yojana aims to solarise households by providing rooftop solar systems with government support and enabling families to access affordable and clean energy. The scheme offers substantial subsidies and promotes energy self-reliance through rooftop solar generation.

Within TPSODL's jurisdiction, the Utility-Led Aggregation (ULA) model has played a crucial role in taking the benefits of the scheme to consumers at the grassroots. By simplifying installation, subsidy processing and consumer outreach, TPSODL has helped rural families adopt rooftop solar systems with ease.

Among the most notable success stories is Matikhala village in Ganjam district. Located under Kanamana Panchayat of Chhatrapur block, the village emerged as a benchmark for rural solar adoption after becoming fully solarised under the PM Surya Ghar Muft Bijli Yojana through the ULA model. Around 200 eligible households with a contract demand of 1 kW were provided rooftop solar systems, enabling them to generate their own electricity and reduce dependence on conventional energy sources. The systems are expected to serve consumers for nearly 25 years, significantly lowering electricity expenses while supporting clean energy generation.

Months after the installations, the impact is evident across the village. Households have reported greater awareness about energy conservation and renewable energy. The sight of solar panels atop village homes has become a symbol of progress and self-reliance. Families now view electricity not merely as a utility service but as an asset they can partially generate on their own.

Today, as the solar panels continue to harvest sunlight every day, both villages stand as shining examples of Odisha's renewable energy journey. Their stories show that the transition to green energy is not a distant aspiration but a reality already transforming lives in rural Southern Odisha one rooftop at a time.

A similar transformation has been witnessed in Bhatakumarada, where rooftop solar adoption under the PM Surya Ghar initiative has encouraged residents to embrace sustainable living. The village has emerged as another example of how rural communities can participate in India's clean energy transition. Increased awareness campaigns, consumer engagement drives and handholding support from TPSODL helped build confidence among residents to adopt solar technology.

The impact of solarisation extends beyond savings on electricity bills. Reliable daytime power availability supports household activities, improves living standards and encourages responsible energy consumption. The initiative has also fostered greater awareness among younger generations about environmental stewardship and the importance of renewable energy in combating climate change.

For TPSODL, these villages represent more than successful project locations. They demonstrate how partnerships between government schemes, utility support and community participation can create sustainable outcomes. The success of Bhatakumarada and Matikhala reflects the larger vision of PM Surya Ghar Muft Bijli Yojan to empower consumers, reduce carbon footprints and build energy-secure communities.

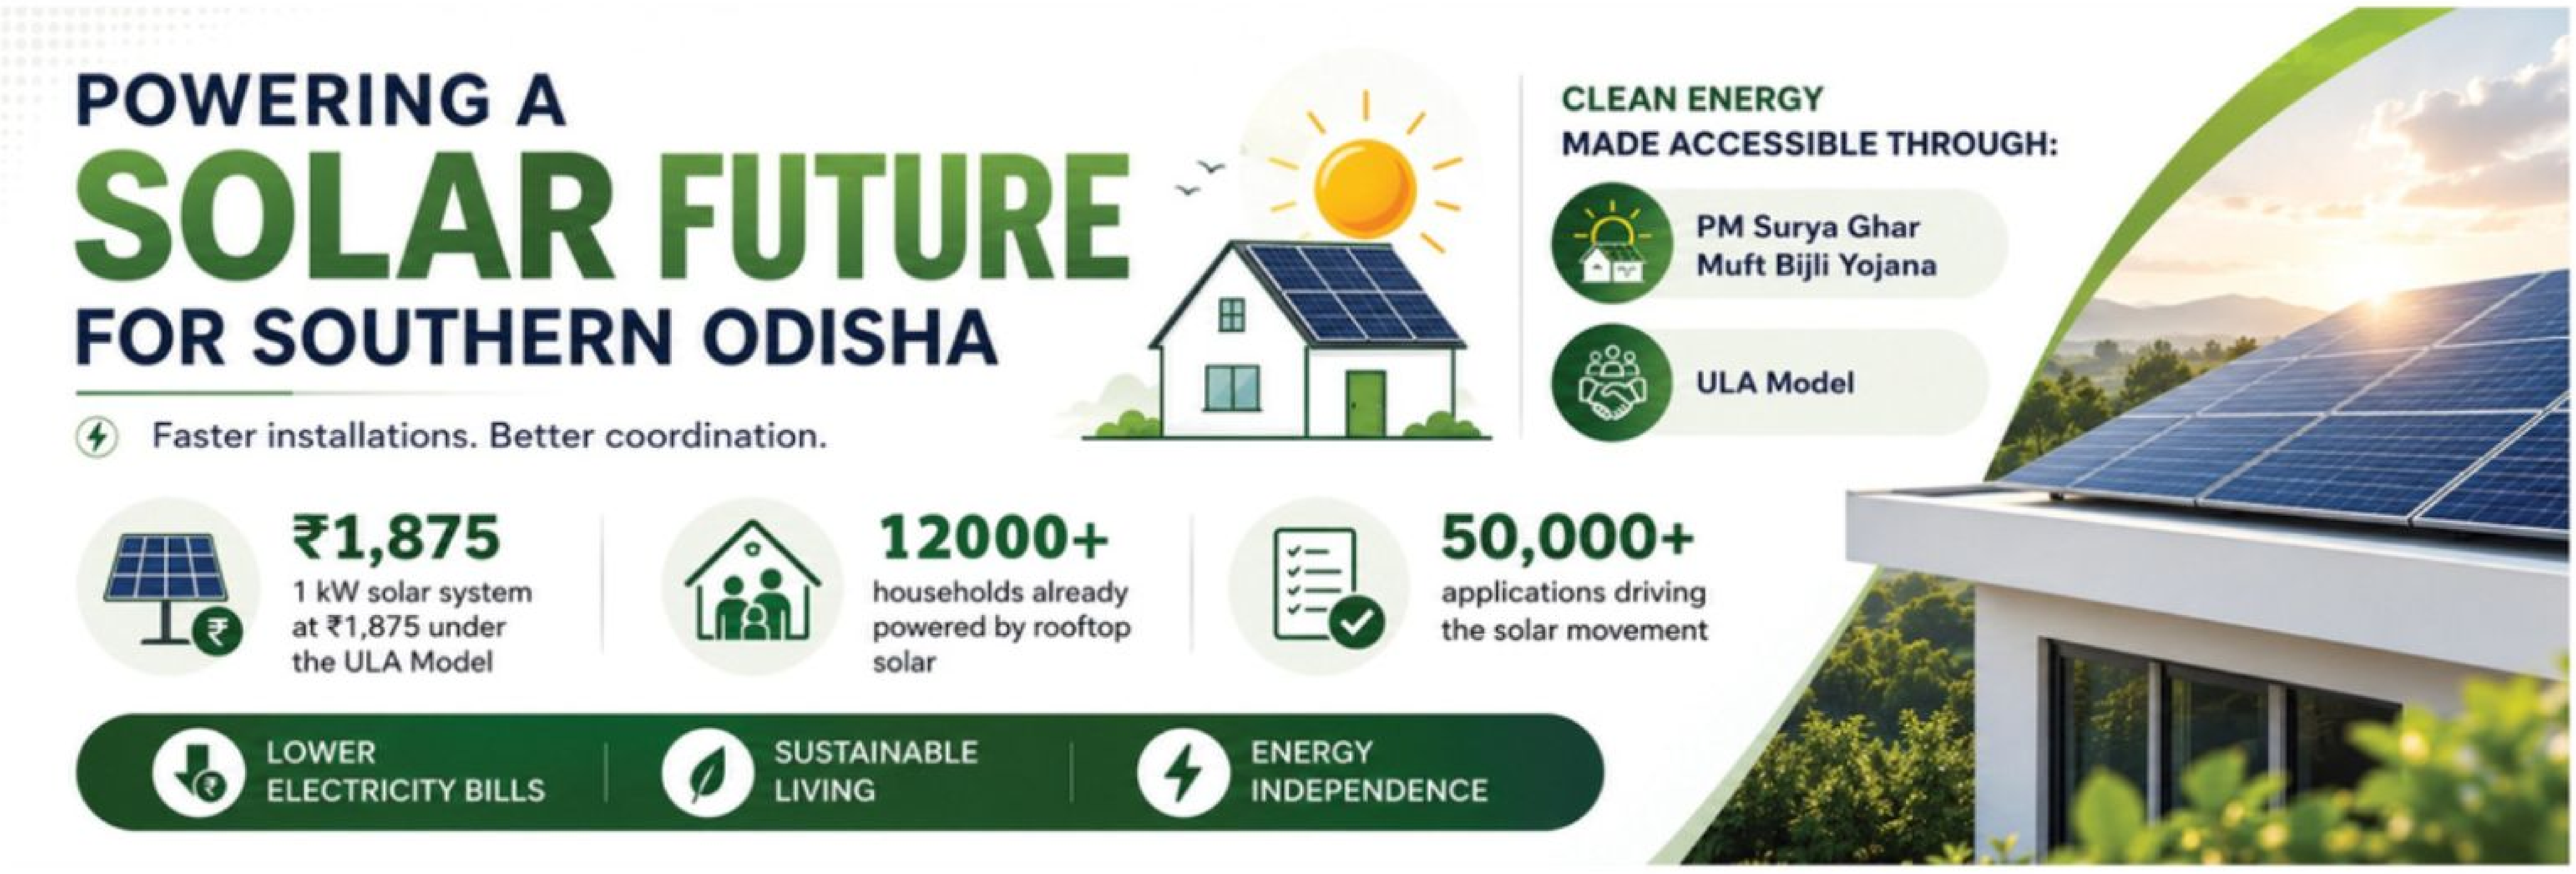
Powering Partnerships for a Solar Future

TP Southern Odisha Distribution Limited (TPSODL), in collaboration with the Government of Odisha, is actively driving the adoption of rooftop solar across Southern Odisha, supporting India's transition towards clean and sustainable energy.



Strengthening Implementation and Consumer Experience

To strengthen implementation and enhance consumer experience, TPSODL recently organised a stakeholders' meeting involving senior officials, solar vendors and representatives from the Rural Electrification Corporation (REC). The deliberations focused on improving coordination, streamlining installation processes and accelerating solar adoption under the PM Surya Ghar Muft Bijli Yojana (PMSGMBY) and the ULA Model.

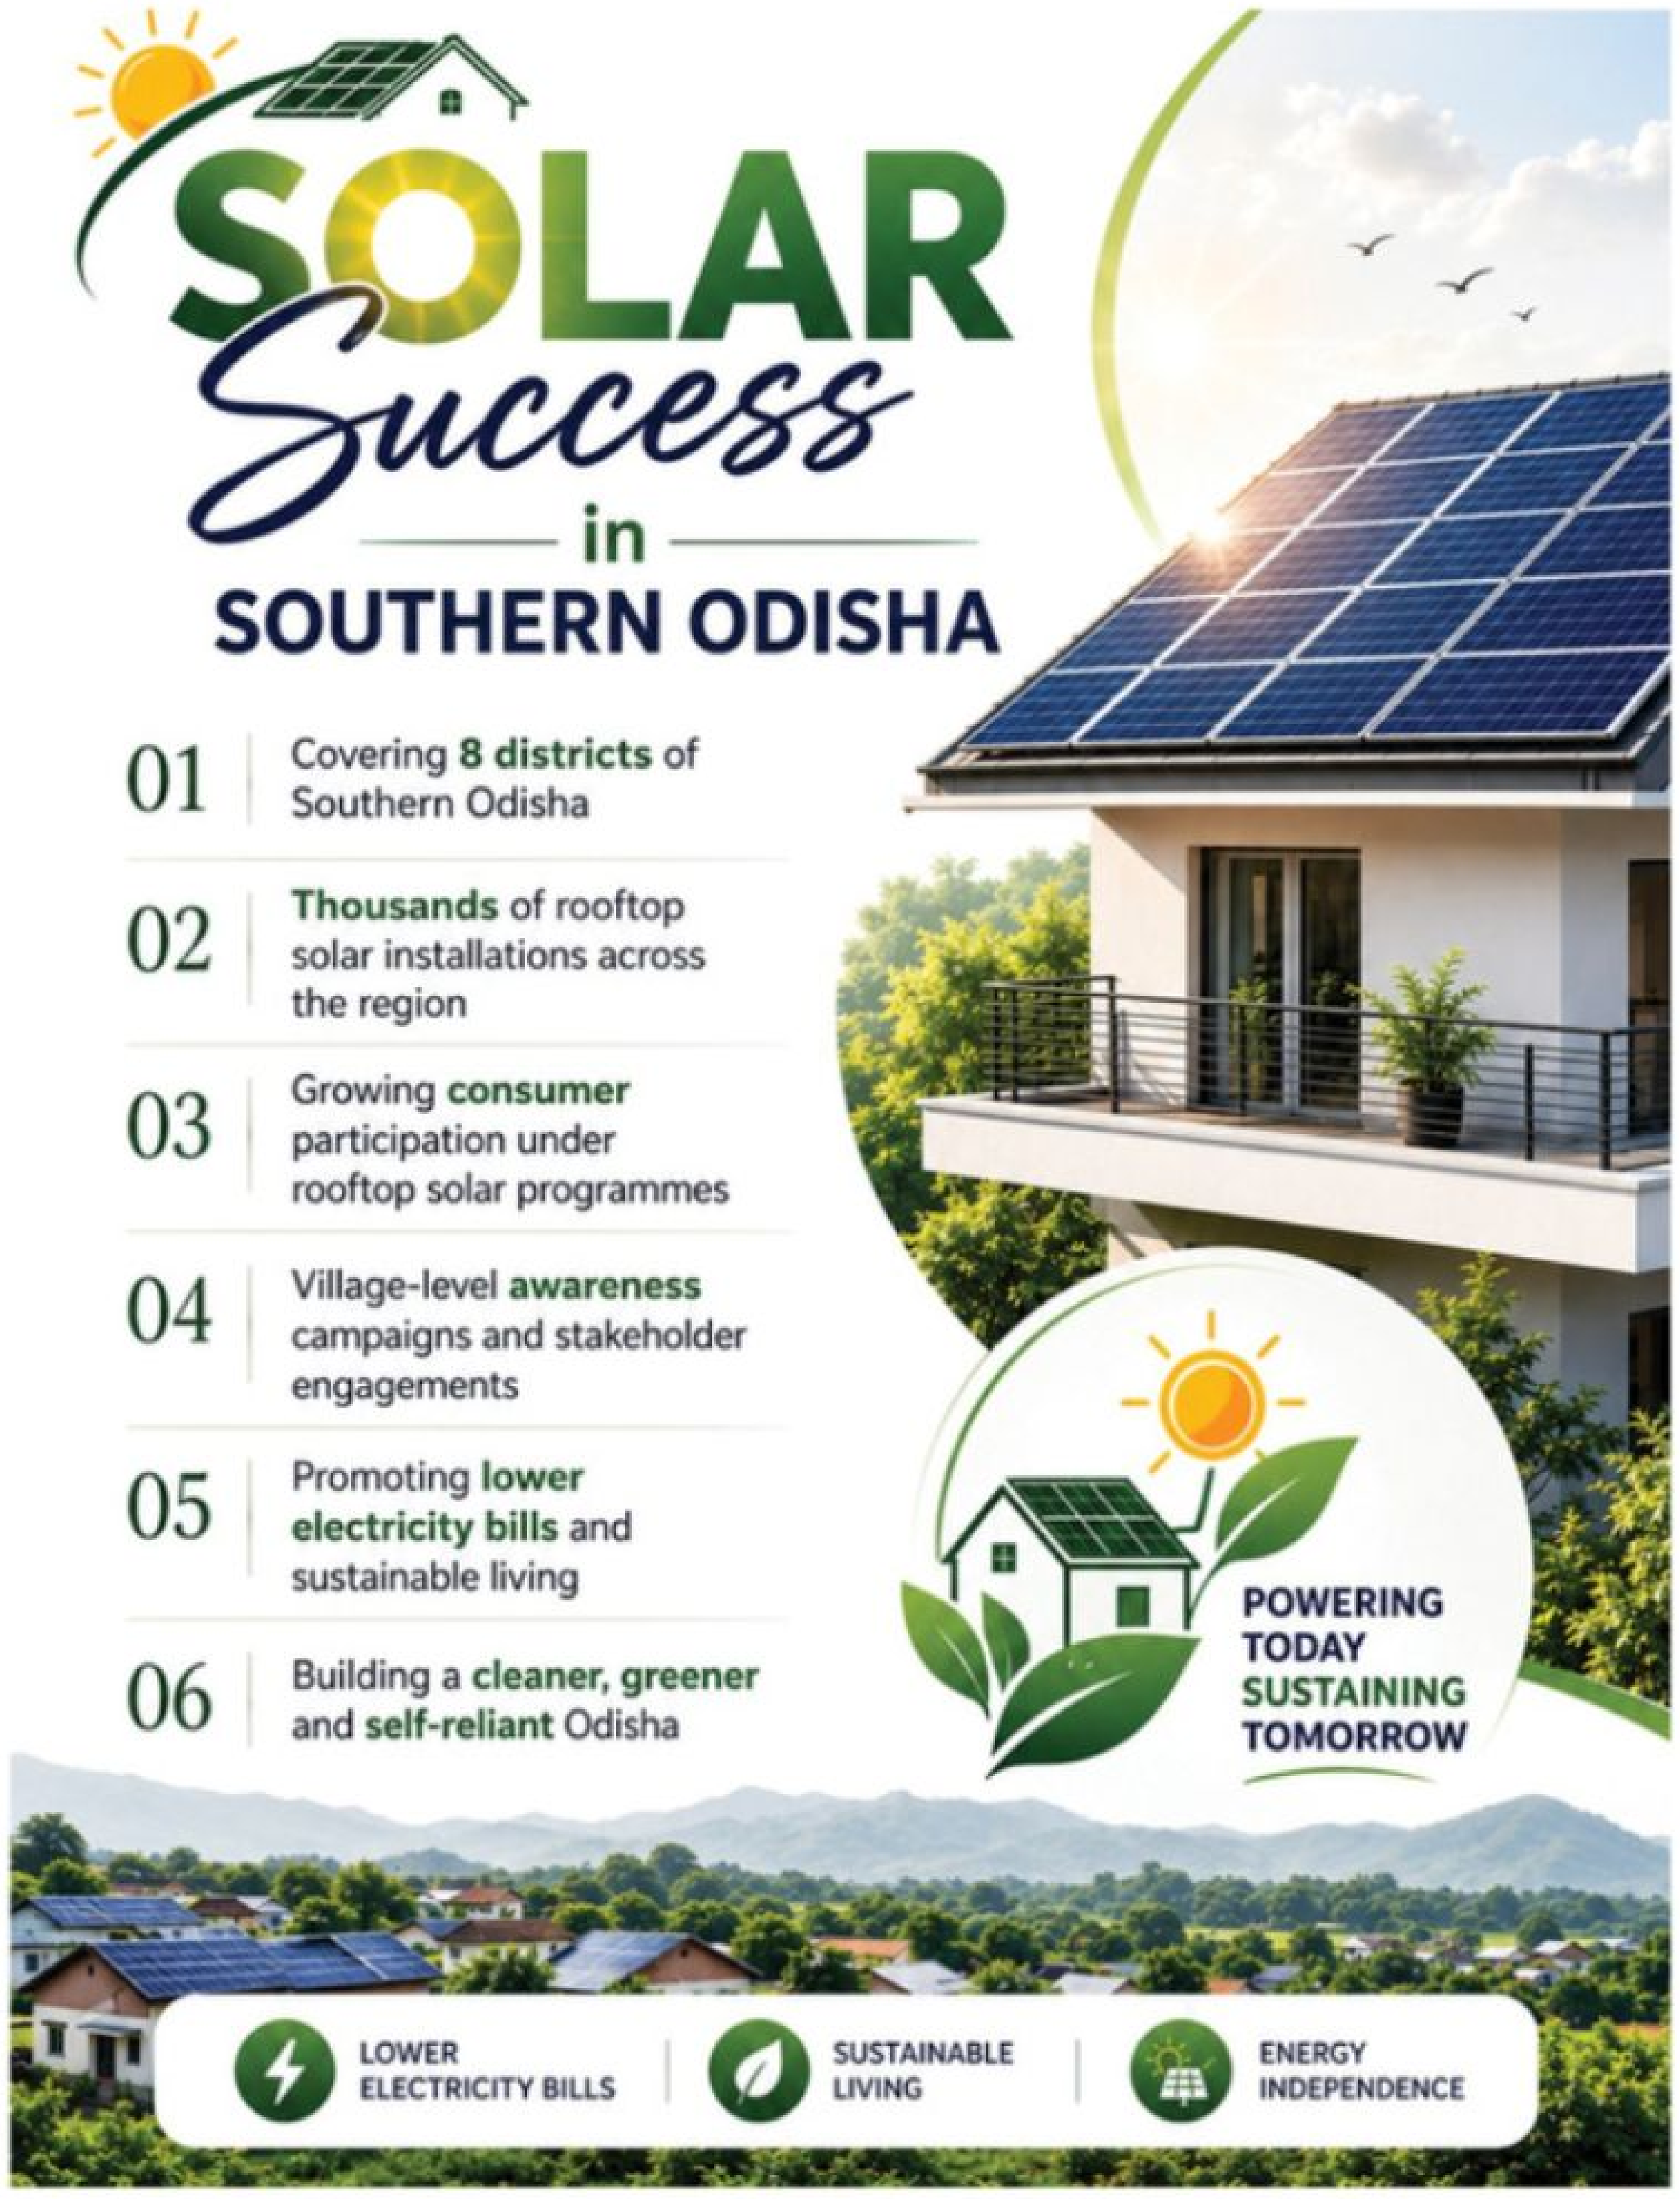
Encouraging Response to Rooftop Solar

The response to rooftop solar in Southern Odisha has been encouraging. Nearly 50,000 applications have been received under PMSGMBY, while around 12,000+ households have already installed rooftop solar systems, contributing significantly to clean energy generation and sustainable living.

Consumers are increasingly benefiting from reduced electricity bills and greater energy independence. The ULA Model has further expanded access to solar energy by enabling consumers to install a 1 kW rooftop solar system at an affordable cost of ₹1,875, making clean energy accessible to more households.

Towards a Greener and Energy-Secure Future

Through stakeholder partnerships, consumer awareness and simplified processes, TPSODL continues to illuminate a greener and more energy-secure future for Southern Odisha.



Empowering Community

SOLAR AWARENESS PROGRAM AT BAGDERI VILLAGE, KORAPUT

TPSODL organised a Solar Awareness Program at Bagderi Village, Koraput District, where more than 60 villagers participated in an interactive session on the benefits of rooftop solar adoption.

Participants received detailed information about the PM Surya Ghar: Muft Bijli Yojana (PMSGY), including its key benefits, available subsidies, and the registration process.

Following the awareness session, a Q&A interaction was conducted, during which TPSODL employees addressed queries related to rooftop solar installation and scheme enrolment. The programme led to immediate community participation, with five households registering on the spot for 1 kW rooftop solar connections under the scheme.

Organised as part of Tata Sustainability Month, the initiative reflects TPSODL's commitment to promoting clean, affordable, and sustainable energy solutions and encouraging greater adoption of rooftop solar among rural households.

FROM UNEMPLOYMENT TO OPPORTUNITY

Nabakishor Kilaka

Nabakishor Kilaka, a resident of Boriguda village in Rayagada district, represents the transformative impact of skill development initiatives in underserved communities. Before enrolling in the Solar Panel Installation Training, Nabakishor was unemployed and largely dependent on his father's limited income. Despite occasionally assisting his father, the family struggled to meet their daily needs, leading to financial instability and uncertainty about the future.

Recognising the need for livelihood opportunities, Nabakishor enrolled in the 45-day Solar Panel Installation Training program conducted at Tumbigada Junction, Rayagada. The program aimed to equip rural youth with practical skills in solar installation and maintenance.

Through a combination of classroom learning and hands-on training, Nabakishor gained technical expertise in solar photovoltaic systems, installation practices, safety protocols, and basic troubleshooting.

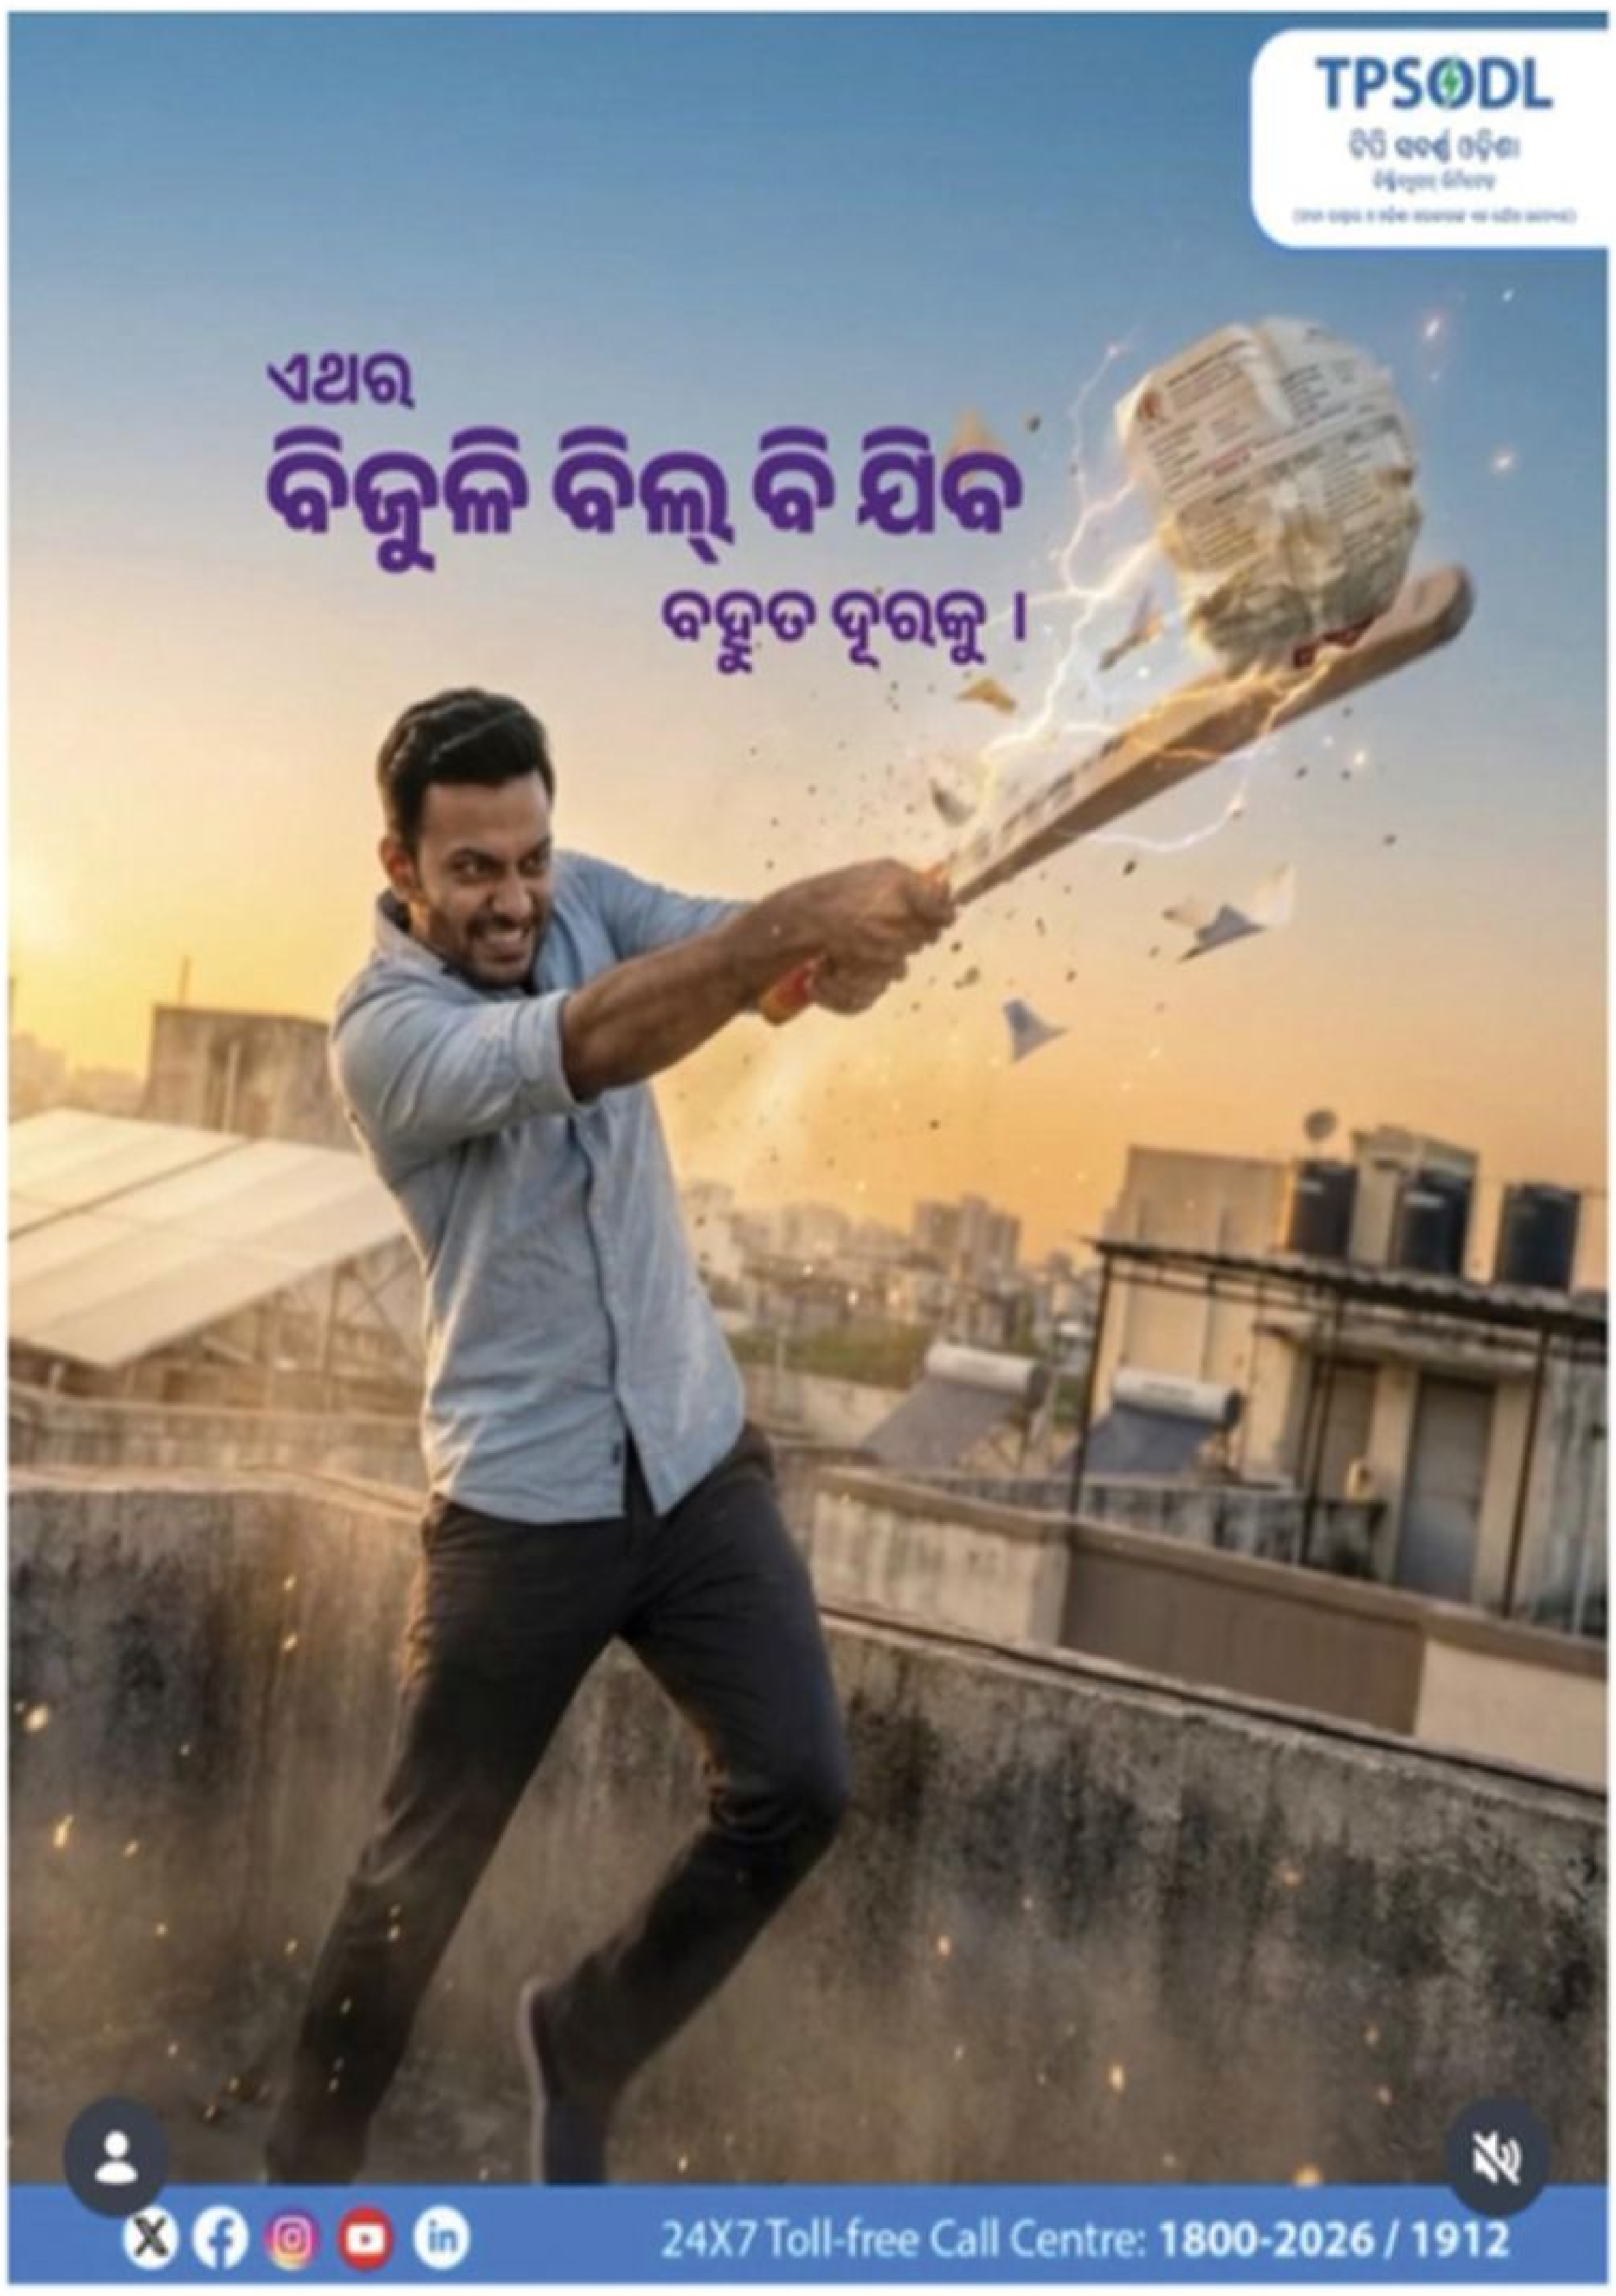
The structured training not only enhanced his employability but also built his confidence to pursue a career in the renewable energy sector.

Upon successful completion of the training, Nabakishor secured employment in Berhampur with a monthly income of INR 8,000. This marked a significant turning point in his life, enabling him to contribute steadily to his family's income and improve their standard of living.

In Focus

OUR SOLAR AWARENESS INITIATIVES

- IPL-themed Solar awareness campaign
- Rooftop solar promotion for electricity bill savings
- Consumer testimonials and success stories
- Coverage of awareness programmes across Southern Odisha
- Promotion of green and sustainable energy adoption
- Enhanced consumer engagementthrough social media platforms



By combining informative content, consumer engagement, and on-ground awareness activities, TPSODL successfully strengthened public awareness and encouraged greater participation in the solar movement, supporting India's clean energy goals.

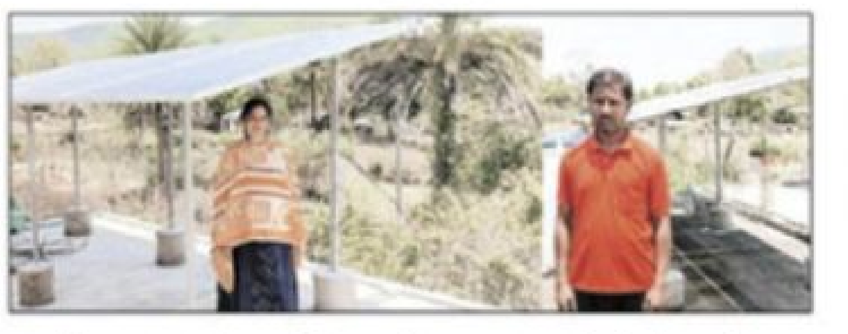
दक्षिण ओडिशा में सौर क्रांति: 8,955 रूफटॉप सोलर, हजारों उपभोक्ताओं को राहत



भुवनेश्वर। दक्षिण ओडिशा में स्वच्छ ऊर्जा की दिशा में बड़ा बदलाव देखने को मिल रहा है। टीपी साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने आठ जिलों में 8,955 रूफटॉप सोलर सिस्टम स्थापित कर ऊर्जा क्षेत्र में नई मिसाल पेश की है। इस पहल से हजारों परिवारों को सस्ती और स्थायी बिजली मिल रही है। टीपीएसओडीएल की इस पहल का सबसे बड़ा असर यह है कि अप्रैल महीने में 4,850 उपभोक्ताओं का बिजली बिल पूरी तरह शून्य हो गया। यह दर्शाता है कि सौर ऊर्जा अपनाने से आम उपभोक्ताओं को सीधा आर्थिक लाभ मिल रहा है।

प्रधानमंत्री सूर्य घर मुफ्त बिजली योजना के तहत 6,214 सोलर सिस्टम लगाए गए हैं। वहीं, यूटिलिटी लेड एग्रीगेशन (यूएलए) मॉडल के तहत 2,741 उपभोक्ताओं ने 1 किलोवाट सोलर सिस्टम स्थापित किए हैं। गंजाम जिला दोनों योजनाओं में सबसे आगे है। यूएलए मॉडल के तहत उपभोक्ता मात्र ?1,875 में 1 किलोवाट सोलर सिस्टम लगवा सकते हैं, जिससे हर महीने करीब 100 यूनिट बिजली बनती है और सालाना लगभग ?5,000 की बचत होती है। इसके साथ 25 साल की वारंटी और 5 साल तक मुफ्त मेंटेनेंस भी दिया जा रहा है। सरकार की ओर से 1 किलोवाट पर 55,000 तक की सब्सिडी दी जा रही है, जिससे सोलर सिस्टम और किफायती हो गया है। सीईओ अमित कुमार गर्ग ने कहा कि टीपीएसओडीएल में हमारा लक्ष्य उपभोक्ताओं को सस्ती, विश्वसनीय और स्वच्छ ऊर्जा उपलब्ध कराना है। आज हजारों परिवारों का बिजली बिल शून्य होना इस बात का प्रमाण है कि हमारी सौर पहल सही दिशा में आगे बढ़ रही है। हम लगातार जागरूकता और सहयोग के माध्यम से दक्षिण ओडिशा को सोलर ऊर्जा के क्षेत्र में एक मॉडल क्षेत्र बनाने के लिए प्रतिबद्ध हैं।

Ganjam's Matikhala emerges as model solar village

HANS NEWS SERVICE
BERHAMPUR

A village in Ganjam district has been converted into a solar-powered settlement under the Pradhan Mantri Surya Ghar Muft Bijli Yojana, with nearly half of its households installing rooftop panels, officials said. Matikhala village now has around 200 of its 450 households equipped with rooftop solar systems under the Utility-Led Aggregation (ULA) model, aimed at promoting clean energy adoption and reducing electricity costs.

Ganjam Collector V Keerthi Vasan and Chhatrapur MLA Krushna Chandra Nayak inaugurated the solar-powered village in the presence of officials of Tata Power Southern Odisha Distribution Ltd (TPSODL), the implementing discom.

Each beneficiary has installed a 1 kW solar system under the scheme, which is expected to lower household electricity expenses while supporting environmentally sustainable energy use, officials said. Under the ULA model launched last year, beneficiaries contribute Rs 5,622 towards the cost of panels, meters and installation. The Ganjam district administration has extended financial support to eligible households, the officials said.

The TPSODL is responsible for end-to-end execution of the project, including installation and quality assurance. The company is also providing a five-year warranty on system components and 25 years on solar panels. Beneficiaries are expected to receive uninterrupted power supply at reduced rates, the Collector said, urging more residents to adopt rooftop solar systems under the scheme.

The district administration is taking proactive steps to expand solar adoption at the panchayat level in coordination with stakeholders, he said. "We are ensuring that all eligible households benefit from the ULA model, with a target of covering 50 households per panchayat. Our focus is to scale this initiative, promote SHGs, and make clean energy accessible to more rural communities," he said.

MLA Nayak said the initiative reflects the government's commitment to promoting affordable and clean energy in rural areas, adding that the ULA model would encourage wider adoption due to its low cost.

These systems enable households to generate their own electricity, reducing dependence on conventional power and cutting monthly electricity costs.

TPSODL CEO Amit Kumar Garg said, "The solarisation of Matikhala marks a key step towards rural energy self-reliance. It reduces electricity costs for households and provides long-term sustainable benefits. We are committed to expanding such initiatives to build a cleaner and greener future."

The solarisation of Matikhala aligns with India's broader objectives to promote rooftop solar adoption at scale, empowering households while reducing the nation's carbon footprint. It highlights how coordinated efforts between government, private utilities, and local communities can drive renewable energy adoption across rural India.

Matikhala stands as a replicable national model for energy self-reliance and green growth, setting a precedent for the country's accelerating sustainability targets.

'Solar Month' drive sparks green energy push in south Odisha

PBD BUREAU
BERHAMPUR, MAY 16

As part of the Ministry of New and Renewable Energy's "Month of Solar" initiative, TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has intensified efforts to promote rooftop solar adoption across the eight Southern Districts of Odisha - Ganjam, Gajapati, Kandhamal, Boudh, Rayagada, Koraput, Nabarangpur and Malkangiri.

To strengthen implementation and improve consumer service delivery, TPSODL organized a stakeholder and vendor meet involving solar vendors, senior officials, and REC representatives, focusing on simplifying installation processes and accelerating clean energy adoption.

Aligned with this initiative, TPSODL organized a stakeholder and vendor meeting to streamline the process of rooftop solar installation and accelerate consumer service delivery. The meeting brought together more than 30 solar vendors, senior TPSODL officials, and representatives from the Rural Electrification Corporation (REC).

The discussion focused on enhancing coordination among stakeholders, streamlining the rooftop solar installation process, and encouraging greater consumer adoption of clean and green energy solutions under the PM Surya Ghar Muft Bijli Yojana (PMSGMBY) and the ULA Model. Consumers embracing solar energy are also experiencing reduced electricity bills, making rooftop solar an affordable and environmentally friendly choice for households.

The ULA Model is emerging as a highly affordable solution for consumers, offering 1 kW rooftop solar systems at just ₹1,875, which is enabling more households to adopt clean energy with minimal upfront cost.

As part of its ongoing "Month of Solar" campaign, TPSODL has recorded an encouraging response from consumers across the region. During May alone, the company received a total of 12,658 applications for rooftop solar installations.

Of these, 1,253 applications were submitted under the PM Surya Ghar Muft Bijli Yojana (PMSGMBY), while 11,405 applications were received under the ULA Model. Among the ULA applications, Phulbani emerged as the top-performing district with 4,771 applications, followed by Nabarangpur with 2,989 applications.

This strong participation highlights the growing consumer interest in adopting sustainable energy solutions and reinforces TPSODL's commitment to promoting clean, affordable, and reliable power for households in Southern Odisha.

Overall, across Southern Odisha, around 50,000 applications have been received so far under PM Surya Ghar Muft Bijli Yojana. Among them, 11,000 consumers have already installed rooftop solar systems in their homes, contributing significantly towards clean energy generation and sustainable power usage.

Notably, out of the 11,000 consumers who installed rooftop solar systems, 6,391 consumers have already received both Central Financial Assistance (CFA) and State Financial Assistance (SFA), further encouraging large-scale adoption of solar energy in the region.

Speaking on the initiative, Amit Kumar Garg CEO TPSODL said, "The 'Month of Solar' is an important opportunity to create awareness and encourage consumers to adopt sustainable energy solutions. TPSODL is committed to supporting every consumer in their solar journey by simplifying processes, strengthening vendor coordination, and ensuring timely assistance. Rooftop solar is not only helping consumers reduce electricity bills but also contributing towards a greener and energy-secure future for southern Odisha."

TPSODL continues to undertake various awareness and outreach activities across its operational areas to promote renewable energy adoption and support the Government of India's vision for sustainable and clean energy development.

Bhatakumarada village embraces solar power under PM Surya Ghar Yojana

PBD BUREAU
BERHAMPUR, OCT 21

TP Southern Odisha Distribution Limited (TPSODL) has stepped up efforts to promote rooftop solar adoption in rural areas through the Utility-Led Aggregation (ULA) Model of the PM Surya Ghar: Muft Bijli Yojana.

A notable milestone was achieved with the commissioning of a 1 kWp rooftop solar system at the residence of Prabhakar Behera in Bhatakumarada village, Ganjam district, in the presence of TPSODL CEO Amit Kumar Garg and senior officials.

So far, 22 consumers in the village have contributed Rs 8,747 each under the scheme. Of these, 18 rooftop solar plants have already been installed and energised, with the rest nearing completion. The initiative aims to reduce dependence on grid power, cut electricity costs, and promote environmental sustainability.

The ULA model ensures cost efficiency, standardised installations, and timely execution. Each 1 kWp plant can generate about 100 units of electricity per month, helping households save up to Rs 5,000 annually.

"Our vision is to make every household in Southern Odisha a partner in India's solar journey. The adoption of rooftop solar in Bhatakumarada reflects how rural communities are coming forward to embrace clean energy with enthusiasm and confidence. TPSODL will continue to extend all possible support to help consumers benefit from the PM Surya Ghar: Muft Bijli Yojana and move towards energy independence," said CEO Garg.

हर घर की छत पर सोलर पैनल

टीपीएस ओडीएल ने भाटकुमरडा में शुरू की सौर ऊर्जा पहल

नवभारत ब्यूरो। भुवनेश्वर। ग्रामीण घरों को सशक्त बनाने और नवीकरणीय ऊर्जा को बढ़ावा देने की दिशा में टीपी सदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने प्रधानमंत्री सूर्य घर : मुफ्त बिजली योजना के अंतर्गत यूटिलिटी-लेड एग्रीगेशन मॉडल के तहत छत पर सोलर सिस्टम लगाने की प्रक्रिया को तेज कर दिया है। इस पहल का उद्देश्य ग्रामीण उपभोक्ताओं को स्वच्छ ऊर्जा सुलभ और किफायती बनाना है, साथ ही गुणवत्ता, सुरक्षा और दीर्घकालिक टिकाऊपन सुनिश्चित करना है। इस योजना के तहत टीपीएसओडीएल एक सुविधादाता की भूमिका निभा रहा है– उपभोक्ताओं की मांग को एकत्रित करना, तकनीकी कार्यान्वयन का प्रबंधन करना और गांवों में सौर ऊर्जा प्रणालियों का सुचारू कमीशनिंग सुनिश्चित करना। इसी क्रम में, गंजाम जिले के पुरुषोत्तमपुर विद्युत मंडल अंतर्गत भाटकुमरडा ग्राम पंचायत के भटकुमरदा गांव में प्रभाकर बेहरा के आवास पर 1 किलोवाट क्षमता का छत पर सोलर सिस्टम सफलतापूर्वक स्थापित किया गया। इस अवसर पर टीपीएसओडीएल के मुख्य कार्यकारी अधिकारी अमित कुमार गर्ग तथा कंपनी के वरिष्ठ अधिकारी उपस्थित थे। यह स्थापना गांव के लिए एक महत्वपूर्ण मील का पत्थर है, जहां ग्रामीण अब स्वच्छ और विश्वसनीय ऊर्जा को उत्साहपूर्वक अपना रहे हैं। योजना के तहत अब तक भटकुमरदा गांव के 22 उपभोक्ताओं ने 8,747 की अपनी हिस्सेदारी जमा की है, जबकि 18 छत पर सोलर संयंत्र (प्रत्येक 1 किलोवाट) स्थापित और चालू किए जा चुके हैं। शेष संयंत्र विभिन्न चरणों में हैं और जल्द ही चालू किए जाएंगे। इस परियोजना के पूरा होने पर गांव की बिजली पर निर्भरता कम होगी, बिजली बिलों में कमी आएगी और पर्यावरण को स्वच्छ बनाए रखने में योगदान मिलेगा।

यूएलए मॉडल ग्रामीण क्षेत्रों के लिए एक गेम-चेंजर साबित हो रहा है। इस मॉडल से सामूहिक रूप से कार्य करने से लागत घटती है, गुणवत्ता मानक बनी रहती है और स्थापना प्रक्रिया तेज होती है। 1 किलोवाट का सोलर संयंत्र प्रति माह लगभग 100 यूनिट बिजली उत्पन्न करता है, जिससे एक परिवार अपनी जरूरत की अधिकांश बिजली स्वयं उत्पन्न कर सकता है। सौर ऊर्जा के उपयोग से उपभोक्ता सालाना लगभग 5,000 की बचत कर सकते हैं – यह न केवल आर्थिक रूप से लाभदायक है, बल्कि पर्यावरण संरक्षण की दिशा में भी बड़ा कदम है। इस अवसर पर अमित कुमार गर्ग ने कहा, 'हमारा लक्ष्य दक्षिण ओडिशा के हर घर को भारत की सौर यात्रा का भागीदार बनाना है। भाटकुमरडा में सौर ऊर्जा को अपनाने की पहल यह दिखाती है कि ग्रामीण समुदाय स्वच्छ ऊर्जा को पूरे उत्साह और विश्वास के साथ अपना रहे हैं। टीपीएसओडीएल उपभोक्ताओं को प्रधानमंत्री सूर्य घर: मुफ्त बिजली योजना से अधिकतम लाभ दिलाने और ऊर्जा आत्मनिर्भरता की दिशा में निरंतर सहयोग करता रहेगा।

PM Surya Ghar crosses 40 lakh homes; targets 75 lakh by end-2026

THE FINANCIAL EXPRESS JUNE 5TH,...

India's flagship PM Surya Ghar Muft Bijli Yojana has achieved a milestone by empowering over 40 lakh homes with rooftop solar energy within just two years. Union Minister Pralhad Joshi announced that the scheme is moving at an historic pace and is fully on track to achieve its target of 75 lakh households by December 2026. The initiative has recorded 3.16 lakh installations in May 2026 alone, effectively turning millions of ordinary citizens into proud green energy producers.

Odisha's stride in harnessing solar power has become a beacon of sustainable progress for the nation. In the Month of Solar campaign, our State's remarkable performance has earned national recognition — crowned with the prestigious PM Surya Ghar Excellence Awards.

We secured the top position among mid-sized States for maximum consumer applications, solar installations, and DISCOM verifications, while also achieving third place in vendor registrations. This achievement reflects the visionary leadership of Hon'ble Prime Minister Shri Narendra Modi Ji, the guidance of Hon'ble Chief Minister Shri Mohan Charan Majhi, and the collective dedication of our officers, departments, and partners.

Together, we are shaping a greener, self-reliant Odisha — where renewable energy drives prosperity and sustainability for generations to come. 😊⚡

PM Surya Ghar: Muft Bijli Yojana
@PMSuryaGhar

PM Surya Ghar: Muft Bijli Yojana is driving India's solar growth. Since 2014, India's Solar PV cell manufacturing capacity has increased nearly 25 times, increasing from 1.2 GW to around 30 GW as of 30.04.2026.

With stronger domestic manufacturing and faster clean energy ding a more sustainable and self-reliant future.

PM Surya Ghar: Muft Bijli Yojana
@PMSuryaGhar

A well-deserved recognition!

Congratulations to #Odisha for standing 1st in Category C states (Medium Consumer Base), across DISCOM inspections, applications, and installations.

This award highlights Odisha's rapid progress in cutting energy costs, and powering a cleaner, .
